Subject: RE: Records Manager Install - REQ000000789143

All requests for assistance in response to the Flint Water Emergency should be routed through the SEOC. This request should have went through the AGs SEOC rep and not DTMB to provide clearance.

Subject: RE: Records Manager Install - REQ000000789143

I called Jennifer and have not heard back from her regarding the resource request. After speaking with John McQuaid, he said this request would need to come from the AGs office and not DTMB. The information provided to the DEQ SEOC rep was not clear and did not clarify what "software" was required, which is why I reached out to Jennifer.

Chris,
I believe the request for provisioning HP Trim for Barb may have already went through the SEOC. Now they are asking me to help get the software installed. That goes through OA.

Subject: RE: Records Manager Install

Hello,

I don't believe we don't have any other outstanding tickets to rush.

Barbara's security is set up so once the software is in place she can start using it after double checking the dataset. If there are any questions on doing this, please give me a call...

I also just double checked with Andrew Banas and he has the software installed (he was a priority processing from last week and I wanted to make sure that was done). Michael or Kate might want to double check with him on using the system and setting up favorites for whatever they are doing (i.e. orientation).

Thank you for doing this!

Sincerely,

Sean Evans

Subject: Records Manager Install

Hello,

I have activated a new seat in Records Manager for Barbara Schaibly, however an install needs to take place on her machine to use the software. I have issued a Remedy ticket for this, however I have no ability to up the priority of the install and it was indicated that this was a rush. Can you assist me with this?

Ticket Details:

Request Status:	Initiated
ID:	REQ000000789143
Title:	*Software Install and Removal*
Request Coordinator:	
Submit Date:	2/9/2016 10:23:40 AM
Required Completion:	
Expected Completion:	2/10/2016 10:22:40 AM
Requested By:	Sean Evans
Requested For:	Barbara Schaibly
Company:	Dept of Environmental Quality
Phone:	517 284.5417
Email:	
Request Type:* :	Install / Upgrade Software
Is this request for more than one computer?:* :	No
Computer Name:* :	S6761654QNX1
Is this request for more than 1 software?:* :	No
Software or Application Name(s) and Version:* :	App_RecordsManager
Do others use this software in your area?:* :	Yes
***Preferred method of contact:* :**	Sean Evans 517-335-9131

Please let me know if you can't do this. I'll try to use some of my contacts at the Help Desk for assistance.

My number is 517-335-9131 if you have any questions.

Paul,

We will have about 150 address' yet to touch tomorrow off that list of 1300+ list. With the weather, they will be finished tomorrow, but it is hard to estimate what time we will finish.

As for visiting houses more the once:

Sunday we touched 1121 homes, of these 418 were a second touch.

Monday we touched 847 homes, of these 415 were a second touch.

Any questions, let me know.

Trina,
Great, as always, speaking with you. I'm copying Chris on this email, as discussed, because of the appreciation I have for the required engagement sequence in this response. As stated, the County EM Coordinator is in need of skilled assistance and has signaled his willingness to accept all offers. He is in the process of seeking SMEs from within the state (state IMT), but it may be timely, and a show of due diligence, to start exploring other options to also provide support - to include but not be limited by EMAC. I expect that you will drop me off the email now that I've shared my piece and thoughts - and connect directly with Chris and then hopefully into the County EM. Thanks! Don

Chris,

With your approval, NEMA is glad to try to assist with reaching out to other states to see if anyone has personnel they'd be willing to loan, or deploy through EMAC to assist the county. Just let me know which route is preferred. I understand there may be cost concerns through EMAC but there's the possibility of negotiating costs or the assisting state not requesting reimbursement. As you know, EMAC would provide protections for anyone going to work in the county which is a good thing. If the preference is not EMAC, we can reach out through NEMA. Would just need to know the specifics i.e. skill sets required, job duties, length of assignment, etc.

Thanks,
Trina

Mike,

Good afternoon. I was attending a meeting earlier today, along with Capt. Kelenske and Shawn Kammer, EA to the Flint City Administrator, and it was felt that it may be good idea for you and I to connect. I'm very happy to do so - in person, if you have the time and proximity, or cyber/phone if you're straight out. I'm the Deputy Assistant Secretary for US Health and Human Services (HHS) and the Director of the Office of Emergency Management for HHS. I'm in town until later this evening and will be meeting with the Mayor at 4:00PM. If you have time for a call or quick chat I will surely make myself available. Thanks, Don

Subject: RE: soldiers at Fire Station 8

Here is the associated paragraph from Lt Benke response

Lastly, in regards to this specific compliant, station 8 provides a drive through water pick-up. Thus, only a certain amount of pallets are set outside and pulled from. By opening a pallet indoors before it is moved outside, it jeopardizes the integrity of the pallet thus making it a safety risk to move. Thus, when the complainant came inside for water from a specific pallet and was informed that she could not get water from that specific pallet, SGT Frick told her that she would open that pallet next so she could get the water she wanted if she was willing to wait. The complainant decided to wait for the specific water she wanted rather than taking the equally as good water that was available immediately. Thus, SGT Frick tried to accommodate the request as best as possible while maintaining the POD SOP.

Please follow up with NG on this and advise what the reasoning was behind this decision. This was routed through the Governor's Office.

Thanks

Capt

Judith Ketchum

Today I spoke with Staff Sgt. Gazzeny about a situation I had with his soldiers at Fire Station 8 in Flint (a water distribution center). I gave him the name of them (Dukes, Frick, and Hassey). He told me I would have to speak to someone over him because he had instituted the protocol that I am about to complain to you about.
Yesterday when I went to pick up some water, the soldiers would not let me have a case of 1 liter bottles because they could only open 1 pallet at a time and they were currently only passing out the 1/2 liter bottles. I had to wait until that pallet was gone before they decided that they would open a pallet of larger bottles. It's already a pain to have to go and stand in line for water. That they would not let me get the larger bottles was ridiculous, when they were sitting right there. If there are 3 different sizes (1/2 liter, 1 liter, and gallons) what is the big deal about making our lives easier and allowing us to pick from the 3? Is that really a huge deal to have 3 pallets open at once as opposed to only having 1 open at a time? Come on. It seems to me that they should be HELPING to make this time easier for Flint residents, not create more hassle for us. I would like to see this rule Gazzeny instituted rescinded and I would also request a response to this email. Thank you.

Subject: Full List of Residential Results for February 8, 2016
Importance: High

Hi Eric, Attached please find for posting to the Flint Water website, the Residential Results as of February 8, 2016. This information has also been provided to Meegan Holland in the Governor's office.

Please let me know if you have any questions.

This note is for Monday, February 8, 2016

Please find attached the full list of residential results through the date listed above (5 attachments). Please note that this version includes concentrations in ppb and the street number is separated from street name to make it easier to find the address. Also, there are pdfs of the two worksheets for people who don't have Microsoft office. All have been prepped for the web minus the naming convention that is usually used. I will follow this format going forward. **If I fail to do that then please let me know**:

1. For the accordion on the lower left under the title "School and Residential Testing Results, the following are to Replace current and see above for language changes (3 attachments):

   Asset # 512083 – February 8 2016 Test Results Flint.xlsx
   Asset# 512511 – February 8 2016 Test Results Flint_Sorted By Address.pdf
   Asset# 512510 – February 8 2016 Test Results Flint_Sorted by Lead Concentration.pdf

2. For the same accordion underneath the DEQ reports to EPA, The Test Results Flint DEQ Reports to the EPA Asset needs updating (1 attachment):

   Asset# 512820 - February 8 2016 Test Results Flint_DEQ Reports to the EPA.xlsx

3. The following is for the MSP-SEOCGIS for geocoding (1 attachment) and not prepped for the web; Please send to **MSP-SEOCGIS@michigan.gov and MSP-SEOCGIS2@michigan.gov**

   February 8 2016 Test Results Flint_For MSP-SEOCGIS.xlsx

4. Calculations as requested:

Data Summary for *Current Date*	Number	Percent		
Total number of samples:	8317			
At or below 15 ppb:	7771	93%	Above 15 ppb:	546
<5 ppb:	6812	82%		
5-15 ppb:	546	7%		
>15-30 ppb:	293	3.5%		
>30-100 ppb:	95	1.1%		
>100-150 ppb:	27	0.3%		
>150 ppb:	68	0.8%		

Please note that the workbooks (XLSX) contains two tabs: One has the data sorted by Lead concentration and the other is sorted by address. Posting this data in a timely manner upon approval from the Governor's office is of the essence so that we can comply with the order issued by EPA.

Please post this to the website ASAP and make sure that all are posted so that people can look at the version that they are interested in.

Thank you!!!

Susan

FYI

From: *Shatrau, Bonnie (MDOC)*
Sent: Tuesday, February 09, 2016 11:52 AM
To: MSP-SEOC11; FlintDonations
Subject: Water Donation Confirmed

Art Van has confirmed they have 5-53' trailers of palletized water. Delivery schedule to be coordinated this week. They also estimate they have enough water to possibly fill 35 additional trailers! I will forward details with delivery dates as they become available.

Subject: RE: station 3 1200

Hi Austin

Thank you for clarifying the inventory. I have one question. The First sheet today showed that 13 cases of water, 78 gallons of water, 1 Pur filter, and 3 Pur Replacement Filters were "Amount Handed OUT". The last 2 sheets show only show 13 cases of water.

Did the 78 gallons of water, 1 Pur filter, and 3 Pur Replacement Filters that were listed as "Amount Handed OUT" not actually handed out?

Thanks
Sam

Good morning Austin

I do not know if you saw the email this morning regarding the potential error in yesterday's numbers. (See Below). Was a physical count done this morning to confirm that there are 2,144 Pur replacement Filters? Based on yesterday's numbers, it should only be 2,142. There are reports that need to go to the Governor this morning and the numbers need to be confirmed.

Thanks
Sam

Hi Austin

Sorry for the delay in this clarification, but I did not see it when I came in last night. It appears that the first hour (0900-1000) there was a math error. There were 2 Pur Replacement Filters handed out, however the Total On Hand amount was never reduced. Can you confirm that that the Pur Replacement Filter Total On Hand should be reduced by 2.

Thanks

Sam

Okay, he annotated the correctection in the notes section. The total end of day counts are correct.

Sorry about that.

Good morning Kayla

There appears to be an error in the 1700-1800 Pur Filter Total On Hand. The 1600-1700 had a Total On Hand of 440, then during the 1700-1800 hour there were 12 handed out; which would leave 427 Total On Hand. However the Hourly Report shows 332 Total On Hand. I just want to make sure we have the correct information for our reports that need to go to the governor this morning.

Thanks

Sam

Subject: 11FEB2016 Consolidated POD report
Attachments: 11FEB2016ConsolidatedPODreport.xlsx (1).xlsx

Attached is the Daily POD report for 11 Feb 2016. Be advised that I did not receive any numbers for the 2000 - 2100 time frame from stations 6 and 1.

Running totals are as follows

Water (case)	217,684
Water (gal)	6,667
Lead Test Kits	11,490
Brita (mount)	10,059
Brita (cartridge)	8,163
PUR (mount)	5,160
PUR (cartridge)	11,407

I will have the running totals for the pitchers and the lead test kits returned in tomorrows report

V/R

Hi Austin

Please clarify the math for the Brita Replacement Cartridges. It appears that there is a math error. It looks like the total should be 1792, but it is listed as 1892.

Thanks
Sam

Subject: RE: POD & consolidated tracker emails

Sam,
Let me know if any reports do not make it to you and I'll look into why they didn't make it. All the POD's have been pushed the information in regards to emails and trackers again so there should no longer be any issues. Let me know if there is anything else I can assist with or if any questions of concerns arise.

Subject: [Non-DoD Source] RE: POD & consolidated tracker emails

Good morning 2LT Benke

Generally throughout the day I receive the hourly email, there are times that an hour is missed by 1 or 2 of the PODs. The problem is the last hour or two that is not being received. I know there has been a time where the 2 email accounts for the SEOC were entered incorrectly. There was a zero (0) entered instead of a "O" for the SEOC. There are reports that need to go out in the morning which is why every hourly report is important. The consolidated report is being completed at night, so I know that reports are being sent. I just ask to make sure that the SEOC is also emailed the hourly reports from the end of the day, since it appears that we are being missed on those email or there becomes the "could not deliver". We have made sure that the email domains for everyone from the PODs and on this list have been entered as "never block sender", so hopefully the email issue will no longer happen. If there is a change in personnel at the PODs, please provide the email addresses, so that they can be entered as "never block sender" on our end.

Please let me know if there are any questions.

Thank
Sam

Samuel Jonker-Burke

Resource Unit Leader, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security

Subject: POD & consolidated tracker emails

ALCON,

I just touched base with the POD NCOIC's and my NCO who builds the daily consolidated tracker. The POD's hourly reports should be going to the MSP emails this email is going to as well as a list of other military and civilian agencies who have requested them throughout the operation. The POD's have reported that the MSP emails sometimes kick back a 'could not deliver' type message but hopefully reconfirming the email spelling should resolve the issue. Let me know if there are any questions or concerns or if the trackers still do not make it to the correct personnel.

Subject: RE: Resource counts

Roger Sir,
Our hourly reports all go up throughout the day with the last counts per POD going up NLT 2130, but I'll make sure our NCO who consolidates the 5 POD trackers per hour sends up the consolidated report nightly. The consolidated tracker is going to be coming in late however, most likely around 2200, due to the amount of time it takes consolidate the final report. Let me know if you need anything else Sir.

Subject: [Non-DoD Source] Resource counts

Good Morning,

I have been asked to ensure that resource counts are sent in before the POD's leave for the day, not first thing in the morning. These counts are tabulated and sent to the Governor and Michigan State Congressional Representatives early in the morning, and if the information is not sent until 9am, the reports are sent late to the Governor's office.

Thank you

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION
COVER LETTER
MAJOR DISASTER OR EMERGENCY

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River in 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency.

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it can't be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate. The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations. The state continues to distribute free water filters to Flint residents with replacement cartridges available at multiple locations. In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 7.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified

allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, MTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water in May 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help

address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area The primary focus is and should be on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges, 7 trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building. They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water - 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuilds and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15 6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26.3%

* U.S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, there could be an estimated need as much as $53,000,000 to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief

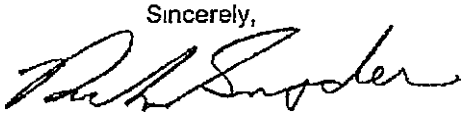
assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state. Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,



Richard D. Snyder
Governor

OMB No. 1660-0009 Expires March 31,2016

REQUEST FOR PRESIDENTIAL DISASTER DECLARATION MAJOR DISASTER OR EMERGENCY

1. Request Date Jan 14, 2016

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). NOTE: Do not send your completed form to this address.

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C F R . §§ 206 35 and 206 36. Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U S.C. § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☐ Major Disaster (Stafford Act Sec. 401) ☒ Emergency (Stafford Act Sec 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lightning) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8. Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are in a high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☐ Crisis Counseling Program ☐ Disaster Unemployment Assistance

☐ All ☐ Disaster Case Management ☐ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed, please enclose additional documentation).

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. The Individual and Households Program will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 over a period of 1 year to repair damaged lead service lines on private property.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☐ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☐ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)). If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation.

Townships of Mt. Morris, Flint and Genesee; Cities of Flint and Burton; County of Genesee
We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, filter cartridges, and water test kits.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☐ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see **Enclosure C:** Requirements for Other Federal Agency Programs for additional information in support of this request*.

14. Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such severity and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 in accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15. List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

Jan 14, 2016

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, identify Federally-recognized Tribes included in the requested counties (if applicable).
N/A

Please see **Enclosure B: Supplemental Information for Public Assistance** for additional information in support of this request*.

Indemnification for Debris Removal Activity

☐ I do not anticipate the need for debris removal.

☒ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance:
Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services
State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement , and (4) Assist the performing Federal agency in all support and local jurisdictional matters

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas).
N/A

Please see **Enclosure D: Historic and Current Snowfall Data** for additional information in support of this request*.

*Not Required for Emergency Declaration Request

11. Programs and Areas Requested (Continued)

Hazard Mitigation* ☒ Statewide OR

For the following specific counties, parishes, independent cities or tribes and/or tribal areas.
N/A

12. Mitigation Plan Information*

a. Mitigation Plan Expiration Date April 23, 2019 b. Type of Plan ☐ Enhanced ☒ Standard

13. Other Federal Agency Programs

☐ I do not anticipate requirements from Other Federal Agencies ☒ I do anticipate requirements from Other Federal Agencies

Please see Enclosure C: Requirements for Other Federal Agency Programs for additional information in support of this request*.

14 Findings and Certifications

☒ I certify the following:

a. I have determined that this incident is of such seventy and magnitude that effective response is beyond the capabilities of the State and the affected local government or Indian tribal government and that supplementary federal assistance is necessary.

b. In response to this incident, I have taken appropriate action under State or tribal law and have directed the execution of the State or Tribal Emergency Plan on Jan 5, 2016 In accordance with the Stafford Act.

c. The State and local governments, or Indian tribal government will assume all applicable non-Federal share of costs required by the Stafford Act.

15 List of Enclosures and Supporting Documentation

☒ Cover Letter ☐ Enclosure A (Individual Assistance)* ☐ Enclosure B (Public Assistance)*

☐ Enclosure C (Requirements for Other Federal Agency Programs) ☐ Enclosure D (Historic and Current Snowfall Data)

☐ Additional Supporting Documentation _____

Governor's or Tribal Chief Executive's Signature

If anyone except the Governor or Tribal Chief Executive signs this document, please provide the documentation that establishes that this individual has the legal authority to act on behalf of the Governor or Tribal Chief Executive.

Not Required for Emergency Declaration Request

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

January 14, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

Under the provisions of Titles IV and V of the Robert T. Stafford Disaster Relief and Emergency Assistance Act, 42 U.S.C. §§ 5121 *et seq.* (Stafford Act), I request that you declare an Expedited Major Disaster with a Preliminary Damage Assessment to follow if a disaster declaration occurs, and an Emergency for the State of Michigan as a result of the elevated blood lead levels of citizens, especially children, within the City of Flint, which was demonstrated in October, 2015.

Impact and Trauma

The City of Flint switched its water source from the Detroit system to the Flint River on April 25, 2014. Thereafter, in 2015, through cooperative monitoring efforts by the City of Flint, State of Michigan, and the Environmental Protection Agency (EPA)—and the painstaking work of physicians at Hurley Medical Center—elevated blood lead levels (EBLLs) were discovered in the City of Flint. As a consequence, Genesee County issued a "Do Not Drink" advisory on October 1, 2015. Blood lead level testing is an important part of our efforts to identify people who have been harmed by drinking water that contained lead. However, we recognize that the full community of Flint must be the focus and the Michigan Department of Health and Human Services (MDHHS) is treating this as a population-wide exposure in its public health response. As of the most recent update 2,642 Flint residents have been tested for blood lead levels. Of those tested, fifty residents have exhibited elevated blood lead levels. Twenty eight of the persons found to have elevated blood lead levels are children under the age of six, the most likely age group to experience a long-term impact from lead exposure. One child was hospitalized, treated, and released. No other hospitalizations and no deaths have been associated with this emergency

The MDHHS has also observed a spike of Legionella in the Flint area, which occurred in roughly the same time frame. This too will be investigated for any potential link to the water system.

This emergency has had a significant economic and psychological impact on the community. While water is flowing through the tap, it is considered unusable for any purposes by a large percentage of the population. Mistrust in government is at a heightened level. Thus, while the tap water is safe for non-consumptive uses, people are understandably concerned, and we are assuming it cannot be used for potable purposes. Special populations are especially vulnerable in this emergency as they are often unable to access vital nutrition or water resources. Assistance with the Individuals Assistance Program will be essential to recovery.

Voluntary Efforts

Voluntary agencies have been assisting since early in the emergency. United Way and 2-1-1 are the central call bank and donation resource for people needing assistance or wishing to donate.

The American Red Cross has established a Disaster Recovery Operation and also is providing warehousing management. On January 13, 2016, a Volunteer Reception Center (VRC) was established, and the Michigan Voluntary Organizations Active in Disaster (MI-VOAD) conducted a conference call to determine how it can more fully activate. Several of its member organizations have already activated. Numerous local voluntary organizations including the Genesee County Community Action Resource Department and the Food Bank of Eastern Michigan are serving key roles in the acquisition and distribution of water.

Pursuant to Michigan's Public Act 390, the City of Flint and the County of Genesee declared local states of emergency on December 14, 2015 and January 4, 2016, respectively. I then declared a State of Emergency on January 5, 2016, for the County of Genesee and City of Flint. This emergency assumes that there has been the loss of potable water for the entire City of Flint. This includes its residents, businesses and worker population. It includes those who live outside and travel in to take advantage of work, school, or recreational activities.

While we do not currently know the extent of any permanent damage to the City of Flint's water supply infrastructure, it has estimated the cost of replacing its water supply infrastructure at $767,419,500. Of that, $54,619,500 is private and $712,800,000 is public. These numbers are based on an estimate compiled by the Genesee County Department of Equalization, which assumes a cost of $25 per linear foot to remove and replace private service lines. Both Individual Assistance, and Public Assistance, will be crucial to helping the city and its residents recover. The State has already invested over $10 million in emergency protective measures and will be expending much more, some details of which are provided in the public assistance portion of this letter.

The jurisdictions that are the subject of this request have recognized their responsibility to make their community as disaster-resilient as possible. They currently have in place a FEMA-approved Hazard Mitigation Plan that is compliant with the Disaster Mitigation Act of 2000. The plan was adopted January 26, 2015. Under Michigan's Emergency Management Act, Public Act 390, as amended, the City of Flint is included within Genesee County's mitigation plan and emergency management program. Similarly, the State of Michigan has made a strong commitment to mitigate hazards and has met all applicable federal standards. On April 23, 2014, FEMA approved Michigan's Hazard Mitigation Plan as a Standard State Hazard Mitigation Plan under the Disaster Mitigation Act of 2000.

The following information addresses the nature and amount of State, local, or Indian tribal government resources that have been or will be used to alleviate the conditions of this emergency:

Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD or EMHSD)

In response to Flint's water emergency, the EMHSD has undertaken bulk distribution of water, filters, filter cartridges, and test kits throughout the City of Flint. Working closely with the mayor's office, the EMHSD has identified Points of Distribution (PODs) throughout the city and have begun training troopers and volunteers to canvass the city to provide these commodities to households. The EMHSD is also maintaining overall coordination of the incident, both through the State Emergency Operations Center, and through members of an incident management assistance team in the local Genesee County EOC.

EMHSD – Geographic Information System Unit (GIS)

On Friday, January 8, 2016, GIS staff met with the City of Flint's Department of Public Works (DPW) to begin defining the scope of the affected area for the incident. The critical data layers needed to define where lead pipes are present need significant updating before an accurate picture can be created.

DPW estimates that approximately 80% of the parcels within the city may have lead piping within their services lines from the water main to the house. Based on preliminary processing of the analog map data that DPW was able to provide, GIS staff have noted that newer sections of the city (post 1950) tend to be

copper piping and do not have a prevalence of lead. In contrast, older sections of the city tend to have sparse concentrations of lead, but the records for these areas are often incomplete.

In order to effectively determine the scope of the affected area, EMHSD is working with DPW and the University of Michigan–Flint to digitize many of DPW's old analog maps in order to extract the pipe status. Even when this process is complete, however, it will remain unclear whether the information will be accurate, given the age of the source data. With the comprehensive water testing plan that the Michigan Department of Environmental Quality (MDEQ) is implementing, problem areas for the city will be identified to allow for manual inspections of the underground pipes to confirm the presence of lead.

Michigan Department of Military and Veterans Affairs (MDMVA)

As of January 13, 2016, I authorized activation of the Michigan National Guard to assist the people of Flint and the surrounding communities served by the water department. The National Guard will help to broaden the distribution of water, filters, and test kits throughout the water department's service area.

Department of Health and Human Services (MDHHS) – Health Division

The MDHHS is unique in that it responds to the types of emergencies being experienced by Flint as part of its daily mission. This emergency potentially could impact the capacity of the MDHHS to continue to undertake its public health work in other areas of the state.

The MDHHS continues to work closely with local partners to ensure that potentially impacted individuals, especially children younger than six years of age, are being tested at the State Laboratory for elevated blood lead levels (EBLLs). This includes working closely with the local primary care provider community and Women/Infants/Children (WIC) clinics to emphasize the importance of blood lead level screening for children. A technical workgroup comprised of Medicaid data and public health surveillance experts have developed Medicaid specific EBLL testing goals. The MDHHS updated its data surveillance methods for blood lead level testing to ensure the most up-to-date, accurate information is being reviewed. Ongoing efforts include enhanced epidemiological disease surveillance. Results are made available through summary reports on the www.michigan.gov/flintwater website, indicating the number tested and with elevated levels.

The MDHHS is partnering with the Genesee County Health Department to ensure families are being offered case management support, which incorporates environmental investigations The state continues *to distribute free water filters to Flint residents with replacement cartridges available at multiple locations* In October 2015, MDHHS initiated community outreach for distribution of educational materials to parents, families, and healthcare providers in Flint. These materials were also distributed to all children in Flint schools highlighting the importance of blood lead level testing, effects of lead exposure and the importance of nutrition. MDHHS has been proactively monitoring the Ready-to-Feed formula use and coordinating with manufacturers and WIC retailers to address any supply or distribution issues with infant formula availability.

While the extent of the impact is unknown, a worst-case-scenario impact of this emergency could result in significant future health costs to the impacted population, for direct medical needs, secondary and tertiary medical expenses, and secondary and tertiary prevention (education and nutrition).

Department of Health and Human Services – Human Services Division

The City of Flint is categorized as a food desert. The Human Services Division of the MDHHS has been working steadily to provide assistance to the local community through several different programs listed below.

Healthy foods: MSU-Extension has been giving out recipes of healthy foods that will help counter the effects of lead, but residents must be able to purchase the ingredients. Many have a Bridge Card (SNAP assistance) but still require additional healthy fruits and vegetables beyond what they can obtain through

the SNAP program. Other residents who have had elevated blood lead levels may not have a Bridge Card, but purchasing fresh fruits and vegetables still can be a burden due to higher costs.

The plumbing in some homes is in poor condition. As a result, the faucet filters may not fit. The cost of paying for city water that the residents cannot drink is also significant. Some residents may have to make a choice between buying food or to paying for water to flush toilets, bathe, and wash clothes. A typical water bill in a home with good plumbing for a family of 2 is $98 per month. For a family of four, with leaks, etc., it could amount to more than $150 per month.

Additional ongoing testing will be required for those with EBLLs. Other potential long-term expenses may include treatment, tutoring, behavior specialists, and mental health services.

Flint is one of the most impoverished areas in Michigan. State and city poverty rates are given in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.

- In addition to the general numbers in the table, the number of children age 0-17 living in poverty, has risen substantially between 2006 (25.4%) and 2012 (31.8%).
- The median income for Flint residents between 2009 and 2013 was markedly lower than the state's median income, also shown in the table "Michigan – Genesee – Flint Demographic Summary" on page 8.
- Overall, Genesee County ranked 73 out of 83 counties for child well-being (with 1 being best). For poverty, Genesee County ranked 69 among the state's 83 counties.
- In Genesee County, 55.5% of students are eligible for free or reduced price school lunches compared to 38 % in 2006.
- Children age 0-5 eligible for Supplemental Nutrition Assistance Program (SNAP) increased from 35.4% in 2006 to 47% in 2013.
- 21.8% of students did not graduate on time in 2013.
- The following table, "MDHHS Program Data," shows the numbers of recipients of benefit programs offered by MDHHS.

MDHHS Program Data

City of Flint		
Program	Cases	Recipients
Food Assistance Program (FAP) [SNAP]	35,231	57,974
Family Independence Program (FIP) [TANF]	1,917	4,578
State Disability Assistance (SDA)	233	234
Child Development and Care (CDC)	1,406	2,607
State Emergency Relief (SER)	460	n/a
Medicaid (MA)	52,735	82,117

Department of Talent and Economic Development (MDTED)

The MDTED is comprised of the Michigan State Housing and Development Authority (MSHDA), Michigan Economic Development Corporation (MEDC) and the Talent Investment Agency (TIA).

The MDTED's combined efforts are focused on short- and long-term assistance to the impacted communities through various grants and potential infrastructure assistance. MSHDA has identified allowable funds to assist residents with MSHDA-backed mortgages and the purchase of water/water filters for low income households. MEDC is focused on infrastructure development and qualifying funds for this purpose.

Based on available sources and studies, the MDTED determined potential long-term impacts to the economy of Flint and its residents resulting from the water crisis. Potential long term costs associated with certain blood lead levels could include lifetime earnings loss, lead health care treatment costs, ADHD treatment costs, and special education costs.

With input from the Department of Treasury, the MDTED assessed that the most significant potential negative impact may be the economic effects of such things as decreased property values, lost business activity (new businesses will not move to Flint and existing businesses that rely on clean water, such as restaurants, will be hurt), lost employment, population loss (renters may leave the city). Residents and businesses may also have to continue to pay extra for bottled water, so the extra spending on water could take away from other spending. It would be relatively easy for residents to move some of their economic/spending activity outside the city, which could contribute to an economic downturn in Flint. Long-term, there may be the significant cost of a new water system over and above the health related costs, estimated by the MDHHS.

Department of Environmental Quality (MDEQ)

The MDEQ has been granted primary enforcement authority in Michigan by the EPA for regulatory oversight of all public water supplies, pursuant to the federal Safe Drinking Water Act. The City of Flint began using the Flint River for drinking water on April 25, 2014.

On October 1, 2015 the State Chief Medical Executive confirmed Hurley Children's Hospital blood lead level data. On this same day, the Genesee County Health Department issued a "Do Not Drink" advisory to the customers of the Flint Water Treatment Plant. On October 15, 2015 the Michigan State Legislature authorized $9.35 million to help fund the City's return to purchasing treated water from the Detroit Water System (DWSD), and to fund comprehensive lead evaluations at City schools, provide free water filters for residents, provide free in-home water tests for residents, and provide free blood lead level testing and follow-up services. On October 16, 2015 the Flint Water Treatment Plant reverted its source back to DWSD. On October 28, 2015 the MDEQ issued a construction permit for additional corrosion control treatment.

The MDEQ is supporting the response with incident management personnel, lead and copper water test kits and analysis and investigative teams. The connection to the Karagnondi Water Authority is scheduled to be completed in mid to late 2016.

The MDEQ estimates its cost impacts in the amount of $9.55 million. This includes $7.8 million to keep Flint on the Detroit system until January 1. It also includes $250,000 in chemicals needed for Flint to test the new water system once it is in place, and $1.5 million for 10 staff and lab equipment. The MDEQ staff will be responsible for providing additional school and residential sampling and laboratory testing as well as expertise related to corrosion control and service line verification.

Department of Agriculture and Rural Development (MDARD)

Part of the MDARD's coordinated outreach includes contact with businesses, particularly food-related businesses, to evaluate the safety of the water they use in their products. Water safety also impacts animals. As a precautionary measure, the MDARD included pets, service animals, and other domestic animals in their messages to families about water. They have also reached out to the veterinary and animal care communities to bring their attention to this issue.

Through Michigan's funds and the USDA's Rural Development's programs, we are working to build and grow regional food systems, including the food hub and incubator kitchen at the Flint Farmers' Market. Through additional federal and state investments as well as public-private partnerships, we can help address some of the challenges to a nutritious food system. This is a critical component of responding to lead blood levels as good nutrition is one of the most effective treatments.

There are 549 Food Service establishments (includes restaurants as well as schools, which are being handled by Department of Education) and 337 Food Establishments (includes grocery, convenience stores, vending machines, etc.). All establishments received a letter in October 2015 with guidance and will receive revised guidance over the next few days. There are 97 gas stations within the city which are within those food license numbers. We are planning additional outreach to them as part of our efforts.

No animal licensed shelters exist in the water service area. The current focus is on residences where they may also have pets. There are two veterinary clinics in the City, and we have made individualized follow up calls with them; all veterinarians in the region were contacted last week by Michigan Veterinary Medical Association.

The MDARD has been in close coordination with the MDEQ, The MDHHS, and Genesee County Health Department on the protocol for using water. Guidance put out last fall was jointly issued by all four agencies. The MDARD has also worked with other agencies on water sampling protocols. Compliance with new protocols will be a top priority.

Department of Education (MDE)

The MDE is monitoring all child nutrition program providers operating in the Flint area. MDE food service program staff is working with all school meal operators and child and adult care operators to ensure they take all proper precautions if they have unsafe water.

Department of Insurance and Financial Services (DIFS)

The DIFS is prepared to assist individuals with questions relating to their health insurance coverage or any health insurance claims that are not covered by their health insurer. The potential losses experienced in Flint may not be a covered loss under property insurance. It is unlikely that there will be any remedy under property insurance to assist with the replacement of lead service lines. The estimate provided by the MDEQ of $4,000 per service line would be multiplied by the ultimate number of lead service lines identified when the study is complete.

Department of Licensing and Regulatory Affairs (LARA)

Beginning this week, state employees from LARA's Bureau of Construction Codes/Plumbing Division will conduct a pilot program at Freeman Elementary and will install new water faucets and plumbing associated with the nine faucet outlets that showed elevated lead exposure following MDEQ's initial testing. Twenty-two outlets did not show elevated lead exposure, but the nine faucets that did come back with initially high results involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. Following the installation of the new faucets, DEQ will retest Freeman identically to the original test of the school. Following the results of this pilot program, the initiative could be broadened to other schools throughout Flint and will affect the State of Michigan's long term strategy for ensuring clean drinking water in the city.

Replacement of faucets and piping are to be certified with no lead.

- Sink faucets $200
- Water supply valves/pipe fittings $100
- Labor/installation $625

With 29,943 customers on this water line and a minimum of 2 faucets per customer, (one bathroom, one kitchen), we are estimating replacement costs which could be as much as $55 million.

Department of Technology, Management and Budget (DTMB)

DTMB has been helping to procure water, filters and refill cartridges. Seven trucks and drivers have been deployed to assist with delivering supplies to Points of Distribution (PODs) and assisting with neighborhood visits. More of the above resources are being procured.

DTMB also facilitated the establishment of the Joint Information Center (JIC) at the Flint State Office Building and provided additional security at the building They have also established a lease agreement for 100,000 square feet of warehouse space in the city to use for water, filters and supplies and provided guidance and assistance with agencies in their contracts along with IT needs.

Procurements include:

- Truckloads of water – 32; Equating to gallons, this is approximately 250,000 gallons over two days, and this is anticipated to double.
- Brita faucet filters – 27,000
- Brita Replacement filters – 1,600
- PUR faucet filters – 12,500
- PUR 3-pack replacement filters – 40,000

Disaster History/Long Term Recovery Continues

The State of Michigan has had two Governor's declarations in the previous 12 months, the Portland Tornado in June, 2015, and the Grand Traverse and Leelanau Straight Line Winds in August, 2015. Additionally, the state continues to work on Public Assistance and Long Term Recovery from the Southeast Michigan Flood of August, 2014. In response to these disasters, in addition to Stafford Act assistance from DR-4195, the State has made disaster funding available from state funds through Sections 18 and 19 of Public Act 390, the Michigan Emergency Management Act.

While the responses to Portland and Grand Traverse/Leelanau have successfully addressed the impacts, the Long Term Recovery in Southeast Michigan continues to face many challenges. Several voluntary organizations work in Detroit to continue rebuild efforts and even muck-outs from the flooding of 2014. Resurgent black mold plagues many households, and the rebuild efforts continue to struggle with unmet needs such as furnaces. A Long Term Recovery committee meets regularly to establish funding opportunities, identify needs, and communicate the needs, but resources continue to be difficult to obtain, at best. The Southeast Michigan Flood Recovery Group (SEMIFRG), in cooperation with the Urban Studies Center at Wayne State University, estimates that there remain 14,992 homes still in need of intervention resulting from the 2014 flood, with estimated repairs reaching as much as $144,477,500.

Demographics

Genesee County, and particularly the City of Flint, experience rates of poverty significantly higher than both the nation and the state. Genesee County's poverty rate is a full 5.6% above the national average, and the City's rate is more than double the national rate. Household income lags significantly behind national and state median income in the county, and the city is less than half the national median income. To exacerbate the problem, especially with lead which impacts young children so significantly, the percentage of children under 5 living in Flint exceeds the national, state, and county rate. The elderly population is slightly lower in the City of Flint, but the percent disabled is significantly higher, 8.1 percentage points above the national rate. Unemployment too is significantly higher than national and state rates. As of September, 2015, prior to the emergency, The City of Flint's unemployment rate was 9%; nearly double the state rate of 5% and national rate of 5.1% However, looking at the U.S. Census American Community Survey 5-year average, a prolonged period of very high unemployment is seen, over 26.3%. The table below shows the unemployment rate in Flint has been nearly three times the national average over the past 5 years.

Michigan – Genesee – Flint Demographic Summary

	Average of Persons Below Poverty Level*	Median Household Income*	Percent Children under 5	Percent Elderly*	Percent Disabled*	Percent Pre-Disaster Unemployment*
US Average	15.6%	$53,482	6.4%	13.7%	12.3%	9.2%
State of Michigan	16.9%	$49,087	5.9%	14.6%	13.9%	11.4%
Genesee County	21.2%	$41,879	6.2%	14.7%	16.1%	15.5%
City of Flint	41.6%	$24,679	7.8%	11.7%	20.4%	26 3%

* U S. Census Bureau American Community Survey 2010-2014, Selected Social Characteristics in the U.S. (5 year estimates)

Public and Individual Assistance

In the October, 2015, to December, 2015, time frame, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. As part of the return to Detroit water, the City of Flint also committed to expending $2 million, and the Charles Mott Foundation committed $4 million. Current emergency response measures include the distribution of approximately 1 gallon of water per day per resident, a filtration cartridge to every household, a cartridge refill, and a water testing kit. These measures require approximately $9.55 million to keep Flint on Detroit water until Karagnondi water is available and $22 million to distribute water, filters and testing kits until the emergency is resolved.

For Individual Assistance, under Housing Assistance, the need could be as much as $53 million to help individuals eliminate lead service lines on their properties.

The City's water system has been affected by the introduction of a new source of water with a different chemical composition. A "coating" that is maintained by chemical treatment at different levels, depending on the water source appears to have decomposed and it is likely that some of the underlying lead pipes and lead solders began to leach into the water. Ultimately, this may have contributed to significant EBLL problem noted throughout this letter and numerous public reports. The extent of lead in the City's system at this time is difficult to determine. Much of the system has not been mapped, but the City's best estimate right now is that as much as 80% could contain lead components. The University of Michigan–Flint is assisting the city with the digitization of historic hand-written records.

Insurance

The City of Flint is self-insured, so there is no outside insurance resource for this emergency.

Concluding Statement

In response to this emergency, I took appropriate action under state law and directed the execution of the Michigan Emergency Management Plan on January 5, 2016, in accordance the Stafford Act. On that same date, under my authority as Governor I also proclaimed a State of Emergency for Genesee County, including the City of Flint, and directed state departments and agencies to utilize all available resources necessary to assist the aforementioned county and local political subdivision in responding to and recovering from this emergency. Numerous state departments and agencies had already initiated response actions prior to my formal proclamation, in accordance with their assigned missions in the Michigan Emergency Management Plan. These actions included but were not limited to: providing direct assistance to the affected communities and to individuals.

I have determined that this incident is potentially of such severity and magnitude that effective recovery is beyond the capabilities of the State of Michigan and the affected local governments and that federal relief assistance is necessary. I am specifically requesting activation of both Individual Assistance and Public Assistance for the affected county and jurisdictions specified in this request, and activation of the Hazard Mitigation Grant Program (HMGP) for all counties within the state Preliminary estimates of the types and amount of Individual Assistance and Public Assistance needed under the Stafford Act are estimated in FEMA Form 010-0-13.

I am requesting Direct Federal Assistance from other agencies with resources and expertise that can be brought to their relevant areas of expertise, including but not limited to the CDC, EPA, USDA, HHS, HUD, SBA, and USACE.

I certify that for this emergency, the state and local governments will assume all applicable non-federal share of costs required by the Stafford Act.

I have designated Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, as the State Coordinating Officer for this request. He will work with the Federal Emergency Management Agency on recovery program implementation and may provide further information or justification on my behalf.

Sincerely,

Richard D. Snyder
Governor

Burden Disclosure Notice

Public reporting burden for this form is estimated to average 9 hours per response. The burden estimate includes the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and submitting the form. This collection of information is required to obtain a benefit. You are not required to respond to this collection of information unless it displays a valid OMB control number. Send comments regarding the accuracy of the burden estimate and any suggestions for reducing the burden to: Information Collections Management, Department of Homeland Security, Federal Emergency Management Agency, 500 C Street SW, Washington, DC 20472, Paperwork Reduction Project (1660-0009). **NOTE: Do not send your completed form to this address.**

Completion of this form including applicable attachments satisfies legal requirements for emergency and major disaster declaration requests under 42 U.S.C. §§ 5170 and 5191, respectively, as implemented at 44 C F R.. §§ 206.35 and 206 36 Failure to use this form may result in a failure to meet these requirements and/or a delay in processing the request.

2a. Name of State (as defined in Stafford Act 102, 42 U.S.C § 5122) or Indian tribal government requesting declaration.	2b. Population (as reported by 2010 Census) or estimated population of Indian tribal government's damaged area(s).
Michigan	9,883,640

3. Governor's or Tribal Chief Executive's Name	4. Designation of State or Tribal Coordinating Officer upon declaration (if available) and phone number
Richard D. Snyder	Captain Chris A. Kelenske Office: 517-333-5042 Cell:

5. Designation of Governor's Authorized Representative or Tribal Chief Executive Representative upon declaration (if available) and phone number

Mr. Anthony Katarsky Office: 517-336-2686 Cell:

6. Declaration Request For: ☒ Major Disaster (Stafford Act Sec. 401) ☐ Emergency (Stafford Act Sec. 501(a))

7. Incident Period: Beginning Date _____ End Date _____ or ☒ Continuing

If requesting a "continuing" incident period, enclose an official statement from a qualified Federal Government agency acknowledged as a national authority in a specific incident field (e.g., United States Geological Survey for seismic incidents, the National Weather Service for flooding).

7b. Type of Incident (Check all that apply)

☐ Drought ☐ Earthquake ☐ Explosion ☐ Fire ☐ Flood ☐ Hurricane ☐ Landslide ☐ Mudslide

☐ Severe Storm (rain, high water, wind-driven rain, hail, lighting) ☐ Snowstorm (Must include Enclosure D: Historic and Current Snowfall Data) ☐ Straight-Line Winds

☐ Tidal Wave ☐ Tornado ☐ Tropical Depression ☐ Tropical Storm ☐ Tsunami ☐ Volcanic Eruption ☐ Winter Storm

☒ Other (please specify) Public Health

8 Description of damages (Short description of impacts of disaster on affected area and population). Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

In early May 2014, the City of Flint switched from the Detroit Water System (DWSD) to water from its own water treatment plant drawn from the Flint River as its primary water source. The different characteristics of the water resulted in leaching of lead from lead pipes in the city's water infrastructure into the water supply. Increased exposure to lead can cause immediate negative health effects. However, the main health concerns are long-term effects in children such as developmental and cognitive delays, and behavioral disorders. Increased water lead levels and elevated blood lead levels in young children were observed in the City of Flint and confirmed by the State Chief Medical Executive. Based on current U.S. census data, the population of the City of Flint is 99,002. Census data puts the percentage of the total population under the age of 5 at 8% or approximately 8,200. Children under 6 are high-risk stage of growth for lead exposure. Approximately 2,642 residents have been tested for lead blood levels as a result of this incident with 50 exhibiting EBL. The 2010 census data identifies 40,017 households and 51,321 housing units within the City of Flint. All of these households obtain their potable water from the city.

9. Description of the nature and amount of State and local or Indian tribal government resources which have been or will be committed. Include additional details in enclosed Governor's or Tribal Chief Executive's cover letter.

All appropriate local, regional and state resources were used to their maximum in responding to and recovering from this public health emergency. This included equipment, personnel, materials and supplies, facilities, technical expertise (including emergency contracting, as appropriate), and financial resources. When local and regional resources (including partner voluntary relief organizations and other community-based organizations) were not sufficient to address incident conditions, or very specialized resources were required to perform specialized response and/or recovery functions, State of Michigan resources were activated to address capability shortfalls. State agencies actively involved in the response and recovery activities in the SEOC and/or field include the Michigan Departments of State Police, Agriculture and Rural Development, Attorney General, Civil Rights, Corrections, Education, Environmental Quality, Health and Human Services, Insurance and Financial Services, Licensing and Regulatory Affairs, Military and Veterans Affairs, Natural Resources, and Talent and Economic Development. Details are in the cover letter.

10 Joint Preliminary Damage Assessment*

☐ Individual Assistance Dates Performed Requested _____ Start _____ End _____

Individual Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

☐ Public Assistance Dates Performed Requested _____ Start _____ End _____

Public Assistance Accessibility Problems (Areas that could not be accessed, and why)
Expedited Major Disaster Declaration Request

11. Programs and Areas Requested

Individual Assistance ☐ N/A ☒ Individuals and Households Program ☒ Crisis Counseling Program ☒ Disaster Unemployment Assistance

☒ All ☒ Disaster Case Management ☒ Disaster Legal Services

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities; for Indian tribal government, list tribe(s) and/or tribal area(s)) if additional space is needed, please enclose additional documentation).

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. The Individual Assistance programs will be needed to assist residents/water service customers with an estimated cost as much as $54,619,500 to repair damaged lead service lines on private property. The damage estimate is based on damage assessments conducted by the City of Flint with the Genesee County Equalization Department.

For States, identify Federally-recognized Tribes in the requested counties (if applicable).
N/A

Please see Enclosure A: Supplemental Information for Individual Assistance for additional information in support of this request*.

**Not Required for Emergency Declaration Request*

11. Programs and Areas Requested (Continued)

Public Assistance ☐ N/A ☒ Debris Removal (Category A) ☒ Emergency Protective Measures (Category B) ☒ Permanent Work (Categories C-G)* (not available for Emergency Declaration Requests)

For the following jurisdictions, specify programs and areas (counties, parishes, independent cities, for Indian tribal government, list tribe(s) and/or tribal area(s)) If additional space is needed or your request includes different categories of work for different jurisdictions; please enclose additional documentation

Townships of Flint, Genesee and Mt. Morris; Cities of Burton and Flint; County of Genesee

We request all available programs. Emergency Protective Measures have been and will continue to be implemented with estimated costs which could be in the range of $41,000,000. The need is estimated for 90 days for water distribution ($10,335,808) and 1 year for the balance for filters, cartridges, and water test kits. Damage assessments conducted by the City of Flint with the Genesee County Equalization Department concluded that the total potential damages to the City of Flint water distribution infrastructure is estimated at $712,800,000.

For States, Identify Federally-recognized Tribes included in the requested counties (if applicable).

N/A

Please see Enclosure B: Supplemental Information for Public Assistance for additional information in support of this request*.

Indemnification for Debris Removal Activity

☒ I do not anticipate the need for debris removal.

☐ I anticipate the need for debris removal, which poses an immediate threat to lives, public health and safety. Pursuant to Sections 403 and 407 of the Stafford Act, 42 U.S.C. §§ 5170b & 5173, the State or Indian tribal government agrees to indemnify and hold harmless the United States of America for any claims arising from the removal of debris or wreckage for this disaster. The State or Indian tribal government agrees that debris removal from public and private property will not occur until the landowner signs an unconditional authorization for the removal of debris.

Request for Direct Federal Assistance

☐ I do not request direct Federal assistance at this time.

☒ I request direct Federal assistance for work and services to save lives and protect property, and:

a. I request the following type(s) of assistance.

Emergency work and protective measures to save lives, protect public health and safety and to protect property, for state and local governments; including but not limited to the provision of food, water and other consumable commodities. Assistance from CDC, EPA, HHS, HUD, SBA and any other agencies with responsibilities related to health, nutrition, and water infrastructure.

b. List of reasons why State and local or Indian tribal government cannot perform, or contract for, required work and services.

State and local resources can not meet the demand for filters, cartridges, water, and water testing at each residence; or the physical and mental health or nutrition needs of the affected population of 40,509 households with approximately 99,002 residents. The city is not able to repair its water system and the state has responded, but the response needs far exceed the state's capability, in addition to continuing response to other disasters, including the 2014 flooding in metro Detroit.

c. In accordance with 44 C.F.R. § 206.208, the State or Indian tribal government agrees that it will, with respect to direct Federal assistance: (1) Provide without cost to the United States all lands, easements, and rights-of-ways necessary to accomplish the approved work; (2) Hold and save the United States free from damages due to the requested work, and shall indemnify the Federal Government against any claims arising from such work; (3) Provide reimbursement to FEMA for the non-Federal share of the cost of such work in accordance with the provisions of the FEMA-State or FEMA-Tribe Agreement ; and (4) Assist the performing Federal agency in all support and local jurisdictional matters.

Request for Snow Assistance

☒ N/A ☐ I request snow assistance.

Snow assistance for the following jurisdictions (Specify counties, independent cities or tribes and/or tribal areas)

Not Required for Emergency Declaration Request

STATE OF MICHIGAN
EXECUTIVE OFFICE
LANSING

RICK SNYDER
GOVERNOR

BRIAN CALLEY
LT. GOVERNOR

January 20, 2016

The Honorable Barack Obama
President of the United States
The White House
Washington, D. C.

Through: Mr. Andrew Velasquez III, Regional Administrator
FEMA Region V
536 South Clark Street, 6th Floor
Chicago, IL, 60605

Dear Mr. President:

I am submitting this letter of appeal in response to FEMA Administrator W. Craig Fugate's letter to me dated January 16, 2016. In that letter, he indicated that the State of Michigan had been denied a Major Disaster Declaration under the Robert T. Stafford Disaster Relief and Emergency Assistance Act for contamination and damage to the public water system in the City of Flint. I respectfully submit this letter of appeal, in accordance with the provisions set forth in 44 CFR § 206.46, to request a reconsideration of that decision.

Respectfully, I appeal the determination that the event "does not meet the legal definition of a 'major disaster' under 42 U.S.C. § 5122." This unique disaster poses imminent and long-term threat to the citizens of Flint. Its severity warrants special consideration for all categories of the Individual and Public Assistance Programs, as well as the Hazard Mitigation program in order to facilitate recovery.

While the definition under 44 C.F.R. § 206.2(17) provides examples of what might constitute a natural disaster, I submit that this disaster is analogous to the flood category, given that qualities within the water, over a long term, flooded and damaged the city's infrastructure in ways that were not immediately or easily detectable. This disaster is a natural catastrophe in the sense that lead contamination into water is a natural process. These impacts will contribute to years and potentially decades of health problems and economic loss as well as necessary repairs to infrastructure that neither the city, county, or state have the capacity to conduct. A narrow reading of this definition, restricting the hazards to which we can provide relief, does not adequately reflect the intentions of our "all-hazards" approach to emergency management at the federal and state levels.

Given the gravity of the situation and ramifications for urban areas across the United States with pre-1987 constructed water distribution systems, I hope you will determine that providing assistance beyond "appropriate assistance for required emergency measures...to save lives and to protect property and public health and safety" is warranted. As documented in my letter to you on January 14, 2016, the city of Flint has been devastated by job losses and associated economic decline

As additional support of this appeal, I offer the following information:

State and Local Government Capabilities

The City of Flint, County of Genesee, and State agencies have worked to provide short-term solutions to many problems related to this disaster. However, permanent solutions for much of the public water

system damages can only come about with significant federal assistance made available under a Presidential Major Disaster Declaration. While we are grateful for the limited federal assistance provided thus far by FEMA, those efforts are stop-gap measures which do not meet the long-term recovery needs of this disaster for the City of Flint.

Emergency Protective Measures

As indicated in my declaration request, the State made an emergency appropriation to return Flint to Detroit water. The appropriation included several emergency measures which included testing, case management for those affected, and short and long term health care strategies. The state's commitment to those measures was $9.35 million. The City of Flint also committed $2 million, and the Charles Mott Foundation committed $4 million. The State is in the process of approving a second appropriation.

The considerable needs brought about by this disaster greatly exceed the collective funding resources of local and state government. Unless a Presidential Major Disaster Declaration is granted and the Public Assistance Grant Program (PAGP) is activated there will be significant unmet needs as identified in the following areas of impacts. The only other possible option would be a special Congressional appropriation.

Long Term Public Health Threats

Although strides have been made in addressing public health threats brought about by this disaster, there are considerable lingering issues. The ability of a community to recover with such a large percentage of its citizens living in poverty requires the ability of those citizens to acquire proper health care, case management, legal services, and assistance in repairing the plumbing infrastructure in their homes that may have be damaged. Permanent solutions for these individuals and households will not come about in a timely manner without significant federal resources to restore, repair and stabilize their lives.

Damage to Infrastructure

The affected local communities and the State do not have the funding capacity to undertake the repair of an entire public water system. FEMA's PAGP provides the best source of funding for rebuilding these critical public facilities, and that program can only be activated through the declaration of a Major Disaster by the President. Any other Federal programs of assistance would be welcome.

Mitigation

With federal disaster relief, Michigan could provide funding under the Hazard Mitigation Grant Program or PAGP to the affected utility to implement cutting edge measures to mitigate the vulnerabilities of the water system against all types of physical threats. Without such assistance, such measures will not be possible.

Economic Injury

As state Rep. Woodrow Stanley, D-Flint, said yesterday, "Flint is a city without a safety net. We had failing schools before we had a water crisis. We had high unemployment."

The economic injury to the affected communities from this disaster is significant. As I indicated in my declaration request letter, impacts including further decreases in property values, lost business activity, loss of employment and further loss in population will severely impact Flint and Genesee County.

As part of the disaster declaration request, I included assistance from the Small Business Administration (SBA) to provide financial relief to the scores of businesses impacted by this disaster. If such assistance were approved, the low-interest loans would provide much needed working capital to many businesses to allow them to continue to operate until their business picks up.

This disaster also comes on the heels of another Major Disaster (4195-DR-MI) that occurred in August of 2014. The state and those nearby counties and local municipalities are still recovering from that event and now they have another major disaster to deal with, and few available resources to address the significant impacts to the health of the citizens and damages to public facilities.

Direct Federal Assistance

The federal government is highly engaged in event responses, such as the BP Deepwater Horizon disaster. The federal government established a National Response Team of 16 federal departments and agencies, ranging from the EPA to the SBA to the Department of Labor. Such engagement was critical to restoring public confidence to avoid further economic damage from perceived contamination. In the BP case, fisheries, tourism, and other uses were afforded the benefit of technical expertise to minimize damage. In the case of Flint, residents are afraid to use water for washing because of their fear of further contamination and damage. The residents of the city of Flint need federal expertise to rebuild confidence in the use of tap water.

Conclusion

I sincerely believe that a Presidential Major Disaster Declaration is warranted due to the extraordinary circumstances involved in this disaster – the widespread and damage to public facilities, the potential long term damages to public health, and the substantial additional economic injury upon an already affected community. Therefore, I ask that you reconsider your decision in this matter and that you grant the State of Michigan the disaster relief assistance that it needs by declaring this event a Major Disaster under the Stafford Act.

Capt. Chris A. Kelenske of the Michigan State Police, Emergency Management and Homeland Security Division, continues to be my designated State Coordinating Officer for this request. He will work with FEMA on program implementation and provide further information or justification on my behalf, as requested.

Sincerely,

Richard D. Snyder
Governor

Garza, Oralya (MSP)

From: Kelenske, Chris (MSP)

Subject: RE: Lines of Communication and interagency engagement

My few suggestions in red below.

Chris

From: Baird, Richard (GOV)
Sent: Sunday, January 31, 2016 7:43 PM
To: Kelenske, Chris (MSP)
Subject: Lines of Communication and interagency engagement

Dr. Lurie:

I look forward to talking with you about the events of last week, and establishing some Rules of Engagement so that we all can be tightly aligned in communicating with each other, and with the public. I know you have the same objectives.

I appreciate that the federal agencies working on the Flint situation are here to help. I also know that when the time comes for those agencies to depart, it serves no purpose for the people of Flint to have a crisis of confidence if they do not believe the State of Michigan is competent and motivated to provide the services and essential communication to provide for the public health.

Stated differently, if the people believe that the only reason Michigan is motivated to map lines, accelerate testing, post results in near "real time" fashion, and remediate problems with a sense of urgency is because of the EPA order and physical presence, then your being here will have hurt the state in ways you never intended.

Our State Emergency Operations Center (SEOC) is used to working with a Joint Field Office during disasters and emergencies and it is critical that we continue to run in lockstep so there is no duplication of effort or related inefficiencies. Additionally, I would like to reach agreement around certain principles of engagement (not unlike what we sustained between the Mayor of Detroit and the State's EM during that City's bankruptcy). These principles would include the following:

1). Data compiled by the water testing teams should be provided real time to EPA and be properly analyzed/reviewed for errors before being posted to the website. The same should hold true in reverse when EPA teams are doing testing without MDEQ personnel in tandem.

2). Beginning immediately, Michigan agencies intending to issue a press release or press conference announcement on Flint will advise US agencies in advance and invite their participation. The same should hold true in reverse when federal officials are releasing/announcing. I think having a multi agency JIC representation is a step in the right direction, but those folks are not always at the right operations level to overcome differences of opinion related to content/process/format.

> I know you agree that our public communications should first and foremost always be directed to the residents of Flint. All public communications need to include direct instructions or action items for the residents of Flint based on the data collectively gathered regardless of which agency gathered it.

3). If there is an absence of agreement between or among any of the agencies working to help Flint (City/County/State/Federal) on data interpretation, data integrity, internal/external messaging, or any other tactical or operating framework, I would like to commit to you and have your commitment that you and I work in real time and in good faith to resolve such issues.

From our very first conversation I had the sense that you were intent on forging a partnership that would truly benefit the people of Flint as we work our way through this emergency. Keeping that dynamic is going to require real leadership on both our parts to avoid unilateral decision making, perceived one-up man ship, and dysfunctional information flow.

I look forward to working with you and appreciate the skills and capabilities you and your team are bringing to this crisis.

Regards,

Rich

I thought I pushed this to you yesterday but it showing not sent.

We are waiting for SBA to return our call on Monday as we have a question on the form they are using now and how getting SBA assistance could affect other federal aid in the future. After that call we can push the request for SBA as we have all the information we need from the locals. I think Dr. Laurie is confused on this as she may not realize we requested IA under both the Major Disaster Declaration AND the Emergency Declaration. With the appeal still pending for the Emergency Declaration, SBA still is asking if we are going after IA (which I believe we should). We will discuss with SBA Monday.

The below may help clarify:

-While we were denied our major disaster request and appeal (which means we cannot get IA under that program), we still can get IA potentially under the Emergency Declaration after our appeal.

-We are hoping for emergency protective measures to be allowed after our appeal on the Emergency Declaration and with the recent issues on water heaters being damaged I think we may want to still go after IA (in addition to the emergency protective measures) in our appeal.

-SBA provides assistance AFTER we are advised we are not getting IA. With that still a possibility under an appeal on the emergency declaration they may be hesitant.

That all said, since we were denied the major disaster declaration (and IA under that program), we may be able say we are requesting IA due to that denial and move forward on Monday with the SBA request. Will check with SBA on that. Otherwise we will be waiting for a couple more weeks as data comes in on our appeal and I know you want the SBA request pushed up.

Subject: RE: Follow Up - Request for Assistance

We have been in touch with UPS but need to work some more on this. Not sure this would work but Comcast opened up the Xfinity WIFI... if we add the Amazon Dash Button to all subscribers on the Flint water system the residents could push a button when the filter light blinks green to red.

The below link demonstrates how this might work by just pushing a button to generate the order of a filter. This may be too technical so we would need to do some vetting but pretty interesting concept.

Ray,

I appreciate speaking with you Thursday and appreciate your patience as we worked on the details related to Flint. The first issue for which we request assistance from UPS is as follows: Can UPS work with the Michigan State Police to assist in delivery of water filters to those individuals in Flint, because of age, disability or other challenges, are unable to physically visit the various resource centers throughout the City? The water filters (depending on the size of the family) need to be replaced anywhere from 1 to 3 months, so there will be an ongoing need for filters to be available and delivered. Our hope is that these deliveries can be incorporated in UPS' daily scheduled deliveries in Flint. If you can identify a contact for further information, I will connect them with a person who can provide additional detail and with which direct arrangements could be made.

In addition, I confirmed to you our understanding that Linden Nelson worked with Aquahydrate of Los Angeles, California to arrange for the donation of 5,000 cases of water to be shipped to Flint once a month for

the next year. Here is some additional information on the filtration system:
http://www.michigan.gov/documents/deq/2015-10-21_-_Lead_-_Flint_Water_FINAL_504265_7.pdf

The attached press release that was issued on October 8th, also provides some additional background information for your reference.

On behalf of Governor Snyder, the administration, and Flint, I thank you for your consideration. To assure direct communications are maintained for the greatest efficiency possible, I have included both Harvey Hollins and Tori Sachs on this email, as they are charged with coordinating ongoing efforts and connecting people who want to help, like UPS, with the right people to facilitate the delivery of that help.

John

Subject: Definitions and App Updated Numbers

Rich

Per our conversation, the below are the definitions from the Water Response Teams App. I updated the numbers and will provide this later in my report.

(771) Total Distributions: The total number of visits made by field teams

(238) Vacant: The portion of the total distributions that were vacant
(265) Water: The portion of the total distributions that were given water
(93) Replacement Cartridge: The portion of the total distributions that were given replacements
(235) Filter: The portion of the total distributions that were given a new filter
(92) Water Testing: The portion of the total distributions that were given a water testing kit
(473) Door Hanger: The portion of the total distributions that had a door hanger emplaced
(9) Pitchers: The portion of the total distributions that were given a pitcher
(62) Homes that agreed to be a future sample test site

The next version the app will provide more granular details.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - o I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support

Subject: RE: Flint Water

I found out that the city is pulling resources from fire station 1 to put them at City Hall. We still do not have a POC in the local EOC all the time. They just stop in occasionally. We need a POC in the local EOC during operational hours to address issues like this. It does not need to be an executive but a worker who has reach back to the bosses if they need something. If they are in the local EOC, all they have to do is let our logistics person in the local EOC know and we will give them supplies from the warehouse versus pulling from a POD. This has contributed to us running out at times.

The city needs to engage in the local EOC Thanks for any help Rich.

Executive Office supports this approach. Please proceed. The Governor would exercise his ability to waive permit and inspection fees. I have also copied CoS Agen.

Regards,

Rich

Attached is a plan we would like to put in place to replace all the faucets/drinking fountains in Freeman Elementary School in Flint that were found to have elevated blood levels. I am looking for approval for us to move forward with this and to ensure we are not stepping into any external issues we may be missing.

Below are some bullet points but the attached one page which provides more information. Director Zimmer has signed off on this and LARA and DEQ are the ones that put this together from the SEOC. This is a long term recovery item but this pilot program will help us to determine if this is a good approach for the rest of the schools as we move forward and will speed up the recovery.

- This proposal is for the replacement of all of the faucets/drinking fountains in Freeman Elementary School, Flint, MI, that were found to have elevated lead content in the water from the report issued on October 24,2015, by the Department of Environmental Quality. This proposal also is for the replacement of any brass valve or copper fitting used in the water supply pipe and fittings where 50% lead/50% tin solder was used for the joints.

- At Freeman Elementary, 31 faucets were tested using a series of four samples each. Twenty-two outlets did not show elevated lead exposure, but nine faucets came back with initially high results.

- Those nine outlets involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. The DEQ report listed the lead content of the water from the nine faucets as greater than 15 parts per billion.

- Retesting the nine faucets with high lead levels after new faucets are installed could demonstrate that that the old faucets significantly contributed to the high levels. The retest will be administered identically to the original test of the school.

- **Results from this pilot program to retest Freeman could affect the State of Michigan's long term strategy of ensuring clean drinking water in Flint Schools and the City of Flint**

Excellent - it should look like a campaign where we have a goal to make constant and regular contact to deliver the message that we are doing everything we can.

One other suggestion - not demand of course - is that the Governor meet with the mayor and state police emergency coordinator personally on a weekly basis to make sure that we are supporting her efforts and that she stays satisfied with our efforts. I can fill this role when he's on the trade trip (although we should consider cancelling it). This should look like he's personally seeing to the safety of the people and that this is too important to delegate.

I'd like to see that meeting each week come with a deliverable (i.e. We are replacing school fixtures starting next week and then we have identified the 10 blocks with highest lead exposure and we are replacing their plumbing and main connectors, etc). These are big items, but if we put our heads together we can come up with constant deliverables, even if they are small deliverables.

Because there are potential long term developmental impacts in children, I'd like to see us start a fund to cover costs associated with that. Even if it is not funded right away, just announcing the establishment of it will be a big statement.

Finally, I'd love to see a whole warehouse of bottled water. The visual would be powerful. Don't invite the media, but just announce that it is available - or call this hotline and we will have it delivered to you. The media will hear about it and come to see it.

I think the robocalls, emails, door hangers, and direct mail are no-brainers. Just need to determine what pot money comes from.

Tele-town Hall & Billboards aren't bad either...but might require more planning.

ROBOCALLS
Call all 60,000 households in Flint with information on where to get water, filters and test kits. Have a press one option for assistance request.
Cost: $3,000 (highest end estimate)
Timing: As soon as needed.

TELE-TOWN HALL
Call all 60,000 households in Flint and invite them to participate in a tele-town hall on where and when they can get resources and ask questions.
Cost: $5,000 (highest end estimate)
Timing: As soon as needed

EMAILS
We would purchase all available email addresses for sale that are tagged to be located in Flint. We would send an email with the current distribution locations (if confirmed) and invite every recipient to opt-in for regular updates on locations, water quality, health info, etc. Would utilize our GovDelivery system for sending.
Cost: $1,000

BILLBOARDS
Digital: There are 5 digital billboards in the city of Flint that we could have information on as early as Monday morning. Cost would be $15,000 for one full month.

Driving: We could also hire moving billboards - waiting on a quote

DOOR HANGERS
I believe we should produce door hangers for the Americorps volunteers and others with who to call for filters, water bottles, water testing, and healthcare info (Healthy Michigan?). These could also be distributed to churches, community centers, govt buildings, etc to ensure proper information is available with numerous volunteer groups descending.
Cost: Printing for 30,000 is $3,000

DIRECT MAIL
The addresses for the 60k households in Flint are available for $375. To send

60,000 oversized postcards we are looking at about $25,000.
Timing: Mail could go out on Monday or Tuesday. Would hit mailboxes on Wednesday or Thursday.

Thanks Rich...the only thing that needs to be changed is in the cover letter. "As you know, there is a significant amount of work to be done before the federal government will approve an emergency declaration under the Emergency Management Act." Change the "Emergency Management Act" to the "Stafford Act." The Emergency Management Act is state and the Stafford Act is the federal one.

Thanks for the opportunity to review.

Cc: Etue, Kriste (MSP); Lyon, Nick (DHHS)
Subject: Attorney Client Work Product (Draft), Privileged and Confidential

Team:

Today Harvey and I met with the Flint Water Task Force. It was a good meeting. People were pleased with the G's statement from the prior day. Captain Kelenske joined us and we had a very good discussion about moving forward with the creation of the Flint Water Crisis Agency Coordinating Committee (FIACC). Tim Becker and Captain Kelenske provided me with a fair amount of input. I also read the City of Flint Incident Action Plan for a State of Emergency which Chris received today (enclosed for those who wish to read it as well). I have distilled all of this into a two page plan that I want your edits and comments on and a one page organizational chart (now presented in the "governor's colors" according to our fine people in Communications). Spoiler alert—I made Captain Kelenske Vice Chair of the whole shebang (with the Colonel's blessing) so Harvey wouldn't get lonely.

Here is my ask of you:

1) Within 24 (sooner if you can) hours give me your comments and input
2) Tomorrow I will turn around a final document for Jarrod to review with the Governor either New Year's Day or Saturday
3) Ideally, Governor will approve Harvey sending it to Mayor Weaver Saturday (Sunday latest)
4) Mayor needs to know that this is what the Governor wishes to discuss at the meeting January 7 along with financial resources that we still need some estimates on cost from DHHS for
5) Meegan and Dave need to noodle how best to get out front with this and change the narrative focus on Monday's Genesee County declaration of emergency

I know we are all working way too hard for what should be a rest and recharge period but I do appreciate everyone's efforts and I know the Boss really does as well.

Regards,

Rich

I offer a few thoughts, and some of these may be incredibly naïve, but we seem to be in a brainstorming mode:

- Should we include MSHDA in the mix of departments involved in this? They administer the Community Development Block Grant program and this may call for some of that money.

- It might be prudent to reach out to Sen. Ananich, Rep. Neeley and U.S. Rep. Dan Kildee to see if they would like representatives from their offices on any of these committees.

- We still need to convey better the extent of the problem. So maybe this is a communications issue more than anything else, because I do know testing is going on. I don't know HOW it's going on, so I offer these suggestions, realizing they may already be happening or are totally unrealistic:

  The goal: Assess the extent of the elevated blood lead levels – the number of those affected and the degree to which they're affected

- Get as many people in the affected zip codes tested as possible – can the Red Cross or some other agency with a bus or mobile unit set up for folks to give blood convert over to blood level testing and go into neighborhoods that have low testing rates?

- A public health friend of mine said that Genesee County Health workers are stressed to the max. Can we deploy appropriate personnel from other county health agencies to help with inspecting homes for possible other causes? In other words, it won't do any good to invest more in water infrastructure if we're finding window sills with teeth marks. I say this NOT to downplay the role that water lead levels may have played. But can we get Habitat for Humanity, for example, to do a massive volunteer effort to eradicate lead paint in homes … or is that beyond their expertise?

- Gather experts to assess exactly how extensive the problem is and potential causes. And then convey this in a much more accessible ways. If you want blood level data, you have to scroll down on the DHHS web site, find the headline and then read a long press release. Maybe we're conveying this information better on the ground, but if not, we need to communicate conclusive findings in multiple ways– graphics, video, informational photo galleries and maybe even a "test" that residents can take to see if their home is at risk in other ways. I know that sounds awfully MLive-ish, but it can be effective.

Subject: Attorney Client Work Product (Draft), Privileged and Confidential

Team:

Today Harvey and I met with the Flint Water Task Force. It was a good meeting. People were pleased with the G's statement from the prior day. Captain Kelenske joined us and we had a very good discussion about moving forward with the creation of the Flint Water Crisis Agency Coordinating Committee (FIACC). Tim Becker and Captain Kelenske provided me with a fair amount of input. I also read the City of Flint Incident Action Plan for a State of Emergency which Chris received today (enclosed for those who wish to read it as well). I have distilled all of this into a two page plan that I want your edits and comments on and a one page organizational chart (now presented in the "governor's colors" according to our fine people in Communications). Spoiler alert—I made Captain Kelenske Vice Chair of the whole shebang (with the Colonel's blessing) so Harvey wouldn't get lonely.

Here is my ask of you:

1) Within 24 (sooner if you can) hours give me your comments and input

2) Tomorrow I will turn around a final document for Jarrod to review with the Governor either New Year's Day or Saturday

3) Ideally, Governor will approve Harvey sending it to Mayor Weaver Saturday (Sunday latest)

4) Mayor needs to know that this is what the Governor wishes to discuss at the meeting January 7 along with financial resources that we still need some estimates on cost from DHHS for

5) Meegan and Dave need to noodle how best to get out front with this and change the narrative focus on Monday's Genesee County declaration of emergency

I know we are all working way too hard for what should be a rest and recharge period but I do appreciate everyone's efforts and I know the Boss really does as well.

Regards,

Rich

Subject: Thoughts on Next Steps
Attachments: IAP Flint Water 2015-12-29.pdf

Below are some of my initial points to assist with the EO creation. I have not been able to review the local Incident Action Plan so that could change some of the below but my guess is that it will add objectives to it. I attached the IAP from Flint in case it did not go through earlier.

- Before anything can be accomplished, coordination between all parties must be established. We must establish a routine information process between all parties.
- Other avenues of funding must be pursued including federal grants and legislative appropriations.
- While the Emergency Management Act or Stafford may be the best mechanism to fix the issues in Flint, portions of the Emergency Management Act outlining management of events are applicable and should be implemented (e.g. Local emergency operations plans/emergency operations guides as well as emergency operations support plans).

Action Plan

- If a request for a Governor's declaration is received from the county, evaluate the request and provide a recommendation whether to issue a declaration.
- Establish an interagency workgroup comprised minimally of DHHS, MDEQ, and MSP. Consideration should be given to including Civil Rights. Additional agencies/stakeholders who can assist with accomplishing the action plan may be needed. Personnel should be goal oriented and be able to work toward accomplishing the Incident Action Plan created by the state in a timely manner.
- If an EO and/or an Interagency workgroup is created, it must compliment and not replace the current system under the Emergency Management Act.
- The workgroup should utilize the National Incident Management System and Unified/Incident Command as appropriate.
- Establish routine communications protocols at the operational, executive, and legislative levels as determined appropriate.
- Establish interagency workgroup objectives using the following as a starting point.
    1. Determine and convey acceptable standards for potable water.
        - Identify needed remediation.
        - Convey the remediation plan objectives to interested parties.
        - Implement the plan.
    2. Determine health impacts for the impacted population.
        - Identify treatment methods.
        - Convey the treatment plan objectives to interested parties.
        - Implement the plan.
    3. Establish a public information protocol to effectively inform the community of the situation and actions taken.
        - Identify existing Public Information outlets within the city, county, and state.
        - Determine official information flow and approval of information.
        - Convey to interested parties.
    4. Assess the status of the infrastructure and determine feasible actions to upgrade the water system.
        - Determine current state of the infrastructure.

- Develop priorities, costs, and potential funding sources for infrastructure upgrades as part of a long term recovery plan.
- Implement the plan.

Subject: Request of Action Items/Resource Requests

Sir

This morning I requested from the Flint City Administrator, Natasha Henderson, the list of resources they have determined they need to see how we may be able to assist at this time. The county will also look at this to see what they can do. I will forward it as soon as I get it or hear otherwise.

Subject: FWATF Proposal
Attachments: Pub_204_Local_Support_Plan_Guide_366759_7.docx

Importance: High

Rich

I have located $25,000 to assist in paying for the FWATF communications needs. I would like added to the scope of work for them to update the Local Emergency Operations Support Plan (Pub 204) and train and exercise the plan with appropriate personnel. I attached the template we provide locals to use in developing the plan. Flint has a plan in place but with everything going on and based on interactions recently I am not convinced it is followed or if they even know about it. I am certain the new Mayor is not aware of the Local Support Plan.

Please let me know if you need additional on this or have questions.

FAUCET - DRINKING FOUNTAN REPLACEMENT PROPOSAL January 8, 2016

FREEMAN ELEMENTARY, 401 Ogema Street, Flint

This proposal is for the replacement of all of the faucets/drinking fountains in Freeman Elementary School, Flint, MI, that were found to have elevated lead content in the water from the report issued on October 24,2015, by the Department of Environmental Quality. This proposal also is for the replacement of any brass valve or copper fitting used in the water supply pipe and fittings where 50% lead/50% tin solder was used for the joints.

At Freeman Elementary, 31 faucets were tested using a series of four samples each. Twenty-two outlets did not show elevated lead exposure, but nine faucets came back with initially high results.

Those nine outlets involve brass components, indicating the problem involves the fixtures or plumbing immediately surrounding the fixture. The DEQ report listed the lead content of the water from the nine faucets as greater than 15 parts per billion.

Retesting the nine faucets with high lead levels after new faucets are installed could demonstrate that that the old faucets significantly contributed to the high levels. The retest will be administered identically to the original test of the school.

Results from this pilot program to retest Freeman could affect the State of Michigan's long term strategy of ensuring clean drinking water in Flint Schools and the City of Flint

LARA plans on funding this proposal for the replacement of the faucets/fountains and piping.*

Replacement faucets/fountain and piping are to be certified with no lead.

- 3 sink faucets- $200 each: $600
- 6 bubblers - $100 each: $600
- 9 Water supply valves/pipe fittings - $100 each: $900
- Labor/installation - $625 each for 9 sites $5,625

Estimated total $ 7,725.00

*The faucets and bubblers replaced are to be equal to the original faucets/fountains installed in Freeman Elementary.

Fixture Replacement Process

- Permit submitted by the school to the State.
- State approves and issues permit.
- Michigan licensed plumber installs fixture. LARA's Plumbing Division employees can do this work.
- State inspects new fixture and approves.

Under a State of Emergency the Governor has the ability to waive permit and inspection fees

Based on the results of the pilot, if successful, the state could consider staged expansion of the program with funding coming from multiple sources - including emergency funding as well as seek out donations from corporate (i.e. Delta, Moet.) as well as workers (plumbers and pipefitters union).

This proposal was prepared by the Department of Licensing and Regulatory Affairs, Plumbing Division.

A Proposal to Create the Flint Water Inter-Agency Coordinating Committee (FIACC)

In collaboration with the Flint After-Action Task Force, MSP Captain Chris Kelenske, DHHS Chief Deputy Tim Becker and DHHS Director Nick Lyon, Harvey Hollins and Rich Baird are recommending the immediate creation of the above referenced entity, with its sustained role and responsibility enabled under the Governor's Executive Order.

Statement of Need

Due to a combination of resource constraints, inexperienced personnel, "silo" bureaucratic processes and reactionary approaches to immediate problems, there is a ~~nearly complete~~ lack of coordination, communication, and connected management amongst all the departments and stakeholders who must work together to ensure Flint's return to clean, safe water and to coordinate mid and long term efforts to mitigate and address future health and behavioral consequences from lead ingestion. This group MUST be stood up regardless of whether (or when) the conditions required for a declaration of emergency are met by the City, County, State or Federal authorizers. This coordinating body must include:

- The creation of a routine information process between all parties.
- Pursuit of other avenues of funding including federal grants and legislative appropriations.
- While the Emergency Management Act or the Stafford Disaster Relief and Emergency Assistance Act may not be mechanisms to fix all the issues in Flint, portions of the Emergency Management Act outlining management of emergencies or disasters ~~events~~ are applicable and should be implemented without delay (e.g Local emergency operations plans/emergency operations guides as well as emergency operations support plans).

Action Plan and Establishing the FIACCC

It appears that a request for a Governor's declaration may be from the county as soon as January 4, 2016. The state's Deputy State Director of Emergency ~~Coordinator~~ Management and Homeland Security (Capt. Kelenske) will evaluate the request and provide a recommendation whether to issue a declaration, following established protocol and due diligence. But immediately, we will:

1. Establish an interagency workgroup Chaired and Vice-Chaired by Harvey Hollins and Chris Kelenske, respectively, and be comprised of DHHS, MDEQ, MSP, Treasury, Genesee County, City of Flint, MDE, LARA and external Subject Matter Experts (SMEs). Civil Rights may be added at a later time If additional agencies/stakeholders who can assist with accomplishing the action plan are needed, they will be added Personnel must be goal oriented, transparent with findings and measures of progress, and able to work toward accomplishing the Incident Action Plan created by the state in a timely manner. A draft Organization Chart is attached under separate cover. Staff will be needed that is familiar with disaster/emergency planning, operations, logistics, and finance as outlined by the National Incident Management System (NIMS). These management components would report to the chair/vice chair and ensure resource requests are tracked and the incident action plan objectives are created, documented, and completed.
2. This body should be created by Executive Order and it must complement and not replace the current system under the Emergency Management Act. In fact, it should demonstrate how to best leverage support where existing laws fall short under a man-made emergency.

3 Utilize the National Incident Management System and Unified/Incident Command as appropriate.
4. Establish routine communications protocols at the operational, executive, and legislative levels as determined appropriate.
5 Establish interagency workgroup objectives using the following as a starting point.

Interagency Workgroup Objectives

1. Determine and convey acceptable standards for potable water.
    - Identify needed remediation.
    - Convey the remediation plan objectives to all stakeholders and interested parties
    - Logistics plan for distribution and serving homebound citizens with water and filtration
    - Implement the plan.
2 Determine health impacts for the impacted population.
    - Identify treatment methods.
    - Nutrition education and support
    - Coping with lead exposure (care, monitoring, neurodevelopmental screening, access to DBP specialists, psychologists/psychiatrists, expanded county services, etc)
    - Convey the treatment plan objectives to interested parties.
    - Implement the plan
3 Establish a public information protocol to effectively inform the community of the situation and actions taken
    - Identify existing Public Information outlets within the city, county, and state.
    - Establish a Joint Information Center
    - Provide for Emergency Alerts and Updates
    - Leverage public and private education schools
    - Determine official information flow and approval of information.
    - Convey to interested parties.
4 Assess the status of the infrastructure and determine feasible actions to upgrade the water system.
    - Determine current state of the infrastructure.
    - Develop priorities, costs, and potential funding sources for infrastructure upgrades as part of a long term recovery plan.
    - Seek partners to assist (NGOs, Foundations, Business, etc.)
    - Implement the plan.

Final Thoughts

After the team provides input to this document, I would ask that Governor Snyder review and approve the approach, authorize Harvey Hollins to get the plan to Mayor Weaver no later than this weekend, and then proactively communicate the plan regardless of whether we get an Emergency declaration or not.

Also, we do not believe ~~setting up~~activating ~~an Emergency Command~~the State Emergency Operations Center (SEOC) ~~which requires 24/7 staffing~~ is sensible until AFTER Genesee County has demonstrated they did all they could, utilized all available resources to include contracts and mutual aid, and couldn't solve the problem. Additionally, this incident is more in the recovery phase where other types of coordination center are utilized. That is what is required under the ~~law~~Emergency Management Act.

Comment [CK1]: We do not always have 24 our staffing. It is dependent upon the incident.

Emergency Management Resolution 4

Attachments:

Attachment A: Sample Emergency Management Resolution 5

Attachment B. Sample Support Emergency Operations Plan 12

INTRODUCTION TO THE GUIDE

I. Purpose

This document is designed to serve as a guide for municipalities with a population of 10,000 residents or above that have elected to incorporate into the County Emergency Management Program and need to develop a Support Emergency Operations Plan (EOP) following the Administrative Rules for Section 19, 1976 PA 390, as amended In accordance with these rules, the Support EOP shall be consistent with the County Emergency Operations Plan and will become part of the county plan.

The preparation of a Support EOP will increase emergency preparedness through the definition of the responsibilities of local departments and agencies. The plan assigns tasks that need to be accomplished when an incident occurs, and describes how local and county emergency management efforts are related. Maintaining a current Support EOP also establishes eligibility to receive Section 19 funding in accordance with Section 19 of 1976 PA 390, as amended If federal assistance does not become available after the Governor has declared a State of Disaster or Emergency, affected counties and municipalities can be eligible to receive state assistance up to $100,000 or 10% of their operating budget, whichever is less, to cover certain disaster related expenses. To be eligible for Section 19 funding, municipalities with a population of 10,000 and above that do not maintain an independent emergency management program must develop and submit a Support EOP to the county, and implement that plan in a timely manner at the beginning of the incident.

II.Scope

This document provides basic guidance and a template for the development of a Support EOP. The template (Attachment B) contains general information that can be adapted to any municipality. The annexes specify how the municipality will carry out common emergency support functions.

Also included with this document is a sample Emergency Management Resolution (Attachment B) that appoints the County Emergency Management Coordinator as the Emergency Management Coordinator of the municipality, and outlines how emergency management efforts on the local level are organized in relation to the County Emergency Management Program.

If either template is used, it should be reviewed and adjusted to the specific needs of each municipality. Municipalities that do not utilize the templates can develop individual plans or resolutions. Other available guiding materials for the development of EOPs include MSP/EMSHD Pub 201 (Local Planning Workbook) and FEMA Comprehensive Preparedness Guide 101.

III. Maintenance

Pub 204 has been developed by MSP/EMHSD and is maintained to ensure compliance with current national planning standards and relevant state laws pertaining to emergency planning. This document was last updated in August 2015 and supersedes the October 2011 version. It will be updated every four years

DEVELOPING THE PLAN

All stakeholders that are involved in the community response to emergencies and disasters should be involved in the development of the Support EOP. The County Emergency Management Program should work with the municipality to ensure that the plan is compatible with the County Emergency Operations Plan. A standardized planning approach can be used for the development of the Support EOP.

I. Plan requirements

The Administrative Rules for Section 19 of 1976 PA 390, as amended, establish four requirements for the development of Support EOPs In accordance with these requirements, Support EOPs shall:

1. **Describe the relationship between the County Emergency Management Program and the municipality:**
   The plan should state that the municipality has chosen to incorporate into the county program, coordinates emergency management related matters with the county program, and has assigned the County Emergency Management Coordinator as the responsible Emergency Management Coordinator for the municipality.

2. **Identify the municipality's response procedures in relation to the county response procedures:**
   The plan should establish annexes that describe common tasks that need to be accomplished when responding to an emergency or disaster, and assign responsibility for these tasks to municipal departments and other local agencies. The annexes should identify the responsible agencies on the local level that coordinate and share information with at the county level, and clarify joint responsibilities Annexes in the Support EOP should also identify which annex or annexes they relate to in the County EOP.

3. **Be maintained in accordance with the standards and currentness of the county plan, be consistent with the county plan:**
   The efforts described in local and county plans should be consistent and complement each other To maintain the Support EOP in currentness with the County EOP, updates to the local plan are necessary whenever the county plan is updated. When the County EOP is updated, the Support EOP should be revised to ensure that it is still compatible with the county plan.

4. **Contain the signature of the Chief Executive Official (CEO) of the municipality, be forwarded to the county:**
   After a new Support EOP has been developed or an existing plan has been updated, the signature of the CEO (Mayor, Township Supervisor) needs to be obtained. If a change of the CEO occurs, the plan needs to be reviewed and the signature of the new official obtained. After the plan is signed, a copy must be forwarded to the County Emergency Management Program, where it should be filed with the County EOP.

II. Plan format

The plan should consist of a Basic Plan section and functional annexes.

The Basic Plan defines the purpose of the plan, provides a community profile, identifies hazards and community vulnerabilities, and describes the relationship between municipality and the County Emergency Management Program.

The annexes identify specific emergency management and response tasks that need to be accomplished before, during and after an incident, and assign responsibility for carrying out these tasks to local agencies. Annexes should be organized by emergency response functions or tasked agencies and can be written in narrative or bulleted style. While municipalities are not required to mirror the format used in the county plan, this can be beneficial. The template included with this document uses a bulleted "Emergency Action Guidelines" format for its annexes.

III. Planning process

The following seven step planning process also utilized in County EOP development should be used to develop a Support EOP. For additional information on the process steps, please refer to MSP/EMSHD Pub 201 (Local Planning Workbook).

1. **Form a collaborative planning team:**
   The planning team is the group of individuals responsible for designing, developing, and implementing the Support EOP. It should include representatives from all agencies that are committed to participate in emergency response activities within the municipality. Other stakeholders

that should be engaged in the planning process include representation from the municipality's executive office, the County Emergency Management Program, agencies that can provide insight into necessary accommodations for groups or individuals requiring Functional Needs Support Services (FNSS), schools, etc.

2. **Identify hazards and assess risks:**
The hazard analysis is the foundation upon which the municipality's emergency planning efforts should be built. It identifies conditions or situations that have the potential to cause harm to people or property in the community. The hazard analysis process involves four steps

Step 1: A profile of the community is developed (demographic and economic make-up, geography and land-use, key facilities, etc.).

Step 2. The development of a community profile is followed by the hazard identification, which should start with a review of the County Hazard Analysis or Hazard Mitigation Plan. Local resources should then be used to identify further hazards that are unique to the community and might not have been included in county documents.

Step 3: The assessment of risks explores how likely it is that a risk will manifest itself in an incident, how often this might occur, where it might occur, and what the severity of impact would be. Hazards should be ranked based on the expected frequency of occurrence and severity of impact.

Step 4: The vulnerability determination examines how susceptible citizens, property, infrastructure and critical systems are to the identified hazards.

3. **Determine Goals and Objectives:**
Developing clear goals and objectives will help the municipality to identify problems, issues and opportunities. Establishing goals outlines the vision of what the community wants to achieve. Goals can be pursued in the long-term, but need to be achievable. Objectives are specific and measurable strategies to achieve these goals. Often, multiple objectives will need to be established to support one goal.

4. **Plan Development:**
This step describes the conceptualization of the plan, which includes the generation and comparison of alternate strategies to achieve the established goals and objectives This involves two tasks: Developing and analyzing courses of actions to be conducted during an incident, and identifying the resources that determine the capability of the municipality to take these actions. Developing actions allows planners to depict how an operation unfolds by building and working through a portrait of a potential event, including key decision points and participant activities This helps to identify actions that occur and resources that will be required throughout the progression of an event.

After identifying potential strategies to achieve established goals, an important sub-step in the conzeptualization of the plan is the evaluation of actions to ensure that the actions that are selected to be included in the plan are feasible. It is critical to determine if required resources are available or easily obtainable during an incident, and if actions are compliant with laws and regulations, such as local ordinances and resolutions, legal authorities, law enforcement standards, and Governor's orders and directives.

5 **Plan Preparation, Review and Approval:**
When writing the plan, a simple format should be used. The finished plan must be compatible with the County EOP. This can be achieved by including references to the county plan, utilizing a similar format, or organizing annexes after similar emergency response functions. Feedback should be solicited from all stakeholders that are tasked within the plan, the County Emergency Management Program, and local elected officials. After the review process, necessary adjustments should be implemented. The municipality should adopt the plan by resolution, obtain the signature of the CEO, and forward a signed copy of the plan to the County Emergency Management Program

6. **Plan implementation and update:**
   The last step is to implement, maintain and update the plan. Plan updates are required after change of the CEO or when the County EOP has been updated. Plan reviews should also be considered after plan activations (during incidents or exercises), changes in operational resources, and changes in the community and/or hazard profile of the municipality. Lessons learned from actual events and exercises are essential to the evaluation of a plan's effectiveness, and help to determine if the plan is:

   - Adequate. The concept of operations identifies and addresses critical tasks effectively.
   - Feasible: Critical tasks can be accomplished timely and with available resources
   - Acceptable: The needs and demand driven by an event are met, actions meet the expectation of local officials and the public, and are consistent with law.
   - Complete The plan includes all necessary tasks, steps and required capabilities to reach an identified desired end state.
   - Compliant The plan complies with guidance and doctrine to the highest extent possible

FEMA Comprehensive Preparedness Guide 101 established adequacy, feasibility, acceptability, completeness and compliance as criteria that allow planners and decision makers to determine the efficiency and effectiveness of their plans.

EMERGENCY MANAGEMENT RESOLUTION

In addition to the development of a Support EOP, it is recommended that municipalities adopt a local Emergency Management Resolution. The Emergency Management Resolution should appoint the County Emergency Management Coordinator as the Emergency Management Coordinator responsible for the municipality, describe the local emergency management organization and its relationship to the County Emergency Management Program, and provide a means for the local legislative body to exercise the authority vested in them by 1976 PA 390, as amended Attachment A provides a sample Emergency Management Resolution.

ATTACHMENT A: SAMPLE EMERGENCY MANAGEMENT RESOLUTION

The following pages provide a sample Emergency Management Resolution. If used as a template, the sample resolution should be reviewed by municipality and county, and adjusted to meet local needs Before adoption, the resolution should be reviewed by the municipality's legal counsel.

(Municipality)
Emergency Management Resolution

A resolution to provide for the mitigation, preparedness, response and recovery from natural and human-made disasters within **(insert name of municipality)** by being part of the **(insert name of county)** emergency management program; to appoint the county emergency management coordinator as the **(insert name of municipality)** emergency management coordinator; to provide for a means for coordinating the resources of the municipality with those of the county; and to provide a means through which the **(city council? township board?)** may exercise the authority and discharge the responsibilities vested in them by this resolution and Act No. 390 of the Public Acts of 1976, as amended.

Article 1 - Short Title

Section 101. This resolution shall be known as the "Emergency Management Resolution".

Article 2 – Definitions

Section 201. For the purpose of this resolution, certain words used herein are defined as follows:

(a) "Act" means the Michigan Emergency Management Act, Act No. 390 of the Public Acts of 1976, as amended.(b) "Disaster" means an occurrence or threat of widespread or severs damage, injury or loss of life or property resulting from a natural or human-made cause, including but not limited to, fire, flood, snowstorm, ices storm, tornado, windstorm, wave action, oil spill, water contamination, utility failure, hazardous peacetime radiological incident, major transportation accident, hazardous materials incident, epidemic, air contamination, blight, drought, infestation, explosion, or hostile military action or paramilitary action, or similar occurrences resulting from terrorist activities, riots, or civil disorders

(c) "Disaster relief force" means all agencies of county and municipal government, private and volunteer personnel, public officers and employees, and all other persons or groups of persons identified in the **(insert name of county)** Emergency Operations Plan as having duties to perform or those called into duty or working at the direction of a party identified in the plan to perform a specific disaster or emergency related task during a local state of emergency.

(d) "District Coordinator" means the Michigan Department of State Police District Emergency Management Coordinator. The District Coordinator serves as liaison between local emergency management programs and the Michigan State Police, Emergency Management Division in all matters pertaining to the mitigation, preparedness, response and recovery of emergency and disaster situations

(e) "Emergency management coordinator" means the person appointed to coordinate all matters pertaining to emergency management within the municipality. The emergency management coordinator for **(insert name of municipality)** is the **(insert name of county)** emergency management coordinator

(f) "Emergency management program" means a program established to coordinate mitigation, preparedness, response and recovery activities for all emergency or disaster situations within a given geographic area made up of one or several political subdivisions. Such a program has an appointed emergency management coordinator and meets the program standards and requirements established by the Department of State Police, Emergency Management Division. The **(insert name of municipality)** has elected to be part of the **(insert name of county)** emergency management program.

(g) "Emergency operations plan" means the plan developed and maintained by county and political subdivisions included in the emergency management program area for the purpose of responding to all emergency or disaster situations by identifying and organizing the disaster relief force.

(h) "Governor's state of disaster" means an executive order or proclamation by the Governor that implements the disaster response and recovery aspects of the Michigan Emergency Management Plan and applicable local plans of the county or municipal programs affected.

(i) "Governor's state of emergency" means an executive order or proclamation by the Governor that implements the emergency response and recovery aspects of the Michigan Emergency Management Plan and applicable local plans of the county or municipal programs affected.

(j) "Local state of emergency" means a declaration by the **(mayor? township supervisor? other official designated in municipal charter?)**[1] pursuant to the act and this resolution which implements the response and recovery aspects of the **(insert name of county)**. Emergency Operations Plan and authorizes certain actions as described in this resolution.

(k) "Vital records" means those records that contain information needed to continue the effective functioning of a government entity **(jurisdiction, agency, department)** and for the protection of the rights and interests of persons under emergency conditions in the event of an emergency or disaster situation.

Article 3 - Emergency Management Coordinator; Appointment

Section 301 By the authority of this resolution the **(mayor? township supervisor? other official designated in municipal charter?)** hereby appoints the **(insert name of county)** Emergency Management Coordinator as the emergency management coordinator for **(insert name of municipality)**.[2] In addition to acting for, and at the direction of, the **(chairperson? county executive?)**, the Emergency Management Coordinator will also act for, and at the direction of, the **(mayor? township supervisor? other official designated in municipal charter?)**.[3]

Section 302. A line of succession for the **(insert name of county)** Emergency Management Coordinator has been established and is listed in the **(insert name of municipality)** Emergency Operations Plan

Article 4 - Emergency Management Coordinator; Duties

Section 401. The Emergency Management Coordinator shall comply with standards and requirements established by the Department of State Police, Emergency Management Division, under the authority of the act, in accomplishing the following[4]:

(a) Direct and coordinate the development of the **(insert name of county)** Emergency Operations Plan, which shall be consistent in content with the Michigan Emergency Management Plan.

(b) Direct and coordinate the development of the **(insert name of county)** Emergency Operations Plan, which shall be consistent in content with the Michigan Emergency Management Plan.

(c) Specify departments or agencies which must provide an annex to the plan or otherwise cooperate in its development.

(d) Identify departments and agencies to be included in the Emergency Operations Plan as disaster relief force.

(e) Develop and maintain a county Resource Manual.

(f) Coordinate the recruitment, appointment, and utilization of volunteer personnel.

---

[1] According to Act 390, as amended, sec. 10 (1) (b) any county or municipality that has an appointed emergency management coordinator can declare a local state of emergency. This power is given to the "chief executive official" (see definitions in the act) or the official designated by charter.

[2] Act 390, as amended, sec 9 (2-3) states that the coordinator shall be appointed by the "chief executive official" (see definitions in the act) in a manner provided in the municipal charter.

[3] Act 390, as amended, sec 9 (1-3) states that the appointed county coordinator shall act for and at the direction of the chairperson or county executive. It also says that a coordinator appointed by a municipality shall act for and at the direction of the "chief elected official" (see definitions in the act) or the official designated by the municipal charter.

[4] Act 390, as amended, sec. 7a (4) gives the Emergency Management Division the authority to promulgate several standards and requirements.

(g) Assure the emergency management program meets eligibility requirements for state and federal aid.

(h) Coordinate and/or conduct training and exercise programs for the disaster relief force within the county and to test the adequacy of the Emergency Operations Plan.

(h) Through public information programs, educate the population as to actions necessary for the protection of life and property in an emergency or disaster.

(i) Assist in the development of mutual aid agreements

(j) Assist the **(insert name of municipality)** municipal liaison with the development of municipal standard operating procedures which are consistent with the county Emergency Operations Plan.

(k) Oversee the implementation of all functions necessary during an emergency or disaster in accordance with the Emergency Operations Plan

(l) Coordinate county emergency management activities with those municipalities included in the county emergency management program, other municipalities, the state, and adjacent counties.

(m) Coordinate all preparedness activities, including maintaining primary and alternate Emergency Operations Centers

(n) Identify mitigation opportunities within the county and encourage departments/agencies to implement mitigation measures

Article 5 - Emergency Management Liaison; Duties

Section 501. By the authority of this resolution the **(mayor? township supervisor? other official designated in municipal charter?)** has appointed a liaison for the purpose of assisting the county Emergency Management Coordinator in coordinating the emergency management activities within the municipality The duties of the liaison are as follows:

(a) Coordinate municipal emergency management activities with those of the county jurisdictions.

(b) Assist the county Emergency Management Coordinator with the development of the county Emergency Operations Plan and the incorporation of municipal resources into the plan.

(c) Identify municipal departments and agencies to be included in the Emergency Operations Plan as part of the disaster relief force.

(d) Identify municipal resources and forward information to the county Emergency Management Coordinator for inclusion in the county Resource Manual.

(e) Coordinate the recruitment, appointment, and utilization of volunteer resources.

(f) Assist the county Emergency Management Coordinator with administering training programs.

(g) Coordinate municipal participation in exercises conducted by the county.

(h) Assist in the development of mutual aid agreements.

(i) Assist in educating the population as to actions necessary for the protection of life and property in an emergency or disaster.

(j) Encourage departments/agencies within the municipality to identify and implement procedures to mitigate the effects of potential disasters.

(k) Assist in the assessment of the nature and scope of the emergency or disaster and collect damage assessment information and forward to the county.

(l) Coordinate the vital records protection program.

(m) Develop municipal standard operating procedures for disaster response which are consistent with the county Emergency Operations Plan

Section 502. The **(mayor? township supervisor? other official designated in municipal charter?)** shall appoint a minimum of two persons as successors to the position of the municipal liaison. The line of succession shall be supplied to the county Emergency Management Coordinator.

Article 6 - (Mayor? Township supervisor? Other official designated in municipal charter?); Powers; Duties

Section 601. On an annual basis, the **(mayor? township supervisor? other official designated in municipal charter?)** shall review the eligibility and performance of the Emergency Management Coordinator and make recommendations to the **(city council? township board?)**.[4]

Section 602. The **(mayor? township supervisor? other official designated in municipal charter?)** shall, review the effectiveness of the **(insert name of county)** county Emergency Operations Plan as the plan relates to the municipality once every two years. With the assistance of the municipal liaison, he\she shall make recommendations to the county Emergency Management Coordinator of any changes which may be needed After this review and incorporation of necessary changes, the **(mayor? township supervisor?)** shall certify the plan to be current and adequate for **(insert name of municipality)** the ensuing two years.[5]

Section 603. When circumstances within the **(city? township?)** indicate that the occurrence or threat of occurrence of widespread or severe damage, injury or loss of life or property from natural or human-made cause exists the **(mayor? township supervisor? other official designated in municipal charter?)** may declare a local state of emergency.[1] Such a declaration shall be promptly filed with the **(insert name of county)** county Emergency Management Office, who shall forward it to the Department of State Police, Emergency Management Division. This declaration shall not be continued or renewed for a period in excess of 7 days except with the consent of the **(city council? township board?)**.[6]

Section 604. If the **(mayor? township supervisor? other official designated in municipal charter?)** invokes such power and authority, he/she shall, as soon as reasonably expedient, convene the **(city council? township board?)** for one or more emergency meetings in accordance with the Open Meetings Act to perform its normal legislative and administrative duties as the situation demands, and will report to that body relative to emergency activities. Nothing in this resolution shall be construed as abridging or curtailing the powers of the **(city council? township board?)** unless specifically provided herein

Section 605. The **(mayor? township supervisor? other official designated in municipal charter?)** may do one or more of the following under a local state of emergency:

(a) Direct the Emergency Management Coordinator to implement the Emergency Operations Plan.

(b) Issue directives as to travel restrictions on local roads within the municipality.

(c) Relieve **(city? township?)** employees of normal duties and temporarily reassign them to other duties

(d) Activate mutual aid agreements.

(e) Direct the municipal disaster relief effort in accordance with the county Emergency Operations Plan and municipal standard operating procedures

(f) Notify the public and recommend in-place or evacuation or other protective measures.

(g) Request a state of disaster or emergency declaration from the Governor as described in Article 7.

(h) When obtaining normal approvals would result in further injury or damage, **(mayor? township supervisor? other official designated in municipal charter?)** may, until **(city council? township board?)** convenes, waive procedures and formalities otherwise required pertaining to the following:

(1) For a period of up to 7 days, send the disaster relief force and resources to the aid of other communities as provided by mutual aid agreements.

(2) For a period of up to 7 days, appropriate and expend funds from the disaster contingency fund created in Article 9 up to **$(insert dollar amount)**.

---

[5] Rule 4 (c) (d-q) of the administrative rules promulgated for Act 390, sec. 19 states that the plan shall be considered official upon bearing the signature of the chief executive official of the municipality. The plan must be current and adequate (see rule) within two years

[6] Act 390, as amended, sec. 10 (1) (b) provides for the 7 day limit and disposition of the declaration.

(3) For a period of up to 7 days, make contracts, obtain and distribute equipment, materials, and supplies for disaster purposed

(4) Employ temporary workers

(5) Purchase and distribute supplies, materials, and equipment.

(6) Make, amend, or rescind ordinances or rules necessary for emergency management purposes which supplement a rule, order, or directive issued by the Governor or a state agency Such an ordinance or rule shall be temporary and, upon the Governor's declaration that a state of disaster or state of emergency is terminated, shall no long be in effect.[7]

Section 606 If a state of disaster or emergency is declared by the Governor, assign and make available for duty the employees, property, or equipment of the **(city? township?)** within or without the physical limits of the **(city? township?)** as ordered by the Governor or the Director of the Department of State Police in accordance with the act [8]

Article 7 - Governor Declaration Request

Section 701. If a disaster or emergency occurs that has not yet been declared to be a state of disaster or a state of emergency by the Governor, and the **(mayor? township supervisor? other official designated in municipal charter?)** determines that the situation is beyond control of the municipality, he/she may request the Governor to declare that a state of disaster or state of emergency exists in the municipality in accordance with the act. This shall be done by immediately contacting the **(insert name of county)** Emergency Management Coordinator. The Emergency Management Coordinator shall immediately contact the District Coordinator. The District Coordinator, in conjunction with the Emergency Management Coordinator, shall assess the nature and scope of the disaster or emergency, and they shall recommend the state personnel, services, and equipment that will be required for its prevention, mitigation, or relief.[9]

Article 8- Volunteers; Appointment; Reimbursement

Section 801. Each municipal department, commission, board, or other agency of municipal government is authorized to appoint volunteers to augment its personnel in time of emergency to implement emergency functions assigned in the county Emergency Operations Plan. Such individuals are part of the disaster relief force and shall be subject to the rules and operational control set forth by the respective department, commission, board, or agency through which the appointment was made, and shall be reimbursed for all actual and necessary travel and subsistence expenses.[10]

Article 9 - Disaster Contingency Fund

Section 901. A disaster contingency fund is hereby created in the budget of not less than **(enter percent of the total operating budget or an amount)**. Money may be expended from the fund when a local state of emergency has been declared for the purpose of paying the disaster relief force, purchase of supplies and services, repair costs, or other needs required specifically for the mitigation of the effects of, or in response to, the emergency or disaster.

Article 10 - Rights of Disaster Relief Force

Section 1001 In accordance with the act, personnel of the disaster relief force while on duty shall have the following rights:

---

[7] Act 390, as amended, sec.12 (2) provides this authority.

[8] Act 390, as amended, sec. 10 (1) (h) provides this authority.

[9] Act 390, as amended, sec.12 states that the "chief executive official" (see definitions in act) of a county or any municipality may make this request However, he/she must do this utilizing the procedures set forth in sec. 14 of the act which states that the appointed emergency management coordinator and the district coordinator must jointly assess the situation and make recommendations.

[10] Act 390, as amended, sec 11 (1) (a-c) discusses disaster relief force rights and duties.

(a) If they are employees of the municipality, or other governmental agency regardless of where serving, have the powers, duties, rights, privileges, and immunities and receive the compensation incidental to their employment

(b) If they are not employees of the municipality, or other governmental agency be entitled to the same rights and immunities as are provided for by law.[10]

Article 12 - Temporary Seat of Government

Section 1201 The **(city council? township board?)** shall provide for the temporary movement and reestablishment of essential government offices in the event that existing facilities cannot be use.

Article 13 - Liability

Section 1301. As provided for in the act and this resolution, the municipality, or the agents or representatives of the municipality, shall not be liable for personal injury or property damage sustained by the disaster relief force. In addition, any member of the disaster relief force engaged in disaster relief activity shall not be liable in a civil action for damages resulting from an act of omission arising out of and in the course of the person's good faith rendering of that activity, unless the person's act or omission was the result of that person's gross negligence or willful misconduct. The right of a person to receive benefits or compensation to which he or she may otherwise be entitled to under the worker's compensation law, any pension law, or act of congress will not be effected as a result of said activity.[11]

Section 1302. As provided for in the act, any person owning or controlling real estate or other premises who voluntarily and without compensation grants the municipality the right to inspect, designate and use the whole or any part of such real estate or premises for the purpose of sheltering persons or for any other disaster related function during a declared local state of emergency or during an authorized practice disaster exercise, shall not be civilly liable for the death of, or injury to, any person on or about such real estate or premises under such license, privilege or other permission, or for loss of, or damage to, the property of such person.[11]

Article 14 - Sovereignty

Section 1401 Should any section, clause, or provision of this resolution be declared by the courts invalid for any reason, such declaration shall not affect the validity of this resolution as a whole or any part thereof, other than the section, clause, or provision so declared to be invalid.

Article 15 - Repeals

Section 1501. All resolutions or parts of resolutions inconsistent herewith are hereby repealed.

Article 16 - Annual Review

Section 1601. This resolution shall be reviewed annually by the **(city council? township board?)** and changes shall be made if necessary.

Article 17 - Effective Date

Section 1701 This resolution shall have immediate effect

(The community may choose to adopt either an ordinance or resolution, whichever is the most appropriate procedure within the community, and promulgate it according to normal procedures)

[11] Act 390, as amended, sec. 11 (2-8) discusses liability.

ATTACHMENT B: SAMPLE SUPPORT EMERGENCY OPERATIONS PLAN

The following pages provide a sample Support Emergency Operations Plan. If used as a template, the sample plan should be reviewed and adjusted to meet local needs

SUPPORT EMERGENCY OPERATIONS PLAN

An all-hazards plan supporting the **(County Emergency Operations Plan/Emergency Action Guidelines)**, for use in the event of disaster or severe emergency of natural, human, wartime, technological or terrorism origin.

(Date)

The information contained in this template, developed by the Michigan State Police, Emergency Management and Homeland Security Division (MSP/EMHSD), should be used to assist in developing a Support Emergency Operations Plan which must then be reviewed by the Local Planning Team (LPT) and modified based on the community's emergency response capabilities.

Promulgation Document

Officials of **(Municipality)**, in conjunction with County and State Emergency Eanagement (EM) agencies, have developed this Support Emergency Operations Plan that will enhance the local emergency response capability.

This plan, when used properly and updated, will assist local government officials to accomplish their primary responsibilities of protecting lives and property in their community. This plan and its provisions will become official when it has been signed and dated below by the Chief Executive Official (CEO) of the municipality.

_____ _____

Chief Executive Official Date
(Municipality)

Approval and Implementation

The Support Emergency Operations Plan, referred to in this document as the Support EOP, describes how **(Municipality)** will handle emergency situations in cooperation with the **(County)** Emergency Management Program. The Support EOP assigns responsibilities to agencies for coordinating emergency response activities before, during, and after any type of emergency or disaster. The Support EOP does not contain specific instructions as to how each department will respond to an emergency, these can be found in the plan annexes or separate Standard Operating Procedures (SOP).

The goal of the Support EOP is to coordinate emergency response efforts to save lives, reduce injuries, and preserve property. The Support EOP addresses emergency issues before and after an emergency, but its primary goals are to assemble, mobilize and coordinate a team of responders that can respond to any emergency, and describe response procedures in relation to the county response procedures

The Support EOP will use a graduated response strategy that is in proportion to the scope and severity of an emergency. **(Municipality)** will plan, prepare and activate resources for local emergencies that affect the local area (or a specific site) and/or widespread disasters that affect the entire state and/or nation

The Support EOP was developed by a Local Planning Team (LPT). The LPT consists of key departments covering emergency functions such as law enforcement, fire, public works, and public health. The team works to establish and monitor programs, reduce the potential for hazard events in the community through planning, review, and training, and assist the **(County)** Emergency Management Program in developing and maintaining the County EOP.

The Support EOP must be signed by the current CEO each time it is updated, with the exception of the following activities:

1. Minor updates e.g changing system names, grammar, spelling or layout changes
2 Updates to the annexes

These activities may be updated in the plan without the CEO signature by the following individuals:

1 Emergency Management Liaison
2 Department head responsible for an annex

Homeland Security Presidential Directive (HSPD) 5 facilitates a standard management approach to major incidents, the National Incident Management System (NIMS). NIMS is administered as part of the National Response Framework (NRF) which integrates the federal government into a single, all discipline, and all-hazards plan. NIMS will provide a nationwide approach that enables federal, state, tribal and local government agencies to "work effectively and efficiently together to prepare for, respond to, and recover from domestic incidents, regardless of cause, size or complexity." This Support EOP has integrated NIMS concepts, including the Incident Command System (ICS), and language to help incident management operate in accordance to the NIMS using the guidance provided by the Department of Homeland Security (DHS).

During an emergency, all response personnel will use the ICS to manage the incident and employ emergency resources at the site. The Emergency Operation Center (EOC) will coordinate additional resources when needed. This EOP will be used during community recovery after an emergency.

This plan supersedes all previous plans.

Record of Revisions

The following is a list of revisions made to the Support EOP This chart tracks the date that changes were made, reason for the changes, updated pages, and who made the revision.

Date	Reason for Revision	Page Numbers	Revised By

Record of Distribution

The following is a list of the individuals and facilities that have been provided a copy of the Support EOP in order to conduct the assigned tasks addressed in this plan

Title of Recipient	Name of Recipient	Agency	Date	Number of Copies
Chief Executive Official				
(Legislative body, e.g. City Council/Commission, Township Board of Commissioners)				
(County) Emergency Management Coordinator				
(Municipality) Emergency Management Liaison				
Communications and Warning Official				
Damage Assessment Official				
Fire Services Official				
Mass Care, Emergency Assistance, Housing, and Human Services Official				
Public Health and Medical Services Official				
Public Information Official				
(Municipality) Public Information Center				
(Municipality) Emergency Operations Center				

Basic plan

Purpose

(Municipality) has elected to incorporate into the **(County)** Emergency Management Program. As partners in the five phases of emergency management, mitigation, preparedness, prevention, response and recovery, **(Municipality)** and the **(County)** Emergency Management Program share joint responsibilities. The **(Municipality)** Support EOP has been developed to identify these responsibilities. It is to be used in concurrence with the County EOP. In accordance with Section 19 of the Michigan Emergency Management Act (1976 PA 390, as amended), activation of this this plan at the beginning of a disaster or emergency also establishes eligibility to receive state assistance for disaster related expenses incurred during a State of Emergency or Disaster declared by the Governor, for which federal assistance is unavailable.

Scope

The **(Municipality)** Support EOP is an adaptable document that can be applied to all hazards. Due to the unique nature of emergencies, it may become necessary to deviate from the contents of the plan when responding to an incident Agencies that have been assigned supporting roles in this plan have developed and will maintain SOPs that provide systematic instructions for accomplishing their assigned functions. The local government conducts additional activities, such as personnel training, participation in exercises, public information, land-use planning, etc., to support emergency preparedness, mitigation, and response efforts. To facilitate efficient emergency management operations, **(Municipality)** continues to implement the NIMS

Authorities and References

A. Authority of local officials during an emergency·

Plan Development and Maintenance

To ensure that this Support EOP addresses the needs of the community and is consistent with the **(County)** EOP, this document was developed in a cooperative, whole community effort between municipal

government, local community, and the County Emergency Management Program. The Support EOP is updated after every change of the municipal CEO or update to the County EOP. After the plan is adopted by resolution of the **(council/board)** and approved by the CEO, it is forwarded to the County Emergency Management Program. The plan will be implemented, tested through exercises in concurrence with county officials, and maintained in accordance with the standards and currentness of the **(County)** EOP.

This plan has been provided to all municipal departments, local elected officials, the County Emergency Management Program and all agencies tasked within the document It includes this Basic Plan, which provides an overview of the municipality's preparedness and response strategies, and functional annexes that describe the actions, roles and responsibilities of participating organizations

Situation Overview

B. **(Municipality)** has taken various preparedness and incident management steps to enhance capabilities in responding to incidents including:

1. The mitigation of potential hazards
2. Identification of emergency response agencies and mechanisms that will protect life and property before, during and after an emergency
3. Tasking agencies, organizations, and individuals with specific functions and responsibilities relative to emergency operations. Assigned tasks are explained in further detail under "Organization and Assignment of Responsibilities "
4. Integration with the **(County)** EOP, **(County)** hazard mitigation plan, MEMP, etc.

C. Community profile·

(Municipality) is located in the **(geographical area)** of **(County)**. The community has a population of **(number)** residents. Approximately **(percentage)** of residents have been recognized as individuals with Access and Functional Needs. Many of the residents that require Functional Needs Support Services (FNSS) reside in congregate care centers, while others reside in non-group homes where support is provided as needed or on-call.

D Hazard and threat analysis·

According to the **(County)** **(Hazard Mitigation Plan/Hazard Analysis)**, communities in the county are most vulnerable to: **(common hazards)**. Areas within **(Municipality)** that are especially vulnerable to these hazards are: **(locations)**. Additional hazards that have been identified as unique to **(Municipality)** include: **(unique local hazards)**

(Number) sites that contain extremely hazardous materials are located in **(Municipality)**. Facility owners have reported the types of hazardous materials that are stored on-site, as required by the Emergency Planning and Community Right-To-Know Act (EPCRA). Pursuant to SARA Title III requirements, off-site emergency response plans have been developed by the Local Emergency Planning Committee (LEPC) to prepare fire departments for responding to the release of the specific hazardous materials on these sites.

E. Relationship between municipality and County Emergency Management Program:

Emergency management and response are primarily local responsibilities. However, disasters and emergencies might exhaust the resources and capabilities of local governments. Therefore, **(Municipality)** has chosen to incorporate into the **(County)** Emergency Management Program. To coordinate emergency management related matters with the County Emergency Management Program, the **(Municipality)** has appointed the **(title)** to serve as the Emergency Management

Liaision The Emergency Management Liaison facilitates communication and coordination between **(Municipality)** and county, and is the local point of contact for the County Emergency Management Coordinator (EMC)

Planning Assumptions

A. The proper implementation of this plan will result in saved lives, incident stabilization, and property protection in **(Municipality)**

B. Some incidents occur with enough warning that necessary notification can be issued to ensure the appropriate level of preparation. Other incidents occur with no advanced warning.

C. Depending upon the severity and magnitude of the situation, local resources may not be adequate to deal with an incident It may be necessary to request assistance through volunteer organizations, the private sector, mutual aid agreements (MAAs)/memorandums of understanding (MOUs), and/or county, state and federal sources When provided, these will supplement, not substitute for, relief provided by local jurisdictions.

D All emergency response agencies within **(Municipality)** that have been tasked in the plan are considered to be available to respond to emergency incidents. Agencies will work to save lives, protect property, relieve human suffering, sustain survivors, stabilize the incident, repair essential facilities, restore services and protect the environment.

E. When a jurisdiction receives a request to assist another jurisdiction, reasonable actions will be taken to provide the assistance as requested

F Emergency planning is a work-in-progress; the Support EOP is consistently reviewed and updated.

G During an emergency or disaster, parts of the plan may need to be improvised or modified, if necessary, based on the situation.

Concept of Operations

A Activation of the Support EOP and declaration of a local state of emergency:

When a threat is perceived, the Emergency Management Liaison activates the this Support EOP and the local Emergency Operations Center (EOC) to facilitate activities that ensure the safety of people, property and environment. Pursuant to 1976 PA 390, as amended, the **(CEO/other official designated by charter)** may declare a local state of emergency for **(Municipality)** if circumstances indicate that the occurrence or threat of widespread or severe damage, injury, or loss of life or property exist. In the absence of the **(CEO/other official designated by charter)**, pursuant to local legislation, the **(title)** is authorized to declare a local state of emergency. Upon a local declaration, PA 390 authorizes the the **(Chief Executive Official/other official designated by charter)** to issue directives as to travel restrictions on local roads. To facilitate activities that ensure the safety of people, property and environment, a local declaration also activates this Support EOP and the municipal Emergency Operations Center (EOC). A local state of emergency shall not be continued or renewed for a period in excess of seven days except with the consent of the governing body of the municipality.

B. The following procedures are conducted and coordinated with the county in response to an incident:

1. The Emergency Management Liaison will perceive the threat, assess the hazard and ensure that municipal emergency response agencies, elected officials and County EMC are notified of the situation

2 Municipal agencies assess the nature and scope of the emergency or disaster.

3. If the situation can be handled locally, the following guidelines are used.

   a. The Emergency Management Liaison advises the CEO and coordinates all local emergency response actions.

   b. The Emergency Management Liaison activates the EOC. The EOC is located at **(address)** If this location is unavailable, the alternate EOC location is **(address)**.

   c. The CEO declares a local state of emergency. The Emergency Management Liaison notifies the County EMC and forwards the declaration to the County Emergency Management Program

   d Emergency Response Agencies are notified by the Emergency Management Liaison to report to the EOC through **(identify notification system(s), e.g., telephone, smart messaging, etc.)**

   e. The CEO directs departments/agencies to respond to the emergency in accordance with the guidelines outlined in this plan and its annexes, and issues directives as to protective actions and travel restrictions on local roads.

   f. The Emergency Management Liaison keeps the County EMC informed of the situation and actions taken.

4 If the emergency is beyond local control, municipal resources become exhausted, or special resources are needed, county assistance is requested through the County EMC.

5. If county assistance is requested, the County EMC assesses the situation and makes recommendations on the type and level of assistance The county will also take the following steps:

   a Activate County EOC and EOP

   b. Respond with county resources

   c. Activate MAA/MOUs to supplement county resources

   d. Notify MSP/EMSHD District Coordinator

   e Make available incident information to MSP/EMSHD and statewide agencies via the Michigan Critical Incident Management System (MI CIMS) online platform, by submitting and maintaining applicable MI CIMS boards and logs.

6. If county resources and capabilities are exhausted, the county requests the Governor to declare a State of Emergency or State of Disaster in accordance with procedures set forth in 1976 PA 390, as amended. If the emergency occurs solely within the confines of the municipality, the county shall not request state assistance or the Declaration of a State of Disaster or Emergency unless requested to do so by the municipal CEO.

Organization and Assignment of Responsibilities

A. Emergency Management Organization:

1. The **(Municipality)** emergency management organization is comprised of **(number)** agencies and departments that are responsible for conducting activities in response to emergencies within the community To facilitate an effective emergency response, these departments have been assigned to nine specific emergency functions. All agencies are responsible for implementing pre-disaster activities to prevent, mitigate and prepare for the various hazards that the community is vulnerable to These activities include awareness training and public education, exercising, preparing Standard Operating Procedures (SOPs) and job aides, hygienic practices to prevent spreading of infectious diseases, stockpiling equipment, regulating land-use, etc.

2 The following table lists the established emergency support functions, assigned agencies, primary points of contact, and phone numbers.

Function	Agency	Primary Contact	Phone
Direction, Control , and Coordination			
Communications and Warning			
Damage Assessment			
Fire Services			
Mass Care, Emergency Assistance, Housing, and Human Services			
Public Health and Medical Services			
Public Information			
Public Safety			
Public Works			

3 The following table lists the alternates designated to represent the emergency functions.

Agency	1st Alternate	2nd Alternate

4. **(Municipality)** maintains **(number)** fulltime departments. All departments contribute to the safety and welfare of the community. Each department employs qualified emergency personnel and maintains equipment that can be used in emergency response. A list of resources available for utilization during incidents can be requested through the Emergency Management Liaison. If resource needs exceed the capabilities of the community, the CEO may activate MAA/MOUs and pre-disaster contracts, or it may become necessary to request county assistance.

B Responsibilities.

1. The following responsibilities have been assigned to each organization that has been assigned responsibility in this plan:

   a Assist in the development, review and maintenance of Support EOP and County EOP.

   b. Report to the local EOC when activated for scheduled exercises or emergencies.

   c. Build capabilities and develop/maintain SOPs for specific functions or actions identified in the plan. Continuously review and update procedures.

   d. Maintain a list of resources available through the departments

   e. Establish MAA/MOUs and contracts with other jurisdictions and organizations to supplement municipal resources

   f. Activate MAA/MOUs and contracts with other organizations to supplement response activities when local resources become exhausted.

   g Train personnel in emergency management functions and NIMS/ICS concepts.

   h Protect vital records and other resources deemed essential for continuing government functions and each agency's emergency operations in accordance to procedures and policies.

   i Ensure compliance with this plan and the County EOP, and any pertinent procedures and documents that impact the provision of emergency services in the municipality.

2. The annexes attached to this plan further describe nine emergency support functions and their associated responsibilities in mitigation, preparedness, prevention, response and recovery. Annexes include the organizations that are responsible for carrying out the emergency functions, and assign tasks associated with each function.

ANNEXES

The annexes attached to the Basic Plan describe all-hazard functions and include the roles and responsibilities that each responsible agency should consider during an emergency for which the Support EOP has been activated. Each annex contains: the agencies responsible for carrying out a function, their assigned tasks, and the concept of operations

The annexes attached to this plan include the following functions

Annex A, Direction, Control, and Coordination

Annex B, Damage Assessment

Annex C, Communications and Warning

Annex D, Fire Services

Annex E, Mass Care, Emergency Assistance, Housing, and Human Services

Annex F, Public Health and Medical Services

Annex G, Public Information

Annex H, Public Safety

Annex I, Public Works

ANNEX A

DIRECTION, CONTROL, AND COORDINATION

The Direction, Control, and Coordination function is responsible for the activation, organization and operation of the local EOC, the facilitation of incident management, response, and recovery efforts, and coordination with the County Emergency Management Program.

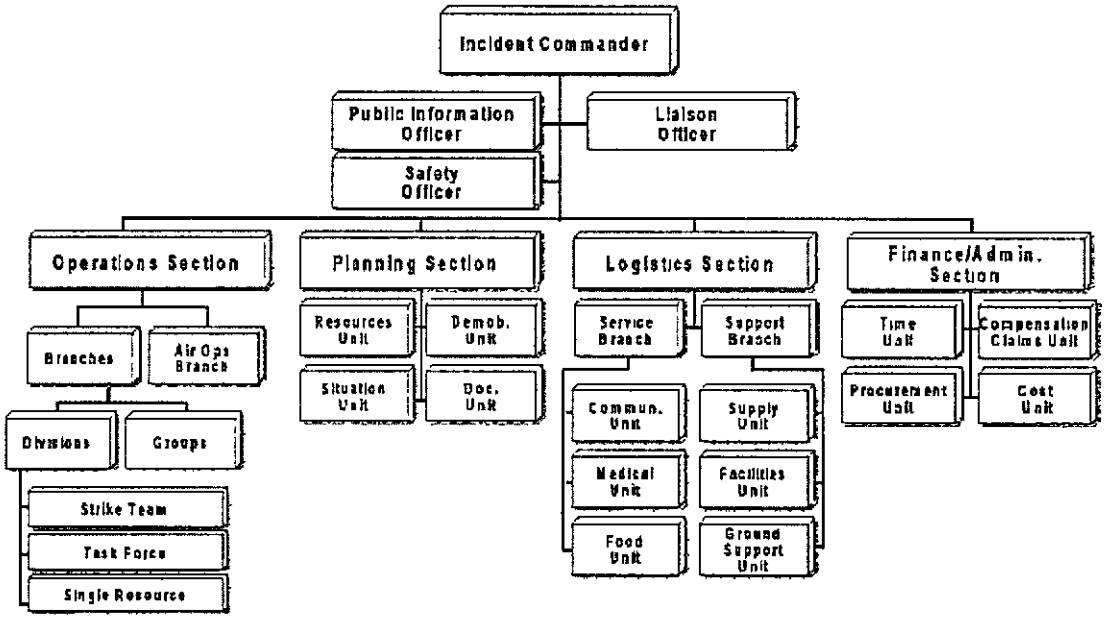
Direction, Control, and Coordination officials will maintain liaison and coordinate emergency management and response activities with the Direction, Control and Coordination function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Direction and Control Annex, ESF#5 – Information & Planning)**

Responsible Agency: Executive Office

Direction, Control, and Coordination Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan
	EOC operations
	Activate the EOC and ensure that appropriate staff is notified.
	Establish a system of coordination, such as ICS (see Figure 1), within the EOC. (Field operations at the ICP are required to utilize ICS.)
	Maintain administrative materials for the EOC, i.e., pencils, paper, maps, and status boards
	Ensure copies of the Support EOP and EOC SOPs are available to EOC staff.
	Coordinate with law enforcement officials for EOC security
	Local authority
	Direct and coordinate response activities in accordance with this plan, including prioritizing allocation of scarce resources.
	Relieve jurisdiction employees of normal duties and temporarily reassign them to emergency duties, and employ temporary workers, as necessary.
	Declare a local state of emergency
	Issue directives as to travel restrictions on municipal roads.
	Recommend appropriate protective measures to ensure the health and safety of people and property.
	Assistance to other agencies
	Advise the County Emergency Management Coordinator of the situation and maintain liaison with the County Emergency Management Program.
	Establish communications with and provide support to the Incident Command Post (ICP).
	Provide frequent staff briefings and ensure all groups function as planned.
	Inform legislative body of measures taken.
	Review and authorize the release of information to the public through the Public Information Officer (PIO).
	Logistics
	Ensure all resources are made available for response
	Formulate specific assistance requests to adjacent jurisdictions and the county.
	Activate MAA/MOUs and contracts with other jurisdictions and organizations
	Provide aid to other communities as provided for in MAA/MOUs.
	Ensure staff maintains logs of actions taken and financial records

Figure 1. ICS Incident Management Structure



DIRECTION, CONTROL, AND COORDINATION

The following agency is responsible for this annex.

AGENCY	TITLE OF CONTACT

The line of succession for the CEO for representing the Direction, Control, and Coordination function during a response to an emergency or disaster situation is

TITLE	AGENCY

The line of succession for the Emergency Management Liaison for representing the Direction, Control, and Coordination function during a response to an emergency or disaster situation is

TITLE	AGENCY

The CEO and Emergency Management Liaison are responsible for reporting or delegating an individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Direction, Control, and Coordination function.

SIGNATURE OF CHIEF EXECUTIVE OFFICIAL	DATE

SIGNATURE OF EMERGENCY MANAGEMENT LIAISON	DATE

ANNEX B

COMMUNICATIONS AND WARNING

The Communications and Warning function is responsible for alerting and notification of key officials, receiving and disseminating warning and critical emergency information to the public, and the establishment, maintenance, and coordination of communication protocols and links between the EOC and other incident facilities.

The Communications and Warning Official will maintain liaison and coordinate emergency management and response activities with the Communications and Warning functions at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Communications Annex and Warning Annex, ESF#2 – Communications and ESF#15 – External Affairs)**

Responsible Agency. **(e.g., 911 Dispatch Center, IT Department)**

Communications and Warning Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Communication links
	Ensure lines of communication have been established between all agencies represented in the local EOC, their department offices and their staff at the incident site. Available channels for establishing communications includes **(communications channels, e.g. telephone, cell phone, radios, pagers, etc.)**
	Coordinate communications between municipal and county EOC. Available channels for establishing communications include **(communications channels, e.g. telephone, cell phone, radios, pagers, etc.)**
	Establish communications links with the adjacent communities and higher levels of government
	Coordinate warning frequencies and procedures with adjacent communities and other government agencies
	Disaster warning and information
	Activate public warning systems when instructed to do so by the CEO or Emergency Management Liaison. Warning methods include **(warning methods, e.g., sirens, door-to-door notification, reverse 911, etc.)**
	Ensure that warning messages received through the Law Enforcement Information Network (LEIN), National Warning System (NAWAS), Emergency Alert System (EAS), local weather spotters, or other verifiable means are issued in a timely manner.
	Determine which facilities are endangered by the incident and contact those facilities. Ensure they are contacted when protective actions are rescinded.
	Notify special locations (e.g., schools, hospitals, nursing homes, major industries, institutions, and places of public assembly)
	Ensure that public warning systems provide notification to residents with Access and Functional Needs, such as the elderly, hearing impaired, non-English speakers, individuals with mobility limitations, etc
	Official notification
	Ensure that all necessary officials have been notified and/or updated about the incident.
	Notify neighboring jurisdictions of impending hazard or hazardous situations when instructed to do so by the Chief Executive Official or Emergency Management Liaison

COMMUNICATIONS AND WARNING

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Communications and Warning function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Communications and Warning function.

ANNEX C

DAMAGE ASSESSMENT

The Damage Assessment (DA) function is concerned with the process of documenting damage from emergencies in the community. Information gathered may be used to determine the extent of damage and impact on the community resulting from an incident to justify future federal funding, declarations of emergency, and disaster proclamations. An accurate damage assessment is a necessary part of the recovery phase and determines qualification for state and federal disaster aid.

The Damage Assessment Official will maintain liaison and coordinate emergency management and response activities with the DA function at the county level This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Damage Assessment Annex, ESF#5 – Informtion & Planning and ESF#14 – Long-Term Community Recovery)**

Responsible Agency. **(e.g., Assessing Office, Building Department)**

Damage Assessment Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Damage assessment
	Maintain current list of DA field team members.
	Maintain damage assessment field team supplies for contingency purposes, i.e., MSP/EMSHD Pub 901 Michigan Damage Assessment Handbook, blank forms, flashlights, cameras, pencils, paper, maps, etc.
	Activate DA field teams
	Collect both public and private damage assessment information.
	Record initial information on damages from first responders
	Augment DA field teams, as the situation dictates.
	Dissemination of DA information
	Provide an initial DA to EOC staff.
	Provide and verify DA information to the CEO and, if necessary, assist in preparation of a local state of emergency declaration.
	Prominently display DA information in the EOC, including maps, situation updates and assessment data
	Provide the PIO with current DA information for release to the public.
	Provide DA data to the Emergency Management Liaison The Emergency Management Liaison will forward information to the County Emergency Management Program for submission in MI CIMS.
	Logistics
	Maintain a status list of requested resources.
	Compile and maintain a record of expenditures for personnel, equipment, supplies, etc.

DAMAGE ASSESSMENT

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the DA function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the DA function.

SIGNATURE OF DAMAGE ASSESSMENT OFFICIAL	DATE

ANNEX D

FIRE SERVICES

The Fire Services function is concerned with detecting and suppressing wild land, rural, and urban fires and any of these that result from, or occur coincidentally with, an incident response.

The Fire Services Official will maintain liaison and coordinate emergency management and response activities with the Fire Services function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG): (Applicable county annexes or ESFs; e.g., Fire Annex, ESF#4 – Firefighting and ESF#9 – Search and Rescue, etc.)**

Responsible Agency. **(e.g., Fire Department)**

Fire Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Response activities
	Coordinate fire response and search and rescue activities with appropriate personnel at the County Emergency Management Program, including assistance to regional special teams such as Regional Response Teams, Michigan Urban Search and Rescue (MUSAR), bomb squads, etc.
	Respond to hazardous materials spills.
	Coordinate with the County EMC and the State of Michigan in the decontamination of affected citizens and emergency workers after exposure to CBRNE hazards.
	Assist in searching for bombs and explosive devices in connection with terrorism or weapons of mass destruction (WMD) events.
	Assistance to other agencies
	Advise EOC staff about fire and rescue activities
	Provide communications and other logistical supplies, as needed.
	Assist with evacuations.
	Assist in damage assessment operations.
	Assist in warning the population. Loud speakers on fire vehicles or door-to-door warning may be utilized.
	Assist in salvage operations and debris clearance

FIRE SERVICES

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Fire Services function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Fire Services Functions.

SIGNATURE OF FIRE SERVICES OFFICIAL	DATE

ANNEX E

MASS CARE, EMERGENCY ASSISTANCE, HOUSING, AND HUMAN SERVICES

This function is concerned with issues related to the provision of mass care, emergency assistance, housing, and human services to disaster survivors, including those that require FNSS, throughout the prevention, preparedness, mitigation, response, and recovery phases of disasters and emergencies.

The Mass Care, Emergency Assistance, Housing, and Human Services Official will maintain liaison and coordinate emergency management and response activities with the Mass Care functions at the county level This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Human Services Annex, ESF#2 – Communications and ESF#6 – Mass Care, Emergency Assistance, Housing, and Human Services)**

Responsible Agency. **(e.g., Recreation Department, Housing Office)**

Mass Care, Emergency Assistance, Housing, and Human Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Disaster-related needs
	Coordinate activities of municipal departments that provide mass care and human services.
	Coordinate with the County Emergency Management Program, the American Red Cross (ARC) and other agencies to distribute food, water, and clothing, and meet other basic needs of disaster survivors and emergency responders.
	Coordinate to provide transportation for disaster survivors and emergency responders.
	Arrange for the provision of crisis counseling to disaster survivors and emergency responders.
	Coordinate procedures for the tracking of family members and reunification of families.
	Identify and account for personal property that may be lost during a disaster.
	Coordinate with the County EOC to establish procedures for the registration and management of volunteers and donations.
	Coordinate with agencies in the community that work with individuals with access and functional needs to ensure disaster related needs are met
	Protective action
	Coordinate the provision of transportation for evacuation.
	Provide staff and resources to manage open shelters.
	Coordinate care for individuals at shelters and for those who have been sheltered-in-place.
	Determine whether shelters must be opened long or short-term.
	Provide guidance/policies for the care of household pets that are brought to shelters by evacuees (only service animals are allowed into ARC shelters).
	Pre-identified shelter locations include: **(shelter locations; information on pre-identified shelter locations should be available from the County Emergency Management Program or ARC)**

MASS CARE, EMERGENCY ASSISTANCE, HOUSING, AND HUMAN SERVICES

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Mass Care, Emergency Assistance, Housing, and Human Services function during a response to an emergency or disaster situation is

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Mass Care, Emergency Assistance, Housing, and Human Services function

SIGNATURE OF MASS CARE, EMERGENCY ASSISTANCE, HOUSING, AND HUMAN SERVICES OFFICIAL	DATE

ANNEX F

PUBLIC HEALTH AND MEDICAL SERVICES

The Public Health and Medical Services function is responsible for assessing public health and medical needs, health surveillance, and provision of medical care personnel, supplies and equipment.

The Public Health and Medical Services Official will maintain liaison and coordinate emergency management and response activities with the Public Health and Medical Services function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG) (Applicable county annexes or ESFs; e.g., Emergency Medical Services Annex and Public Health Annex, ESF#8 – Public Health and Medical Services)**

Responsible Agency: **(e.g., Fire Department, EMS agency)**

Public Health and Medical Services Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another representative from the agency to staff the EOC and implement the plan.
	Patient care
	Coordinate with medical providers and shelter managers to staff medical personnel at shelters.
	Identify the transportation resources and personnel needs to transport disaster survivors to temporary care centers.
	Provide transportation of patients and assist hospitals with transfer of patients.
	Ensure identification and notification of disaster survivors and emergency responders in need of crisis counseling and/or debriefing.
	Coordinate the monitoring of disaster survivors and emergency responders for exposure to chemical, radiological, or biological contaminants, and assist in their decontamination.
	Public health
	If necessary, identify a site for a temporary morgue. NOTE: The medical examiner is responsible for identifying the deceased. Law enforcement and EMS may provide additional support in collecting and transporting.
	Assist with animal and pet control and support the county Animal Control Unit in the quarantine and disposal of diseased animals

PUBLIC HEALTH AND MEDICAL SERVICES

The following agency is responsible for this annex

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Health and Medical Services function during a response to an emergency or disaster situation is

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Health and Medical Services function.

SIGNATURE OF HEALTH AND MEDICAL OFFICIAL	DATE

ANNEX G

PUBLIC INFORMATION

The Public Information function ensures accurate, coordinated, timely, and accessible information is disseminated to governments, media, the general public, and the private sector throughout the prevention, preparedness, mitigation, response, and recovery phases of disasters and emergencies.

The Public Information Official will maintain liaison and coordinate emergency management and response activities with the Public Information function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Public Information Annex, ESF#15 – External Affairs)**

Responsible Agency **(e.g., Executive Office)**

Public Information Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Pre-disaster public education
	Assist the Emergency Management Liaison in developing educational materials on the hazards facing the community and explaining what people can do to protect themselves to recover from incidents
	Ensure that written materials are developed for non-English speaking individuals or others who require FNSS.
	Disaster warning and information
	Develop and release updated EAS messages based on incoming information.
	Document which EAS messages have been delivered over radio and television.
	Ensure that accurate information is disseminated describing such items as the locations of shelters, missing persons information hotline, volunteer hotline, rumor control hotline, etc.
	Distribute prepared public educational materials.
	Media coordination
	Establish and maintain contact with the EOC and/or the ICP
	Prepare press releases and ensure that all press releases and official information is reviewed by **(positions that will review press releases, e.g. CEO, City/Township Manager, etc.)**.
	Verify that information is accurate before releasing it to the media.
	Schedule media briefings.
	Establish a Public Information Center as the central point from which municipal news releases are issued at **(location)**.
	Assist the county in establishing a Joint Information Center (JIC; the JIC can be used by agency representatives for releasing information to the news media).
	Coordinate public information activities with the County PIO and the JIC.
	Schedule interviews between the CEO and media agencies.
	Monitor all forms of media, both traditional and social, for rumors, and address rumors as soon as possible

PUBLIC INFORMATION

The following agency is responsible for this annex:

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Information function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Information function.

SIGNATURE OF PUBLIC INFORMATION OFFICIAL	DATE

ANNEX H

PUBLIC SAFETY

The Public Safety function is concerned to ensuring the safety of all citizens, maintaining law and order, protecting public and private property and providing protection for essential industries, supplies and facilities.

The Public Safety Official will maintain liaison and coordinate emergency management and response activities with the Public Safety function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Law Enforcement Annex, ESF#13 – Public Safety and Security)**

Responsible Agency: **(e.g., Police Department)**

Public Safety Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan.
	Response activities
	Provide security and access control at critical facilities and incident sites
	Implement any curfews ordered by the governor or CEO.
	Enforce evacuation orders and assist in evacuations.
	Ensure prisons and jails are notified of potential threat and determine whether proper safety and security precautions are being taken.
	Implement urban search and rescue capabilities, including animals.
	Investigate incident and provide intelligence information to county, state and federal officials.
	Transportation
	Secure unusable roads. (Use Fire Services and Public Works for support, if necessary).
	Identify routes that need barricades and signs Request necessary assistance from Public Works
	Ensure vehicles on evacuation routes are removed. If necessary, request that Public Works agencies move vehicles off the road. Maintain record of where vehicles are being taken
	Coordinate with the Road Commission or Public Works in rerouting traffic and putting the appropriate signs in place
	Assistance to other agencies
	Assist Warning function in warning the public, when necessary.
	Assist the medical examiner with mortuary services.
	Assist families isolated by the effects of the disaster.

PUBLIC SAFETY

The following agencies are responsible for this annex

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Safety function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Safety function.

SIGNATURE OF PUBLIC SAFETY OFFICIAL	DATE

ANNEX I

PUBLIC WORKS

The Public Works function is responsible for conducting pre- and post-incident assessments, ensuring critical services are met through existing contracts, providing technical assistance and engineering expertise and construction management, providing emergency repair of damaged public infrastructure and critical facilities, and the clearing of debris from public roads.

The Public Works Official will maintain liaison and coordinate emergency management and response activities with the Public Works function at the county level. This annex relates to the following annex(es) in the **(County EOP/EAG)**: **(Applicable county annexes or ESFs; e.g., Public Works Annex, ESF#1 – Transportation, ESF#3 – Public Works and Engineering and ESF#12 – Energy)**

Responsible Agency: **(e.g., Public Works Department)**

Public Works Checklist

	Report to the EOC, when activated, for scheduled exercises and disasters, or delegate another from the agency to staff the EOC and implement the plan
	Response activities
	Coordinate debris removal activities.
	Coordinate activities designed to control the flow of floodwater.
	Damage assessment
	Provide engineering expertise to inspect public structures and determine if they are safe to use.
	Provide DA information for roads, bridges, buildings, infrastructure, etc. to DA function.
	Transportation
	Provide barricades and signs for road closures and boundary identification (to include activating MAA/MOUs if additional barricades are needed)
	Provide technical expertise in road weight limits, road capacity, etc., to determine whether evacuation routes are adequate for traffic flow.
	Notify law enforcement of the location(s) of disabled vehicles.
	Contact appropriate Michigan Department of Transportation (MDOT) and county transportation officials to request travel restrictions on state and county roads, if necessary
	Assistance to other agencies
	Assist in identifying access control areas.
	Assist with urban search and rescue activities, if necessary.
	Maintain contact with local utilities to determine the extent and cause of damage and outages. Report this information and restoration schedules to EOC staff.
	Coordinate with utility companies in the restoration of essential services.
	Logistics
	Provide vehicles and personnel to transport essential goods, such as food and medical supplies, when directed by the EOC staff
	In conjunction with public health, help identify sources of potable water.
	Assist in identifying and obtaining the appropriate construction equipment to support disaster response and recovery operations.
	Provide emergency generators and lighting.

PUBLIC WORKS

The following agencies are responsible for this annex

AGENCY	TITLE OF CONTACT

The line of succession for representing the Public Works function during a response to an emergency or disaster situation is:

TITLE	AGENCY

(Title of individual or responsible department) is responsible for reporting or delegating another individual from their agency to report to the EOC during scheduled exercises or emergencies to coordinate and represent the Public Works function.

CITY OF FLINT

INCIDENT ACTION PLAN

STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
  - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **IN PROGRESS Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements**: The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**
a. Transfer Station to Dort Reservoir	*$4,500,000*
b. Raw water line to pump station #4	*$636,000*
c. Phosphoric acid feed system	*$186,000*
d. Alum Feed system	*$40,000*
e. Post filtration system	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

> **Subject: Senator Peters in Flint tomorrow**
>
> Hi Capt. Kelenske and Mr. Fitzgerald,
>
> I apologize for the late notice, but I just wanted to give you the heads up that Senator Peters will be in Flint tomorrow. He has meetings set up with a number of stakeholders, mainly on the federal side to learn about the federal interagency effort, but also with folks like MDEQ to discuss the long term infrastructure challenges.He will also be visiting Hurley Medical Center with Dr. Mona. Finally, I believe our scheduling team has worked out a time in the afternoon for him to meet with folks from the Red Cross and/or National Guard and do some hands on volunteering. You may already be aware of all this, but it occurred to me that I didn't sent you a note to give you the heads up.
>
> I know that much of the response effort is based in Lansing, but if any MSP personnel would like to briefly meet with the Senator, I'm sure we could weave that into the on-the-ground time that we have set up through the Red Cross. Let me know and I can connect you with staff that will be on the ground. I am out on paternity leave so I will not be there.
>
> Thanks and keep up the hard work.
>
> -Bentley

Subject: Request for a Governor's Declaration

I just back in the office and reading the County Declaration of an Emergency it is also asking for a Governor's Declaration. The county has three days to provide us with damage assessment information which they are working on and we have provided some guidance. This should be fairly straightforward on their end. We will then provide a recommendation to the Governor.

CITY OF FLINT

INCIDENT ACTION PLAN

STATE OF EMERGENCY

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

RETAIN THIS IMAGE
RETAIN THIS IMAGE
RETAIN THIS IMAGE

Objectives:

To provide short term relief and long term solutions in addressing the man-made emergency of increased lead levels in the City of Flint (the "City") water system resulting from the switch to Flint River as the City's water source as well as the threat to public health related to elevated blood lead levels in Flint residents, without interruption of the provision of public safety and other essential public services. Due to the fluidic nature of emergencies and the complexity of the City of Flint's declared emergency, this plan serves as a framework and may be altered as the emergency develops.

The Response Framework

The purpose of this plan is to organize efforts on behalf of the city to assess the extent of the City's infrastructure needs and risks to public health, provide immediate relief to those who are at risk, and establish long term solutions. In addition, the city must ascertain what immediate relief and long term solutions the City is capable of implementing based on what resources are available. For any activities that are beyond the resource capacity of the City, external sources of funding, supplies, and manpower must be sought.

There are a number of steps that must be taken in accordance with the Flint Emergency Support Operations Plan (SEOP), in order for the City to be compliant with the Genesee County Emergency Action Guidelines. These include the activation of the Incident Management Team, the Emergency Operation Center, and the sharing of essential documents with the County, including this plan. Information must also be shared by the City's Public Information Officer on a regular basis, as required by the SEOP.

This plan calls for the provision of immediate relief to those at risk in our community. Special consideration must be given to residents who belong to underserved groups, such as those who are homebound, undocumented, in poverty, etc. Additional consideration must also be given to the equitable provision of services throughout our community in order to equally protect the health and safety of every member of our community.

Implementation of this plan is to be conducted by the Incident Management Team, which will monitor the effective delivery of goods and services in order to address the conditions of the emergency.

Understanding the Issue:

October 1, 2015, the Genesee County Health Department issued a Public Health Emergency after elevated blood-lead levels were found among children in the City of Flint. This incident correlates with elevated levels of lead found in the City's drinking water after the City switched water sources in April of

2014 to the Flint River. The scope of this problem appears to be limited to Flint City Water Customers and their dependents. Public agencies from several levels of government, as well as charitable, nonprofit organizations have partnered with the City to provide immediate relief to Flint residents, including the expansion of health services, the provision of bottled water and NSF rated water filters. The city is also seeking long term infrastructure improvements to eliminate lead and other contaminants from the water system.

Gov. Rick Snyder appointed a task force to review "actions regarding water use and testing in Flint" and to make recommendations for future guidelines: Members of the state task force are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Health Center.

In an effort to halt the further escalation of this crisis, the City returned to receiving its water from the Detroit Water and Sewerage Department (DWSD) on October 16, 2015. Since that time, additional corrosion control program has started, estimating a reduction of lead levels over the next six months. In light of these efforts, concerns surrounding the quality of water and health of the residents persist to the point that Mayor Karen Weaver declared a State of Emergency on December 14, 2015 so as to resolve this crisis once and for all.

The current challenge facing the City is providing immediate relief and long term solutions of the quality of the water and health of residents while the City remains in a financially critical condition. It is hoped and expected that higher levels of government recognize this emergency as it pertains to the condition of the City's infrastructure and health of its residents, and do all things necessary to assist the City in the provision of relief and the execution of capital improvement projects that will eliminate the causes of this emergency.

Enhancing Understanding:

Information Collection

Essential Elements of Information (EEIs) can be qualified as the City's water tests containing lead results, the verification of lead water lines (both public and private), and health information. Water testing is performed by the City's water plant in cooperation with the MDEQ. The verification of lead water lines is being handled by University of Michigan Flint, who is currently digitizing the City's water line information and PSI Engineering, who is initiating the effort to verify lead lines by excavating an initial 150 residential lines. This information allows the Incident Management Team to assess the current condition of the emergency by way of determining the water quality and the condition of the water distribution infrastructure.

Information Analysis

The City has sought partners to assist in the analysis and attenuation of complex data. Wayne State University's center for Urban Studies has agreed to assist the City in its efforts to document and track lead water lines, water test results, and filter distribution with geographic information system (GIS) technology. This allows for easily updateable, digestible information to be presented to officials.

Assessment of Impacts

The City will need assistance in determining the total cost of damage done to the public health and infrastructure. As of now, only portions of this damage are visible.

PSI is providing some assistance by excavating 150 residential water lines to verify that they are comprised of lead. This is an initial step, but not enough. More resources will be needed to continue this process.

Continuous Situational Awareness

It is important that the Emergency Management Team receive continuous information regarding water testing results, lead water line numbers, and filter distribution information in order to gain a realistic and current perspective. Much of his information is currently available on the City's website (cityofflint.com) and more is added each week by the PIO team.

Actions taken in Response to the Emergency

Activation of the Incident Management Team

Upon the declaration of Emergency by Mayor Weaver, the Support Emergency Operations Plan (SEOP) was activated. The SEOP calls upon the Incident Management Team to generate the Incident Action Plan (IAP. Each member of this team serves a specific function as it relates to addressing the causes and effects of the emergency. The Emergency Management Team roster can be found in the SEOP on page 3, with a list of alternates on page 4 in case the need for succession arises.

Emergency Operations Center

The Emergency Operations Center (EOC) must be activated upon the declaration of a State of Emergency by the Mayor. This center is required by the SEOP and serves as a nerve center for the Incident Management Team. Here, emergency relief efforts are coordinated by key members of the Incident Management Team. In this case, these relief efforts consist of the distribution of water filters at

City Hall and community events, the distribution of bottled water throughout the city in conjunction with the efforts of community partners, and assisting with the circulation of water testing kits throughout the community. The EOC will also be monitoring and managing the inventory of relief supplies, such as water filters and bottled water.

According to the SEOP, the EOC must establish an incident tracking system. This system will serve as a work plan for the management of the emergency. In addition, it is essential that the IMT record water testing results, lead water line location information, and information about the distribution of water filters and bottled water all in one place so that information is readily available for the Incident Management Team. This information will also be sent out to the public and media in the form of daily regular updates by the City's PIO.

Communication

The EOC maintains a telephone system that exists to intake questions about relief efforts and to organize relief logistics. It is open from 8am to 5pm, Monday through Friday. A voicemail system and eventual email system will exist to handle requests and inquiries that occur outside of the normal operating hours. This system will be constructed by the City's IS department.

Public Awareness and Education

1. **Emergency Alerts and Updates:**
   The City's Public Information Officer will make available information as it relates to the emergency in the form of press releases, emails, and physical documents. Daily updates containing information on the distribution of water filters, bottled water, water testing, blood lead testing, and other relief efforts will be available on the City's website for the public to view. Information will be available at City Hall for residents.

2. **Joint Information Center:**
   The City's PIO will establish a joint Information Center that is organized to coordinate the efforts of multiple agencies to communicate with the public. This includes the circulation of joint press releases, public health information, educational materials, and updates relating to the State of Emergency. This committee is comprised of public information officers and public relations personnel to coordinate efforts to keep the public updated and informed. Regular updates to the media regarding events and progress will be made as news develops.

   The US EPA has offered assistance in the form of Public Information support. Additional support in this area has been provided by the Michigan State Police.

3. **Education:**
   Many government agencies and philanthropic organizations are already distributing information regarding the effects of lead on public health. It is important that the City assist in these efforts so vital information and knowledge is presented to all members of the community. The goal is to continue to eliminate misunderstandings and incorrect information as it relates to reducing lead in drinking water, pursuing medical help, and maintaining a healthy diet to reduce lead absorption in the body. Lead education is currently being performed by the Genesee County Health Department, the Michigan Department of Health and Human Services and Medical community at-large.

Assessment of Social Needs

In order to effectively and equitably provide immediate relief to Flint water customers, the City must take into account many of the socio-economic needs and limitations of the community. Some residents cannot get to City Hall for a water filter. Some residents do not have internet access. Literacy or a language barrier may also pose significant obstacles to the effective distribution of educational information and relief to those in need. These will be continuing challenges facing the community. At present these are the resources the City has available to mitigate some of those challenges.

Logistics

Logistics are being coordinated by the City Emergency Management Team's City's *Chief Logistics Officer*, who is the City Administrator. The CLO is responsible for the coordination, procurement, and transportation of goods and services, which is essential for effective implementation of the response plan.

Fixed Distribution Points

There are several locations throughout the city where residents may acquire a water filter. These locations are:

Flint City Hall
1101 South Saginaw, Flint MI 48502

Genesee County Community Action Resource Department (GCCARD)
601 North Saginaw, Flint MI 48502
and
2727 Lippencott Blvd, Flint MI 48507

Michigan Department of Health and Human Services
4809 Clio Road, Flint MI 48504
and
125 E. Union Street, Flint, MI 48502

Activation of Ward Distribution Centers

Each of the nine wards will have activated distribution centers that are primarily managed by City Council Members or their designees.

Flint City Council – Water Distribution Sites

WARD	COUNCILPERSON	LOCATION	ADDRESS
1	Eric Mays	Hasselbring Senior Center	1002 W. Home Avenue
2	Jackie Poplar	Joy Tabernacle Church	2505 N. Chevrolet Avenue
3	Kerry Nelson	Antioch Baptist Church	1083 E. Stewart Avenue
4	Joshua Freeman	Flint Fire Station No. 5	3402 Western Road
5	Wantwaz Davis	Doyle/Ryder Elementary School	1040 N. Saginaw Street
6	Herbert Winfrey	New Community Baptist Church	1375 Lavender Avenue
7	Monica Galloway	Brennan Community Center	1301 Pingree Avenue
8	Vicki VanBuren	Flint Southwestern Academy	1420 W. 12th Street
9	Scott Kincaid	Dort Mall Police Service Station	3600 S. Dort Highway

Mobile Distribution Centers

With the help of transportation agencies, like the Metro Transit Authority (MTA), meals on wheels, and GCCARD, the city can help establish mobile distribution centers and delivery systems that can provide water filters, bottled water, and nutritious foods, among other types of relief accompanied by educational materials to neighborhoods and to homes of people who experience limited mobility.

- Mass Transportation Authority-MTA bus passes: Assisting residents with bus passes to improve their mobility will increase their chances of receiving help. Transportation services will also improve residents' access to medical care.
- MTA-Your Ride mobile distribution:
    - Estimated Costs: $25 per hour to deliver water and filters to homes throughout the City.

Problem 1. Public Health Emergency

The first objective in addressing this emergency is reducing, and eventually eliminating, the danger to public health. As City water coming out of faucets continue to contain lead, and copper and other

harmful contaminants exceeding government guidelines and regulations, it poses a risk to the people of our community. Preventative measures must be taken to avoid the effects of toxicosis that are difficult if not impossible to completely reverse.

As far as preventative measures are concerned, education, water filters, and bottled water must be provided to every household in the City in order to reduce the chances of lead exposure, especially to our most vulnerable members of the community. If lead exposure has occurred, resulting in elevated blood lead levels, immediate and sustained medical attention must be available to those affected. Health services must be expanded in the area to accommodate increased numbers of case loads and specialized care regarding lead poisoning and its effects.

Immediate Relief for Public Health:

1. Prevention: Education, water filters and replacement cartridges, free water testing, and bottled water must be available to everyone.
2. Access to nutritious food that reduces the risks of lead absorption by the body. The City can coordinate activities with the County Health Department

Long Term Solutions: Maintaining Public Health and Coping with Lead Exposure

1. Work closely with the Genesee County Health Department and Michigan Department of Health and Human Services in order to provide sustainable care and monitoring of children exposed to lead. This care must be available for them for several years-preferably several decades.
2. Support and education for primary care providers regarding aggressive long-term neurodevelopmental screening and testing.
3. Improved access to developmental and behavioral (DBP) specialists, pediatric psychologists, pediatric psychiatrists.
    a. Pre-emptive referral to mental health/ toxic stress screenings.
    b. Support capacity building and or incentivize recruitment to allow Genesee health system (CMH) to build this capacity which is currently needed and lacking.
4. Increase recognition and education regarding trauma informed care, social determinants of health (SDOH).
5. Expand State funded Genesee Health System (CMH) services.
    a. Infant mental health (30 day capacity)
    b. Child case management
    c. Home based services
    d. Trauma informed care- trauma focused CBT

Problem 2. Lead Contamination in the Water

Immediate Relief:

1. Education, water filters and replacement cartridges, free water testing for water customers, and bottled water must be available to everyone. Water filters can be obtained at any of the fixed distribution points throughout the City.
2. Identification and verification of lead water service lines throughout the city- both public and private.
3. Assistance to identify lead pipes within buildings and homes.

Distribution of Bottled Water:
At this point, we are directing all offers for donations to the Food Bank of Eastern Michigan. It is imperative that water be accessible to all members of the community through a variety of distribution channels. These channels are explained in the Logistics Section of this plan.

Distribution of Test Bottles:
Water testing kits can be picked up at City Hall with instructions. Test results are posted on the City's website to raise public awareness and encourage more participation.

Long term Solutions: Capital Improvements Needs
The distribution of filters, water, and food to counter the effects of lead are essential response efforts to keep people safe. However, long term solutions are required to keep people healthy, to eliminate lead from the public and private water distribution system distribution, and to provide affordable clean water. Our public infrastructure and utilities must be reliable, sustainable, and equitable in order for this community to rebound after this emergency. The following long term solutions must be implemented in order to set the City of Flint on a course for recovery. These solutions come at a heavy cost for a City that is currently in receivership. The City has experienced financial distress due to this Emergency, in addition to a two million dollar loss from switching back to DWSD. The City has diligently applied for Fiscally Distressed Cities, Villages, and Townships, Grant in order to supplement funding for capital improvement projects. It is essential that these grants be awarded in order to achieve long term solutions.

1. **COMPLETE Transition to a Temporary Safe Water Source until the Completion of KWA:**
   This has already occurred. On October 16, 2015, Flint returned to receiving its water from DWSD on a 9 month agreement. This agreement will expire in June 2016, when the KWA is projected to be complete. The City had to pay $2 million out of its general fund to make this switch.

2. **IN PROGRESS Additional Corrosion Control added to the Water System:**

This is already occurring. In early December, 2015, Flint began to add additional corrosion control to the water coming in from DWSD in attempts to rebuild the protective scale inside its pipes. This is estimated to reduce lead levels in two to six months.

3. **Faucet Replacement:**
   Replacement of Water faucets, and drinking fountains in the school system. It has been determined after state inspections that many sources of lead contamination in the School System's water were the faucets themselves. These faucets need to be replaced.

4. **Water Line Replacement:**
   Water Line Replacement to reduce antiquated infrastructure and lead service lines. These lines must be identified, verified, and replaced. Residents who are facing financial hardships must have access to assistance to cover the costs of these replacements through access to grants and (forgivable) loans made available through State and Federal agencies. The corrosion damage to public and private lines that Flint River water caused is still being determined.
   - Replacement of an estimated fifteen thousand (15,000) lead service lines at an estimated cost of three thousand dollars ($3,000) per line. Total costs forty –five million dollars ($45,000,000). This project is estimated to be one of the most cost-intensive endeavors related to ameliorating water contaminants.

5. **Reimbursement of Critical Expenditures:**
   Seeking reimbursement of two million dollar cost of returning to DWSD and forgiveness of Water Revolving Loan Debt from the State of Michigan.

6. **KWA Capital Improvements:** The City has reconnected to Detroit temporarily until a water line from Port Huron is developed. The new water line known as the KWA pipeline or Karegnondi Water Authority is expected to bring water to the City from Lake Huron by July. The current cost agreement between Flint and DWSD is for nine months, therefore it is imperative that KWA be completed as soon as possible. Assistance relating to capital improvements to expedite this process will help to achieve long term goals.

KWA Capital Improvements:	**Estimated Costs:**
a. Transfer Station to Dort Reservoir	*$4,500,000*
b. Raw water line to pump station #4	*$636,000*
c. Phosphoric acid feed system	*$186,000*
d. Alum Feed system	*$40,000*
e. Post filtration system	*$387,289*

f.	*SCADA Upgrades*	*$424,000*
g.	*Sewer Relining*	*$100,000*
	Total	***$6,273,289***

Ancillary Considerations: Public Safety during an Emergency

During a time of emergency public safety agencies need to be prepared to respond to threats to public safety and critical infrastructure. The City is facing a man-made emergency that is threatening the public health. Resentment and hostility toward local institutions and municipal government is at a significant level.

Critical infrastructure should be safeguarded if the need arises. This includes increasing security at City Hall to reduce potential for public safety risks. In the case of credible threats to public infrastructure, it may be required to hire private security company for first line of defense. Private Security is lower cost, thereby making it the first option. The minimum response is acted upon first, elevating only if the need arises. Credible or imminent threats of damage or destruction to critical infrastructure requires an elevated response. Such needs may require over-time police officers to address critical situations. Mutual aid from surrounding communities can be requested if Flint public safety is overextended.

Implementation:

Community Partners

Financial limitations of the city persist while it confronts this emergency. Many community partners have offered their assistance to perform various needed functions. The city is heavily reliant on the assistance that government agencies and nonprofit organizations have provided.

The Mott Foundation

The Mott Foundation has provided financial assistance, especially in their generous contribution of $4 million. In addition, the Mott Foundation has recently pledged an additional

United Way

The Genesee County United Way has provided significant financial assistance in the way of purchasing and helping to distribute water filters since the public health emergency began on October 1st, 2015.

Genesee County Community Action Resources Department (GCCARD)

GCCARD is organized to fight poverty and has been a primary partner in the distribution of water filters. It has also regularly supported the city with the logistics and availability of water filters at City Hall.

Genesee County Health Department

Has provided educational information to Flint Water customers

Genesee County Board of Commissioners

The Board of Commissioners have pledged their support to help Flint seek solutions to this crisis. The Board has already assisted in making health and nutrition information available to the public.

Assistance from Wayne State University

Wayne State University's Center for Urban Studies will be providing technical GIS support to assist in the documentation of emergency relief efforts.

The US Environmental Protection Agency

Region 5 EPA has offered assistance with Public Information distribution during the emergency.

Outside Help is still needed...

The City of Flint is forever thankful to our community partners who have given so much to help so many people. However the magnitude of this emergency calls for more resources that are beyond the capacity of the combined local organizations and government agencies. Long term solutions will require a heavy investment in health care and capital improvement projects to upgrade the city's antiquated water distribution system.

- Help with Immediate Relief in terms of assuring allocative efficiency. Distribution should be equitable- assistance from other governments required to assure this.
- Reaching communities for the distribution of water filters, water, and educational materials.
- Help with Water Testing to increase participation and lead education.
- Increasing the rate of water testing
- Assistance is required to fund essential capital improvement projects to guarantee clean and safe water.

Office of the Administrator 1101A
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

Director Tom Frieden
Centers for Disease Control and Prevention
1600 Clifton Road
Atlanta, GA 30329

Secretary Burwell, Administrator McCarthy, Administrator Fugate and Director Frieden:

Recent developments regarding the level of lead in the water in one of the communities I represent, Flint, Mich., have raised significant concerns about the safety of its drinking water. For this reason, I am requesting immediate resources to provide safe drinking water to the residents of Flint until additional testing can be completed that confirms the water is safe, particularly for young children.

Although the city of Flint and the Michigan Department of Environmental Quality have conducted tests and taken the position that the lead level in the water is safe and below the action level, there are significant questions about the efficacy of their testing. In fact, Dr. Marc Edwards of Virginia Tech University, an established drinking water expert, conducted his own tests as part of a study that determined the water in Flint was above the lead action level.

Additionally, yesterday the Greater Flint Health Coalition, a group of health professionals in the community, released a report showing elevated blood lead levels in residents in Flint, particularly in young children. In response, the Coalition has requested that the Genesee County Health Department release a health advisory indicating that the water in Flint is unsafe to drink.

Thus, I am requesting resources from your agency to provide clean drinking water to the residents of Flint until additional testing can determine when the water will be safe to drink and a long-term solution can be implemented.

This is a serious health issue, particularly for young children, and until the water is demonstrated to be safe, immediate action must be taken to ensure Flint's residents have potable drinking water.

I look forward to working with you and thank you for your immediate attention.

Sincerely,

Dan Kildee
MEMBER OF CONGRESS

FEMA

September 28, 2015

The Honorable Dan Kildee
United States House of Representatives
227 Cannon House Office Building
Washington, D.C. 20515

Dear Representative Kildee:

This is in response to your letter of September 22, 2015, to Federal Emergency Management Agency (FEMA) Administrator Craig Fugate, as well as the U.S. Department of Health and Human Services, Centers for Disease Control and Prevention and the Environmental Protection Agency. You requested federal assistance to provide safe drinking water to residents of the City of Flint, Michigan, until additional testing confirms that the water is safe. Administrator Fugate requested that I respond to you because Michigan is within FEMA Region V.

As you may be aware, the Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288, as amended, authorizes FEMA to provide federal assistance to a state after the governor requests that the president issue a disaster declaration and the president approves the request because it has been determined that the severity and magnitude of the incident exceeds local, tribal and state capabilities. If providing safe water to its residents is beyond the city's capability, the city, through Genesee County Emergency Management, should contact the Michigan State Police Division of Emergency Management and Homeland Security. However, in this situation, it may be more expedient and practical to pursue water sources from other local or private sector entities.

If you have questions or would like additional information, please contact me or have a member of your staff contact my Congressional Affairs Specialist, Dan Shulman, at (312) 408-4427.

Sincerely,

Andrew Velasquez III
Regional Administrator

Trooper of the Year is stationed at Michigan State Police Tri-City Post
MLive
By: Cole Waterman
1.22.16

A state police trooper at the Michigan State Police Tri-City Post in Williams Township has been named Trooper of the Year.

MSP Director Col. Kriste Kibbey Etue and Michigan Attorney General Bill Schuette presented the Dr. Carl A. Gerstacker Trooper of the Year Award to Trooper Michael Darrow at a special ceremony in Lansing Thursday, Jan. 21.

The Gerstacker Award recognizes the trooper or sergeant who symbolizes outstanding professional ethics, dedication to duty and a concern for giving back to their community. The late Carl A. Gerstacker, former chairman of Dow Chemical Co., created the award in 1961.

Schuette is Gerstacker's stepson.

"Trooper Darrow's exceptional work performance, leadership skills and dedication to community outreach make him an excellent choice for the Trooper of the Year Award," Etue said in a press release.

Darrow has been with the agency for 15 years. He serves as a community service trooper at the Tri-City Post, 2402 Salzburg Road, where he has taken on multiple leadership roles in work and community-related programs, and is known for his dedication to service.

Darrow is instrumental in several MSP community outreach initiatives, such as Light Up the City and the Community Action United Team In Our Neighborhood program, known as CAUTION, the press release continued.

Darrow also serves as a team leader for the Michigan Special Olympics Torch Run and oversees the new cadet program being established for the MSP Third District covering the Flint, Saginaw, and Bay City areas.

Darrow serves as an instructor for the Student Tools for Emergency Planning (STEP) program, the MSP Teaching, Educating and Mentoring (TEAM) curriculum and for the youth leadership academies for at-risk youth held at the MSP

Training Academy in Lansing. He has also assisted a local law enforcement agency with organizing its leadership academy and served as an instructor and mentor for the program.

Darrow is a horse leader for the Bay County 4-H Horsemanship for Handicappers, a nonprofit organization that provides therapeutic and recreational horseback riding to children and adults with physical, emotional, mental and social challenges. He and his family own all of the horses used in the program.

In addition, Darrow helped a local recording artist Kyrsta Strickland organize a 5-on-5 basketball tournament between youth and law enforcement officers to help strengthen the relationship between the community and law enforcement. As a result of the event's success, the sponsor agreed to hold the tournament annually.

Darrow served in the U.S. Army from 1986 to 1991 and he attended Central Texas University. He hails from Mackinaw City and currently resides in Bay City with his wife.

Zylstra named Motor Carrier Officer of Year
Hillsdale Daily News
1.25.16

Michigan State Police (MSP) director Col. Kriste Kibbey Etue recently announced that MC Officer Jason Zylstra of the Jackson Post is the recipient of the 2015 Motor Carrier Officer of the Year.

The award is sponsored by the Michigan Trucking Association since 1985, recognizes the MSP motor carrier officer who symbolizes outstanding professionals ethics, dedication to duty and concern for giving back to their community.

"Officer Zylstra's reputation of outstanding work performance, commercial vehicle enforcement training, knowledge and commitment to service make him an excellent choice for the Motor Carrier Officer of the Year Award," Etue said.

Zylstra serves as a Commercial Vehicle Safety Alliance certified instructor, background investigator and a recruiter for the department. He was also a presenter at the Michigan Traffic Safety Summit last year. Additionally, he serves as a member of the temporary staff for the 20th Motor Carrier Officer Recruit School, which graduates in February.

Zylstra enlisted with the MSP in 2011, graduating as a member of the 17th Motor Carrier Officer Recruit School. He has served at the Jackson Post since graduation.

He is a 10-year combat veteran of the Army National Guard, serving in Afghanistan as a chief warrant officer two and a medivac Blackhawk helicopter pilot. During his deployment in Afghanistan, he flew over 90 missions and transported 110 patients.

He is a native of Wayland and currently lives in Lansing with his wife and their two dogs.

State police to hold recruiting seminar for women
Detroit News

1.25.16

Michigan State Police are hosting an informational recruiting seminar for women at Schoolcraft College in Livonia on March 19.

The event is scheduled for 10 a.m. to noon at the VisTaTek auditorium, Room 550, on the campus' north end, 18600 Haggerty. Attendees are asked to arrive by 9:45 a.m. The attire is business casual. To attend, email richardsonm2@michigan.gov.

It's expected to include many of the state agency's specialty units, including the Forensic Science Division, Canine Unit, Special Investigations, Computer Crimes and Gaming Section, officials said.

To be considered, an applicant must be a United States citizen, be at least 21 years old with no felony convictions, be a Michigan resident when appointed to the academy, possess a high school diploma or G.E.D., have a good driving record and moral character, and maintain a stable credit history.

Starting salary at the beginning of the 21-week recruit school is $44,000 annually with a $7,800 raise upon completing one year, MSP said.

MSP Brings Awareness to Human Trafficking
WBKB11
By: Erika Fernandez
1.26.16

As part of human trafficking awareness month, Michigan State Police Alpena Post hosted a human trafficking presentation at the Alpena Public Library.

MSP is aiming to bring awareness to the Alpena area on human trafficking.

The presentation on monday explained what human trafficking is, how it can take place, and where it might be taking place.

Each month, dozens of girls are taken into human trafficking in the state of Michigan. Just a few weeks ago, it was reported in Traverse City, that two people were arrested on prostitution and human trafficking charges after being found at a northern Michigan hotel.

Community Service Trooper Simpson advises everyone to be aware of situations that may look unusual.

If you witness suspicious activity or if a household does not seem like a typical family home–life, report it immediately to law enforcement because it could be a case of human trafficking or even a domestic violence case.

Stay safe, don't get distracted
Three Rivers News
By: Elena Hines
1.23.16

What is distracted driving?

"Anything that takes your attention away from the task of driving," Maurice Burton, a Michigan State Police trooper of 30 years, told the Three Rivers High School student body Friday during a Positive School Climate/Safe Driving Assembly at the Performing Arts Center.

That could be visual (taking one's eyes off the roadway), manual (taking one's hands off the roadway, such as when eating a sandwich) or cognitive (when one's mind is somewhere else).

"It only takes one second to have an accident when your mind is out there," Burton said.

Distractions include being drunk, on a cell phone, texting, talking to passengers, brushing hair, reading a navigator, watching a video or tuning the radio to a different station, he explained.

Already this winter there have been several accidents, such as on I-94, where people were going too fast and not paying attention.

There is a $200 fine for the first offense of texting while driving, and Level 1 and Level 2 drivers — such as some of the high school students — are not allowed to use cell phones at all while driving.

Shanon

I added some items and probably will add some more after I speak with Sheri Irwin. Yellow highlights are changes. Blue highlights are number that will change tonight.
If you get time take a look.

Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
> > - PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
> > - Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.

- I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
- **MDHHS – Elevated Blood Lead Levels**
  - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
- **MDEQ – Water Testing Protocols**
  - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.

- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
  1. Activate the State Recovery Task Force (SRTF).
  2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
  3. Obtain and maintain situational awareness and common operating picture of all activities.
  4. Establish SEOC operational period and hours of operations.
  5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
  6. Develop a comprehensive GIS strategy.
  7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
  8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
  9. Provide technical assistance to the local Damage Assessment process.
  10. Establish a Joint Information Center (JIC) and develop a public information strategy.
  11. Monitor MI CIMS for resource requests and address as appropriate.
  12. Establish and disseminate cost center information for the incident.
- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies

- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Flint Water Emergency Response
Talking Points for Capt. Chris Kelenske
Meeting with Appropriations

NOT INTENDED TO BE DISSEMINATED
TO THE MEDIA OR PUBLIC IN THIS FORMAT

Chronology

- October 1, 2015: Public Health Emergency Declaration issued
- December 14, 2015: State of Emergency declared by City of Flint.
- January 4, 2016: Genesee County Board of Commissioners declared a local emergency
    - Genesee County also requested a Governor's Declaration of Emergency with the local declaration.
- January 5, 2015: Governor declared State of Emergency
    - State Emergency Operations Center activated in Lansing to coordinate state response
    - Joint Information Center (JIC) activated on January 6, 2016 in Lansing; moved to Flint on January 11, 2016
- January 9, 2016: Water resource sites established at fire stations. 9 a.m. to 4 p.m. on January 9, 2016 but 9 a.m. – 9 p.m. starting January 10, 2016.
- January 12, 2016: Water resource teams began going door-to-door (4 teams)
- January 12, 2016: Governor Snyder issued an Executive Order activating the Michigan National Guard
- January 14, 2016: Governor requested Presidential declaration of emergency and expedited major disaster for Genesee County
- January 16, 2016: President Obama approved the Governor's request for a federal emergency in Flint.
    - Denied request for major disaster

Federal Support

- President Obama's approval of a federal emergency in Flint provides emergency relief in the form of bottled water, water filters, filter replacements, and water test kits. The period of assistance is up to 90 days.

- In addition, the state is working with the Federal Emergency Management Agency (FEMA) to coordinate an interagency recovery plan with other federal agencies to provide resources to Flint.

    - Coordination will include identifying federal agencies that have programs, authorities and/or technical expertise that could be utilized in the ongoing response and recovery efforts in Flint to be made available. Such federal agencies may include the Department of Health and Human Services, Environmental Protection Agency, Department of Housing and Urban Development, and Army Corps of Engineers.

Current Status/Update

- We are continuing to bring all state resources to bear to protect public health and safety.

- One of our most important messages and priorities continues to be making sure residents are aware of the information and free resources available to them, which include bottled water, water filters, replacement cartridges, water test kits.

- The one-stop shop for finding all these resources is by visiting www.michigan.gov/FlintWater or calling 2-1-1.

- To date, more than 21,300 homes have been visited by water response teams who are going door-to-door to distribute free bottled water, filters, replacement cartridges, and water testing kits.

    - Water response teams are a collaborative effort comprised of city, county, state personnel, American Red Cross personnel, and volunteers.

- The Michigan National Guard has been activated to assist with distribution efforts at the five water resource sites at fire stations in the city.
    - There are approximately 70 National Guard members handing out water resources at the fire stations in the city.

- Since January 9, the following resources have been distributed to residents, both at the water resource sites and by the water response teams:

    - More than 37,300 cases of water
    - More than 53,700 water filters
    - More than 7,300 water testing kits

- To help enhance the water testing process, Flint residents can now drop-off water samples to the five water resource sites at fire stations. Samples will only

be accepted by using the official water testing kits provided at the water resource sites and by the water response teams.

- Water resource sites are open daily from 9 a.m. to 9 p.m. and are located at:

  Fire Station #1
  310 East 5th St.
  Flint, MI 48502

  Fire Station #3
  1525 Martin Luther King Ave.
  Flint, MI 48503

  Fire Station #5
  3402 Western Road
  Flint, MI 48506

  Fire Station #6
  716 West Pierson Road
  Flint, MI 48505

  Fire Station #8
  202 East Atherton Road
  Flint, MI 48507

Filters

- When used properly water filters remove 99% of lead in water.

- Residents are urged to use filtered water for drinking, food preparation, brushing teeth and watering pets. Unfiltered water may be used for bathing and cleaning.

- One filter and one replacement cartridge are being provided per household initially. Each filter is good for approximately 100 gallons of water. The filter has an indicator on it that will turn from green to red when it needs to be replaced.

- The filters have a two to five-year, non-replaceable battery that operates the indicator light.

- There is a detailed video posted on www.michigan.gov/flintwater that explains how to properly install a water filter cartridge. An instruction sheet also has been provided to 2-1-1 to share with those individuals without internet access.

Resources for homebound individuals

- 2-1-1 is collecting a list of limited mobility or homebound individuals needing home delivery of water resources and is providing that information to the Genesee County Sheriff's Department, who is making these deliveries.

- The Plumbers and Pipefitters Union has agreed to provide free water filter installation to homebound residents needing assistance. This is also being coordinated through 2-1-1.

Outside Support Efforts – Volunteers and Donations

- There has been great cooperation on the ground in Flint by many local agencies, from the city and county to churches and public, private, and non-profit groups to help with this effort.

- The American Red Cross, United Way, 2-1-1, and many other organizations have assisted with water resource distribution efforts and the donations management process.

- The American Red Cross has established a volunteer reception center for those wishing to assist with ongoing efforts to distribute water, water filters, replacement cartridges and water test kits.
    - The Volunteer Reception Center is located at the Red Cross office at 1401 S. Grand Traverse St. in Flint.
    - This week, the Volunteer Reception Center hours are:
        - Monday - Friday, 9 a.m. to 7 p.m.
        - Saturday, 9 a.m. to 2 p.m.
        - Sunday, 12 p.m. to 5 p.m.

National Guard Mobilization

- Governor Snyder issued an Executive Order on January 12, 2016, to activate the Michigan National Guard.
    - Currently they are being used to staff water resource sites to support the distribution of bottled watered, water filters, replacement cartridges, and water testing kits.
    - National Guard is uniquely prepared and trained to respond quickly in emergency situations.
    - The first group of National Guard personnel arrived in Flint on January 13 to conduct assessment and get acclimated (seven personnel).
    - 30 more personnel arrived on January 15 and additional soldiers were added on January 18, bringing the current commitment to approximately 70 soldiers.

- This is the second time the Governor has activated the National Guard.
  - Last time was for the Duck Lake Fire in Luce County in May 2012.
- Per the Michigan Emergency Management Plan, the Michigan State Police Director or designee is responsible for coordinating all state efforts, including the Michigan National Guard.
- Activation of the Michigan National Guard allows the volunteers from the American Red Cross, who have been staffing the water resource sites, to join the water distribution teams.

Water Bills

- The City of Flint is responsible for issuing water shut-off notices for non-payment. Per the Mayor, the city has put a halt on all notices or disconnections. Shut off notices have not been mailed since the beginning of December.

- Water payment inquiries should be referred to the City of Flint.

Commodities

- As of 1/19/16, 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. 5-6 State (6-9 personnel) type 3 teams - Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 personnel) type 5 teams - Goal tomorrow 100 homes per team

- How was the amount of water in the supplemental determined:
  - 100,000 (population) X 2 gallons per day per person X 30 days X $1.25 gallon = $7.5 million.
- Burn Rates
  - Faucet Filters – 4,073
  - Water – 14,781
  - Replacement Filters – 2,430
  - Test Kits – 2,253

Dan,

Turns out we have been combining the Congressional and Legislative calls into one call. Given this, I am comfortable combining them moving forward Let's just plan to do one call today at 2:30 p m to save everyone's time. I will have the state legislative contacts within the next half-hour. I will share the advisory you send to congressional contacts with our Legislative contacts

You will also be receiving our state seal logo (which is what we are using) and public contact info any minute, if you don't have already.

Thank you,
Shanon

Subject: Call today at 2:30pm

Are we still planning to do a call today at 2:30pm? Has an invitation been sent out to Congressional or State Legislative staff? I have a bridge that we can use for either/both calls as needed.

Do you all want to take the lead on the briefing and we (FEMA) can answer questions as required? As of now we do not have a lot to report on other than we are deployed.

Hi, Sir –

We are shifting tomorrow's press conference back to 11 am with a 10:30 pre-brief at city hall. Are you still available to participate?

Thank you,
Morgan

It does make sense ... But I need to see what we already have in place or any plans they have. I will get with our volunteer management team and see how this may assist. Thanks for sending.

2) The Freedom Fund has a couple of really good logistic people (Steve Sachs, Tony Daunt and yours truly). We volunteer to be of assistance as you manage through this. We stand ready to jump in wherever you need us.

3) Seems to me there are lots of opportunities to engage other volunteers in this process. Our friends at the Home Builders, Plumbers and Mechanical contractors could be asked to send trained people to install those water filters. Our friends at U of M or MSU med school could send volunteers to test all kids in Flint for lead etc. Maybe somebody is already on this front but the administration has tons of friends that can be deployed.

I hope I haven't overstepped my bounds.....you know me....I'd way rather ask forgiveness than permission :-)

Yell if we can help

Terri

I have not seen anything about a meeting. Lt. Col. Gorski passed the request for information on to Inspector Bolger while we were in the SEOC yesterday afternoon. And our projection includes other state agency costs such as warehouse rental, purchase of water resource supplies and DMVA costs.

I'll send our report to you in the morning and we can discuss as you would like

Thanks. Have a good rest of your evening.

Penny

I was led to believe the invitation to that meeting was going direct to EMHSD. It sounded like they were going to reach out to Capt. Kelenske. Lt. Col. Gorski was going to make sure that the invite was forwarded to me, but I haven't seen anything yet. Have you heard anything about a meeting like that being set up?

GONGWER Michigan
The Capitol Record Since 1906

Monday, January 11, 2016, 01:23 PM

Snyder Creates New Joint State-Flint Group On Water Crisis

Governor Rick Snyder today formed a new Flint Water Interagency Coordinating Committee joining top state and local officials, as well as drinking water experts, to develop a wide variety of recommendations to address the Flint water crisis.

Mr. Snyder established the committee via executive order.

The committee will include the following members:

- The director of Office of Urban Initiatives within the Executive Office of the governor;
- The deputy state director of Emergency Management and Homeland Security within the Department of State Police;
- The director of the Department of Environmental Quality, or his or her designee;
- The director of the Department of Health and Human Services, or his or her designee;
- The director of the Department or Licensing and Regulatory Affairs, or his or her designee;
- The state treasurer, or his or her designee;
- The superintendent of public instruction, or his or her designee;
- The Flint mayor;
- Three additional representatives of the city of Flint submitted by the Flint mayor and appointed to the committee by the governor;
- Three representatives of Genesee County submitted by the Genesee County Board of Commissioners and appointed to the committee by the governor; and
- Three subject matter experts appointed to the committee by the governor.

In a statement, Mr. Snyder said the council will create an action plan, review recommendations made by the Flint Water Task Force (the group Mr. Snyder created to figure out what went wrong), establish protocols for communications at the local, executive and legislative levels, make recommendations regarding the impact to health of the affected population and "assess the status of infrastructure and determine feasible actions for upgrading Flint's water system."

Mr. Snyder created the council amid an unrelenting firestorm of criticism against his administration in how it has responded to lead in some locations' drinking water in the city, as well as elevated blood lead levels in children.

"We need to focus on improving Flint for the longer term," Mr. Snyder said in the statement. "This committee, made up of experts from government and the Flint community, will set a course of action to remedy the water situation and resulting health issues, and carry on long after the emergency declaration expires."

We are actually getting documents ready for SBO on this very issue. The $8 million line item was for more than just water (filters, cartridges, test kits) and was mostly for items already bought I believe. I agree that once we get filters in every home we should be able to scale back the water distribution but that may be more a political issue. I do not believe the demand for water has decreased much as some may believe the filters do not work and solely rely on the bottled water. Is the $5 million mark because once FEMA reaches $5 million they have to notify congress? A lot of people think we got $5 million dollars from FEMA but that is just a trigger amount where they have to notify congress. We are at about $7.6 million with FEMA but that is not just water. It is filters, water, cartridges, etc.

We should have better numbers tomorrow.

Subject: Re: SEOC Update 1/25/16 - Flint Water - Limited Distribution

The charities already highlighted are fine, but I wanted to get a sense for what the water situation is and how many days supply we have (including the money budgeted to purchase water) compared to how long we expect it to take to certify the system for drinking again.

Has bottled water demand changed at all since the filters have been distributed? I would not be surprised if the answer is "no" but wondered just the same.

Also, I was looking at the retail price of water at the grocery store and a case of 40 bottles was a little less than $4. Looking at the budget, $5 million should be enough to purchase 50 million bottles if we are paying full retail. Does that sound about right?

> On Jan 26, 2016, at 6:42 PM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:
>
> Absolutely.
>
> Also, reference your earlier request on the money versus water issue. We are in the process of securing more storage so we actually would continue to receive donated water. We can highlight different foundations to donate to (if the Governor approves) but wanted to make sure you had the most updated information on donations of water. Tomorrow we should have a better idea on the additional storage. While there is a lot of water coming in ... there is a lot going out.

> * 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
>
> 1. Cases of Bottle water distributed (each day and to date):
>
> * 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.
>
> 1. Number of testing kits distributed (each day and to date):
>
> * 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
>
> 1. Number of people tested for elevated blood levels (kids, adults, total):
>
> * Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: 2,642;
>
> 1. Number of people with elevated blood level (kids, adults, total):
>
> * Per CHECC:
> i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: 28
> ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: 7
> iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: 15
>
> 1. Number of homes with safe drinking water:
>
> * 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.
>
> GIS Information
> I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:
>
>
> * 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
> * 23,281 have led to a direct citizen engagement (61%)
> * 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
> * 5,864 of the properties the teams visited were vacant or destroyed (15%)
>

> *Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public* Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:
>
>
> * 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
> * 3,928 Were not home when visited (15%)
> * The remaining 16% we have no data to confirm or deny whether they have a filter
>
> Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.
>
> It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).
>
> It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.
>
> Local EOC
> Operations:
>
> * Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
> * Coordinating and following up on vehicle demobilization.
> * Facilitated rapid response deliveries to special locations.
> * Finalizing components of recycling program.
> * Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
> * Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
> * Coordinating volunteer management with Michigan Community Service Commission.

> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency
>
> I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.
>
> Mission focus for the day:
> · Receive, store, and increase quantities of supplies.
> · Increase efficiency of warehouse operations.
> · Continue door to door/Flint Water Response Teams (FWRTs).
> · Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
> · Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
>
> Attached Documents:
>

> * Situation Report # 19
> * Maps:
>
> * Parcel Contact Status, includes data as of 5 pm today.
>
> * The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
>
> * Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
>
> * The second map indicates the status of residents that have or have not received a filter.
>
> Status on Governor's request letter to the President:
>
> * Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
> * Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
>
> Key items for tomorrow to note are:
> · We will have 10 ARC, type 5 teams (2-4 personnel).
> · WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
> · Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland, MI area).
>
> Items to Note
> · Deployed National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
> · JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
> · SEOC Logistics worked with MDOC on warehouse management transition.
> · Recovery Branch began demobilization of trucks and vans.
> · Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
> · School for the Deaf
> o As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
> o As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
> · SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
> · SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
> · GIS continued to clean up V2 Dataset (patched approximately 1000 records).
> · GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
> · Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
> · Information reported to the JIC:
> o As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)
>
>
> 1. Homes visited by the FWRTs to date.

>
> *This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.
>
> Local EOC
> Operations:
>
> * Distribution of supplies at five water resource sites in the City of Flint.
> * Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
> * Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
> * Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
> * Coordinated with ARC for distribution of additional iPads for data entry.
> * Identified alternative warehouse locations for lose donations.
> * Directed volunteer requests to appropriate state agencies.
> * Started coordination for resource demobilization.
> * Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

>
> Key items for tomorrow to note are:
> · We will have National Guard/state/local agency, type 3 teams

> · We will have 40 ARC, type 5 teams (2-4 personnel).
>
> Items to Note
> · Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
> · Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
> · SEOC Logistics worked on future resource planning and a local business commodity supply plan.
> · Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
> · Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
> · Information reported to the JIC:
>
> o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

> · Work with HHS personnel to ensure they have all items needed for operations
>
> Attached Documents:
>
> * SitRep # 17
> * Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)
>
> Status on Governor's request letter to the President:
>
> * Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
> * Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
>
> Key items for tomorrow to note are:
> · National Guard/State/Local , , type 3 teams
> · 40 ARC (2-4 folks) type 5 teams
> · Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
> · I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
> · Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
> · Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.
>
> Items to Note
> · Deployed 15 state/local teams and 15 ARC Flint Water Response Teams to the field today.
> · SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
> · SEOC Planning worked on the further development of long term strategy.
> · Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.

> · SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
> · Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
> · Have received numerous inquiries from celebrities on how they can assist and donate.
> · We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
> o 26,673 water subscribers in Flint (not including franchise).
> § Water Subscribers with a Filter = 15,399 (57.7%)
> § Water Subscribers without a Filter = 11,274 (42.2%)
> · With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
> o 11,471 Non-Water Subscribers in Flint.
> § Non Water Subscribers with a Filter = 2,196 (19%)
> § Non Water Subscribers without a Filter = 9,275 (81%)
> o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
> · SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
> · Information reported to the JIC:

Subject: Governing Michigan Leadership Forum - confirmed speaker Captain Chris Kelenske bio and headshot for approval
Attachments: Kelenske_Chris bio.docx; Kelenske_Chris headshot jpg

Hello Captain,
I understand from Julia that you will join us at the Michigan Leadership Forum on Thursday, March 10 at the Lansing Center for the closing session on The Flint Water Task Force Recommendations.

We greatly appreciate your time and commitment given the circumstances you are facing in Flint.

A conference call will be scheduled once we finalize the additional speakers. Ken Sikkema from Public Sector Consultants will be joining you – I think Julia mentioned this on her call with you.

We have the **attached bio and headshot on file from last year - are these approved for this year? If not, please forward new copy.**

Thank you again and I hope you feel better soon.

Subject: Help for Flint

Dear Captain Kelenske,

I am ken gruber here in Omaha. I have been in public safety and working with NEMA/FEMA for over 30 years. Bryan Tuma gave me your name as a contact in Michigan.

I want to introduce you to my friend, Dr Ron Fletcher from Ohio.
Dr Ron contacted me about the water contamination problem in Flint. There may be a solution to the problem there and I wanted to connect the two of you.
I hope and pray something can be done ASAP.

Thanks for your time and consideration.

Ken

To: Kelenske, Chris (MSP)
Subject: RE: HOLD - Possible Press Conference

Thank you, sir. We have reached out to the Col's office to see if she might be available. Do you have anyone from the operations group in Flint that might be available to speak to more technical/in-depth questions? If the Col. is available, we will likely ask her to speak during the actual press conference but hoped that an additional person could be available for possible comments.

Thank you,
Morgan

Subject: RE: Items to Work On Today

Responses to your Items to Work On Today (in red)

-From the LG - Regarding donation inquiries, how are those being handled now?
Large donations route through the SEOC (what is the logistics email?) so we ensure the big corporations have contact with us. We then shift it to Janet _____ with MCSC to handle the operational portion (delivery). Other donations go through the website Helpforflint.com. PLEASE MODIFY AND CONFIRM.

- Large donations should be routed through the SEOC (MSP-SEOCLGC@michigan.gov) so we ensure the big corporations have contact with us. We then shift the donation information to Janet Hunter with DHHS/MCSC to handle the operational portion (delivery).
- Monetary donations links to the American Red Cross, Genesee United Way, and FLINTKIDS.ORG as well as a volunteer sign up link can be accessed through the website Helpforflint.com.

-I need the map with all the test data we received from DEQ. I provided a map before but I also need the data with it so the Governor has it. Jen Wolf was providing me bullets as to what the data means and what it may not mean -- what concerns do we have with the data (e.g. We are relying on the citizens to provide us the sample ... Did they follow the right procedures.). Not sure she sent it to me yet.

- Sent earlier today.

-I advised state agencies that I do not want a running log in the SitReps. They were shown how to check the archive button. Each SitRep should be for that operational period.

- Included during the 4 pm briefing as a reminder.

-For Monday, are we at a point where we should pull the filters and replacements from the PODs and just have water? Or is this a mid week thing? I mentioned it to the Governor Office. Monday there is a press conference with the G, TAG, COL (I am out that day). May be a good day to start a transition to PODs as water only with Rapid Response Teams (hot shots) and ARC food to door support.

- Yes, mid-week. We are working with planning to pull together a more accurate map and numbers to ensure this is the proper verifiable direction.
- We are not ready yet according to Tonya...mid-week?

-Need a report on the churches for tomorrow. Who is in? Are they all set with supplies? Who is working to ensure we are getting the faith based organizations involved? Tom needs to take the lead for the EOC versus Gina. She is upsetting some and we need a bridge builder.
Are we at a point where we should pull the filters and replacements from the PODs and just have water?

- FROM BJ TO TOM (today at 5:21pm): "I have had contact with all on my list (attached) within the last 2 days, many of them today. We had several deliveries to them Thursday- today. Many of the churches are doing their normal Sunday distributions. All advised they are good right now. I spoke to Richard Boone, Mt. Vernon Chapel. He advised they did not need anything for tomorrow, however, the church was having a meeting tonight to discuss water distributions at their church in the evening 2 days during the week. The meeting was to decide if they would proceed with the idea, what hours and days of the week. Mr. Boone requested volunteer help if they chose to do this. Mr. Boone will call me after they decide those issues and I will put him in contact with Chad ref

volunteers. Mr. Boone was very excited about that. All seemed appreciative for the supplies/water they have received. Please let me know if you have any questions."

You and Tom with need to finalize the specifics of Tom taking the lead on the VRC from the EOC (as mentioned above).

- In the works.

I mentioned it to the Governor Office. Monday there is a press conference with the G, TAG, COL (I am out that day). May be a good day to start a transition to PODs as water only with Rapid Response Teams (hot shots) and ARC food to door support.

- Tonya is advising against the POD transition early next week and is considering mid-week. She wants to develop a recommendation tomorrow after we have a better idea how the weekend went and result of all the WRT.

-The Local EM needs to be tasked with gathering the needed data for the appeal. We also need to get with Jamie Curtis (I can do that). We need to give specific direction for the EM to work with the city to get the numbers unless you think this is something we should just do. All will need to be provided direction on category B costs back to April 2014.

-Tom is working on the appeal but a few thoughts and I know you will have more...

We have to include the economics of Flint and Genesee similar to what we did for 4195.

-Can someone look into HR1278? This is the Omnibus Bill the 80 million came from. Andrew advised FEMA funds will not be touched and I specifically asked about the mitigation funds from 4195 and he said the funds would not touched.

- Discussed these two items with Tom, who intends to work with Joel first thing Monday to draft a list of the items to be researched and to begin looking at HR1278. They will identify who is responsible for each item so we can then detail assignments.

-Do we have blood lead level data maps? From testing?

- We do not have data to develop maps.

-The numbers of homes on the system needs to be firmed up:

- 26,673 water subscribers in Flint (not including franchise).
  We need the franchise numbers included.
  - § Water Subscribers with a Filter = 15,399 (57.7%)
  - § Water Subscribers without a Filter = 11,274 (42.2%)
    - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
      What exactly is this number? Does it include homes that are habitable and just do not have tenants? I need more information on this number to put more context to it. 42% is a lot but if 20% are vacant homes waiting for a tenant than that changes things.
- 11,471 Non-Water Subscribers in Flint. **What does this mean in laymans terms? What is a non subscriber? How do they get their water if they do not subscribe?**
  - § Non Water Subscribers with a Filter = 2,196 (19%)
  - § Non Water Subscribers without a Filter = 9,275 (81%)

I need more analysis done on the numbers so we can provide solid information to the Governor.

- Meegan Holland was in the SEOC today discussing these topics with our GIS team.

- Water Subscribers with a Filter = 15,399 (57.7%); subscribers are paying customers or those receiving assistance
- Water Subscribers without a Filter = 11,274 (42.2%) Not updated.

- There are 140 Franchise Customers located on the periphery of the city.

- Water Subscribers are people that the utility says are actively receiving water from the Flint Water Supply. Water subscribers are unlikely to be vacant housing. Water subscribers with a filter are city water recipients that have been given a water filter by either field teams or a PODS. There are XXXX water subscribers on the system. XXXXX are paying customers or are receiving assistance; XXXXX have not received a filter as part of the current distribution effort.

- Water Subscribers without a filter are known locations that receive city water but have not been given a filter. We do not know if they have their own water filter as this was not part of the original set of questions when the teams were deployed to the field. Possibilities...refused a filter, already owned filters, or were not home when teams visited. We only know that we have not received a filter from one of our teams.

- Non-water subscribers do not receive water from the city lines. If a parcel has a structure, it is vacant. Possibilities...may have had the water shut off (cannot confirm at this time), could be on well water, or could be connected illegally. GIS removed parcels listed as "vacant," but several parcels with structures appear to have been burned or are simply vacant as viewed under street view on Google Maps.

Subject: Jen Boyer Concern

Jen Boyer has expressed a concern
That demand for lead tests in Flint be prioritized so that schools and churches go to the head of the line to avoid waiting weeks and are paying huge amounts of money for bottled water in the interim.

I have no issue with passing this on to MDEQ and MDHHS, but that should be the extent of our engagement. This is a highly sensitive issue where we need to tread lightly.

Subject: Lead Toxicity Filtration System

Dear Captain Kelenske,

My colleague Ken Gruber contacted you about a possible solution for the water contamination problem in Flint, MI. Your office did call me but I was driving and could not copy down the contact information provided. I am the former Director of Health for the State of Ohio and served as an advisor and one of the authors of the Center for Disease Control report "Childhood Lead Poisoning Prevention".

As a physician and scientist I work with colleagues globally. When I learned about the situation in Flint I made inquiries regarding lead removal systems. I received a reply from a colleague in China describing a system used in China and possibly of value in the efforts to protect the people in Flint. The following explanation regarding this system was sent to me as follows:

" Dear Dr. Fletcher,

The KDF55 is a particle material system placed into a section of the water pipe. KDF55 uses ZnO_2 to create a chemical reaction with lead allowing it to oxidize, thus becoming PbO_2 and Zn, these compounds are not harmful to human beings. The filter can be used for 5-10 years. If the KDF55 filter becomes dark, changing from a yellow color, then the filter should be replaced or it can be treated with an acid until it returns to the original yellow coloration. A KDF55 filter pipe with a diameter of 50mm, length 635mm can treat 10 ton water per hour. It can be made larger or smaller depending on requirements. Can you ask the Government what kind of capacity they need? Where they would put the filter? Placed in the center pump line or put on the family pipe? The KDF55 is very inexpensive, but cost would be based on the size of the system. We can make the filter pipe and ship it to Michigan but you should tell me the pipe size and treatment capacity needs" (translated from Chinese).

If this lead treatment filtration system is something that may be of assistance, I can facilitate a conversation so you can have one delivered to Michigan as soon as possible.

Respectfully,

Dr. Ronald L. Fletcher
Founder and Director- The Fletcher Global Technology Group

Richard,

Great to hear from you.

I was asked early on to sit in on some of the community meetings. But without a declared disaster, we could not deploy any of the AmeriCorps assets. But with the declaration, we are able to offer some resources.

There will be an announcement today (Friday) that Flint United Way will be receiving a NCCC AmeriCorps team. (the information is embargoed until CNCS makes the announcement) I will forward you the Press Release and so you are aware. Jessi has forwarded it to Ron to keep him informed as well.

The NCCC team is to arrive Feb. 2 and will be here through April. United Way will be taking care of getting them their housing and provide their overall support and management. I have a call in the morning with Wendy Spencer, the CEO of the Corporation for National and

Community Service and Harvey Hollins, from the Governor's Office to discuss the announcement of the team and determine if there are other resources to consider.

I am wondering who is overseeing the operations in Flint and what needs have been identified that volunteers could assist with meeting? We can make some resources available from AmeriCorps - but it is best to know what the needs are and then determine what options to use.

Once you have a clear understanding of the needs, we can determine if any of the following additional resources could be of assistance:

1. American Red Cross AmeriCorps members can be redeployed. There are currently 34 in the state, we are able to ask 17 at a time to be redeployed to Flint. They could be of help this month - if you identify there is a need.

2. American Red Cross Case Management. We have given an AmeriCorps grant to Red Cross in Detroit and they have had a tough time getting it set up because they do not have the match. This could be an opportunity for us to serve both Flint and Detroit. We could have 10 members in each community trained to work with residents and help them get the resources they need. For Flint - provide information, filters, blood level checks, other identified resources. For Detroit - provide the housing support services they need to recover from the flood. I would need to find about $100,00 in match money - but with the current concerns in Flint, there may be options to do this. The good news is Red Cross will manage the members - we just need to determine if there is a need. Chad could assist with helping to get this set up. If we stand this up - they would be full time members serving for a full year. This would be a more consistent option that could provide longer term benefits. This grant could be renewed up to three years.

3. Operation AmeriCorps - Flint received this new AC program and there may be an option to have some of the members assist if an identified need develops. They are serving in the schools and so we could think of a unique way to have them provide information and assistance to families in the school.

4. CNCS state office is determining what RSVP and Senior Corps members could do to assist with the effort.

5. Chad Veesar from MCSC is available to assist with managing the volunteer component and provide ideas regarding how AC members could be used in this situation. As you know, he has plenty of direct experience in Detroit that could be an asset.

If you could give us an indication of what you are seeing the needs are for volunteers, that would be helpful. It will give us a heads up as to how we can best offer our support. I do understand if you are still at the assessment stage.

Let me know if you would like to have a call to discuss options available and what roles everyone will take.

Ginna

Thanks Chad. We will keep you updated as resource requests come in. Can someone give me a summary of what involvement the commission is currently playing? I need to have a complete picture, and report out on what our Department is doing for this.

Thanks
Richard

Subject: MCSC Support

Gentlemen, Ginna has asked me to reach out to you. In light of the recent declaration in Flint, I want to make sure you are aware that I am here to support any state/national service and volunteer efforts. I do have my experience from the Detroit flooding to bring to bear. I know Ginna has been involved with aspects of this thus far, and we are working to support the United Way of Genesee County and the City of Flint in any of their volunteer work, should they need it.

Some of what has occurred could be part of our discussion in next week's meeting (roles and options, what I can bring to the table, and what you would need to be accomplished). If you need to contact me by phone, my cell is: .

Thank you,

Chad Veeser

Subject: MDEQ Safe Water Sampling

Capt. Kelenske,

Below is the information requested on the MDEQ sampling.

1/28/2016
3,726 water samples out of 3,972 sampled through January 28, 2016 are at or below the action level of 15 ppb for lead.

1/27/2016
2,991 water samples out of 3,192 sampled through January 27, 2016 are at or below the action level of 15 ppb.

1/24/2016
We ran the counts and found the following based on a results of higher than/less or equal to 0.015 (mg/L)
Of 853 tests:
68 tests were greater than 0.015 mg/L – (matched to 40 parcels)
785 tests were less than or equal to 0.015 mg/L – (matched to 577 parcels)

MDHHS Employees:

Over the weekend, Director Nick Lyon

is doing well and we expect him back within the coming weeks

Until that time, Chief Deputy Director Tim Becker will be leading the department, including the budget presentations this week. Beginning today, MDHHS leadership will be presenting our budget proposals to the legislature. Today's presentation is attached here for your review. Chief Deputy Director Becker has been actively involved in all department priorities, particularly our department efforts in Flint, so there will be continuity in all focus areas.

Please join us in wishing Director Lyon a quick and healthy recovery.

Thank you.

Subject: Media at the warehouse

Capt and Tony, (I have not been in contact with the JIC so I'm not sure if they need this info or not)

I was informed at 8:30 pm that The Today Show (which actually is the 1/2 show before the Today Show) was broadcasting live at the warehouse tomorrow (1/20) morning. This was news to me, as well as you. After further investigation, it was determined that the JIC was aware of it but that it was the ARC PIO that set it up. The purpose of the piece was to highlight the volunteer reception center. I contacted Lauren Twohig with American Red Cross, who contacted the man in charge of that chapter or region, Dave Guiterrez. He was also unaware of this event. After some fact-finding, he contacted his PIO at HQ in Washington DC to get some advice on what to do. The PIO advised that the location should be moved to the ARC Flint HQ where the Volunteer Reception Center was taking place and it should not happen at the warehouse. He contacted the warehouse manager to tell her she was not needed at 4:30 am for set up and I confirmed. I also notified LT Russo who is down there assigned to the warehouse for the next couple of days to assist with an inventory project. He contacted the owner to notify him that the warehouse did not need to be open at 4:30 am. Again, I have not been in contact with the JIC at all, so I'm not sure if they need to know this or not.

I just wanted you to know how this all happened while it was still fresh in my mind. There are more details that I will share in person tomorrow. Goodnight.

Good Evening,

I have communicated this request with the MDEQ Emergency Management Coordinator in the SEOC, who has made contact with the EPA. The EPA has confirmed that they will test water supply on Monday, and are interested in obtaining information regarding any additional calls that have been received with similar complaints of rashes caused by the water. EPA offered to test those locations as well. The CHECC maintains a log of calls received to the CHECC hotline and will query that log for this information tomorrow to be provided to DEQ and the EPA.

Thank you,
Jennifer Lixey Terrill

breaks out when showering

I contacted He did have his water tested, has filters on the faucets, and has plenty of bottled water. Both he and his girlfriend have been having rashes for the past 2 mns and they have not changed detergent or body wash. saw his physician who agrees the water is causing his rash. I will have a MDHHS toxicologist contact r more investigations into the water and rash development.

> · Beginning tomorrow the operational periods will be 7 days long.
> · The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
> · An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
> · Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
> · DTMB is working to secure space in Flint for FEMA staff.
> · Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
> · ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
> · Media availability conducted today at 3pm at the VRC.
> · Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
> · Information reported to the JIC:
>
> o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)
>
>
> 1. 21,393 homes visited by the FWRTs to date.
>
> 2. Distributed:
> a. Number of cases of water 37,313
> b. Filters 53,713
> c. Filter cartridges 169,520
> d. Test kits 7,379
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers

> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 82,992 (additional 16,056 donated)
> b. Filters 115,700
> c. Filter cartridges 243,200
> d. Test kits 61,161
>
> 5. Teams going out tomorrow:
> a. ; State ;) type 3 teams---Goal tomorrow 300 homes per team
> b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
>
> Local EOC
> Operations:
> • Continuing to work with faith based organization to distribute resources.
> • Working with colleges to obtain volunteers for canvassing.

> Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs), PODs
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
>
> Attached Documents:
>
> * SitRep 12
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received.
>
> * Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
>
> * Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have state agency, type 3 teams l), with a goal of 300 homes per team.
> o We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
>
> Items to Note
> · Deployed __ state/local teams and 10 ARC Flint Water Response Teams to the field today.
> o 4,963 homes visited today.

> 01/17/16

> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Continue to implement the logistics plan and adjust as needed
> · Continue door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration
>
> Attached Documents:
>
> * SitRep 11
>
> Status on Governor's request letter to the President:
>
> * Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
> * The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.
>
> Key items for tomorrow to note:
> · The logistics plan will be fully executed tomorrow with all teams.

> o We will have 1 state agency, type 3 teams , with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> · I will be back on duty Sunday.
> · We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
> · A logistics briefing will be provided to see how many more teams we can put in the field.
>
> Items to Note
> · LT Gov visited the local EOC today; discussed local EOC operations.
> · Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
> · DEQ sampling kits are now being received at the PODs.
> · DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
> · The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
> · will have a total of personnel in the PODs for distribution. Mission has not changed.
> o NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
> · Information reported to the JIC:
>
> o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

> Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Pilot the logistics plan and adjust as needed
> · Continue with door to door/Flint Water Response Teams (FWRTs)
> · Prepare for possible surge in FWRTs utilizing NG personnel
> · Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency
>
> Attached Documents:
>
> * SitRep 10
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
> * When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.
>
> Key items for tomorrow to note are:
> · The logistics plan will be fully executed tomorrow with all teams.
> o We will have state agency, type 3 teams l), with a goal of 300 homes per team.
> o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
> o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
> · I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.
>
> Items to Note
> · LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
> · Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.

> · Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
> · Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
>
> o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)
>
>
> 1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.
>
> 2. Distributed:
> a. Number of cases of water 18,576
> b. Filters 45,916
> c. Filter cartridges 165,382
> d. Test kits 3,217
>
> 3. Total number of customers on the Flint water system
> a. 29,944 paying customers
> b. 45,000 hookups (This is our high end target #)
> c. 39,000 includes apartment complexes (The is the low end target #)
>
> 4. Resources purchased:
> a. Cases of water 44,688 (additional 12,884 donated)
> b. Filters 78,520
> c. Filter cartridges 163,081
> d. Test kits 18,761
>
> 5. Teams going out tomorrow:
> a. State I ype 3 teams---Goal tomorrow 300 homes per team
> b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
>
> Local EOC
>
> Home Deliveries:
>
> * Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.
>
> Operations:
>
> * We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
> * Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
> * Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were

helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
> * Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

> Chris
>
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
> · Continue with door to door teams and finalize planning for future team use
> · Submit request for a Presidential Declaration of a Major Disaster and Emergency
> · Continue to work on long term recovery items (DHHS, DEQ, MDARD)
>
> Attached Documents:
>
> * SitRep 9
>
> Status on Governor's request letter to the President:
>
> * All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.
>
> Key items for tomorrow to note are:
> · The door to door teams will continue in the morning.
> · We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
> · ARC will increase the number of their Water Response Teams.
> · Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.
>
> Items to Note
> · DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
> · LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
> · Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
> · Email sent to state employees to request volunteers for weekend.
> · Media monitoring showed no incorrect information today.
> · Michigan Association of Broadcasters is sending PSA to radio stations.
> · Coordinating with Red Cross on volunteers for weekend.
> · Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.

> · National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
> · Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
> · DHHS
> o The Community Health Emergency Coordination Center (CHECC) is working on the following:
> § A nutrition plan
> § Education materials, messaging, and working with local agencies
> § Developing a community assessment for disaster behavioral health services.
> · Lined up the delivery of filters to two large apartment complexes and a student housing complex.
> · We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
> · Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

>
> Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Prepare/approve logistics plan and close lease on warehouse space

> · Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
> · Continue to work on Governor's Declaration of an Emergency
>
> Attached Documents:
>
> * SitRep 8
>
> Status on Governor's request letter to the President:
>
> * All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
> * Current timeline:
>
> * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
> * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
> * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
> * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.
>
> Requests and potential response from FEMA/President
>
> * The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
> * The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
> * This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
> * Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
> * Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
> * If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan
>
>
> Key items for tomorrow to note are:
> · The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
> · We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
> · MNG will have a press event at the armory with incoming soldiers and MG Vadnais.
>
> Items to Note
> · Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
> · Managed and corrected misinformation on NG role.
> · Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
> · Working with Comcast so they can put teams in the field for distribution.

> · Penske is going to give us 15-20 trucks over the weekend.
> · Contact made with Two Men and a Truck for resources.
> · Meeting set with Google where they will brief me and key staff potential tasks.
> · Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
> · Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
> · We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
> · 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

> · We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
> o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
> · Logistics Support
> o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
> § Mission – A filter in every home ASAP.
> § 4 Distribution Methods
> · PODs (5)
> · Water Response Teams (20 effective tomorrow and this will increase)
> · Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

> · Local EOC support for other local requests (Faith based for distribution, etc.)
> § Three warehouse locations at this time
> § How to better leverage ARC resources
>
> · Supplies – Daily Numbers
>
> o Replacement Cartridges - 30,700 delivered.
>
> o Water (cases) - 19,152 cases delivered
>
>
> · Budget projection completed and will be submitted to SBO for review.
>
> · Notes from Water Response Team Command (MSP)
> o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
> o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
> o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.
>
> All personnel continue to be fully committed to fixing this as quickly as possible.
>
> Chris
>
>
>
> Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency
>
> I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.
>
> Mission focus for the day:
> · Receive, store and increase quantities of supplies
> · Fine-tune logistics
> · Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
> · Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)
>
> Attached Documents:
>
> * SitRep 7
> * Executive Order Activating the National Guard
>
> Key items for tomorrow to note are:
> · The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
> o I have briefed the ARC Disaster Officer on this plan.
> · The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.

> · The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
> · We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.
>
> Items to Note
> · PSA video sent out to Flint citizens on resources available.
>
> · Water
> o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
> o Ordered:
> § 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
> · 1/3 is going to GCCARD and the rest is going to the new warehouse
> § 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)
>
> · Filters
> o Today's numbers
> § Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
> · 2,000 – Brita filter faucet mounts
> § Filter Replacements
> · 2,400 – Brita filter replacements (single pack)
> · 8,000 – Brita filter replacements (two pack)
> o Ordered on 1/12/16 to arrive Wednesday
> § Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR Vertical faucet mount
> · 2,500 – PUR Horizontal mount
> § Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
> · 10,000 – PUR replacement filters (3 pack)
> · 10,000 – PUR replacement filters (single pack)
> § PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
> · 10,700 – PUR combo packs
>
> · To arrive Thursday
> o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 1,300 – Zero Water pitchers
> o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 11,000 – PUR vertical faucet mount
> § 1,500 – PUR Horizontal faucet mount
> § 5,000 – Brita faucet mount
> § 10,000 – Brita adv faucet mount white
> § 12,000 – Brita adv faucet mount chrome
> o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
> § 117,600 – PUR replacement filter
>
> · Test Kits
> o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
> o 500 have been assembled and are ready for distribution
> o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
> o 10,142 unassembled kits to arrive at GCCARD early next week
>
> · Second warehouse – Located in Flint
> o 100, 000 square feet of secure warehouse obtained.

> o Accepting commodities beginning Wednesday, January 13
>
> · Logistics Support
> o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.
>
> · Door to Door Numbers
> o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
> o We are working on version 2.0 so this can be used at the PODs
> o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
> o Notes from the field commander:
> § "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
> o In the end, there were 394 total home visits with the following breakdowns:
> · 217 Door Hangers
> · 152 Vacant Homes
> · 117 Water Distributions
> · 112 Filters
> · 3 Pitchers
> · 48 Water Test Kits
> · 211
> o CALL VOLUME:
> § 185 calls for water-related issues had been received as of 4:45 pm.
>
> · Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).
>
> Chris
>
>
> Update 1/11/16
>
> The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.
>
> Attached Documents:
>
> * SitRep 6
>
> Key items for tomorrow to note are:
> · The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
> o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

> o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.
>
> Items to Note
> · It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
> · We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
> · Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
> · We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
> · ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
> · Began mapping lead service lines (anticipate having draft of lead service lines Friday).
> · Coordinated with local IT managers overseeing filter tracking system to streamline data collection.
>
> Local Emergency Operations Center
> • Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
> • Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
> • Working to establish a warehouse for local resource storage.
> • Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
> • Discussed potential long term water sources between local EOC and SEOC.
> • Established planning cycle/meeting scheduled for 1/12/16.
> • Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.
>
> Chris
>
>
>
>
> Update 1/10/16
>
> Attached Documents:
>
> * SitRep 5
> * Door card (English version but Spanish version will be ready for Tuesday)
>
> I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).
>
> I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:
>
>

> 1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.
>
>
> 1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.
>
> · We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
> · A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
> · An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."
> o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
> · Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
> · Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."
> o Debris Removal = self-explanatory and we do not have this
> o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)
> o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.
>
> Back to the update...
>
> Key items for tomorrow to note are:
> · Training is occurring for the door to door teams scheduled for Tuesday morning.
> · Deploying an additional MSP District Coordinator to the local EOC for command and control support.
> · Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
> · Media event with the Governor in Flint.
> · New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
> 1. Ensure all households within impacted community have required resources.
> 2. Ensure accurate tracking and accounting of all commodities.
> 3. Improve and maintain public information strategy.
> 4. Develop a long term public health and services plan.
> 5. Ensure adequate staffing to support operational requirements.
> 6. Identify possible assistance programs.
> 7. Develop an approved GIS strategy.
> 8. Maintain coordination between partner agencies and organizations.
> 9. Enhance situational awareness and common operating picture of all activities.
> 10. Develop a comprehensive Recovery Plan.

>
> Items to Note
> · All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
> · Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
> · The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
> · The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
> o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
> o The door card is attached that will be left if no one is home.
> · Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
> o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
> · GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
> o 12,386 filters
> o 1,985 replacement filters
> o 354 Pitchers
> o 2500 Lead Testing Kits
> · Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
> o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
> o We have ordered an additional (expedited delivery with ETAs tomorrow)
> § 40,000 Brita Filters
> § 40,000 Brita Replacement Filters
> § 1000 Zero 8-Cup Pitchers
> § 1000 Zero 8-Cup Pitchers
> § 2000 PUR Replacement Filters
> § 93 Pallets of water (about 6700 cases)
> · GIS continues to produce multiple maps for use.
> · JIC Items
> o Requested PSA on the radio. Media has been approved and working with MAB.
> o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
> o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
> § Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
> § JIC moving tomorrow to Flint.
>
> Local Emergency Operations Center
>
> I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you

should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.
>
> Fire Station Inventory Levels:
> Station 1:
>
> * Only time without supplies - 15 minutes without water while the truck was unloaded.
> Station 3:
>
> * Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.
> Station 5:
>
> * Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
> * Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.
> Station 6:
>
> * Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
> * 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
> * We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.
> Station 8:
>
> * Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
> * Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
> * Reports received that the last couple of hours were slow.
> * Residents were advised of the other sites and the opportunity to obtain supplies.
>
> Restocking Plan
>
> * United Way set up meeting with Food Bank to discuss.
> * Had EOC meeting on this topic to discuss options.
> Churches:
>
> * All 9 churches received waters, filters, and informational bulletins.
> * Lt Roach received positive feedback from 3 of the pastors.
> * No complaints were received.
> Signage:
>
> * Provided information to SEOC on signage requirements at the fire stations.
> Storage:
>

> * Researched storage spaces; established temporary site at GCCARD.
> Personnel:
>
> * Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
> * Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
> * Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.
>
> Chris
>
>
> Update 1/9/16
>
> SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.
>
> Key items for tomorrow to note are:
>
> · 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
> · 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
> · Media event will take place on the above tomorrow.
>
> Items to Note
>
> · 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
> · We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
> · A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
> · We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
> · Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
> o A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
> · I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was

stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

> · The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.

> · A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.

> · Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.

> o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.

> § Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.

> o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.

> o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.

> o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

> · A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

>

> MSP/EMHSD GIS Section Updates

>

> Accomplished Today (January 9):

> • Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.

> • Produced Filter Distribution Map.

> • Developed process of how best to handle geocoding the household filter locations, worked on processing the data.

> • Worked on map of franchise customers outside of Flint City.

> • Produced maps for MDARD on food establishments and Local Health Departments.

> • Produced map of Church Filter Distribution map for DTMB.

>

> Local Emergency Operations Center

>

> · The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.

> · Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.

> · With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:

> o Logistical activities to support church operations.
> o Logistical activities to support fire stations operations.
> o Coordinate Donations Management activities and draft donations management plan
> o Coordinate Volunteer Management activities
> o Identify local storage/staging facilities
> o Overall inventory tracking
> o Tracking of Points of Distribution (PODs)
> Chris
>
>
> INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE
>
> Update 1/8/16
>
> SitRep 3 attached.
>
> There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).
>
> Items to Note
>
>
> · Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.
>
>
> · We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.
>
>
>
> · We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.
>
>
>
> · I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.
>
>

> · DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
>
> · 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
>
> · Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.
>
>
> · STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.
>
>
> · The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

Kevin

Left you a message to call me. Your point below is exactly why we have the seoc activated. He can still do some things but needs to coordinate with the SEOC who is doing the same things.

If you want to keep doing that, that's great. But are you just talking about large donations of water? Jeff is setting up a team to coordinate vendors so there is no overlap in case someone wants to donate something along the lines of 100 water coolers or something like that. Right now he is working with DOW on a major reverse osmosis system donation. For example.

Yes as that was the purpose of the website link.

Large donations should go through the SEOC logistics desk so they can coordinate deliveries but the question at the meeting was specific to vendors with products to sell.

I will get with tori.

Subject: Lt. Gov visit to SEOC

Hello Captain Kelenske,

The Lt. Governor would like to stop by at some point this week to thank everyone for their work. He would prefer it to be unannounced and informal. Could you please tell the best time of the day that can potential work for this?

Best Regards,

Nick Tolfree

Administrative Assistant
Office of Lieutenant Governor Brian Calley

Capt. Kelenske,

Attached is the Governor's Data Report for the 2/15/2016.

Please let me know if you have any questions.

Kari Day

Planning Group Chief, State Emergency Operations Center
Michigan State Police/Emergency Management and Homeland Security
(This email is monitored only when the SEOC is activated)

SEOC Report for: February 16, 2016

Full Days Since Emergency Declaration: 42

Items to Note

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM.
- Commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief taking over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- IC coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

For kids with elevated blood lead levels:

- I understand they are all on case management
- If so, does that include a nutritional component?

Capt. Chris A. Kelenske

Sam

If we identify a filter for showers/tubs due to some having reactions (getting a rash) from the water is that a commodity we could source through FEMA?

Captain,
What do you need me to do for tomorrow? We are both scheduled for the State Directors seat. Do you want to split the shift or are you out with meetings? Lt. Martinez's retirement party is at 11am, and I will certainly be at that. I could start later and cover the evening if you were trying to get out at or before 5pm.
Please advise.
Thanks,
Gabe

Subject: Water Main Fixed

I have been advised the water main break has been fixed and is currently being backfilled. It will be re-pressurized by this afternoon. There have been some smaller breaks that have been fixed already and boil water advisories were not needed for those.

In addition to the numbers of breaks, advisories, etc. I have requested to know if the city has the commodities, personnel, equipment, etc. to ensure timely fixing of any breaks this winter.

Subject: Food Bank

Tori and Morgan:

The below is from Lt. BJ Roach my Third District Coordinator. She is the my liaison with the county and city and has been very engaged since this started. They are very deserving of a big thank you.

- Food Bank has been a great partner.
- Bill Kerr is the boss and Tina Martinez more or less runs day to day operations. We have had meetings with both.
- Either Jay Eickholt (from EMHSD who has been assigned to the local EOC) or Capt Tafoya (Genesee County SD) have been the POC from the state and local EOC.
- ARC volunteers should be there tomorrow.
- Food bank has saved us several times especially at the beginning of this process by storing water, transporting water for us, deliveries, extending their hours and being available as an on-call status in the beginning.
- Their equipment has been taxed due to the weight of the water as they normally do not deliver water.
- They are very trusted in the community and they have received donations thru the United Way (and money from Pearl Jam) to hire people and either lease or purchase equip such as trucks /forklifts.
- **The only negative we can think of is the mix-up when they thought the state was pulling out and trucks weren't available. We corrected this as soon as possible.**

Let me know if you need additional on this or if I still owe you something. I feel like you needed one other thing from me.

Subject: Media Advisory Update from the JIC

Insp-

As discussed, Capt Kelenske and the Governor's office would like the JIC to produce and disseminate a document/information on the boil water advisory to include:

The steps to take to make the water safe
What has occurred to bring us to this point
Are new filters needed
Are new cartridges needed
Anything else you feel is needed

I can run any of this by DEQ, MDHHS, or other state partners if needed. Please advise what you need from me.

Thanks
K

Hold Close.

I need information on the Food Bank of Eastern MI for the Governor. Who is the lead, any concerns or issues the Governor should know about, any accolades that should be given, do ARC volunteers work there? Who is a good POC on our end to be there if the governor visits?

Subject: RE: We don't, do we?

See attached thread from last week. Originally, they were looking for a "tool on the back end" to "convert attachments in bulk"

Both Joe and myself had mentioned PDF Creator for printing entire messages to PDF, but not for just converting attachments. Andrew at the AG's office was originally going to close the loop with AG about using Relativity, but then the whole HP Records Manager thing popped up.

So it sounds like they've had a little scope drift, but still want this?

Subject: RE: We don't, do we?

The quick answer is "not really".

Who is asking?

The subject of printing to PDF files with Outlook using Adobe plugins has been briefly discussed. However, there is a meeting tomorrow with multiple agencies and the AG's office about utilizing HP Records Manager to coordinate document production for all of the FOIAs. Mike Marshall is heading up that initiative at least for DEQ. I know some other agencies are attending (as well as Chris Christensen and myself.)

In addition, we have multiple exports going on to IDiscovery's Relativity platform for the litigations, use of that platform was mentioned as a possible production method for FOIA, but nothing's been decided.

From: Nelson, Nick (DTMB)

To: Partridge, Ken (DTMB) <partridgek@michigan.gov>
Subject: We don't, do we?

Ken,

We don't have anything like this currently, do we?

"We need a quick method to take all e-mails and their attachments and make them PDF's while staying associated with each other.

Right now, to PDF a Word doc attached to an e-mail, you have to PDF both and then associate them. With the large number of FOIA's and litigation, we need a fast method to preserve many e-mails. "

I ask because someone has requested some new software to do this and John wanted to know if we had something already.

Thanks.

Subject: Fwd: Water projections

John

Attached is an updated spreadsheet that shows amounts of water with known donations pulled from what we would need to buy. Many donations go outside our operation.

The donations are in liters and are already subtracted from the cases/liters column.

Subject: Scheduled Donations

Unfortunately at this time, I have no donor that has set a consistent schedule for donations. Many organizations have offered to send frequent trucks of donated water, but are unable to set a schedule for those deliveries. This is due to various reasons, such as availability of the truck and driver or operations of their own business. Target, Walmart, Niagara, and Aqua Hydrate are those that have offered up consistent deliveries, but cannot set a date and time of those.

Thanks.
Wendy

Average water per day as of 2/1/16:	
Cases	Liters
10,977.00	131,724.00

Estimate for 90 days:		
Cases	Liters	Donated
972,930.00	11,675,160.00	180,000.00

Estimate through September 30, 2016:		
Cases	Liters	Donated
2,616,100.67	31,393,208.00	484,000.00

Estimate through December 31, 2016:		
Cases	Liters	Donated
3,610,651.33	43,327,816.00	668,000.00

To: Calley, Brian (GOV)
Cc: Forstner, Nathaniel (GOV)
Subject: RE: SEOC Update 1/25/16 - Flint Water - Limited Distribution

Absolutely.

Also, reference your earlier request on the money versus water issue. We are in the process of securing more storage so we actually would continue to receive donated water. We can highlight different foundations to donate to (if the Governor approves) but wanted to make sure you had the most updated information on donations of water. Tomorrow we should have a better idea on the additional storage. While there is a lot of water coming in ... there is a lot going out.

Chris

Subject: Re: SEOC Update 1/25/16 - Flint Water - Limited Distribution

Hi Capt Kelenski,

Will you please add my chief of staff, Nat Forstner, to the daily email updates and to allow him access to the emails that have been distributed so far. It would also be helpful to have a dedicated contact at SEOC that he or I could request other electronic data, as needed, such as the various maps that the SEOC is updating.

Thank you,

Brian

> - Validate all data from the WRTs/PODs and identify focus areas
>
> Attached Documents:

- Sit Rep # 20
- Michigan Department of Health and Human Services Situation Report for January 20, 2016
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first map indicates based upon the outreach that has been conducted, which parcels have had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).

Items to Note

- 11 ARC Flint Water Response Teams to the field today.
- 8 EPA PIOs will be in the JIC tomorrow. The JIC is unaware of the role or expectations at this time.
- Reference the rash I discussed on the call tonight:
    - There was one specific complaint about rashes that Community Health personnel plan on working with ATSTD/CDC. DEQ is requesting that EPA collect all appropriate water samples to enable a full analysis of the water at the address (an apartment) for bacterial contamination, and a full metals and organics panel. Lead is not associated with skin rashes, but other contaminants are and DEQ wants to find out what, if any, other contaminants are in the water.
    - It was also discussed that it would be ideal if Community Health can forward to the EPA the other addresses and contact information for which they've received complaints of rashes, so that EPA could also test there for appropriate parameters to see if we can identify a cause.
    - SEOC DEQ desk will continue to monitor and work this issue.
- SEOC OPS, Health, MDEQ SEOC, Logistics participated in conference calls with the Governor's office and private partners on potential alternative filtration systems for schools, daycares, etc.
- Created a form for drivers to track rapid response deliveries.
- Media avail at fire station 8 this morning received positive news coverage.
- The NAACP is holding a public meeting at U of M Flint on Tuesday.
- Rachel Maddow will hold a town hall meeting on Wednesday. MSP Third District Commander advised.
- Developed new Incident Action Plan (#7 published in MICIMS) and ICS 204s for the new operational period (1/26/2015-2/2/2016).
- MDOC assumed all warehousing responsibilities today.
- Reviewed state agency financial information received for update to current spend plan.
- Information reported to the JIC:
    - As of 1/25/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase I	Phase II	Targeted Canvassing Mission 1/25/2016
30,770	37,844	2,596 – ARC*

*American Red Cross data has not been entered in the app, but is currently being caught up. Starting January 26, 2016, the American Red Cross has been instructed that iPads must be used in the field for data entry in order to clearly capture the homes that have filters.

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	176,118
b. Filters	93,048
c. Filter cartridges	198,552
d. Test kits	29,320

3. Total number of customers on the Flint water system
    a. 29,994 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased*:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

    * Numbers have not been updated due to the following circumstances:
        - Outstanding donations and inventory at the warehouse which has not been reported to the SEOC. Staff in the SEOC is working with donations management and warehouse to reconcile numbers.
        - Outstanding data from GCCARD on deliveries from 1/8-1/12. Staff in the SEOC and local EOC is working with GCCARD to obtain data.
        - At the beginning of tracking the planning factor used was 72 cases of water per pallet and 22 pallets per semi-truck. Per bill of lading received from the warehouse today, it has been identified that this assumption is not correct. Staff is working to reconcile numbers.

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>Standing Information Requirements</u>

1. **Number of homes visited each day:**
    a. 1/25/16, as of 5 pm, 2,596 homes were visited today.
2. **Total number of homes visited:**
    a. Phase II: 37,844
    b. Targeted Canvassing Mission: 2,596
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs: 60
        ii. Command and Control Staff for NG Personnel: 5
4. **Total Number of Volunteers each day:**
    a. 135 volunteers for 1/25/2016.
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 1,151 were distributed on 1/25/2016, and total distributed to date is 93,048.
7. **Cases of Bottle water distributed (each day and to date):**

a. 9,514 were distributed on 1/25/2016, and total distributed to date is 176,118.

8. **Number of testing kits distributed (each day and to date):**
    a. 478 were distributed on 1/25/2016, and total distributed to date is 29,320.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Per CHECC: People tested for lead 10/1/2015 to 1/8/2016: **2,642**;
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Per CHECC:
        i. Children less than 6 years old ≥ 5 µg/dl since 10/1/2015: **28**
        ii. Children 6 to 17 years old ≥ 5 µg/dl since 10/1/2015: **7**
        iii. Adults 18 years and older ≥ 5 µg/dl since 10/1/2015: **15**
11. **Number of homes with safe drinking water:**
    a. 1099 homes, per data from September 3, 2015 to January 22, 2016. Note, per MDEQ, this data is from uncontrolled samples provided by residents.

GIS Information

I have had numerous discussions with GIS staff as to getting our data validated and as close to final as possible. We are tracking 38,144 residential properties within the city (noting large apartment complexes are classified as commercial so they are not a part of this). Of these:

- 34,318 have been engaged by Flint Water Response Teams and PODs (90%) - The remaining 10% is going to be a focus for the teams in the near future
- 23,281 have led to a direct citizen engagement (61%)
- 5,173 were not home during any attempt to visit and have not been recorded as having visited a POD (14%)
- 5,864 of the properties the teams visited were vacant or destroyed (15%)

Additionally, we have been tracking the status of "Active Water Subscribers" from the Flint Department of Public Works. These are residential properties which have meters put on the homes by the city. Of the total 29,994 subscribers citywide, 26,673 have been confirmed as being on residential parcels. Of the 26,673:

- 18,487 Have been confirmed as having received a filter by the Flint Water Response Teams or PODs (69%)
- 3,928 Were not home when visited (15%)
- The remaining 16% we have no data to confirm or deny whether they have a filter

Of special significance from the water subscriber data is that the old lead maps that we are digitizing from the Flint Water Department contain 993 suspected homes with lead lines in them. Of these only 659 have received a filter.

It is significant to note that we are continuing to receive paper forms from the field and processing them. The ARC and volunteers were specifically told to use the App and we provided Ipads but tonight I was told this was not being done by everyone which has caused us some lags in data. This is likely improve the overall numbers as we process historic records (ARC had ~7,000 of these records).

It cannot be reiterated enough that data is still coming in and we are still actively cleansing it.

Local EOC

Operations:

- Coordinated with Foodbank of Eastern Michigan for issuing of Resource Request.
- Coordinating and following up on vehicle demobilization.
- Facilitated rapid response deliveries to special locations.

- Finalizing components of recycling program.
- Received authorization to operate bottle collections for recycling at Fire Station 1 and 5 PODs.
- Initiated activities to plan for inclusion of institution sampling (schools, daycares, nursing homes, etc.) in Genesee County EOC IAP.
- Coordinating volunteer management with Michigan Community Service Commission.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/24/16 – 20th Day (19th Full Day) After Governor's Declaration of an Emergency

I have asked state agency SEMCs to archive their SitRep items so you only have current operational period information in the SitRep Agency Summaries. Director Creagh added to daily report.

Mission focus for the day:

- Receive, store, and increase quantities of supplies.
- Increase efficiency of warehouse operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

Attached Documents:

- Situation Report # 19
- Maps:
    - Parcel Contact Status, includes data as of 5 pm today.
        - The first one indicates based upon the outreach that has been conducted, which parcels have we had contact with a resident and which parcels have not had any contact with a resident.
    - Parcel Filter Status (Multi-Tenant Excluded), includes GIS data as of 5 pm today.
        - The second map indicates the status of residents that have or have not received a filter.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have 10 ARC, type 5 teams (2-4 personnel).
- WRTs with NG personnel are transitioning out. No field teams. NG will continue to staff the PODs.
- Tony Katarsky will be acting SEOC State Director. Capt. Kelenske not in the SEOC - available by phone (in the Holland, MI area).

Items to Note

- Deployed 1 National Guard/state/local teams and 19 ARC Flint Water Response Teams to the field today.
- JIC was operational with limited staff out of the SEOC today. Co-located JIC in Flint will be back and operational tomorrow.
- SEOC Logistics worked with MDOC on warehouse management transition.
- Recovery Branch began demobilization of trucks and vans.
- Demobilization of National Guard Water Response Teams will be effective as of Monday, January 25.
- School for the Deaf
    - As of 1/23/16: LARA and DEQ teams on site; water testing complete in school building and LRC dorm. Stevens Hall will be tested when landlord finishes upgrades.
    - As of 1/23/16: all water faucets replaced in Stevens Hall. 3 new drinking fountains on order; expected mid-week. Once fountains are installed, Stevens Hall will be scheduled for water testing.
- SEOC Finance Donations Management team to obtain list of donors and donations for FEMA request.
- SEOC Planning Section worked on burn rate data from FWRT and PODS for FEMA request.
- GIS continued to clean up V2 Dataset (patched approximately 1000 records).
- GIS coordinated with the DEQ to transfer lead service line mapping to their GIS department tomorrow. Wall maps showing known lead service lines based off of geographical locations and zip codes provided for Chief Hagler, SEOC DEQ staff and Director Creagh.
- Out of 37,003 homes visited, 5,660 were not home/did not answer. The number of homes visited is lower than the Phase II number as some duplicate contacts at addresses were eliminated.
- Information reported to the JIC:
    - <u>As of 1/24/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase I	Phase II	1/24/2016
30,770	37,844	7,012 National Guard/State/Local 4,132 ARC

2. Distributed:

Commodity	Total to Date
a. Number of cases of water	164,991
b. Filters	91,763
c. Filter cartridges	197,775
d. Test kits	28,763

3. Total number of customers on the Flint water system
    a. 29,944 current water system subscribers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 141,982 (additional 24,634 donated)
    b. Filters 124,052
    c. Filter Cartridges 285,586
    d. Test kits 62,701

5. Teams going out tomorrow:
    a. 10 ARC (2-4 people) type 5 teams -- Goal tomorrow 100 homes per team

<u>Additional Standing Information Requirements</u>

1. **Number of homes visited each day:**
    a. 1/24/16, as of 5 pm, 11,144 homes were visited today
2. **Total number of homes visited:**
    a. Phase II: 37,844
3. **Total number of National Guard on the ground:**
    a.
        i. Number in PODs: 65
        ii. Number on Cyber Mission: 3
        iii. Number with FWRTs: 185
        iv. Command and Control Staff for NG Personnel: 23
4. **Total Number of Volunteers each day:**
    a. 315 *volunteers for 1/24/2016.*
5. ***Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016.
6. **Number of Water filters distributed (each day and to date):**
    a. 4,920 were distributed on 1/24/2016, and total distributed to date is 91,763.
7. **Cases of Bottle water distributed (each day and to date):**
    a. 16,125 were distributed on 1/24/2016, and total distributed to date is 164,991.
8. **Number of testing kits distributed (each day and to date):**
    a. 3,177 were distributed on 1/24/2016, and total distributed to date is 28,763.
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time, CHECC will begin providing numbers on 1/25/2016.
11. **Number of homes with safe drinking water:**
    a. 577 homes, per data from September 3, 2015 to January 20, 2016. Note, per MDEQ, this data is from **uncontrolled samples** provided by residents.

*This is an estimate from Phase I data. We are cleaning up the data to get a more accurate number – Phase II questions were developed to help clean this up.

<u>Local EOC</u>
Operations:

- Distribution of supplies at five water resource sites in the City of Flint.
- Door-to-door distribution of supplies with 34 water response teams (19 ARC volunteer teams, 15 MSP/GCSO/NG teams).
- Facilitating rapid response deliveries to homebound residents and special locations by three teams staffed by Team Rubicon, and Lt. de Castro (MSP/EMHSD).
- Improved logistics for rapid response teams by providing transportation and iPads starting on 01/25/2016.
- Coordinated with ARC for distribution of additional iPads for data entry.
- Identified alternative warehouse locations for lose donations.
- Directed volunteer requests to appropriate state agencies.
- Started coordination for resource demobilization.
- Coordinated with 22 churches so they had water, filters, etc. Delivered Saturday. Some advised they were set with supplies. Lt. Roach (MSP District Coordinator will maintain contact with Pastors).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

- SitRep 18

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- We will have National Guard/state/local agency, type 3 teams
- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

- Deployed 15 state/local teams and 40 ARC Flint Water Response Teams to the field today.
- Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.
- SEOC Logistics worked on future resource planning and a local business commodity supply plan.
- Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.
- Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.
- Information reported to the JIC:

    - As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date	1/23/2016
37,943	6,323 National Guard
	7,361 ARC

2. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Total to Date
a. Number of cases of water	148,866

b. Filters	86,843
c. Filter cartridges	194,622
d. Test kits	25,586

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 133,662 (additional 24,634 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard State type 3 teams---Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. **Number of homes visited each day:**
    a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. **Total number of homes visited:**
    a. 37,943, does include duplicate counts from the second canvasing
3. **Total number of National Guard on the ground:**
    a.
4. **Total Number of Volunteers each day:**
    a. 310 volunteers for 1/23/2016
5. **Number of homes with filters:**
    a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. **Number of Water filters distributed (each day and to date):**
    a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. **Cases of Bottle water distributed (each day and to date):**
    a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. **Number of testing kits distributed (each day and to date):**
    a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. **Number of people tested for elevated blood levels (kids, adults, total):**
    a. Unknown at this time until we get the data

10. **Number of people with elevated blood level (kids, adults, total):**
    a. Unknown at this time until we get the data
11. **Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):**
    a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep # 17
- Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

- National Guard/State/Local , type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.

- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State , type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date

of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard/state/local agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel (3 at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

- As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
   a. Cases of water 124,398 (additional 20,098 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
   b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have . National Guard (MSP supported), type 3 teams , with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

- As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard ,) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams ", with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
   a. Number of cases of water 77,794

b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard · ype 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13

- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state/local agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)

b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.
  - Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

yesterday.
01/16/16

01/17/16

- Information reported to the JIC:
    - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
    - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

    - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.
  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

    2. Distributed:
        a. Number of cases of water 18,576
        b. Filters 45,916
        c. Filter cartridges 165,382
        d. Test kits 3,217

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 44,688 (additional 12,884 donated)
        b. Filters 78,520
        c. Filter cartridges 163,081
        d. Test kits 18,761

    5. Teams going out tomorrow:
        a. State type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.

- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft

- Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
- Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

<u>Key items for tomorrow to note are:</u>

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

<u>Items to Note</u>

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place

to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
            - Local EOC support for other local requests (Faith based for distribution, etc.)
        - Three warehouse locations at this time
        - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts

        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers
    - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 11,000 – PUR vertical faucet mount
        - 1,500 – PUR Horizontal faucet mount
        - 5,000 – Brita faucet mount
        - 10,000 – Brita adv faucet mount white
        - 12,000 – Brita adv faucet mount chrome
    - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 117,600 – PUR replacement filter

- Test Kits
    - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
    - 500 have been assembled and are ready for distribution
    - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
    - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:

        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

<u>Update 1/11/16</u>

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

<u>Attached Documents:</u>
- SitRep 6

<u>Key items for tomorrow to note are:</u>
- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

<u>Items to Note</u>
- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.

- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:
- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake,***

volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to <u>supplement</u> State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is <u>beyond the capability the state and affected local governments,</u> and that the state requires <u>supplementary</u> federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

<u>Key items for tomorrow to note are:</u>

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

<u>Items to Note</u>

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them

water due to the limited time but we did end up getting water to all 9 churches with the other items.

- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the

Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9.00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:

- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:

- Provided information to SEOC on signage requirements at the fire stations.

Storage:

- Researched storage spaces; established temporary site at GCCARD.

Personnel:

- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).

- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire

department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.

- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

<u>MSP/EMHSD GIS Section Updates</u>

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

<u>Local Emergency Operations Center</u>

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local

Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.

- Additional Sherriff staff , . ; will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.

- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been

specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.
    10. Establish a Joint Information Center (JIC) and develop a public information strategy.
    11. Monitor MI CIMS for resource requests and address as appropriate.
    12. Establish and disseminate cost center information for the incident.
- Additional tasks include:

- Determine what federal agencies are already involved and their status
- Identify potential water supplies
- Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
- Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
- Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: RE: Sample Information from DEQ

Sir

Per DEQ:

There are a number of addresses that are facilities that submitted multiple samples. In some cases residents may have sent in a before and after filter sample to test the efficacy of the filter.

> We are in the process of setting up a representative set of sampling sites that will be monitored so as to establish a baseline and then to provide trend analysis through the subsequent re-sampling of those same addresses.

We are continually fine tuning/cleaning the data we have and will work to get the baseline and trends at a point we are more confident to release publically. Let me know if you have any other questions or concerns on this and I push to the appropriate desk.

Subject: Re: Sample Information from DEQ

Is there information showing testing trends at the same location? Or is this just the baseline we intend to measure against?

> There was a typo in the information I sent earlier. The percentage was correct but not the number. Please see the below correct numbers (correction is in bold and underlined). Thanks Harvey for noting this.
>
> > Since the implementation of the Residential monitoring through January 22, 2016 the numbers are as follows:

1186 total Residential Samples have been reported

1099 Samples are at or below the Action Level of 15 ppb (92.7%)

966 Samples are at or below 5 ppb (81.5%)

87 Samples exceed the Action Level of 15 ppb (7.3%)

Since January 7, 2016 through January 22, 2016 the numbers are as follows:

514 total Residential Samples have been reported

477 Samples are at or below the Action Level of 15 ppb (92.8%)

432 Samples are at or below 5 ppb (84.0%)

37 Samples exceed the Action Level of 15 ppb (7.2%)

Since January 19, 2016 through January 22, 2016 the numbers are as follows:

341 total Residential Samples have been reported

322 Samples are at or below the Action Level of 15 ppb (94.4%)

298 Samples are at or below 5 ppb (87.4%)

19 Samples exceed the Action Level of 15 ppb (5.6%)

There are approximately 1000 additional samples that have been received at the Lab and are in process.

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/23/16 – 19h Day (18th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs

Attached Documents:

* SitRep 18

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:
- We will have National Guard/state/local agency, type 3 teams

- We will have 40 ARC, type 5 teams (2-4 personnel).

Items to Note

· Deployed state/local teams and 40 ARC Flint Water Response Teams to the field today.

· Created a media monitoring report and looked for misinformation. A call was made to WILX to amend their article that implied that the State was not distributing water to undocumented immigrants. The news release was also sent to WILX about how the State is not requiring identification to receive water resources.

· SEOC Logistics worked on future resource planning and a local business commodity supply plan.

· Drafted talking points for Monday's press conference with Governor Snyder, Colonel Etue, and the Mayor.

· Put in place a place to control POD distribution as much as possible. SKU numbers are being lined out on commodities to prevent or minimize returns for cash.

Information reported to the JIC:

o As of 1/23/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

To Date

1/23/2016

37,943

6,323 National Guard
7,361 ARC

1. Distributed: Includes outstanding data from yesterday- PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity

Total to Date

1. Number of cases of water

148,866

1. Filters

86,843

1. Filter cartridges

194,622

1. Test kits

25,586

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes (The is the low end target #)

1. Resources purchased:
   * Cases of water 133,662 (additional 24,634 donated)
   * Filters 115,700
   * Filter Cartridges 266,200
   * Test kits 61,161

1. Teams going out tomorrow:
   * National Guard State ´´ s) type 3 teams---Goal tomorrow 300 homes per team
   * 40 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:
- Worked to identify all vulnerable populations to help streamline Hot Shot/Rapid Response Team process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas. The city identified some but they are just as bad as the current ones.
- Working on finalizing a recycling plan for the incident.
- Lt. Roach sent up the church information to Tom Webber. She also received one church site that will act as a potential church mega site.
- SEOC GIS to provide a layer for the vulnerable populations so that Team Rubicon can get to them and track in the iPad.

New Standing Information Requirements

1. Number of homes visited each day:
a. 1/23/16, As of 5 pm, 13,684 homes were visited today
2. Total number of homes visited:
a. 37,943, does include duplicate counts from the second canvasing
3. Total number of National Guard on the ground:
a.
4. Total Number of Volunteers each day:

a. 310 volunteers for 1/23/2016
5. Number of homes with filters:
a. 17,595 homes had filters, per entered GIS data as of 1/22/2016,
6. Number of Water filters distributed (each day and to date):
a. 4,156 were distributed on 1/23/2016, and total distributed to date is 86,843
7. Cases of Bottle water distributed (each day and to date):
a. 27,462 were distributed on 1/23/2016, and total distributed to date is 148,866
8. Number of testing kits distributed (each day and to date):
a. 2,171 were distributed on 1/23/2016, and total distributed to date is 25,586
9. Number of people tested for elevated blood levels (kids, adults, total):
a. Unknown at this time until we get the data
10. Number of people with elevated blood level (kids, adults, total):
a. Unknown at this time until we get the data
11. Number of homes with safe drinking water (Not sure whether it's possible right now to provide this number):
a. Unknown at this time

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/22/16 – 18h Day (17th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue door to door/Flint Water Response Teams (FWRTs)
- Plan for next phase with MSP and NG personnel
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep # 17
* Briefing provided to the HHS Undersecretary by FEMA (due to time only finished 75%)

Status on Governor's request letter to the President:

* Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
* Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Key items for tomorrow to note are:

· National Guard/State/Local ;) type 3 teams
· 40 ARC (2-4 folks) type 5 teams
· Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
· I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
· Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
· Monday I am out on a college visit with my son…I will be available by phone and Tony will again be acting.

Items to Note

· Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
· SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
· SEOC Planning worked on the further development of long term strategy.
· Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
· SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
· Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
· Have received numerous inquiries from celebrities on how they can assist and donate.
· We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.

o 26,673 water subscribers in Flint (not including franchise).
§ Water Subscribers with a Filter = 15,399 (57.7%)
§ Water Subscribers without a Filter = 11,274 (42.2%)

· With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.

o 11,471 Non-Water Subscribers in Flint.
§ Non Water Subscribers with a Filter = 2,196 (19%)
§ Non Water Subscribers without a Filter = 9,275 (81%)

o The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.

· SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
· Information reported to the JIC:

o As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday,

1/12/16)

1. Homes visited by the FWRTs to date.
To Date

1/22/2016

37,697

5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)
Commodity

Total to Date

1. Number of cases of water

121,404

1. Filters

82,687

1. Filter cartridges

191,704

1. Test kits

23,415

3. Resources purchased:
a. Cases of water 130,782 (additional 21,682 donated)
b. Filters 115,700
c. Filter Cartridges 266,200
d. Test kits 61,161

4. Teams going out tomorrow:
a. National Guard State , type 3 teams -- Goal tomorrow 300 homes per team
b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC
Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.

o Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.

- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

* SitRep 16
* Draft Water Operations Plan for moving to next phases (Discussion document)
* Resident Water Sample Results Map (Not for public distribution)
* January 13-19 comparison map

Status on Governor's request letter to the President

* Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet … POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.

* Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

· The logistics plan will be fully executed tomorrow with all teams.

o We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.

o We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

· We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.

· The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.

· The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.

· We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.

· FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.

· Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.

· SEOC logistics worked to project future orders of water resources and commodities.

· Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.

· DEQ test kits are only being provided to those who ask for them.

· I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.

· MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.

· A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was initiated. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.

· MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.

· Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.

· Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.

· Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.

· Information reported to the JIC:

o As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.
Phase 1

Phase 2

30,770

5,409

1. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
Commodity

Phase 1

Phase 2

Total to Date

1. Number of cases of water

94,688

10,403

105,091

1. Filters

77,215

2,356

79,571

1. Filter cartridges

188,389

1,039

189,428

1. Test kits

20,037

1,588

21,625

1. Total number of customers on the Flint water system
   * 29,944 paying customers
   * ~45,000 hookups (This is our high end target #)
   * ~39,000 includes apartment complexes/multi family (The is the low end target #)

1. Resources purchased:
   * Cases of water 124,398 (additional 20,098 donated)
   * Filters 115,700
   * Filter cartridges 243,200
   * Test kits 61,161

1. Teams going out tomorrow:
* . National Guard/State/Local ;) type 3 teams -- Goal tomorrow 300 homes per team
* 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

* SitRep 16

Status on Governor's request letter to the President:

* Emergency declaration received.

Key items for tomorrow to note are:

· Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.

· The logistics plan will be fully executed tomorrow with all teams.

o We will have National Guard (MSP supported), type 3 teams with a goal of 300 homes per team.

o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

· Dr. Luri from HHS will be at the SEOC ~10:00 p.m.

· A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.

· DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

· Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.

· MSP and local Sheriff's Department continue to provide over watch for WRTs.

· Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.

· News release sent from Governor's office about the appeal to the President of the disaster declaration.

· SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com<http://www.helpforflint.com>

· SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.

· Meeting held with Dr. Luri from HHS.

· Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.

· End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.

· Additional person NG team for warehouse support approved.

· Information reported to the JIC:

o As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).

a. Number of cases of water 90,337

b. Filters 73,229
c. Filter cartridges 185,852
d. Test kits 19,866

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 111,630 (additional 18,502 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. National Guard type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

* SitRep 14

Status on Governor's request letter to the President:

* Emergency declaration received.
* Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.

o We will have National Guard, type 3 teams), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

o As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
a. Number of cases of water 77,794
b. Filters 69,730
c. Filter cartridges 184,457
d. Test kits 16,671

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 95,760 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. National Guard ( ) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

* Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
* Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
* Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
* Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

· Receive, store and increase quantities of supplies
· Continue to implement the logistics plan and adjust as needed
· Continue door to door/Flint Water Response Teams (FWRTs) and PODs
· Prepare for possible surge in FWRTs utilizing NG personnel
· Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
· Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

* SitRep 13
* Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

* Appeal in process.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have state/local agency, type 3 teams), with a goal of 300 homes per team.
o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
o NG will be bringing in personnel to prep for surge.

Items to Note
· Beginning tomorrow the operational periods will be 7 days long.
· The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
· An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
· Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
· DTMB is working to secure space in Flint for FEMA staff.
· Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
· ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
· Media availability conducted today at 3pm at the VRC.
· Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also

going to work on messaging and work with us on this matter.

- Information reported to the JIC:

o As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
a. Number of cases of water 37,313
b. Filters 53,713
c. Filter cartridges 169,520
d. Test kits 7,379

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 82,992 (additional 16,056 donated)
b. Filters 115,700
c. Filter cartridges 243,200
d. Test kits 61,161

5. Teams going out tomorrow:
a. 5-6 State (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

* SitRep 12

Status on Governor's request letter to the President:

* Emergency declaration received.
* Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
* Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:
· The logistics plan will be fully executed tomorrow with all teams.
o We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
o We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note
· Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
o 4,963 homes visited today.

01/16/16

01/17/16

· Information reported to the JIC:

o As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 27,195
b. Filters 50,432
c. Filter cartridges 168,605
d. Test kits 4,861

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. . State ;) type 3 teams---Goal tomorrow 300 homes per team
b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team
Local EOC

Operations:

* Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
* Coordinated supplies for distribution to students at the U of M Flint campus.
* Still concerned about people going to every fire station and collecting water/filters.
* Coordinated trash pickup at Fire Station PODs with the City Liaison officer.

* Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

* SitRep 11

Status on Governor's request letter to the President:

* Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
* The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams (l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

· LT Gov visited the local EOC today; discussed local EOC operations.
· Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
· DEQ sampling kits are now being received at the PODs.
· DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
· The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
· NG will have a total of personnel in the PODs for distribution. Mission has not changed.
o NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
· Information reported to the JIC:

o As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
a. Number of cases of water 20,876
b. Filters 47,935
c. Filter cartridges 167,401
d. Test kits 3,322

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
a. · State s) type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

* Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
* Lt. Roach worked with faith based organizations today reference water and

filter distribution. Additional churches were supplied with water, filters and test kits.
* Still concerned about people going to every fire station and collecting water/filters.
* Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:
- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

* SitRep 10

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
* When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:
- The logistics plan will be fully executed tomorrow with all teams.
o We will have state agency, type 3 teams l), with a goal of 300 homes per team.

o We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
o A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
· I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note
· LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
· Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
· Deployed 10 state teams and 5 ARC Flint Water Response Teams to the field today.
· Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

o As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
a. 29,944 paying customers
b. 45,000 hookups (This is our high end target #)
c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
a. Cases of water 44,688 (additional 12,884 donated)
b. Filters 78,520
c. Filter cartridges 163,081
d. Test kits 18,761

5. Teams going out tomorrow:
a. State type 3 teams---Goal tomorrow 300 homes per team
b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

* Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

* We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
* Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
* Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
* Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

* SitRep 9

Status on Governor's request letter to the President:

* All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS

o The Community Health Emergency Coordination Center (CHECC) is working on the following:

§ A nutrition plan
§ Education materials, messaging, and working with local agencies
§ Developing a community assessment for disaster behavioral health services.

- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters –

I will provide that number tomorrow but it appears we have filters in over half the residences):

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

* SitRep 8

Status on Governor's request letter to the President:

* All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
* Current timeline:
  * First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
  * State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
  * Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
  * Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

* The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
* The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
* This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
* Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
* Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
* If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.

- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

RETAIN THIS IMAGE

· We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
o We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
· Logistics Support
o The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
§ Mission – A filter in every home ASAP.
§ 4 Distribution Methods
· PODs (5)
· Water Response Teams (20 effective tomorrow and this will increase)
· Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
· Local EOC support for other local requests (Faith based for distribution, etc.)
§ Three warehouse locations at this time
§ How to better leverage ARC resources

· Supplies – Daily Numbers

o Replacement Cartridges - 30,700 delivered.

o Water (cases) - 19,152 cases delivered

· Budget projection completed and will be submitted to SBO for review.

· Notes from Water Response Team Command (MSP)
o Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
o Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
o Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

· Receive, store and increase quantities of supplies
· Fine-tune logistics
· Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
· Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

* SitRep 7
* Executive Order Activating the National Guard

Key items for tomorrow to note are:
· The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
o I have briefed the ARC Disaster Officer on this plan.
· The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
· The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
· We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note
· PSA video sent out to Flint citizens on resources available.

· Water
o Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
o Ordered:
§ 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
· 1/3 is going to GCCARD and the rest is going to the new warehouse
§ 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

· Filters
o Today's numbers
§ Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
· 2,000 – Brita filter faucet mounts
§ Filter Replacements
· 2,400 – Brita filter replacements (single pack)
· 8,000 – Brita filter replacements (two pack)
o Ordered on 1/12/16 to arrive Wednesday
§ Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR Vertical faucet mount
· 2,500 – PUR Horizontal mount

§ Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
· 10,000 – PUR replacement filters (3 pack)
· 10,000 – PUR replacement filters (single pack)
§ PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
· 10,700 – PUR combo packs

· To arrive Thursday
o Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 1,300 – Zero Water pitchers
o Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 11,000 – PUR vertical faucet mount
§ 1,500 – PUR Horizontal faucet mount
§ 5,000 – Brita faucet mount
§ 10,000 – Brita adv faucet mount white
§ 12,000 – Brita adv faucet mount chrome
o Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
§ 117,600 – PUR replacement filter

· Test Kits
o 6601 unassembled kits arrived at GCCARD today, 1/12/16.
o 500 have been assembled and are ready for distribution
o 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
o 10,142 unassembled kits to arrive at GCCARD early next week

· Second warehouse – Located in Flint
o 100, 000 square feet of secure warehouse obtained.
o Accepting commodities beginning Wednesday, January 13

· Logistics Support
o The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

· Door to Door Numbers
o Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
o We are working on version 2.0 so this can be used at the PODs
o We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
o Notes from the field commander:
§ "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County

Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."

o In the end, there were 394 total home visits with the following breakdowns:

· 217 Door Hangers
· 152 Vacant Homes
· 117 Water Distributions
· 112 Filters
· 3 Pitchers
· 48 Water Test Kits
· 211

o CALL VOLUME:

§ 185 calls for water-related issues had been received as of 4:45 pm.

· Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

* SitRep 6

Key items for tomorrow to note are:

· The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.

o State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.

o The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

· It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.

· We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.

· Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
· We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
· ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
· Began mapping lead service lines (anticipate having draft of lead service lines Friday).
· Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center
• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

* SitRep 5
* Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

1. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; however, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

- We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
- A major disaster is defined in the Stafford Act as any "nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."
- An emergency declaration is "is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."

o This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.

- Severity of the situation is "A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....
- Nature of assistance for Emergency Declaration is for "Debris removal, emergency protective measures, direct federal assistance...."

o Debris Removal = self-explanatory and we do not have this

o Emergency Protective measures = water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)

o Direct federal assistance= what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.

Back to the update...

Key items for tomorrow to note are:

· Training is occurring for the door to door teams scheduled for Tuesday morning.
· Deploying an additional MSP District Coordinator to the local EOC for command and control support.
· Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
· Media event with the Governor in Flint.
· New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:

1. Ensure all households within impacted community have required resources.
2. Ensure accurate tracking and accounting of all commodities.
3. Improve and maintain public information strategy.
4. Develop a long term public health and services plan.
5. Ensure adequate staffing to support operational requirements.
6. Identify possible assistance programs.
7. Develop an approved GIS strategy.
8. Maintain coordination between partner agencies and organizations.
9. Enhance situational awareness and common operating picture of all activities.
10. Develop a comprehensive Recovery Plan.

Items to Note

· All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
· Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
· The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
· The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
o Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
o The door card is attached that will be left if no one is home.
· Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
o GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
· GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
o 12,386 filters
o 1,985 replacement filters
o 354 Pitchers

o 2500 Lead Testing Kits

· Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.

o Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.

o We have ordered an additional (expedited delivery with ETAs tomorrow)

§ 40,000 Brita Filters

§ 40,000 Brita Replacement Filters

§ 1000 Zero 8-Cup Pitchers

§ 1000 Zero 8-Cup Pitchers

§ 2000 PUR Replacement Filters

§ 93 Pallets of water (about 6700 cases)

· GIS continues to produce multiple maps for use.

· JIC Items

o Requested PSA on the radio. Media has been approved and working with MAB.

o Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.

o A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.

§ Tuesday – embed state PIO with one of the canvassing teams to liaison with media.

§ JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:
Station 1:

* Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

* Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

* Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.

* Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

* Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
* 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
* We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

* Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
* Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
* Reports received that the last couple of hours were slow.
* Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan

* United Way set up meeting with Food Bank to discuss.
* Had EOC meeting on this topic to discuss options.

Churches:

* All 9 churches received waters, filters, and informational bulletins.
* Lt Roach received positive feedback from 3 of the pastors.
* No complaints were received.

Signage:

* Provided information to SEOC on signage requirements at the fire stations.

Storage:

* Researched storage spaces; established temporary site at GCCARD.

Personnel:

* Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
* Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.

* Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.
- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take

them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
o A call is going out tomorrow morning to advise this information … I do not believe it was every resident but Tori Sachs has that info if needed.
· I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
· The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
· A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
· Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and · MSP trooper will be on these teams.
o Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
§ Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
o Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
o Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
o GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
· A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

· The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
· Additional Sherriff staff ,) will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
· With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
o Logistical activities to support church operations.
o Logistical activities to support fire stations operations.
o Coordinate Donations Management activities and draft donations management plan
o Coordinate Volunteer Management activities
o Identify local storage/staging facilities
o Overall inventory tracking
o Tracking of Points of Distribution (PODs)
Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own

as needed).

Items to Note

· Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

· We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

· We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

· I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

· DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.

· 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.

· Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

· STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

· The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

· It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

· A Volunteer Management Coordinator is in the Genesee County EOC as of today.

· A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

· DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

· An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

· GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

· GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best

to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.

- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.

- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.

- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.

- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.

- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:

- Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502

· Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504

· Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507

· Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502

* Conducted briefing with local EOC and county executive.
* Conducted briefing with state agencies (daily updates).
* Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
* JIC continued to develop messaging.
* Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
* Deployed two EMHSD/SEOC liaisons to assist the local EOC.
* Published the Incident Action Plan and continued assignment of objectives/tasks.
* FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
* I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
* We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
* Local agencies and NGOs continue to provide water and filters to citizens.
* The website, www.michigan.gov/flintwater<http://www.michigan.gov/flintwater>, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

· Reproduced Socio-Economic Status Map

· Reproduced Predicted Affected Populations Map

· Cleansed old data and reports for water filter distributions

· Created draft map of water filter distributions (Refinement needed before releasing final product)

· Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department

· Formatted databases to host content

· Researched service line database creation and scheduled meeting with U of

M Flint to discuss timelines and resource needs

· Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

· Meet with Flint City GIS

· Meet with Genesee County GIS

· Meet with U of M Flint GIS

· Finalize water filter distributions map

· Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

* Set goals for SEOC and identified response/recovery emphasis
* Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.
* PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
* Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
* I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
* MDHHS – Elevated Blood Lead Levels
* Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what

has occurred in terms of health monitoring throughout the Flint crisis.

* MDEQ – Water Testing Protocols

* Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.

* Developed Incident objectives, strategy and tactics (see attached)
* Identified SEOC and state agency staff positions
* Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016

* Reviewed planned actions, prepared final draft Incident Action Plan
* Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.
* I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.

* The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.

1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.

3. Obtain and maintain situational awareness and common operating picture of all activities.

4. Establish SEOC operational period and hours of operations.

5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.

6. Develop a comprehensive GIS strategy.

7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.

8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.

9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.

11. Monitor MI CIMS for resource requests and address as appropriate.

12. Establish and disseminate cost center information for the incident.

· Additional tasks include:

* Determine what federal agencies are already involved and their status
* Identify potential water supplies
* Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
* Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
* Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

* Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
* Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
* Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  * Water Pipeline Locations
  * Filter Distribution Locations
  * November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  * Affected School Locations
  * Predictive analysis of blood lead levels for affected area
  * Updated Parcels
  * Demographics
  * Block Groups
* Produced a map for the filter distribution locations
* Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

· I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.

· I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.

· State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.

o This included information on the SEOC activation and a 0900 briefing for SEMCs.

o Some subject matter experts will provide us an update to establish a common operating picture.

· We have been in contact with FEMA Region V watch desk … they will be on the call tomorrow and continue to monitor the situation.

· I have been in contact with the FEMA Region V Administrator to keep him updated.

· Operational period for the SEOC will be M-F, 0800 to 1700 at this time.

· Situation Reports (SitReps) will be provided in the evenings.

· An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

Subject: RE: SEOC Update 1/22/16 - Flint Water - Limited Distribution

Sir

I hope the below answers your questions:

- Large donations should be routed through the SEOC (MSP-SEOCLGC@michigan.gov) so we ensure the big corporations have contact with us. We then shift the donation information to Janet Hunter with DHHS/MCSC to handle the operational portion (delivery).
- Monetary donations – use links to the American Red Cross, Genesee United Way, and FLINTKIDS.ORG as well as a volunteer sign up link can be accessed through the website Helpforflint.com.

Key items for tomorrow to note are:

- ıational Guard/State/Local ' ') type 3 teams
- 40 ARC (2-4 folks) type 5 teams
- Deliveries going out to all churches on our list we have been working with (21) for Sunday services.
- I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).
- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

        1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State .) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17h Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed

- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard/state/local agency, type 3 teams , with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.
- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.

- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel ($32,000 for 30 days or less) was initiated.

  PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

  - As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. ~45,000 hookups (This is our high end target #)
   c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
   a. Cases of water 124,398 (additional 20,098 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:

a. National Guard/State/Local ;) type 3 teams -- Goal tomorrow 300 homes per team
b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture
replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify
recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ıtional Guard (MSP supported), type 3 team· ", with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.

- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional 5 person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams l), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.

- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
- NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:

    - <u>As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. 22,129 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
    a. Number of cases of water 77,794
    b. Filters 69,730
    c. Filter cartridges 184,457
    d. Test kits 16,671

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 95,760 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. 9 National Guard (6-9 folks) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

<u>Local EOC</u>

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have tate/local agency, type 3 teams with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed ! state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to

DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.

- Information reported to the JIC:

  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
   a. Number of cases of water 37,313
   b. Filters 53,713
   c. Filter cartridges 169,520
   d. Test kits 7,379

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 82,992 (additional 16,056 donated)
   b. Filters 115,700
   c. Filter cartridges 243,200
   d. Test kits 61,161

5. Teams going out tomorrow:
   a. State) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

- Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams , with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 11 state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

yesterday.
01/16/16

01/17/16

- Information reported to the JIC:

  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. tate type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have tate agency, type 3 teams ith a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed 11 state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of 78 personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
   a. Number of cases of water 20,876
   b. Filters 47,935
   c. Filter cartridges 167,401
   d. Test kits 3,322

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:

a. Cases of water 57,456 (additional 12,884 donated)
b. Filters 108,520
c. Filter cartridges 239,081
d. Test kits 28,901

5. Teams going out tomorrow:
   a. tate .) type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) ... I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have ` ^ state agency, type 3 teams ¨, with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:
   a. Number of cases of water 18,576
   b. Filters 45,916
   c. Filter cartridges 165,382
   d. Test kits 3,217

3. Total number of customers on the Flint water system
   a. 29,944 paying customers
   b. 45,000 hookups (This is our high end target #)
   c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
   a. Cases of water 44,688 (additional 12,884 donated)
   b. Filters 78,520
   c. Filter cartridges 163,081
   d. Test kits 18,761

5. Teams going out tomorrow:
   a. State type 3 teams---Goal tomorrow 300 homes per team
   b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.
- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have _ soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)
            - Water Response Teams (20 effective tomorrow and this will increase)
            - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.

        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.

- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
  - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
  - Ordered:
    - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
      - 1/3 is going to GCCARD and the rest is going to the new warehouse
    - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
  - Today's numbers
    - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
      - 2,000 – Brita filter faucet mounts
    - Filter Replacements
      - 2,400 – Brita filter replacements (single pack)
      - 8,000 – Brita filter replacements (two pack)
  - Ordered on 1/12/16 to arrive Wednesday
    - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR Vertical faucet mount
      - 2,500 – PUR Horizontal mount
    - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
      - 10,000 – PUR replacement filters (3 pack)
      - 10,000 – PUR replacement filters (single pack)
    - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
      - 10,700 – PUR combo packs

- To arrive Thursday
  - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 1,300 – Zero Water pitchers
  - Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 11,000 – PUR vertical faucet mount
    - 1,500 – PUR Horizontal faucet mount
    - 5,000 – Brita faucet mount
    - 10,000 – Brita adv faucet mount white
    - 12,000 – Brita adv faucet mount chrome
  - Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
    - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
    - 100, 000 square feet of secure warehouse obtained.
    - Accepting commodities beginning Wednesday, January 13

- Logistics Support
    - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
    - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
    - We are working on version 2.0 so this can be used at the PODs
    - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
    - Notes from the field commander:
        - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
    - In the end, there were 394 total home visits with the following breakdowns:
        - 217 Door Hangers
        - 152 Vacant Homes
        - 117 Water Distributions
        - 112 Filters
        - 3 Pitchers
        - 48 Water Test Kits
- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."***
    - An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to supplement State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
        - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
    - Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is beyond the capability the state and affected local governments, and that the state requires supplementary federal emergency assistance to save and to protect property....***
    - Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
        - Debris Removal = ***self-explanatory and we do not have this***
        - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
        - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

Key items for tomorrow to note are:

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

<u>Items to Note</u>

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers

        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.
        - Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
        - JIC moving tomorrow to Flint.

<u>Local Emergency Operations Center</u>

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

<u>Fire Station Inventory Levels:</u>

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.

- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.
- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan
- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:
- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:
- Provided information to SEOC on signage requirements at the fire stations.

Storage:
- Researched storage spaces; established temporary site at GCCARD.

Personnel:
- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it. We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information . . I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.

- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map.
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff , will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are

showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.

- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.
- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:

Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**
- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).

2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
3. Obtain and maintain situational awareness and common operating picture of all activities.
4. Establish SEOC operational period and hours of operations.
5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
6. Develop a comprehensive GIS strategy.
7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
9. Provide technical assistance to the local Damage Assessment process.
10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
    - Determine what federal agencies are already involved and their status
    - Identify potential water supplies
    - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
    - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
    - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
    - Water Pipeline Locations
    - Filter Distribution Locations
    - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
    - Affected School Locations
    - Predictive analysis of blood lead levels for affected area
    - Updated Parcels
    - Demographics
    - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

To: Etue, Kriste (MSP); Gorski, Gary (MSP); Smith, Paul (GOV)
Cc: Baird, Richard (GOV); Hollins, Harvey (GOV)
Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

> - I will not be in the SEOC Saturday. Tony Katarsky will be the acting SEOC state director. I will be available by phone (wrestling meet).

- Sunday, Lt. Mike Johnson will be acting SEOC state director but I may be in for some of the day.
- Monday I am out on a college visit with my son...I will be available by phone and Tony will again be acting.

Items to Note

- Deployed state/local teams and 15 ARC Flint Water Response Teams to the field today.
- SEOC Operations worked on getting local contact into the JIC along with developing messaging for resources and donations.
- SEOC Planning worked on the further development of long term strategy.
- Recovery branch continued coordination with Red Cross on volunteers and the Michigan National Guard for Friday and Saturday.
- SEOC logistics worked with FEMA/DHHS on warehouse tracking status/strategy, coordinated resources, and donations management.
- Have had a number of media request concerning resources for immigrants and population less proficient in English. Clarified with a news release that we are not requiring ID but we are asking for addresses to assist with long term recovery. Nobody will be denied resources if they fail to provide us an address.
- Have received numerous inquiries from celebrities on how they can assist and donate.
- We are validating a lot of data but what we have currently is 38,144 parcels in Flint that are not considered "vacant". This does not mean all parcels have a tenant, there are a lot of houses that are empty.
    - 26,673 water subscribers in Flint (not including franchise).
        - Water Subscribers with a Filter = 15,399 (57.7%)
        - Water Subscribers without a Filter = 11,274 (42.2%)
            - With our second pass we are getting more information as to why people do not have a filter. Looking into whether these include homes connected but nobody currently living there. We are refining the data.
    - 11,471 Non-Water Subscribers in Flint.
        - Non Water Subscribers with a Filter = 2,196 (19%)
        - Non Water Subscribers without a Filter = 9,275 (81%)
    - The SEOC Ops Chief has been directed to firm up all numbers with GIS. We have a GIS specialist from FEMA Region V also deployed to the SEOC to assist. ArcGIS has advised us that the amount of data we have collected is more than some major disasters in other states. We are looking into getting their personnel more engaged to ensure we are using all the tools available for analysis.
- SEOC Finance Chief is working on costs to date and all SEMCs were advised to tighten up their records and ensure we have accountability of all costs.
- Information reported to the JIC:

    - <u>As of 1/22/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

        1. Homes visited by the FWRTs to date.

To Date	1/22/2016
37,697	5,920

2. Distributed: Includes outstanding data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots.)

Commodity	Total to Date
a. Number of cases of water	121,404
b. Filters	82,687
c. Filter cartridges	191,704
d. Test kits	23,415

3. Resources purchased:
    a. Cases of water 130,782 (additional 21,682 donated)
    b. Filters 115,700
    c. Filter Cartridges 266,200
    d. Test kits 61,161

4. Teams going out tomorrow:
    a. National Guard State ,) type 3 teams -- Goal tomorrow 300 homes per team
    b. 40 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

Operations:

- Worked to identify all vulnerable populations to help streamline Hot Shot process.
- Working on plan for church water distribution and POD locations.
- Looking at possible alternative locations for PODs in difficult traffic areas.
    - Working on finding a new POD for 3 and 6. We are aware that the mayor would need to approve this.
- Coordinated water donations and delivery areas.
- Last minute large donations of water and volunteers expected during the weekend.
- Working on finalizing a recycling plan for the incident.
- The Jail water has been tested and is fine. The prisoners are not being poisoned and the local health department is working on clearing this issue up.
- Working on a plan with the churches to have 4 mega sites for churches (N,E,S,W) and have smaller churches work through these sites to get supplies. Churches are interested in the recycling program, putting information in their bulletins and also used a collection sites.
- Team Rubicon is coming tomorrow to assist with home deliveries.
- Continuing with recycling plan. Need to identify sites with city. Local EOC has visited areas with the local contractor.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/21/16 – 17^{h} Day (16th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) - "Phase II"
- Plan for next phase with MSP and NG personnel for Governor approval – "Phase III"
- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration
- Work with HHS personnel to ensure they have all items needed for operations

Attached Documents:

- SitRep 16
- Draft Water Operations Plan for moving to next phases (Discussion document)
- Resident Water Sample Results Map (Not for public distribution)
- January 13-19 comparison map

Status on Governor's request letter to the President

- Emergency declaration received. Pending decision of Major Disaster appeal and any denials under the Emergency Declaration (e.g. Category B). We have not been denied category B yet ... POTUS/FEMA has not given it to us though. I believe we may get a denial of category B in conjunction with the Major Disaster appeal decision. We will have 30 days to appeal.
    - Category B is critical in that it is for Emergency Protective Measures which includes (but is not limited to) EOC related costs, supplies and commodities, safety inspections, and in limited circumstances "water testing and treatment supplies in the immediate aftermath of the incident to counter a specific threat." We purposely put our start date of this incident to be April 25, 2014 in hopes we get category B and could get 75% federal funds for many other costs all the way back to 2014 – long shot but would be huge if we land this.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard/state/local agency, type 3 teams), with a goal of 300 homes per team.
    - We will have 15 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- We are using the terms Phase II, Phase III, etc. These are for internal discussion for planning and not meant for public dissemination at this time unless it is determined to be beneficial.
- The draft operations plan (attached) was completed in conjunction with MSP and NG personnel to initiate discussion on our next steps as to WRTs and PODs.
- The WH issued a statement that $80 million dollars in aid to MI mostly to repair Flint water infrastructure. We do not have additional information on this. This may be existing federal funds provided to MI that is just being opened up for other use. FEMA does not have any information on this.
- We have been advised we exceeded the $5 million under the emergency declaration. We are at $7.6 million.

- FEMA has advised that any donated items can be used to offset the state cost share. We are working on the mechanism with FEMA to do this.
- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
- SEOC logistics worked to project future orders of water resources and commodities.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- DEQ test kits are only being provided to those who ask for them.
- I made contact with Senator Ananich aid, Julie Townsend, who was a POC for his volunteers. They are set to work next week on the 30th.
- MDOT met with city personnel to look at Station 6 POD and other PODs to see how traffic flow can be facilitated and safety increased. Additional report out due 1/22.
- A request from MSP MC3 for NG Cyber personnel at $32,000 for 30 days or less) was initiated. This is to assist with the cyber attacks that have occurred/future attacks related to Flint Water. PENDING APPROVAL. NG advised this would have to be funded with existing funds at this time and to make adjustments.
- MDARD Food Program staff have completed assessments of all 21 food businesses (including restaurants) that were located in the highest risk area. In addition, they have completed assessments at 34 food businesses in the medium risk area, and have scheduled 28 appointments to collect water samples.
- Dr. Nicole Lurie, the Assistant Secretary for Preparedness and Response from the US Department of Health and Human Services (HHS), in addition to the HHS Regional Coordinator and other CDC staff, visited the CHECC and SEOC this morning and provided commentary to CHECC and SEOC staff/EMCs. She also attended a briefing from FEMA before departing to visit Flint.
- Parents of boarding students at the Michigan School for the Deaf were notified of the elevated lead results in Stevens Hall. All fixtures in the dormitory are scheduled to be replaced by January 24, 2016. Lt Gov. has scheduled visit on January 25.
- Valley Area Agency on Aging (VAAA) continues to take calls from seniors and caregivers needing access to water and filters. VAAA is providing this information to the local EOC each afternoon for follow-up.
- Information reported to the JIC:

    - <u>As of 1/21/16, 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)</u>

1. Homes visited by the FWRTs to date.

Phase 1	Phase 2
30,770	5,409

2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.

Commodity	Phase 1	Phase 2	Total to Date
a. Number of cases of water	94,688	10,403	105,091
b. Filters	77,215	2,356	79,571
c. Filter cartridges	188,389	1,039	189,428
d. Test kits	20,037	1,588	21,625

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. ~45,000 hookups (This is our high end target #)
    c. ~39,000 includes apartment complexes/multi family (The is the low end target #)

4. Resources purchased:
    a. Cases of water 124,398 (additional 20,098 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard/State/Local type 3 teams -- Goal tomorrow 300 homes per team
    b. 15 ARC (2-4 folks) type 5 teams -- Goal tomorrow 100 homes per team

Local EOC

• Attended ARC meeting with VOADs to discuss volunteer management and strategies.
• Attended meeting with Plumbers and Pipefitters Union to assess the need for long term cooperation for filter installation and fixture replacement.
• Requested and received confirmation of deployment of Team Rubicon (starting on 01/23/2016).
• Facilitated Flint & Genesee Chamber of Commerce representation at the EOC.
• Addressed security issues at Fire Station 3, 6 and 8 PODs (residents concerned about criminal activity).
• Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
• Met with Genesee County Planning Commission, United Way of Genesee County and Michigan Community Service Commission to clarify recycling plans and potential volunteer utilization.
• Coordinated and verified deliveries of supplies to apartment complexes.
• Identified potential locations for recycling stations.

Chris

Update 1/20/16 – 16th Day (15th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for second phase of door to door operations
- Submitted appeal to FEMA Region V

- Prepare for appeal on denial of Category B under the Presidential Emergency Declaration

Attached Documents:

- SitRep 16

Status on Governor's request letter to the President:

- Emergency declaration received.

Key items for tomorrow to note are:

- Five copies of the State/FEMA agreement will need to be signed by the Governor. Capt. Kelenske has them and will coordinate delivery.
- The logistics plan will be fully executed tomorrow with all teams.
    - We will have National Guard (MSP supported), type 3 teams , with a goal of 300 homes per team.
    - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- Dr. Luri from HHS will be at the SEOC ~10:00 p.m.
- A second phase is starting tomorrow which will include more refined questions as to type of filter systems each person has. This will assist with sustainment operations.
- DOC prison work crew personnel (6-7) will be at the warehouse to keep the area clean. A lot of trash is generated in the warehouse and was becoming an issue.

Items to Note

- Deployed state/local (NG, MSP, Local) teams and 10 ARC Flint Water Response Teams to the field today.
- MSP and local Sheriff's Department continue to provide over watch for WRTs.
- Aqua Hydrate contacted me to donate 5000 cases a month (4 semis) for a year. I was advised by Lindon Nelson this was a Governor/Mayor/Senator Ananich and Meekhof initiative and a press release was going to go out soon (TBD). Logistics is following up with them.
- News release sent from Governor's office about the appeal to the President of the disaster declaration.
- SEOC Logistics worked with JIC and Governor's office to establish a business resource submission tab on www.helpforflint.com
- SEOC Operations continued to develop and finalize Phase 2 canvassing roll out.
- Meeting held with Dr. Luri from HHS.
- Capt. Kelenske and other state agency financial personnel attended the appropriations hearing.
- End of day – concerns with the mass amounts of volunteers showing up and wanting to help. This can cause logistical issues but staff was working to get additional tasks for volunteers outside of the WRTs. We will continue to work on ways to involve more volunteers.
- Additional person NG team for warehouse support approved.
- Information reported to the JIC:

    - As of 1/20/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 29,317 homes visited by the FWRTs to date.

2. Distributed: Includes outstanding hard copy data from yesterday (PODs after 5 pm, ARC worksheets and local EOC hotshots).
    a. Number of cases of water 90,337
    b. Filters 73,229
    c. Filter cartridges 185,852
    d. Test kits 19,866

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 111,630 (additional 18,502 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. National Guard type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Addressed reports of water contamination in distributed bottled and canned water. Confirmed that water is safe to drink through testing by MDEQ. Coordinating with JIC and MDEQ for improved public information on the issue.
- Identifying options to reroute unsolicited offers for supplies and services outside of the EOC. Coordinating to set up 800 number.
- Attended meeting with Flint & Genesee Chamber of Commerce to discuss coordination of efforts, representation at EOC, and improved messaging.
- Attended meeting with Community Foundation of Greater Flint to discuss coordination of neighborhood groups and improved messaging.
- Coordinated with MDARD to provide additional lead testing at restaurants, and signage for safe locations.
- Coordinating with SEOC Logistics to receive information on purchasing strategy and volumes for filter equipment.
- Coordinated and verified deliveries of supplies to apartment complexes.
- Discussed logistics requirements of delivery requests for homebound residents with SEOC Logistics.

Chris

Update 1/19/16 – 15th Day (14th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Increase efficiency of warehouse operations
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Prepare plans for next phase of operation – Second sweep of city

Attached Documents:

- SitRep 14

Status on Governor's request letter to the President:

- Emergency declaration received.
- Appeal letter pending.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have National Guard, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed 5 state/local teams and 11 ARC Flint Water Response Teams to the field today.
- Messaging being developed for concerns regarding the Total Dissolved Solids (TDS) meters and citizens' concerns with those meters indicating "lead" in bottled water. Testing of water to be done by DEQ to ensure we have solid messaging.
- DTMB is working to secure space in Flint for FEMA staff.
- Press release went out this afternoon to announce that the US Department of Health and Human Services will lead the federal response in Flint. Capt. Kelenske to meet with Dr. Nicole Lurie, HHS Assistant Secretary for Preparedness and Response (ASPR), on Thursday. The goal of the federal response will be to help state and local leaders identify the size and scope of the problem, and work with them to make and execute a plan for mitigation of the short- and long-term health effects of lead exposure.
- Additional NG personnel being requested to assist with Warehouse inventories.
-) NG personnel on the ground with the WRTs tomorrow with more transitioning in.
- Released updated JIC map at 1800 displaying updated field team activity and integrating historic paper records that have been entered into the tracking system for field team activity.
- LG is going to be in Flint working at one of the PODs on Wednesday.
- Information reported to the JIC:
  - As of 1/19/16 as of 4 pm for PODs and 5 pm for FWRT (start date was Tuesday, 1/12/16)

1. 22,129 homes visited by the FWRTs to date.

    2. Distributed: Includes outstanding data from yesterday - PODs after 5 pm, ARC worksheets and local EOC hotshots.
        a. Number of cases of water 77,794
        b. Filters 69,730
        c. Filter cartridges 184,457
        d. Test kits 16,671

    3. Total number of customers on the Flint water system
        a. 29,944 paying customers
        b. 45,000 hookups (This is our high end target #)
        c. 39,000 includes apartment complexes (The is the low end target #)

    4. Resources purchased:
        a. Cases of water 95,760 (additional 16,056 donated)
        b. Filters 115,700
        c. Filter cartridges 243,200
        d. Test kits 61,161

    5. Teams going out tomorrow:
        a. National Guard type 3 teams---Goal tomorrow 300 homes per team
        b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Attended public health group meeting with GCHD, City of Flint Water Department and MDEQ to discuss water test information being returned to residents, to allow residents a greater understanding of results.
- Attended recycling/trash management group meeting with DEQ, Republic Services, Keep Genesee County Beautiful and Genesee County Planning Commission. Provided projections on current and anticipated bottle distributions.
- Coordinated deliveries of supplies to faith-based organizations, apartment complexes and homebound residents.
- Coordinated with Comcast to set up locations for distribution of filters (distributed 60 filters on 01/19/2016).

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/18/16 – 14th Day (13th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs) and PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.
- Complete appeal for Presidential Major Disaster Declaration denial.

Attached Documents:

- SitRep 13
- Side by side comparison of homes with filters January 13th compared to January 18th. This should be hitting the media tonight. This took longer to create than I wanted but is the image I have wanted to show progress of getting filters in to the field.

Status on Governor's request letter to the President:

- Appeal in process.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have › state/local agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - NG will be bringing in personnel to prep for surge.

Items to Note

- Beginning tomorrow the operational periods will be 7 days long.
- The CDC/ATSDR (Agency for Toxic Substances Disease Registry) has deployed a team to Michigan.
- An Arabic version of the palm card was reviewed and approved. This was developed via Arab American and Chaldean Council.
- Deployed 12 state/local teams and 10 ARC Flint Water Response Teams to the field today.
- DTMB is working to secure space in Flint for FEMA staff.
- Cost analysis to investigate if it would be more cost effective for FEMA to purchase water vs the SOM.
- ARC news release concerning the Volunteer Reception Center (VRC) sent out today.
- Media availability conducted today at 3pm at the VRC.
- Since 1/14/16 Michigan 2-1-1 has received three direct reports of bottled water testing positive for lead. DHHS SEOC Desk and DEQ SEOC Desk was able to contact two of the callers. The Zero Water filter (pitcher) has a handheld test device so people know when to change the filter. This TDS Meter measures dissolved solids (it is not a lead test). This was explained and we are going to work on messaging to ensure this does not cause issues. Dissolved solids are in all water. The water from the callers is going to be tested and a case of water from one of the companies will also be sent to DEQ for testing. Brands are Spartan Spring Water and Canned Water for Kids. The filter company is also going to work on messaging and work with us on this matter.
- Information reported to the JIC:
  - As of 1/17/16 as of 5 pm (start date was Tuesday, 1/12/16)

1. 21,393 homes visited by the FWRTs to date.

2. Distributed:
    a. Number of cases of water 37,313
    b. Filters 53,713
    c. Filter cartridges 169,520
    d. Test kits 7,379

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 82,992 (additional 16,056 donated)
    b. Filters 115,700
    c. Filter cartridges 243,200
    d. Test kits 61,161

5. Teams going out tomorrow:
    a. State) type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC
Operations:

- Continuing to work with faith based organization to distribute resources.
- Working with colleges to obtain volunteers for canvassing.

Chris

Update 1/17/16 – 13th Day (12th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs), PODs
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work to bring FEMA IMAT personnel up to date following the Presidential Emergency declaration.

Attached Documents:

- SitRep 12

Status on Governor's request letter to the President:

- Emergency declaration received.

- Limited to direct assistance so we will need to ask for the Individual Housing Program but that is something I will work on with FEMA.
- Major disaster declaration denied. The appeal is being developed with a draft to Paul Smith by later afternoon 1/18/16.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams el), with a goal of 300 homes per team.
  - We will have 12 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.

Items to Note

- Deployed state/local teams and 10 ARC Flint Water Response Teams to the field today.
  - 4,963 homes visited today.

01/16/16

01/17/16

- Information reported to the JIC:
  - As of 1/17/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 16,353 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received from prior to the SEOC activation (trying to validate the data) plus the PODs and door to door operations since activation.

2. Distributed:
    a. Number of cases of water 27,195
    b. Filters 50,432
    c. Filter cartridges 168,605
    d. Test kits 4,861

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. ! State type 3 teams---Goal tomorrow 300 homes per team
    b. 12 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Facilitated activation of the Genesee County/Genesee Health System MOU for mental health services.
- Coordinated supplies for distribution to students at the U of M Flint campus.
- Still concerned about people going to every fire station and collecting water/filters.
- Coordinated trash pickup at Fire Station PODs with the City Liaison officer.
- Coordinated hotshot deliveries of supplies to home bound population.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/16/16 – 12th Day (11th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Continue to implement the logistics plan and adjust as needed
- Continue door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to prepare for engagement following the Presidential Emergency declaration

Attached Documents:

- SitRep 11

Status on Governor's request letter to the President:

- Emergency declaration received. Federal Coordinating Officer (FCO) is David Samaneigo (Sam) who has been my LNO from FEMA. We began discussions on a transition to FEMA support last night. His team is headed to MI at this time and we will have our first coordination meeting on Sunday.
- The request for a Declaration of a Major Disaster was denied. FEMA advised this event does not fit the legal definition of a major disaster (natural incident or fire, flood, or explosion). This information has been provided since prior to the event to elected officials in Flint and the legislature. We are reviewing the chances for an appeal and I have already discussed this with the FCO.

Key items for tomorrow to note:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have . state agency, type 3 teams), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
- I will be back on duty Sunday.
- We have been working with some of the churches. Contact was made with 14 churches for Sunday distributions. Interaction with the pastors has been very positive.
- A logistics briefing will be provided to see how many more teams we can put in the field.

Items to Note

- LT Gov visited the local EOC today; discussed local EOC operations.
- Deployed state teams and 10 ARC Flint Water Response Teams to the field today.
- DEQ sampling kits are now being received at the PODs.
- DEQ sampled two Head Start facilities and worked with GIS to obtain future sample sites.
- The Freeman School pilot was delayed due to some parts not arriving as scheduled. Testing was to be done Sunday but may not occur until Monday.
- NG will have a total of personnel in the PODs for distribution. Mission has not changed.
  - NG soldiers have been in the PODS. more processing in tomorrow with start date of 1/18 in the PODS. The TAG and I will be discussing future use of NG personnel door to door next week.
- Information reported to the JIC:

  - As of 1/16/16 7pm (start date was Tuesday, 1/12/16)

1. 11,324 homes visited by the FWRTs to date. We believe we have ~24,000 homes with filters; still trying to validate. This is from the data we received

prior to the SEOC activation plus the PODs and door to door operations since activation. 3,850 homes were visited today (4,000 was the goal).

2. Distributed:
    a. Number of cases of water 20,876
    b. Filters 47,935
    c. Filter cartridges 167,401
    d. Test kits 3,322

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4 Resources purchased:
    a. Cases of water 57,456 (additional 12,884 donated)
    b. Filters 108,520
    c. Filter cartridges 239,081
    d. Test kits 28,901

5. Teams going out tomorrow:
    a. State type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Operations:

- Provided direction to Operations and Logistics Section to initiate water sample collection at PODs.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional churches were supplied with water, filters and test kits.
- Still concerned about people going to every fire station and collecting water/filters.
- Station #6 (POD) has associated safety concerns due to proximity of street and lack of suitable parking. We are working to resolve.

Subject: SEOC Update 1/15/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/15/16 – 11th Day (10th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Pilot the logistics plan and adjust as needed
- Continue with door to door/Flint Water Response Teams (FWRTs)
- Prepare for possible surge in FWRTs utilizing NG personnel
- Work with FEMA personnel to ensure we get a Presidential Declaration of a Major Disaster and Emergency

Attached Documents:

- SitRep 10

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. Numerous calls and meetings took place between me and FEMA today.
- When we get the declaration(s) … I will set up a legislative/congressional call to explain and provide bullet points as to what programs we will received. The Federal Coordinating Officer assigned will also be with me to answer questions. This has helped in the past.

Key items for tomorrow to note are:

- The logistics plan will be fully executed tomorrow with all teams.
  - We will have state agency, type 3 teams ( ), with a goal of 300 homes per team.
  - We will have 10 ARC, type 5 teams (2-4 personnel), with a goal of 100 homes per team.
  - A pilot team was used to test our logistics plan today and with 60% strength they had 160% output (830 homes).
- I will be off tomorrow but available by cell. Tony Katarsky will be SEOC State Director. I will be back in on Sunday.

Items to Note

- LT Gov visited the local EOC and SEOC today. He was able to hear our final briefing for the day.
- Held a short session managing stress with SEOC staff. Two handouts were put in MICIMS for all state and local personnel to view.
- Deployed state teams and 5 ARC Flint Water Response Teams to the field today.
- Standing requirements were created for the JIC so we can get information to the media every day. Below are the current ones we have in place and we should have something out tonight according to the JIC.

  - As of 1/15/16 as of 7pm (start date was Tuesday, 1/12/16)

1. 7474 homes visited by the FWRTs. We believe we have ~24,000 homes with filters but are trying to validate that information. This is form the data we received from prior to the SEOC activation plus the PODs and door to door operations since activation.

2. Distributed:

a. Number of cases of water 18,576
b. Filters 45,916
c. Filter cartridges 165,382
d. Test kits 3,217

3. Total number of customers on the Flint water system
    a. 29,944 paying customers
    b. 45,000 hookups (This is our high end target #)
    c. 39,000 includes apartment complexes (The is the low end target #)

4. Resources purchased:
    a. Cases of water 44,688 (additional 12,884 donated)
    b. Filters 78,520
    c. Filter cartridges 163,081
    d. Test kits 18,761

5. Teams going out tomorrow:
    a.) State I ` type 3 teams---Goal tomorrow 300 homes per team
    b. 10 ARC (2-4 folks) type 5 teams----Goal tomorrow 100 homes per team

Local EOC

Home Deliveries:

- Still receiving lists from the Valley Area Agency on Aging (VAAA) on home deliveries and forwarding these to the Sheriff's office. They are going through a lot of homes. 120 out of 125 homes were completed yesterday.

Operations:

- We sent staff to visit Fire Station 6 and the warehouse today. Fire station 6 traffic was congested and that was during a "slow" time. The National Guard is identifying what is needed to alleviate this. MSP is working on providing uniform presence as needed. An additional iPad at each location will hopefully help relieve the amount of time that people are spending at the distribution sites.
- Lt. Roach worked with faith based organizations today reference water and filter distribution. Additional requests from churches were made and I approved the locations so they could be ready for Sunday. Lt. Roach was told by one of the pastors that he met with the Gov today and expressed how much he appreciated the efforts put forth. We should have 14 for this Sunday. We are working on how we can increase this output.
- Still concerned about people going to every fire station and collecting water/filters. NG personnel observed vehicles with several cases of water an overheard saying they were heading to the next station. Some people were helping themselves and taking more than one case at a time. Per the NG they cannot physically stop people from doing so. The NG is going to try to change staging in the fire stations to try to prevent this.
- Flint PD is going to check in every day with the EOC and provide a specific contact person. They are also going to help with traffic issues at the PODS. Will

ask Flint PD to provide a presence when water is off loaded at a POD to help prevent people from "helping themselves."

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/14/16 – 10th Day (9th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Prepare/approve logistics plan and finalize lease on warehouse space/begin to move supplies from GCCARD to new warehouse
- Continue with door to door teams and finalize planning for future team use
- Submit request for a Presidential Declaration of a Major Disaster and Emergency
- Continue to work on long term recovery items (DHHS, DEQ, MDARD)

Attached Documents:

- SitRep 9

Status on Governor's request letter to the President:

- All documents for the presidential request have been submitted to FEMA. I had a lengthy conversation with the FEMA Region V Administrator reference the request prior to sending.

Key items for tomorrow to note are:

- The door to door teams will continue in the morning.
- We will continue to ramp up door to door operations with additional teams. Teams continue to focus on the high lead level areas and additional data is being analyzed to focus mission areas.
- ARC will increase the number of their Water Response Teams.
- Supply burn rates as well as projections on how many teams will be needed to put filters in all homes within 3 and 5 days will be completed. Analysis will be done to see in NG personnel may be needed to finish in quicker manner.

Items to Note

- DEQ was notified of the number of homes who are willing to have them take additional samples in the future (current number (114). This question was added to the App being used by the Water Response Teams. Data will be provided when needed.
- LT Gov is scheduled to be at the local EOC and SEOC (~4:30) tomorrow to see the operations.
- Secured 80,000 sq. ft. of a warehouse today. Working to consolidate all resources in one location. Tomorrow will be the first day of full implementation of our logistics plan.
- Email sent to state employees to request volunteers for weekend.
- Media monitoring showed no incorrect information today.

- Michigan Association of Broadcasters is sending PSA to radio stations.
- Coordinating with Red Cross on volunteers for weekend.
- Deployed 8 Water Response Teams to the field today (approx. 120 volunteers). 78 Red Cross volunteers active across the operation today.
- National Guard is ramping up to have soldiers per shift at each POD tomorrow. Will also have a Public Affairs Officer at the JIC and liaison at the local EOC.
- Senator Ananich visited the SEOC today to see how things operate. The visit went well and he seemed happy with the number of staff working the Flint event. He tweeted out a message indicating there is still a lot of work to be done but all are working hard.
- DHHS
    - The Community Health Emergency Coordination Center (CHECC) is working on the following:
        - A nutrition plan
        - Education materials, messaging, and working with local agencies
        - Developing a community assessment for disaster behavioral health services.
- Lined up the delivery of filters to two large apartment complexes and a student housing complex.
- We have the list of individuals needing home service (additional contacts will be sent to the Ops Chief at the Local EOC each day at 4:00). Info will be provided to the sheriff's office for action.
- Water Response Team Numbers (this is not the total of homes with filters – I will provide that number tomorrow but it appears we have filters in over half the residences):

	TOTAL	1/12/2016	1/13/2016	1/14/2016
Occupied Homes	1450	242	492	716
Vacant Homes	1967	152	161	1654
Total Homes	**3417**	**394**	653	2370
Resources				
Door Hangars	1487	217	453	817
Water	588	117	254	217
Filters	945	112	220	613
Pitchers	22	3	13	6
Water test kits	217	48	109	60
Replacement Filter	482		137	345
Total Resources Dispersed	**3741**			
Future sample test site	114	28	34	52

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/13/16 – 9th Day (8th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Receive, store and increase quantities of supplies

- Prepare/approve logistics plan and close lease on warehouse space
- Continue with door to door teams and finalize planning for second wave increase (+15 teams – total for 1/14/16 will be 20)
- Continue to work on Governor's Declaration of an Emergency

Attached Documents:

- SitRep 8

Status on Governor's request letter to the President:

- All support data from state Agencies and local jurisdictions collected as of 6:00 pm on 01-13-16
- Current timeline:
    - First draft completed and ready for review by State Department Directors (including the Attorney General) by 11:00 am on 01-14-16
    - State agency reviews due back by 1:00 pm on 01-14-16 for revision of the draft
    - Revised draft to Captain Kelenske by 2:00 pm on 01-14-16 for review and forwarding to the Governor for final review
    - Final draft (based on Governor's review) submitted to FEMA Region V Administrator by no later than cob 01-14-16 but hopefully sooner. FEMA is aware and ready to receive.

Requests and potential response from FEMA/President

- The letter will request all programs eligible under the Stafford Act including Public Assistance, Individual Assistance, Hazard Mitigation, FEMA's coordination of assistance from other Federal agencies and direct assistance from FEMA
- The letter will also request potential direct reimbursement from other Federal agencies such as EPA, CDC, HUD, DHHS and SBA
- This request is in coordination with the request for Non-Stafford Act federal assistance already requested and received by the State (technical assistance and administration, but no direct reimbursement of disaster costs)
- Direct Federal assistance from FEMA in the form of Individual Assistance to homeowners for household repairs (repair and/or replacement of water service lines and Other Needs Assistance to reimburse for water filters, bottled water, etc.) is a possibility
- Direct Federal assistance from FEMA in the form of Public Assistance is not as likely as it is mostly replacement of publicly owned water distribution lines (and not the direct result of damage from a natural cause)
- If Stafford Act assistance is denied (Public Assistance, Individual Assistance and Hazard Mitigation) FEMA could still provide coordination of assistance from other Federal agencies if the President declares a disaster (or emergency) for the State of Michigan

Key items for tomorrow to note are:

- The door to door teams will continue at 9 a.m. – 5 p.m. Thursday morning and continue through the weekend.
- We will continue to ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas and additional data is being analyzed to focus mission areas.
- MNG will have a press event at the armory with incoming soldiers and MG Vadnais.

Items to Note

- Received information that Rev. Jesse Jackson will be in town 1/17/16 at 1:30 at the Heavenly Host Church of the Harvest of Dartmouth St, Flint.
- Managed and corrected misinformation on NG role.
- Senator Ananich is stopping by the SEOC tomorrow morning 0845. I am meeting with him and his Chief of Staff. Short visit as he has a 0930 at the Capitol.
- Working with Comcast so they can put teams in the field for distribution.
- Penske is going to give us 15-20 trucks over the weekend.
- Contact made with Two Men and a Truck for resources.
- Meeting set with Google where they will brief me and key staff potential tasks.
- Coordinated with Flint Mass Transportation Authority (MTA) to include Fire Station PODs on bus routes.
- Tomorrow I will have a projection as to the number of teams needed to get all citizens filters in their homes in 5 days / 3 days.
- We are standardizing team structure and supply deployment to increase efficiencies. Mission Ready Package (MRP) specifications will be sent out for other entities to assist with door to door. They will then be able to arrive as a MRP, get supplies, receive a mission location and deploy.
- 5 Water Response Teams were in the field again today. Below are the numbers from the 2 days of just the Water Response Teams (there are paper copies with data still to be entered from the PODs). I was just briefed by the ARC logistics planner and there are efficiencies we can put in place to increase homes touched per day. The next version of the app will provide more granular details. Additional 30 tablets were configured by DTMB today for field implementation to include use in the PODs.

	Total	1/12/2016	1/13/2016
Occupied Homes	533	242	291
Vacant Homes	238	152	86
Total Homes	**771**	**394**	377
Resources			
Door Hangars	473	217	256
Water	265	117	148
Filters	235	112	123
Pitchers	9	3	6
Water test kits	92	48	44
Replacement Filter	93		93
Total Resources Dispersed	**1167**		
Future sample test site	62	28	34

- We show 17,276 residences with filters (this does not include data entry to be completed from POD or other locations).
    - We have 35,378 service hookups but with apartments, multi residence dwellings, etc we would be around 45,000.
- Logistics Support
    - The American Red Cross Logistics Planner provided me a brief and I approved the plan forward. The current plan includes:
        - Mission – A filter in every home ASAP.
        - 4 Distribution Methods
            - PODs (5)

        - Water Response Teams (20 effective tomorrow and this will increase)
        - Local EOC "Hot Shots" (these are calls for functional needs, unable to get to a POD location due to ??, etc). Personnel dispatched with supplies.
        - Local EOC support for other local requests (Faith based for distribution, etc.)
    - Three warehouse locations at this time
    - How to better leverage ARC resources

- Supplies – Daily Numbers
    - Replacement Cartridges - 30,700 delivered.
    - Water (cases) - 19,152 cases delivered

- Budget projection completed and will be submitted to SBO for review.

- Notes from Water Response Team Command (MSP)
    - Very good synergy between Flint Post troopers and Genesee County Sheriff command and deputies in effective and efficient deployments for distribution efforts.
    - Great attitude and efforts by uniforms and volunteers to make important contributions to the City of Flint on water response team deployments.
    - Clear direction and coordination in the field of supply teams by lieutenants and troopers. No confusion. Clearly defined roles.

All personnel continue to be fully committed to fixing this as quickly as possible.

Chris

Update 1/12/16 – 8th Day (7th Full Day) After Governor's Declaration of an Emergency

I apologize in advance for the length of this report. With the supply issues we had the last couple of days I wanted to share our inventory plus what we anticipate to ensure we do not have supply issues.

Mission focus for the day:

- Receive, store and increase quantities of supplies
- Fine-tune logistics
- Increase and deploy door to door teams (4 state teams added to teams from the Sheriff's Department)
- Increase collaboration and messaging of collaboration with local agencies (specifically the Sheriff's Department)

Attached Documents:

- SitRep 7
- Executive Order Activating the National Guard

Key items for tomorrow to note are:

- The Governor signed an Executive Order activating the National Guard. Mission will be to relieve ARC volunteers at the PODs (Fire Stations) which will free up the ARC volunteers for door to door activities.
    - I have briefed the ARC Disaster Officer on this plan.
- The Governor requested, through FEMA Region V, support from the Federal Emergency Management Agency (FEMA) to bring together and identify other federal agencies that may have programs and funding that could be dedicated to assisting Flint as part of an interagency recovery plan. One of the existing LNOs has been identified as the POC for this. He will be a great liaison for the FWIACC.
- The door to door teams will continue at 0830 Wednesday morning and continue through the weekend and ramp up door to door operations with additional teams. Teams are focusing on the high lead level areas.
- We will look at all commodities and see where we are and where we need to be while working with the ARC logistics specialist.

Items to Note

- PSA video sent out to Flint citizens on resources available.

- Water
    - Today's numbers - 7,824 cases of water arrived today, 1/12/16 (109 pallets)
    - Ordered:
        - 19,152 cases of water are going to arrive Wednesday, 1/13/16 (266 pallets)
            - 1/3 is going to GCCARD and the rest is going to the new warehouse
        - 12,768 cases to arrive daily beginning Thursday through Saturday (177 pallets a day)

- Filters
    - Today's numbers
        - Ordered on 1/11/16 and delivered 1/12/16 direct to GCCARD
            - 2,000 – Brita filter faucet mounts
        - Filter Replacements
            - 2,400 – Brita filter replacements (single pack)
            - 8,000 – Brita filter replacements (two pack)
    - Ordered on 1/12/16 to arrive Wednesday
        - Faucet Mounts – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR Vertical faucet mount
            - 2,500 – PUR Horizontal mount
        - Replacement Filters – To be delivered direct to GCCARD on 1/13/16 (Wednesday)
            - 10,000 – PUR replacement filters (3 pack)
            - 10,000 – PUR replacement filters (single pack)
        - PUR Combination Pack – to be delivered to GCCARD on 1/13/16 (Wednesday)
            - 10,700 – PUR combo packs

- To arrive Thursday
    - Zero Water Pitcher (8 Cup) – Delivering direct to GCCARD on 1/14/16 (Thursday)
        - 1,300 – Zero Water pitchers

- Faucet Mounts – Delivering direct to GCCARD on 1/14/16 (Thursday)
  - 11,000 – PUR vertical faucet mount
  - 1,500 – PUR Horizontal faucet mount
  - 5,000 – Brita faucet mount
  - 10,000 – Brita adv faucet mount white
  - 12,000 – Brita adv faucet mount chrome
- Replacement Filters – Delivering direct to GCCARD on 1/14/16 (Thursday)
  - 117,600 – PUR replacement filter

- Test Kits
  - 6601 unassembled kits arrived at GCCARD today, 1/12/16.
  - 500 have been assembled and are ready for distribution
  - 1000 additional unassembled kits have been ordered to be delivered at GCCARD (no ETA yet)
  - 10,142 unassembled kits to arrive at GCCARD early next week

- Second warehouse – Located in Flint
  - 100, 000 square feet of secure warehouse obtained.
  - Accepting commodities beginning Wednesday, January 13

- Logistics Support
  - The American Red Cross Logistics Planner arrived from DC today as requested. I outlined what her mission was and how I saw the progression forward. This logistics planner will assist in streamlining the inventory and distribution process now and into the future.

- Door to Door Numbers
  - Today the app implementation for the field went extremely well. There were a few issues that were quickly addressed. One related to how form fields should be filled out. Another was getting styluses for teams so that they don't have to remove their gloves in the cold. All very simple to fixes.
  - We are working on version 2.0 so this can be used at the PODs
  - We should be able to greatly optimize distribution in the near future as we mapped the active water subscribers from Flint's DPW and are adding them to the field team members apps. Of the ~56,000 possible addresses, this reduces the number of possible homes to visit down to ~29,000.
  - Notes from the field commander:
    - "Today we started out the day using two groups that consisted of approximately 10 people in each group. We eventually combine groups with Genesee County Sheriff's group and they brought two more groups with approx. 10 people (Local UAW) in each group. This made us a lot more efficient and we were able to set up a game plan. Tomorrow I feel we will be more efficient and we will have a better plan in place to get the maximum output out of our resources."
  - In the end, there were 394 total home visits with the following breakdowns:
    - 217 Door Hangers
    - 152 Vacant Homes
    - 117 Water Distributions
    - 112 Filters
    - 3 Pitchers
    - 48 Water Test Kits

- 211
    - CALL VOLUME:
        - 185 calls for water-related issues had been received as of 4:45 pm.

- Logistics made contact with Comcast and will be supplying them with filters and replacement cartridges for their deliveries in their work trucks as they make services calls. They will follow our procedures for reporting (our checklist).

Chris

Update 1/11/16

The focus today was the media event and getting the supplies and logistics on track. Most of the activity today was working on logistics for the water and other supplies.

Attached Documents:

- SitRep 6

Key items for tomorrow to note are:

- The door to door teams will start at 0830 Tuesday morning. It is reported that troopers are going to the door but DHHS employees are the lead with a troop car nearby.
    - State and local GIS created an App today for the teams to use tomorrow but I see potential use at distribution sites.
    - The App data will be used for our maps as we survey the public/distribute supplies and we will be getting real time metrics through the site from the field send back to the SEOC. We are using Android tablets tomorrow but in the future can use any mobile device for this.

Items to Note

- It was reported that only one POD (Station 5) was out of water longer than 30-45 minutes. This site was ~2 hours without water and part of that was the truck went to the wrong station. Trucks were sent as soon as the local EOC was notified.
- We also did not receive a DHHS shipment that was to come in which caused some filter delivery issues.
- Supplies are limited at this time; however, we are getting our shipments starting at 0630 tomorrow.
- We have Home Depot giving us 12,768 cases (this was a late development so the SitRep indicates half the amount) of water every day starting tomorrow. We are still working with other distributors too.
- ARC is flying in a logistics planner tomorrow. Three additional staff with be with her to shadow and help. We are turning warehouse logistics over to ARC logistics. We are moving tomorrow to a process that has a distribution center (GCCARD) and a warehouse that is 100,000 square that will maintain mass quantities. Staff has continually been placing orders for supplies to ensure we get a head of this. The intent is to keep the warehouse full so we do not have these continual issues of supplies.
- Began mapping lead service lines (anticipate having draft of lead service lines Friday).
- Coordinated with local IT managers overseeing filter tracking system to streamline data collection.

Local Emergency Operations Center

• Working to coordinate resources at the local level to maintain adequate supplies at all PODs.
• Demand has exceeded supplies and supplies are moving rapidly from PODs today. Working to make sure POD managers notify us when they start running low.
• Working to establish a warehouse for local resource storage.
• Established trigger points for resources at PODs and hourly inventory reporting from the PODs.
• Discussed potential long term water sources between local EOC and SEOC.
• Established planning cycle/meeting scheduled for 1/12/16.
• Local EOC EMHSD staff with Natasha Henderson to request deployment of City representative at local EOC.

Chris

Update 1/10/16

Attached Documents:

- SitRep 5
- Door card (English version but Spanish version will be ready for Tuesday)

I have a local EOC section listed below but state personnel are heavily engage in management of both locations. We occasionally hit some road bumps with this event but all personnel are working well together to accomplish our goals (especially state agency personnel).

I have had good discussion with FEMA LNOs. Two statements have been developed from our discussions that hopefully helps put this in more context but if it is more confusing I apologize:

1. In the immediate response, the State, in collaboration and coordination with city of Flint and county of Genesee are working to get water, water filters, and testing kits to the affected population. In conjunction, the state will coordinate with federal agencies to ascertain what resources can come to bear to help mitigate the issue.

2. If asked about a federal declaration from FEMA, we need to articulate the definition of major and emergency declaration and state or note to ourselves that it appears to not qualify; **however**, there may exist opportunities to leverage federal assistance from some agencies (i.e....EPA) under their own authority to help address this issue.

    - We need to really manage expectations on the potential for a federal declaration...not that we will not go after one but it will be difficult to get.
    - A major disaster is defined in the Stafford Act as any ***"nature catastrophe (including hurricane, tornado, storm, high water, windriven water, tidal wave, tsunami, earthquake, volcanic eruption, landslide, mudslide, snowstorm, or drought) or, regardless of cause any fire, flood, or***

explosion.....causes damage of sufficient severity and magnitude, to warrant major disaster assistance.....to supplement the efforts and available resources of States, and local government....."

- An emergency declaration is ***"is any occasion or instance for which, in determination .....assistance is needed to <u>supplement</u> State and local efforts and capabilities to save lives and protect property and public health and safety or to lessen or avert the threat of a catastrophe....."***
    - This is limited to immediate and short-term assistance (I hate to put times on this but short-term is like 3 weeks), essential to save lives, protect public health and safety and property.
- Severity of the situation is ***"A finding that the situation is of such severity and magnitude that effective response is <u>beyond the capability the state and affected local governments,</u> and that the state requires <u>supplementary</u> federal emergency assistance to save and to protect property....***
- Nature of assistance for Emergency Declaration is for ***"Debris removal, emergency protective measures, direct federal assistance...."***
    - Debris Removal = ***self-explanatory and we do not have this***
    - Emergency Protective measures = ***water, commodities, transportation (remember ... to supplement what the locals and state are already doing if we need more)***
    - Direct federal assistance= ***what specific type of work is requested, and what are the reasons why the state/local government cannot perform or contract for performance. Essentially what is the need that state/local govt cannot provide. I can see this being something we need but we may be able to get this outside a federal declaration under the federal agencies own authority to help address this issue.***

Back to the update...

<u>Key items for tomorrow to note are:</u>

- Training is occurring for the door to door teams scheduled for Tuesday morning.
- Deploying an additional MSP District Coordinator to the local EOC for command and control support.
- Deploying two DTMB trucks and two drivers for sustained logistical support for the week.
- Media event with the Governor in Flint.
- New Incident Action Plan starts (1/11 0800 -1/13 0800 operational period). Our objectives are as follows:
    1. Ensure all households within impacted community have required resources.
    2. Ensure accurate tracking and accounting of all commodities.
    3. Improve and maintain public information strategy.
    4. Develop a long term public health and services plan.
    5. Ensure adequate staffing to support operational requirements.
    6. Identify possible assistance programs.
    7. Develop an approved GIS strategy.
    8. Maintain coordination between partner agencies and organizations.
    9. Enhance situational awareness and common operating picture of all activities.
    10. Develop a comprehensive Recovery Plan.

Items to Note

- All 9 churches had filter systems/replacement filters, information sheets, and water test kits delivered as requested by each pastor/reverend on Sunday. We did not think we could get them water due to the limited time but we did end up getting water to all 9 churches with the other items.
- Fire station resource locations stayed open from 9a to 9p and will continue with those hours until further notice (Staffing is in place until Saturday). ARC is staffing these locations.
- The media event was held at Fire Station No. 1 and report back is that it went well and the spirit of collaboration between local, state, non-governmental partners is strong was relayed.
- The four door to door teams will have the hours of 8:30 a.m. to 5 p.m.
    - Each will have logistics support from DTMB, security from MSP, and contact personnel from DHHS.
    - The door card is attached that will be left if no one is home.
- Worked to identify a storage location within the City of Flint for water and supplies. G-CARD is identified as temporary location but we are moving toward a state run warehouse operation (looking at private sector partners to assist, especially with the warehouse management side).
    - GCCard is large enough, centrally located and comes staffed. GCCard has 75,000 sq ft with warehouse managers to assist with tracking resources coming in and out.
- GIS will provide us daily updates of how much was distributed each day but note we have a delay in data entry from delivery to entry in the GIS system. Over the weekend there was a problem locally with staffing to get this completed. A solution is in place and will be implemented so we get timely data. Distributed to date (as of 1/8/16).
    - 12,386 filters
    - 1,985 replacement filters
    - 354 Pitchers
    - 2500 Lead Testing Kits
- Establishing and tracking of resources is a priority. Staffing has been assigned to get a good handle on these to ensure distribution sites maintain an appropriate level of inventory. I have requested trigger points get put in place so we do not get below certain levels in the main warehouse location.
    - Contacts with some large water distributors have been made and their and our logistics chiefs will connect first thing this week.
    - We have ordered an additional (expedited delivery with ETAs tomorrow)
        - 40,000 Brita Filters
        - 40,000 Brita Replacement Filters
        - 1000 Zero 8-Cup Pitchers
        - 1000 Zero 8-Cup Pitchers
        - 2000 PUR Replacement Filters
        - 93 Pallets of water (about 6700 cases)
- GIS continues to produce multiple maps for use.
- JIC Items
    - Requested PSA on the radio. Media has been approved and working with MAB.
    - Requested JIC to contact Comcast and Dish Network for availability for continuous running of filter install/replacement and test kit video.
    - A news release will likely going out tomorrow regarding canvassing in neighborhoods. Continued social media messaging.

- Tuesday – embed state PIO with one of the canvassing teams to liaison with media.
- JIC moving tomorrow to Flint.

Local Emergency Operations Center

I am providing you some information on some issues we ran into at the PODs. This has been addressed with additional state resources and processes put in place so we do not run out of resources. Public concerns/complaints have not been brought to my attention at this time. Staff is working very hard to ensure we do not run out of supplies at the PODs and they understand the consequences. No one in the Local EOC or State EOC is happy the follwoing occurred and I felt you should know in case it is brought up. Again, I believe we have fixed this and I take full responsibility for any supplies not being on site.

Fire Station Inventory Levels:

Station 1:

- Only time without supplies - 15 minutes without water while the truck was unloaded.

Station 3:

- Ran out of replacement filters around 7:00, replacement filters delivered around 7:30. Had to pick up replacement filters from Home Depot and deliver.

Station 5:

- Ran out of water around 5:00, water was delivered around 6:30. We needed to find additional trucks because DTMB drivers were over hours. The ARC stepped up and found a truck to go and pick up a pallet of water and deliver.
- Somewhere between 4:00-6:00 they ran out of lead test kits. No way to restock these because City facilities were closed and could not reach anyone.

Station 6:

- Around 5:00 ran out of water, filters, and replacement kits. Replacement kits were delivered around 7:30. Additional water and filters were delivered after 9:00 due to the DTMB drivers heading back to Lansing. Food Bank was called and had to get drivers in to operate trucks, pick up water from the School District, load and deliver to all sites. Delays occurred with weather conditions and needing to use last minute sheriff EOC staff to load due to issues with City workers. City workers were scheduled to help and left around 7:00 without helping.
- 2 pallets of water were dropped off in the afternoon and within 1 hour were gone. This was much faster than we expected. On 1/9 they didn't go through 2 pallets of water at any station for the hours 9:00-4:00.
- We received news that a reverse 9-1-1 call notified residents of water which caused an unanticipated amount of people obtaining water. There was also a report of 1 person walking out with 2 cases of water and trying to sell in the parking lot.

Station 8:

- Around 7:00 ran out of filters and lead tests. Filters were delivered around 8:00 from the food bank trucks.
- Hourly reports were requested in the morning from volunteers but this information was not received as to the status throughout the day. Early inventory of supplies took between 1 hour-1.5 hours to receive in the EOC. We were not advised of low counts, just zero numbers.
- Reports received that the last couple of hours were slow.

- Residents were advised of the other sites and the opportunity to obtain supplies.

Restocking Plan
- United Way set up meeting with Food Bank to discuss.
- Had EOC meeting on this topic to discuss options.

Churches:
- All 9 churches received waters, filters, and informational bulletins.
- Lt Roach received positive feedback from 3 of the pastors.
- No complaints were received.

Signage:
- Provided information to SEOC on signage requirements at the fire stations.

Storage:
- Researched storage spaces; established temporary site at GCCARD.

Personnel:
- Lack of local EOC leadership (seems somewhat checked out) with IC and Deputy IC (doing an okay job).
- Captain TaFoya (Genesee County) helped tremendously today with all the plans outlined above and attended the press conference.
- Tina Martinez at the Food Bank and Matt Purcell at GCCARD were extremely helpful in getting last minute operations set up.

Chris

Update 1/9/16

SitRep 4 attached for more in depth information. The below only contains some items worked on today and while the format in the attached SitRep is not perfect (it is created automatically by MICIMS) it does contain a lot more information you may want to read. I also attached one of our maps. It is our filter distribution map. All filters handed out by anyone working with us feeds into this now. We are continuing to refine these and at this time there is a delay in the upload of address data but we are working on it We have a ways to go to get filters in every home but this will help direct us to those who need still them. We also are working on identifying abandoned homes.

Key items for tomorrow to note are:

- 9 churches will have ARC volunteers and filters for distribution. Some may also get water.
- 5 fire stations are a distribution point for water, filter systems/replacement filters, and water test kits. While only open today until 4 p.m., tomorrow and until further notice they are open from 9a to 9p.
- Media event will take place on the above tomorrow.

Items to Note

- 211 has some issues with call load but it is being worked on. 2-1-1 Director contacted MDHHS PIO to discuss/resolve caller wait times and messaging. We anticipate an increase in activity tomorrow in 211 calls so we requested and received an increase to staff 211.

- We are shifting tasks the SEOC took on that are handled more effectively and efficiently at the local EOC. We have established command and control in their EOC. We are running things there but that is not being made public. We are doing this in partnership but we are clearly handling the operation with state personnel oversight.
- A 3rd FEMA LNO arrived today upon my request. This has nothing to do with a Presidential request for a declaration but support for some other items I want worked on for long term recovery.
- We continue morning calls with the local EOC leadership and local emergency manager on what our goals for the day are as well as any issues/concerns.
- Five 5 fire stations have received water, water filters, replacement cartridges, and water testing kits with American Red Cross personnel at each location to assist with delivery of resources and collection of addresses receiving them. These locations will be open from 9a – 9p daily until determined they are no longer needed. Those picking up water testing kits will be advised that they can return the test kits to the fire departments (where they will be picked up and taken to the Flint City Hall), the Flint Water Treatment Plant, or they can take them directly to the Flint City Hall. For those unable to return the kits, 211 can make arrangements for pick up the kits. We understand response to these sites has been positive thus far. The Genesee County EOC will be monitoring these supplies and request replacement of products as needed.
    - A call is going out tomorrow morning to advise this information ... I do not believe it was every resident but Tori Sachs has that info if needed.
- I approved a press release today to advise the public that all levels are working together to ensure delivery of filters, test kits and water; noting that all of these items were delivered to the 5 Flint fire department stations. It was stressed that the public should be aware that the local and state agencies have been working cooperatively to assist the residents - and will continue to do so. This was done to hopefully end or at least minimize the "who can get water and filters out first" when all of this has been connected with the state and coordinated since the state declaration was put in place.
- The arrangement of 2,000 filters, to be taken to 9 local churches on Sunday, January 10, is ongoing. The filters have been secured; they are now in the possession of the DTMB. DTMB will return to Flint on Sunday morning to deliver these to necessary locations. The American Red Cross will be on site at each church to assist with distribution and recording addresses (for GIS). The local EOC is working to ensure these arrangements are complete and run smoothly. Future engagement with the faith based community will occur to assist with additional distribution.
- A Flint City liaison has not been in the EOC but starting Monday this will be in place to keep the Flint Mayor appraised of activities being conducted in the city. She also has been advised she can call me at any time if she needs anything.
- Training has been confirmed for the door-to-door operation scheduled to start Tuesday. Four teams are initially scheduled with more to potentially be put in place. These are the teams that will be handing out water, filter systems/replacement filters, test kits and information. If nobody is home, a door hanger with information is being left. DHHS personnel and one MSP trooper will be on these teams.
    - Training will take place at 1 p.m. on Monday afternoon at the DHHS office on Clio Road. DEQ and DHHS will provide the training.
        - Training is so those going door to door can explain what the filters do, how to install them, if they need install help to call 211 who has

a list of people who can install the filters, and answer any other questions versus just handing them the filter.
    - Hours of operation will be Tuesday through Friday from 8:30 a.m. to 5 p.m. AT THIS TIME. I am reevaluating these times to increase contact with someone versus just leaving information.
    - Logistics are being finalized for the teams and trucks to handle stocking and re-stocking of materials during daily operations.
    - GIS maps will provide guidance on deployment locations for these teams and other teams in the field.
- A pilot project at Freeman Elementary with LARA and DEQ has been initiated to see if replacing certain plumbing components in faucets at the school will drop the lead level.

MSP/EMHSD GIS Section Updates

Accomplished Today (January 9):

- Produced a Point of Distribution Map. Contains four types of distribution points; Churches, Water Resource Sites, Filter Distribution Sites, Water Distribution Sites.
- Produced Filter Distribution Map
- Developed process of how best to handle geocoding the household filter locations, worked on processing the data.
- Worked on map of franchise customers outside of Flint City.
- Produced maps for MDARD on food establishments and Local Health Departments.
- Produced map of Church Filter Distribution map for DTMB.

Local Emergency Operations Center

- The state has deployed 10 personnel to the Genesee County EOC to ensure we have command and control at the local level. On 1/8/15 The state personnel took over the incident management functions of the Genesee County EOC (not public). The arrival of additional staff allowed the local Emergency Management Coordinator to delegate tasks which relieved a tremendous amount of stress.
- Additional Sherriff staff will be shadowing the state incident management team to allow for transition to the county personnel later in the incident when we are comfortable with them handling things. Not sure when that will be but we have secured a direct bill hotel for staff to stay in Flint as long as needed.
- With the additional staff, the Local EOC will be able to take over functions previously handled by the SEOC including:
    - Logistical activities to support church operations.
    - Logistical activities to support fire stations operations.
    - Coordinate Donations Management activities and draft donations management plan
    - Coordinate Volunteer Management activities
    - Identify local storage/staging facilities
    - Overall inventory tracking
    - Tracking of Points of Distribution (PODs)

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 1/8/16

SitRep 3 attached.

There is a significant difference in what is being presented by the media and what the local EOC is relaying to us at the SEOC. It is also being driven by the media that this is a state versus local response (who is providing more and quicker versus a coordinated effort between all). That said, I advised SEOC personnel that perception is reality in some eyes and we are to move forward to address items that typically are addressed at the local level. I have ordered the SEOC open all weekend due to make the quick wins that we need and continue to get the coordination and collaboration in place that is needed (but make gains on our own as needed).

Items to Note

- Two FEMA LNO's arrived today and are in the SEOC. A third LNO was requested from FEMA due to some unique issues with this event to include having to deploy more or my staff to the local EOC to get more structure and/or find out why there is an issue with the message the media is showing versus what we are hearing from the local EOC.

- We finally received from the local EOC 8 locations (we were told originally early in the week they had 80-90) that are their Points of Distribution (PODs) for water in conjunction with the local food bank. The PODs are not getting water from the food bank even though the food bank has water. We are going to resolve this issue as we can help deliver the water to the PODs but we were not aware of this. 8 PODs is not enough locations if water needs to be distributed to citizens. Speaking with the ARC Regional Administrator later today, I believe ARC got water to those locations but I need to confirm that in the morning. The food bank reported they had 376 cases of water.

- We have learned that a low number of residents are testing their water when DEQ can test 400 kits per day. This is an added focus that we believe can be increased through dissemination of test kits with the filters and any water.

- I found out the Mayor was okay with using fire stations as distribution points for water, filters, and water test kits. While this did not come to me through the local EOC, I advised we needed to get water, filters, and test kits to these locations for tomorrow. The distribution at 5 Flint Fire Department stations has been coordinated to be in place by 10:00 am tomorrow morning.

    - DTMB has provided a truck and driver to pick up water test kits from DEQ lab in Lansing, water from the Food Bank and water filters and replacement cartridges from GCARD in Genesee County.
    - 10 American Red Cross (ARC) volunteers will meet the DTMB truck at GCARD at 9:00 am to be provided information about filters. Instructions will be included in water test kits. They will then report to the 5 fire stations to assist in distribution of resources to the public and track addresses of same.
    - Residents will be told where they can drop off their water test kits, or that they can return them to the fire station the next day. Coordination will occur on pick

up of water test kits daily to be taken to the Flint City Hall, who will then delivery them to the DEQ testing lab.

- STILL FINALIZING - We have made available 2,000 Filters for distribution on Sunday as parishioners leave mass/services. This will be 200 filters for 10 churches in Flint. While this is a small number of churches, we do not want to waste an opportunity to hand out filters and this seems like a quick way to so. The filters will be put on the DTMB truck on Saturday for delivery to TBD locations for distribution. Logistics remain undetermined as I am still waiting on a list of the churches, pastors/reverends/hours or services/etc. The DTMB truck will be returning to Lansing approximately 11:00 a.m. so we need to finalize this quickly on Saturday. We may utilize ARC to assist with this.

- The Recovery branch is working with the JIC to develop a door hanger card. DTMB is working on the printing portion of the hanger card. Recovery will also be finalizing logistics over the weekend for neighborhood canvasing to occur early next week. 40 volunteers have signed up to attend training on Monday afternoon to complete this task. The mission will be to deliver water sample kits along with water filters/replacement cartridges, and water.

- It appears that 211 has become overloaded. DHHS is researching ways to increase capacity for calls.

- A Volunteer Management Coordinator is in the Genesee County EOC as of today.

- A Donations Management Coordinator has been requested and she will be in the Genesee County EOC Saturday.

- DHHS had a conference call with GM today; they indicated they can provide cash, and supplies, but primarily manpower. No commitments were made at this point. We inquired as to availability of warehouse space and trucks. It was left as GM being a major resource pool that we can tap into as we determine missions. Further conversations will occur, but primarily GM just wanted us to know they are there if needed.

- An additional EMHSD staff member was sent to the Genesee County EOC to act as Operations Section Chief and obtain awareness of the situation there.

- GIS staff met with various parts of Genesee County/Flint personnel to try to get a handle on data available.

- GIS continues to work with local GIS personnel with three GIS staff going to Flint today to work with them. GIS staff is working with U of M on how best to proceed with digitizing water lines for long term recovery.

Chris

UPDATE 1/7/16

A summary of some of today's SEOC activities is provided below. Attached is the following:

- Today's SitRep which contains more information than below.
- The resource request/task assignment sheet for your situational awareness. This is how locals request resources as well as how we track resources and any assignments and/or tasks that are to be completed.
- JIC Task Tracking – for your situational awareness on how we are tracking requests and assignments. Once someone is assigned a task or resource request it allows them to document what work has been or will be done as shown at the bottom of the document.

Items to note:

- I received a document this evening from Genesee County which appears to be damage assessment information. Analysis of this will occur tomorrow. It appears to be infrastructure and costs to fix it and no other impacts.
- I spoke with Jamie Curtis, Genesee County Commissioner, this evening. A very good relationship is in place with him, especially with our District Coordinator (DC). I also have our DC working on developing stronger relationships with the Mayor/Mayor's office.
- GIS staff continue to obtain data and work with County and City personnel to get a picture of where resources have been provided, need to be provided, as well as infrastructure locations (pipes) that could be affected.
- Personnel and agencies have been tasked with developing a plan to get people in the community to deliver information, hand out filters, etc. This would target those areas we are showing minimal or no filter distribution based on the data we are collecting. The plan is to get them in the field by Tuesday and the plan will be provided to me tomorrow.
- Filters can be obtained at the following locations:
  - Michigan Department of Health and Human Services office, 125 E. Union St., Flint, MI 48502
  - Michigan Department of Health and Human Services office, 4809 Clio Road, Flint, MI 48504
  - Genesee County Community Action Resource Department office, 2727 Lippincott, Flint, MI 48507
  - Genesee County Community Action Resource Department office, 601 N. Saginaw, Flint, MI 48502
- Conducted briefing with local EOC and county executive.
- Conducted briefing with state agencies (daily updates).
- Began work to schedule legislative/congressional conference calls. Tentatively scheduled for 2 p.m. Friday.
- JIC continued to develop messaging.
- Provided input to local EOC regarding best methods of identifying health and non-structural impacts for damage assessment process.
- Deployed two EMHSD/SEOC liaisons to assist the local EOC.
- Published the Incident Action Plan and continued assignment of objectives/tasks.
- FEMA Liaison Officers just arrived in Lansing to assist command and general staff.

- I spoke with Harvey a few times and he should have talking points later tonight or tomorrow a.m. for his use and also for others who may speak to media outside of state government who may benefit from our messaging.
- We held a media round table at 1 P.M. at the SEOC. Dr. Wells and I spoke and answered questions to numerous media outlets.
- Local agencies and NGOs continue to provide water and filters to citizens.
- The website, www.michigan.gov/flintwater, was update with information and links to assistance to include 211. Additional recommendations were provided to include information on the testing water in homes.

EMHSD GIS:
Accomplished Today:

- Reproduced Socio-Economic Status Map
- Reproduced Predicted Affected Populations Map
- Cleansed old data and reports for water filter distributions
- Created draft map of water filter distributions (Refinement needed before releasing final product)
- Scheduled on-site visit with Flint GIS Department and Genesee County GIS Department
- Formatted databases to host content
- Researched service line database creation and scheduled meeting with U of M Flint to discuss timelines and resource needs
- Generated water infrastructure map (does not include building service lines)

Tasks for Tomorrow:

- Meet with Flint City GIS
- Meet with Genesee County GIS
- Meet with U of M Flint GIS
- Finalize water filter distributions map
- Finalize plan for data distribution methods

Chris

UPDATE 1/6/16

A summary of today's SEOC activities is provided below. I tried to distill this as best I could but there has been a lot of activity and discussion to get an accurate assessment of the situation. Attached is the final draft of objectives and tactics for the operational period and agency situation report (SitRep) which has more SEOC agency information. I have implemented weekly operational periods.

Advise if you want anyone else copied or off this distribution.

Daily Update

- Set goals for SEOC and identified response/recovery emphasis
- Requested FEMA liaison officers (LNO) from FEMA Region V. Two LNOs will be on site by ~3 p.m. 1/7/16. Both are known contacts to me and some staff and one has worked extensively with me during the SE MI flooding in a command and control position. These personnel have been specifically tasked with this

mission. **THEY ARE NOT HERE TO ASSIST WITH A PRESIDENTIAL DECLARATION REQUEST BUT TO ASSIST ME.**

- PIOs from multiple agencies were here and established the Joint Information Center (JIC). News released pushed out on this. I am very happy with the PIO work and movement toward coordinated messaging.
- Held briefing for State Agency Emergency Management Coordinators, which included presentations from DEQ and DHHS subject matter experts to ensure situational awareness and to develop a common operating picture.
    - I opened the briefing by identifying our initial goals, items to think about while subject matter experts were briefing us, and how we are to move forward, find quick wins, and regain trust.
    - **MDHHS – Elevated Blood Lead Levels**
        - Dr. Elizabeth Wells gave an in depth summary of lead poisoning and what has occurred in terms of health monitoring throughout the Flint crisis.
    - **MDEQ – Water Testing Protocols**
        - Mr. George Krisztian of MDEQ gave an in depth summary of the testing protocols and summary results that as they have developed throughout the emerging crisis.
- Developed Incident objectives, strategy and tactics (see attached)
- Identified SEOC and state agency staff positions
- Assigned work tasks for SEOC operation period from 0800 January 6, 2016 to 1700 January 8, 2016
- Reviewed planned actions, prepared final draft Incident Action Plan
- **Made contact with the Genesee County Emergency Manager first thing in the morning and held a conference call mid-day to discuss roles. Daily 0830 command conference calls with local EOC command staff starts tomorrow. Tomorrows call will include the County Commissioner and the City Administrator (both invited). Topics include the incident action plan objectives and establishing better local coordination, command and control to facilitate integration with the SEOC. The local EOC is not functioning as it needs to with personnel and local coordination and we are working on that issue.**
- I will be in Flint tomorrow for a 2 p.m. media round table with local officials that was set up by the JIC.
- The attached initial objectives will be updated at least every operational period and as needed. I listed the objectives below but the tactics to accomplish them is in the attached if you want further information.
    1. Activate the State Recovery Task Force (SRTF).
    2. Establish and maintain coordination between the City of Flint, Genesee County, state and federal agencies, and appropriate medical experts.
    3. Obtain and maintain situational awareness and common operating picture of all activities.
    4. Establish SEOC operational period and hours of operations.
    5. Investigate and identify all available programs for assistance with direct or related impacts, including the federal Lead Pipe Replacement Program.
    6. Develop a comprehensive GIS strategy.
    7. Coordinate response and recovery activities with MIVOAD and identify potential mission areas.
    8. Establish and coordinate routine communication between SMEs and coordinate technical assistance among state agencies and to local agencies.
    9. Provide technical assistance to the local Damage Assessment process.

10. Establish a Joint Information Center (JIC) and develop a public information strategy.
11. Monitor MI CIMS for resource requests and address as appropriate.
12. Establish and disseminate cost center information for the incident.

- Additional tasks include:
  - Determine what federal agencies are already involved and their status
  - Identify potential water supplies
  - Determine where affected homes are located, where filters/pitchers (and replacements) were installed/provided, and determine who needs filters, etc.
  - Determine how filter distribution is handled, and if it can be handled more efficiently and effectively
  - Determine what mechanisms are in place for nutrition supplementation

EMHSD GIS Accomplishments:

- Hosted a conference call to begin coordination with Flint City and Genesee County GIS departments and the SEOC
- Established a daily call with county and city GIS personnel to synchronize GIS efforts in support of the Flint water crisis at 8:30 A.M.
- Began consolidating local data from local GIS practitioners into a consolidated database, to include:
  - Water Pipeline Locations
  - Filter Distribution Locations
  - November 25, 2015 Water Monitoring Results (Partial, some data remains to be digitized)
  - Affected School Locations
  - Predictive analysis of blood lead levels for affected area
  - Updated Parcels
  - Demographics
  - Block Groups
- Produced a map for the filter distribution locations
- Began contacting specialists who developed historic maps depicting the Flint Water Crisis to obtain the data

Subject: Update - Genesee County Declaration

Below are some key points for your situational awareness (FYSA) that have taken place or will take place within the next 15 hours.

- I was on the phone with Sean Kammer, Assistant to the Flint City Administrator, when the declaration hit the news so I advised him immediately. He was going to let the City Administrator know.
- I contacted MSP Lt. Roach, 3rd District Coordinator, who was at the Genesee County EOC and advised her to let the County EM know the declaration status.
- State Emergency Management Coordinators (SEMCs) were notified via our notification system with additional information in an email.
    - This included information on the SEOC activation and a 0900 briefing for SEMCs.
    - Some subject matter experts will provide us an update to establish a common operating picture.
- We have been in contact with FEMA Region V watch desk ... they will be on the call tomorrow and continue to monitor the situation.
- I have been in contact with the FEMA Region V Administrator to keep him updated.
- Operational period for the SEOC will be M-F, 0800 to 1700 at this time.
- Situation Reports (SitReps) will be provided in the evenings.
- An Incident Action Plan will be developed tomorrow.

Call me with any concerns or questions.

Chris

> Dept of Ed confirms that since last September there have been five gallon jugs of water (through Culligan) in the dorms. It sounded like the school was ahead of the lead issue.
>
> This morning, I tasked DEQ, LARA, and DOEd to speed up the replacement of faucets and testing at that location. The plan (and I will confirm when they finalize) is to test the faucets in the dorms and the classrooms tomorrow, then change the faucets on sinks/faucets in the dorms (this may be a contractor), and then re-test. DEQ and LARA are clear this is a priority and have shifted to ensure this gets completed sooner.

Okay, thank you. As you'd expect, some of the feedback from the field suggested that they were not getting everything they needed. Will you please check to make sure that the Culligan contract includes the dorms before we go into this weekend? I know that should be obvious, but we've been let down so many times by individuals in state agencies that I want everything explicitly answered. I know they have water in the school. Do they have it in the dorms?

I will be visiting the school personally on Monday but would rather know this is taken care of before the weekend.

On the DEQ, thank you for offering but I've asked the the CoS to handle that personally.

On Jan 22, 2016, at 7:19 AM, Kelenske, Chris (MSP) <KelenskeC@michigan.gov> wrote:

Sir

The below response came back late last night from Dept of Ed. Please let me know if you need additional follow up on this or want me to push DEQ to get their water tested sooner.

"The Michigan school for the deaf has all the water they need. They contract with Culligan's and have plenty of water. They also have filters where they need them...they are not in need of anything"

Subject: Cured in Place Pipe (CIPP)

Tony,

There is an application that we here at the Detroit District, USACE have utilized in wastewater applications called Cured in Place Pipe (CIPP) lining. The technology installs a new pipe, which is jointless and seamless, inside the existing pipe, and eliminates the need for large excavations to replace pipes sections or systems. While our projects were all for wastewater systems, CIPP can, and is, applied commonly in water supply systems.

There are many examples of this application on the internet presented by private industry. At risk of appearing as favoring one company over another, I have included the attached E-Pub from Purdue University and a Fact Sheet for the City of Atlanta that lay out the basic process, methods, etc.

We currently do not have any authority to assist in execution of project to assist FEMA, the State of MI, or Flint, MI but would like to pass on to any organization that is looking for ideas or solutions. We have SMEs in the District who are willing to discuss further, if the need arises, as well as being available as technical assistance.

This may already be a technology being discussed at the State or Federal level, but I thought I would provide you the information. Please forward as you feel necessary to any other department there at the State of MI.

Thanks.

HAPPY MOVE DAY!!!

General Information

: It's FINALLY here. Meet you at the new location on Monday February 1,

EMHSD will be relocating from 4000 Collins Road, Lansing to 7150 Harris Drive, nown as the General Office Building – GOB) on Friday, January 29, 2016.

staff ASSIGNED to work in the SEOC on Friday, January 29 for the Flint gency need to report to the new facility at 8 a.m.

n the standard area and enter at the main entrance of the GOB (see attached ntrance map). EMHSD staff will be on site by 7:45 a.m. to greet and escort you OC.

tient as we all learn our way around, and with new equipment. It may be us to assign "temporarily" locations of computers in the SEOC; therefore, your not be located in its permanent sitting position until early next week.

entioned to those working within the SEOC, it is important that you secure nd files you may have stored on the PC's or desktops at Collins Road by saving to k or you may also talk to the IT support within the SEOC (Rich or Jaclyn) about ation to the S Drive. You will most likely be working on a different PC, and we e you have the files you need to continue operations with as little interruption as

your ADT access card for Collins Road, by Thursday night. A container will be he SEOC sign in-sheet for this purpose.

umbers will be established in the SEOC and will be provided as soon as

permanent locations are set. Until then, we recommend using your cell if someone needs to contact you.

EMHSD Staff not assigned to an SEOC position on Friday, January 29

By COB Thursday night, our janitorial staff will provide blue recycle bins throughout the building – marked for "trash". Please remove all trash by 10:00 am on Friday and place in these designated bins. She will also leave an extra trash bag in your office. Place this fresh trash bag in your wastepaper basket as this will be used to pack your PC accessories for transport.

Please report to Collins Rd at your normal time on Friday, Jan 29. This will be the final day in this building.

Jeans will be permitted on Friday, Jan 29 and Monday, Feb 1, if you are NOT assigned to the SEOC.

DTMB will begin tearing down computers early Friday morning, thereby making worktime on your PC uncertain. **Please accomplish tasks that need to be completed via your computer by COB Thursday.**

All EMHSD Staff that are remaining at Collins Road please report to the Kitchen at 8 a.m. Friday morning for a briefing. Friday will be used to scan the entire building to ensure all items are packed and ready for transport.

As noted previously, we **MUST** ensure there are no paperclips, staples, etc. left in our areas. All drawers, cabinets, shelves, and floors should be double checked. Refrigerators will need to be cleaned once again; NOTHING CAN BE LEFT BEHIND except for furniture that is not being relocated to Harris Rd.

An area has been designated in the kitchen for surplus.. .it is hopeful that you will not have much left by now, but if you run across small items that have been missed and are intended for surplus, please put them in this area. If it is a quality, useable item, please pack it for transport.

Please ensure you have updated your voice mail message with your new phone #, noting that it will be effective on Monday, February 1. You will be able to check voicemail from Collins Rd for a very short time once we move.

Please leave your ADT access card at the desk of Pam Strobel before you leave on Friday.

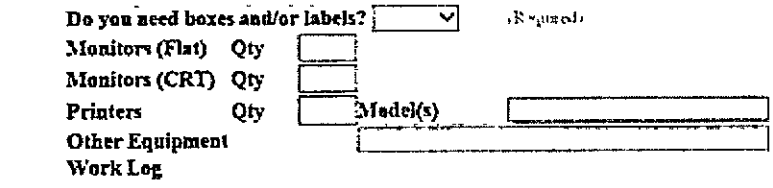
You will report at your normal scheduled time to 7150 Harris Drive, Dimondale, MI on Monday, February 1. **Please DO NOT come in over the weekend as the movers will be unpacking and placing items throughout the weekend.**

Please park in the standard area and enter at the main entrance of the GOB (see attached parking and entrance map). Greeters will be on hand to welcome you to our new work site and find your designated workspace. Assistance will be available throughout the day to help with computers, phones, etc. if needed. A welcome mat will be on your desk indicating key items you need to be aware of Please take a moment to look it over thoroughly.

This has been a big project for all, and we are confident you will find the new division location a welcoming and efficient area to accomplish all that you do. Be patient as we become acclimated. New phones and new workspace will take time to get accustomed to.

FROM DTMB: In an effort to reduce shipping costs and increase efficiencies with the AARP process, additional information will be required on each AARP as follows:

1. A required "yes/no" drop down has been added to capture if boxes and labels are needed to return the assets to Depot
2. "Monitors" have been split into two categories "Flat or CRT" (quantity is still needed if you are returning monitors)
3. "Printers" remains the same (quantity and models are needed if you are returning printers)
4. "Other Equipment" remains the same (this field is used when you are returning items such as "box of mice and keyboards)



If you select "Yes" that boxes and labels are needed, the menu will expand allowing you to indicate the quantity of boxes and labels required, as well as, what device(s) the boxes and labels are for (this will in turn, allow Depot to send the correct box size).

These changes will be available on 1/29/2016.

Reminder: If you have shipping labels that you have received for previous AARP requests for the return of assets that you did not use for the designated assets, those labels need to be destroyed.

Labels are directly associated and are specific to each AARP. If you use a label with assets that the label is not designated for there is no way to track the shipment, resulting in the agency needing to file a lost and stolen report if there is an issue with the shipment and we are unable to locate the asset.

Additionally, there are plans to relocate Depot and the physical address on the old labels will no longer be accurate.

The AARP URL is http://aarp state.mi.us/AARP/webWelcome.aspx.

If you have any questions, please contact Chris Nelson at nelsonc12@michigan gov or 517 241.1142.

Hi Captain Kelenske,

Hello from Governing! I understand you are very busy with the emergency response in Flint. All my best to you and your fellow state officials as you take care of the short and long term needs there. I left a voice mail on your phone but thought it might be easier for you to scan and reply via email.

As we finalize the program for our March 10 Michigan Leadership Forum, I understand you have a recommendation for a speaker on the immigration panel from your intelligence office. If you could forward the name, email and phone, we will invite your colleague right away to join us on that panel.

Also, we are planning a plenary session with at least two members of the Flint Water Advisory Task Force and we would like you to speak at the plenary session with them about the response and leadership lessons learned if you could. The session will be at the end of the day – most likely after 3 pm and we would very much like your commentary in a nonpartisan way about how best to respond during times of crisis to care for the citizens or any other thoughts you would like to add.

Thanks, Chris!

Subject: RE: 2-1-1

Richard,

My technology manager pulled the statewide call records for last night and the single longest wait time for all eight regions was 14 minutes at the Detroit center. Detroit was not taking Flint calls at that time. If the governor's office can share the voice mail or provide the number the caller used, we can pull the specific call information and determine when they called and if there was some delay our reporting system somehow missed.

Today is another story.

We are experiencing long delays today and do not have any additional capacity available to meet the goal of answering calls in under two minutes. Every available agent in the state, as well as supervisors and managers are handling calls, but the demand is so high that wait times are as long as 25 minutes. We are using our callback feature to offer callers the option of keeping their place in the queue and having 2-1-1 call them back when an agent is available, but the times are still much longer than we would like. The volume today appears to be a combination of demand based on the governor's speech and direction from the state web site to call 2-1-1, along with today being the first day call 2-1-1 to schedule to appointments for free tax preparation.

We doing everything in our power to respond to callers in a timely manner, but unless the volume goes down or a way is found to increase 2-1-1's capacity, we are at our limits.

Richard,

We're checking the call records for last night to verify wait times. Michigan 2-1-1 had additional staff on duty until 8:30 pm last night to handle any surge in call volume resulting from the governor's state of the state address. Through 9:00 pm there was no waiting time to get through to 2-1-1.

Will let you know what I learn from the overnight shift.

Subject: 2-1-1 Update Flint Water Response for Thursday, January 28, 2016

Note: Tomorrow's (Friday) will be delayed due to a prior commitment in Manistee. I will make every effort to get an update out later in the evening, but may not be able to compile information until Saturday.

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, January 28, 2016

GENERAL INFORMATION:

- **FOLLOW UP:** 2-1-1 was hit hard in the aftermath of last night's robo-townhall by Gov. Snyder and the nationally broadcast town meeting with Rachel Maddow on MSNBC. Calls from Flint are becoming longer and expressing more frustration. We received word that some state government outreach materials are directing residents to call 2-1-1 "to share their feelings and ideas". We are working to track down the specific source for this, but it is important to clarify ***2-1-1 is an information and referral service, not a chat line.*** Flint residents clearly need a venue for sharing their feelings and ideas, but 2-1-1 is not equipped to collect or act on this information – using the service for this purpose prevents other callers from receiving the assistance they need.

CALL VOLUME:

The Michigan 2-1-1 system experienced much higher than average call volumes today. Seasonal demand for tax preparation scheduling and assistance are a major source of calls, in addition to over 600 calls from utility assistance customers who received notice that they are no longer eligible for a Michigan Energy Assistance Program that helped in past years with heating expenses. With 14,000 households receiving notices they are being dropped from the program, we anticipate demand from these utility customers will remain high for several more days, particularly in SE Michigan.

The Michigan 2-1-1 providers are working together to address system capacity challenges and to meet quality service expectations. Temporary staff are being added in some locations, but space restrictions limit the number of additional agents who can be added on-site. The 2-1-1 technology platform is highly flexible, requiring only an internet connection and a direct-dial phone number to receive calls. Available options to address the capacity need are 1) deploying regular 2-1-1 staff to work from home; 2) utilizing volunteers to take Flint water calls from an outside location; or 3) contracting for staff from 2-1-1 providers in other states. Each option has training, supervision and cost implications for 2-1-1s and our funding partners to consider.

SPECIAL NEEDS/REQUESTS

- Residents have heard news reports that initial lead and copper test results have been posted. They are calling 2-1-1 for results. 2-1-1 is not sharing individual results, but is instructing these callers to visit http://www.michigan.gov/flintwater and click on the report under the 'In The Home' link.

RUMOR CONTROL

- 2-1-1 continues to receive a number of calls regarding the rumor that Sparklett bottled water is contaminated with lead. Callers are informed that MDEQ has tested all bottled water sources and confirmed they are lead- and copper-free.
- A member of the Communications team at 2-1-1 partner Michigan Association of United Ways shared a link from Twitter and Facebook account 'BrownBlaze' based in Milwaukee with posts stating:
  - ☐ "Flint residents are barred from selling their homes and moving their families bc it is illegal to sell with a known lead or copper issue."

☑ CPS is threatening to remove children from homes with water issues. **Note:** This rumor has been documented by fact-checking web site Snopes.com as "FALSE".

☐ "Undocumented immigrants in Flint aren't just being denied clean water, they aren't being tested for lead poisoning." This tweet included a link to a story about undocumented residents facing ICE raids: http://grist.org/cities/its-not-just-clean-water-flints-undocumented-immigrants-cant-access-medical-lead-testing/

Michigan 2-1-1 forwarded these links to SEOC for response.

UNRESOLVED

☐ **From 1/18/16:** Is there a timeframe for how long bottled water will be distributed? Locals are asking how long this will continue.

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/20/16:** Michigan 2-1-1 heard an anecdotal report today that real estate agents are reluctant to close sales in Flint because they cannot verify the any properties are free from lead contamination. **Is there are state agency or partner who can give real estate agency and home inspectors information on their potential liability.**

☐ **From 1/25/26:** Organizations distributing bottles to collect water samples report running out of bottles. **Is there a contact for individuals and organizations to get additional testing sample bottles?**

☐ **From 1/26/26:** Callers are asking about the efficacy of various water filters and whole-home filtration system to screen out lead. **Is there an state- or independently-vetted list of effective filters available for residents to reference.**

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier? UPDATE:** The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **From 1/26/26:** Callers are asking about the availability of whole-home filtration systems. **Is there any guidance on whether this is being considered as an option for residents?**

Subject: A few thoughts...

I have been thinking of the success path to the Flint water event and wanted to provide the following for your consideration.

1. When the Flint water system was built using lead lines and solder, residents were exposed to and impacted by lead leached into drinking water.
2. At some point, scale was built on the insides of pipes and fixtures, effectively reducing lead leaching to levels established by the USEPA..
3. When the water source was changed to the Flint treated water in 2014, scale was gradually removed, again exposing Flint water users to lead leaching.
4. At some point, scale will be rebuilt inside of pipes and fixtures, effectively reducing lead leaching to levels established by the USEPA.

I informally discussed MDEQ, but I doubt they will be able to provide an answer. I also doubt USEPA will be willing to address until testing proves the system OK.

Yes, that's what I thought. Sorry, I shouldn't have said houses visited; I just meant visits, including second or third visits. Thanks.

Based on preliminary data, from 4/1/14 to 1/22/16, we've had 186 Flint children < 6 test over the limit out of 5,312 tests (3.5%). Over the same period, we've had 232 Flint residents of all ages test over the limit out of 7,904 tests (2.9%).

For the period from 10/1/15 to 1/22/16, the preliminary numbers are as follows:

38 out of 1,505 Flint children < 6 tested over the limit (2.5%)

67 out of 3,351 Flint residents of all ages tested over the limit (2.0%)

Interestingly, for the period 1/1/10 to 12/31/10, we have:

Flint Children < 6: 230/3,630 (6.3%)
All Flint residents: 260/4,218 (6.2%)

In fact, the percentages for the last couple of years are relatively low for the covered period, especially compared to 2010 and 2011.

This is very good in terms of gathering data; but way too complicated for normal interviews. Since xxx, we have xxx children over the limit out of xxx tests, and xxx total people out of xxx tests.

Please help fill in the blanks.

Thanks
Rick

Governor,

The attached information was provided by DHHS.

The first attachment shows blood tests for all Flint zip codes combined, by year, for the period 1/1/10-1/22/16. It also shows the percentage of high blood tests for children < 6, by quarter, for the same period.

The second attachment breaks out the children < 6 data by zip code.

*Note:
--the most recent quarters continue to be updated, so there may be some discrepancies between the totals in the two documents.
--DHHS cautions against referencing specific zip codes with small test populations. They are concerned that such a reference could identify actual persons.

Subject: Changes in Administration

Team,

As you are aware, we have been working closely with the independent task force that has been reviewing state, local and federal actions regarding the serious health issues related to water in Flint.

Although the task force's final report is not yet complete, members have made the Governor aware of some interim findings, and there are interim steps the Governor has decided to take immediately in order to restore trust in how we in state government keep residents safe and informed.

As part of this process, Dan Wyant, director of the Department of Environmental Quality, has offered his resignation, and Governor has reluctantly decided to accept it. There are likely to be other personnel changes in MDEQ as well.

I want to thank Dan for his service. He has been the DEQ director since the start of the administration, and previously headed the Agriculture Department under both Gov. Engler and Gov. Granholm. He is passionate about public service and protecting our state's environment.

The situation in Flint is serious and challenging. We will continue to work closely with the task force and city leaders as we move forward, committed to protecting the health of people living in Flint and around our state.

Sincerely,

Jarrod Agen

Subject: Changes in Administration

Team,

As you are aware, we have been working closely with the independent task force that has been reviewing state, local and federal actions regarding the serious health issues related to water in Flint.

Although the task force's final report is not yet complete, members have made the Governor aware of some interim findings, and there are interim steps the Governor has decided to take immediately in order to restore trust in how we in state government keep residents safe and informed.

As part of this process, Dan Wyant, director of the Department of Environmental Quality, has offered his resignation, and Governor has reluctantly decided to accept it. There are likely to be other personnel changes in MDEQ as well.

I want to thank Dan for his service. He has been the DEQ director since the start of the administration, and previously headed the Agriculture Department under both Gov. Engler and Gov. Granholm. He is passionate about public service and protecting our state's environment.

The situation in Flint is serious and challenging. We will continue to work closely with the task force and city leaders as we move forward, committed to protecting the health of people living in Flint and around our state.

Sincerely,

Jarrod Agen

Child Care Centers are classroom-based programs that provide care and education for children including child care, prekindergartens, preschools, nursery schools, before and after programs, and Head Start programs.

Family child care homes provide care and education for up to six children in the registrant's home.

Group child care homes provide care and education for 7 to 12 children in the licensee's home.

Subject: City of Flint Costs - January 26th
Attachments: City of Flint Response Costs Jan_26_16.xlsx

Good Evening:

I have attached the current cost information related to the SEOC response for the City of Flint Water Emergency. You will find two tabs in this workbook. The first tab reflects current actual and estimated costs incurred by state agencies except Corrections who did not get their information turned in this week. The second tab contains detailed information obtained from DHHS purchasing as far as the water resources procured from Home Depot. These numbers are carried over onto the cost spreadsheet; this is just included to show you more of the detail.

The cost report details the current expenditures or estimated costs incurred. I have done this so you are able to see what types of items are being requested for this response. There are various lines within the supplemental appropriation included in this report, such as DMVA and DHHS. Costs so far are approximately $10.2 M with $8.7 M being spent on water resources since the Governor declared a state of emergency.

If I can answer any questions for you, please let me know.

Thanks and have a good evening.

Subject: City of Flint Reporting

I have set a deadline for each state agency (financial point of contacts) to provide updated financial information for their agency by 4:00 pm every Monday so a report can be provided to you at 6:00 pm on Monday. This will allow for costs to update in MAIN over the weekend so we will have fewer "estimates" in our reports.

Please let me know if this schedule is acceptable.

Thanks,
Penny

Subject: CLEAR Meeting - February 25

Good morning:

I wanted to let you know early on that the Director would like all of you to present at the next CLEAR Meeting on February 24. She would like to hold the meeting in the situation room at the SEOC and I'm currently working on that. Below is what she would like you to present on:

Legislative Update for 2016 – F/Lt. Chris Hawkins
Body Camera Update and the Cloud – Sgt. Aric Dowling
Flint Water Update, Emergency Management Process, tour of SEOC – Capt. Chris Kelenske

Each presentation should be 15-20 minutes with 5-10 minutes for questions to total 30 minutes.

Please let me know if you have any questions.

Thanks,
Jo

Subject: Communications Plan Funding

Based on discussions with staff, my initial take...

There are restrictions on use of preparedness grants to support development of a communications plan related to the Flint water issue.

1. Regarding EMPG use, plan development needs to be eligible. Is the plan to be used for emergency management? Would we write a project on this issue and submit it for approval to FEMA Region V? Plan development needs to be tied to a current FEMA approved project as submitted in our current EMPG application.

2. Regarding use of HSGP, plan development could be approved if the plan is tied to terrorism. For local HSGP use, the regional board would need to approve the project. For state HSGP use, only SAA approval would be needed.

The question boils down to whether there is a clear emergency management or terrorism nexus to the project. What is the intent of the project? Not knowing any details, my initial take is that we are attempting to address a health related issue with preparedness grant funding. We have been questioning why the Governor would issue an emergency declaration for the Flint water issue. Before a definitive answer can be provided, we need to know the purpose of the plan. Is it to prevent negative health effects? ...or to improve emergency preparedness? ...or prevent terrorism? If we can answer affirmatively to the last two questions, we would then need to validate eligibility under a current EMPG project or HSGP project.

From: Katarsky, Anthony (MSP)
Sent: Tuesday, January 12, 2016 11:24 AM
To: Kelenske, Chris (MSP)
Subject: Declaration Needs

Following are our needs to be directed to FEMA in our request for a Presidential request for **emergency declaration.**

Water

- While we are currently keeping ahead, the long term outlook is far from certain in terms of what demand will be given the level of governmental distrust. We have transitioned from donated water to purchasing water, but are required to have a balanced budget by law. Over the long haul, the cost of water combined with costs of filters, filter cartridges, and water test kits is not known and will likely end up as a large cost in the end. Each truckload costs $5500.

Filters

- Until issues with the Flint water distribution system are fully addressed, we must continue to provide filters and replacement cartridges to the public. Filters average $25; cartridges average $20. This will be a large cost.

Water Test Kits

- Our short term goal is to test every household on the water distribution system. This demand will decline, but not stop. This will be a long term continuing cost. The cost of each test is $26.

Personnel

- While activity will eventually decline, it is not possible to gauge when this will occur. We cannot sustain long term operations without assistance. We should consider EMAC to address this need. I estimate this will cost $75,000 for 10 personnel for one month of operation. Personnel will assist with SEOC operations and with logistics of securing additional resources to defray costs through donations.
- There is a fundamental distrust of government in the city of Flint, especially where state government is involved. A major hurdle will be reestablishing public trust to a point where there is confidence in water quality. The USEPA and USHHS will need to engage both short and long term to convince residents tap water is safe to consume.

If a Presidential **disaster declaration** is requested, the following information must be submitted.

- The city of Flint has submitted an estimate for the entire water distribution system ($780 Million)
- We need to develop a plan for long term health assessment and treatment. I have requested a preliminary cost assessment from MDHHS.
- Long term nutritional needs and associated costs are unknown, but must be considered.

Subject: Draft Language

Following is draft language requested. We have input from Michelle, but this has not gone through the JIC due to time constraints. Please let me know if you need anything else.

Thank you to all who have donated bottled water to support the City of Flint during this time of crisis, these efforts have been a tremendous benefit. In the future, we ask that all donations be made in the form of monetary support for the following reasons:

- Purchases made in bulk greatly reduce the costs, maximizing your donation.
- Warehousing and delivery costs are reduced by standardization and increased efficiency of delivery, allowing focus on the most vulnerable populations and organizations.
- Minimizing local government effort increases long term sustainability of water distribution within the community
- Understandably, some members of the public have questions whether water donated is safe. Standardization reduces public concerns.

Subject: DTMB-Procurement purchasing support for Flint Water Emergency Response...as assigned by Jeff Brownlee.

Hi Chris,

I left you a message a few minutes ago.

Jeff Brownlee has assigned me to help out on the purchasing side based on your conference call Friday with Jeff, Brom, and Kristi Etue.

I have talked with Chris Christensen (DTMB) and will reach out to Penny Berger (MSP), DHHS, DEQ, and other agencies to get a baseline understanding then get back to you.

If you have specific guidance for me or individuals to work with please let me know; otherwise I will work with the individuals above and from Jeff's guidance to:

- Understand the process/procedures for purchasing that all State agencies need to follow in this response
- Draft any necessary documentation
- Develop communications to the agency directors regarding process/procedures
- Understand how DTMB Procurement can support the agency SEOC representatives
- Communicate to the purchasing leaders of each agency

And any other procurement support I can offer.

Thanks,
Dave

Subject: RE: EMHSD Update

Below is an update for review:

- **Flint Water issue – Status of request to utilize $25K EMPG**
  - We shifted gears and I found 25K of our GF EMPG match that we are going to use. It is much cleaner. They have to update their Emergency Support Plan and train/exercise the plan.
  - FEMA held a Congressional call on providing pallets of water to the Food Bank of Eastern MI. Two loads of water that was free (minus shipping) was delivered to them after we found out about the water via FEMA contacts. I believe it was mentioned that we were the impetus to connecting the right people. The Food Bank was very thankful for us doing this.
  - As of 12.8.15 14,545 water filters have been distributed to Flint residents.

- **CVE – Anything new for Statewide Strategy ?**
  - Friday I will bring this up at the HPB meeting to establish the subcommittee.
  - January 20-21 I am hosting a meeting in CA as part of the National Homeland Security Consortium and CVE is one of the main topics. I am brining in Dr. Mohammed Hafez to speak on the Radicalization Puzzle, George Selim who is the Director of DHS' new Office for Community Partnerships: CVE, and have invited (no confirmation yet with everything going on) Tracy Miller, FBI CVE Office.
    - I hope to get more refined direction a state can/should take to develop a strategy from these interactions to include who are the right people to invite to the table.

- **Terrorist Attack / Table Top Exercise – For MSP Command. When can we plan on conducting this exercise? I would like to pin down a date very soon for all of us to participate in. I know this is tied to the Force Protection Plan too.**
  - Attached are the suggested objectives and core capabilities for the MSP Terrorist Attack Tabletop Exercise. I have to spend some more time on the review and changes but let me know if you have any input...we are keeping a very close hold on these. These will help align what our thoughts are with the details for the scenario.
  - We have one VTC room available that can host up to 15 sites, all others host only 10. If 15 sites will be enough, I can pre-identify the sites in order to set up connection tests between the host site and all stations to before the TTX. I do not think we need more than 15. This is so other districts and posts can participate and not have to come to Lansing.
  - Date is tentatively January 6th in the afternoon.
  - Friday I am meeting with the group that we have been discussing MSP gaps with equipment for an incident like Paris or CA. There are samples of the gear and recommendations will be forthcoming. The TTX will also identify other gaps we have.

- **Status of Haz Mat Training Manager 14 – Where are we headed with this?**
    - Angie Fuqua says civil service approved the SPRs for the hazmat manager (revised based on Steve's suggestions and approved by Jackie Hampton). There are 2 people on the recall list and she said she was sending a letter to them yesterday morning to see if they possessed the required skills. If they do, we MUST take one of them. If they do not, we can post. This process can take up to 10 days.

Let me know if you need additional.

Chris

Subject: EMPG Flint Water Project
Attachments: Flint Water Advisory Task Force.docx

We have developed a $25,000 EMPG project amendment related to the Flint water situation tied to an existing public information project assigned to Ron Leix. We believe this project will qualify, but do not know how well it aligns with consulting work being considered In any case, we will need to formally submit a proposal (draft attached) to FEMA Region V for approval. This work would be funded under the 2015 EMPG, which ends September 30, 2016. All work must be completed by this date. If approved by FEMA, quarterly progress reports on the project must be submitted.

Please let me know if anything further is needed

Subject: RE: EMPG Project Question
Attachments: Analysis of Proposed Flint Communications-1.docx

Attached is our analysis on the use of EMPG funds for the proposed Flint communications project. We conducted an informal discussion with FEMA Region V to gain their perspective:

- Further detail is needed to make a firm decision. What type of messaging will be taking place? Is there a clear link to emergency management
- The project does not appear to be within the mission of the grant program.
- FEMA is unaware of funds being used similarly in the past.

Please let me know if you would like to discuss.

Subject: EMPG Project Question

Please let me know if the below would be eligible for EMPG use. I would look for $25,000.

Provide communication consulting services for the Flint Water Advisory Task Force (FWATF)

Consultant will devote such business efforts and time as is reasonably required to fulfill the outlined services below in the "Scope of Work". It is anticipated that the Consultant will devote a minimum of 60 hours per month to this project.

Scope of Work
Assist the FWATF in the following:

1. Development and coordinating of overall strategic messaging
2. Serve as media contact and spokesperson
3. Assist in the writing and distribution of documents such as reports and press releases
4. Attend meetings, conferences and interviews
5. Coordinate media information distribution
6. Media Training as needed
7. Editorial Board meeting coordination
8. Assist with Community Forums
9. Develop and maintain media contact information
10. Press conference preparation and implementation

Other items may be added to the "Scope of Work" if all parties agree.

Thanks,

Capt. Chris A. Kelenske

FEMA Region V Evening Situational Awareness Report (ESAR)
DATE: 01/05/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Red
  - **Collateral IMAT:** Alpha
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:
- **Illinois:** Partial Activation *(Severe Weather & Flooding)*
- **Indiana:** Normal Operations
- **Michigan:** Normal Operations - *SEOC is scheduled activate **(FULL Activation)** on Wednesday, January 6th (Flint, MI Drinking Water)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): No active alerts.
- Bulletin *(12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing to report.

SIGNIFICANT WEATHER (NWS, SPC): A mixture of rain, snow and freezing rain are forecast to develop Upper Midwest, Great Lakes and Middle Mississippi Valley Region, up to 4 inches of snowfall will be possible across portions of Minnesota, Wisconsin and northern Michigan. In southern Minnesota, southern Wisconsin, and northern Illinois, freezing rain or sleet are forecast; up to .10 inch of icing will be possible in some areas. Light rainfall is expected over the remainder of Illinois. Snow, rain and mixed precipitation are forecast to continue across most Region V on Thursday. No significant impacts are anticipated.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings remain in effect along many rivers in Illinois and Indiana. Currently, 12 river gauges are at or forecast to reach Major Flood Stage along the Illinois, Mississippi, Little Wabash, Kaskaskia and Ohio Rivers. Most gauges are receding with the exception of the Illinois River in west-central Illinois. Gauges there are currently cresting before beginning to descend within the next few days.

FIRE CONDITIONS (SPC): Nothing to report.

REGION V DISASTER SUMMARY:
- **PDA Requests:** None
- **Declaration Requests:** None

- **Disaster Declarations:** None

Very Respectfully,

Cornelius C. Miller

FEMA Region V Evening Situational Awareness Report
DATE: 1/21/2016

REGION V RESPONSE STATUS:
- **RRCC:** Watch / Steady State
- **IMAT:** Deployed to MI SEOC (MI-3375-EM)
  - IMAT Bravo deployed Flint, Michigan (MI-3375-EM)
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:
- **Illinois:** Partial Activation *(Flooding)*
- **Indiana:** Partial Activation *(LPAI Outbreak)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC): A strong winter storm system will move through the Ohio Valley this evening through Saturday. Accumulations will be light to moderate and vary widely across southern Indiana and southern Ohio beginning late tonight and lasting through early Saturday morning. Heavy snow, in excess of 6-10 inches will be possible, specifically across portions of southern Ohio. The heaviest snowfall is expected on Friday afternoon and Friday evening. A Winter Storm Warning and Winter Weather Advisories remain in effect from Friday 0600 CST until Saturday 1800 CST for southern Indiana and southern Ohio. Hazardous road conditions in Region V warned areas, and widespread delayed air travel due to cancelled flights on the East Coast are expected.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings and Advisories remain in effect in Illinois and Michigan due to previous rainfall and ongoing ice jam flooding. In Illinois, two (2) river gauges are at Moderate Flood stage. The river gauges are forecast to recede into Minor Flood stage by Saturday morning. No significant impacts have been reported or are anticipated.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:
- **Declaration Requests:** On January 20, 2016, Michigan's Gov. Snyder appealed FEMA's denial of his major disaster request due to lead contaminated water in the City of Flint. The appeal is under review.
- **PDA Requests:** None
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

Regional Weather and Impacts

Ardent Mills Says Resumes Operations At Illinois Flour Mill After Flooding
(Reuters)
Alton, Illinois: The largest U.S. flour miller Ardent Mills has resumed bulk shipments at a mill in Alton, Illinois, as floodwaters along the Mississippi River receded while a mill in Chester, Illinois, "likely will be down for multiple weeks," company spokeswoman Mary Ann Strombitski said on Tuesday. Near-record high floodwaters following deadly winter storms forced the company to shut down the mills a week ago.

Federal Officials Make Recommendations To Prevent Future Flood Damage
(WSIL ABC 3)
Grand Tower, Illinois: Federal development officials are touring areas affected by flooding throughout the southern Illinois region. They are assessing ways government aid can help communities recover and rebuild. A group of Delta Regional Authority employees made several stops, including the levee in Grand Tower. Their goal is to figure out exactly what investments will help make local flood protection sustainable for years to come. As federal officials tour Jackson County with Delta Regional Authority - they also recommend installing a better river gauge on the Big Muddy and creating an overpass road above the Cora levee to prevent Route 3 from closing down. Damage in Jackson County varies. Most levees along the Mississippi River held up, while chunks of the Big Muddy levee were eroded away. Some say Jackson County got lucky. The Len Small Levee near Olive Branch in Alexander County did breach, flooding dozens of properties and putting some local residents out of a job.The levee could take months to repair. Emergency officials are considering how soon to lift their recommendation for voluntarily evacuation.

Alexander County Levee Break Will Bring More Challenges
(Southern Illinoisan)
Illinois: The grim reality of unseasonable flooding that led to a levee break in Alexander County last week might be compounded when high waters finally recede. After the 1993 flood, it cost about $4 million to repair the Len Small Levee, said Alexander County Board Chairman Chalen Tatum. He also pointed out that the '93 levee break was smaller than last week's breach. It's too early to know how much the latest breaks — a second, smaller breach occurred sometime after Friday's breach — but Tatum believes repairs will cost more than they did 23 years ago, just considering inflation. The good news is the U.S. Army Corps of Engineers will likely cover 80 percent of those costs if the Levee District meets a long list of conditions, a Corps spokeswoman said. The bad news — in a sparsely populated area of small towns and farmland in one of the state's poorest counties, there's still the 20 percent to come up with It is too soon to tell how bad the levee damage was, at Len Small or elsewhere in Southern Illinois. Most levees in the region, as well as the state within the Corps' St. Louis District, are currently at minimally acceptable or unacceptable status of Corps standards. That means repairs needed outside of flood damage must be locally funded. Most of those levees are also Corps built, unlike the Len Small Levee. For those levees, the Corps will pay 100 percent of the cost for flood-related repairs. Several districts, including the Grand Tower Levee District and the Degonia and Fountain Bluff Levee District have enrolled in a Corps program designed to provide technical advice to restore systems to acceptable levels. Officials in Jackson and Union counties said it is still too early to assess damage, though it appears the flood did not cause significant damage. The worst might be at the Degonia and Fountain Bluff Levee and Drainage District, President Carl Heins said. Some sliding on the levee wall did occur that will likely need to be built back up.

Water Sector

Michigan Governor Declares State of Emergency over Flint's Toxic Tap Water

(Weather.com)

Michigan: Michigan Gov. Rick Snyder has declared a state of emergency in Flint and Genesee County due to a contaminated drinking water crisis. Coincidentally, this declaration came on the same day that the U.S. Attorney's Office confirmed its investigation into the contamination of Flint's water supply, according to the Detroit Free Press. "The health and welfare of Flint residents is a top priority and we're committed to a coordinated approach with resources from state agencies to address all aspects of this situation," said Snyder in a press release. "Working in full partnership with the Flint Water Advisory Task Force, all levels of government and water quality experts, we will find both short-term and long-term solutions to ensure the health and safety of Flint residents." In 2014, Flint swapped over from Detroit's water system to water from the Flint River in an effort to cut costs, reports FOX News. It was a temporary set up until a pipeline was built from Lake Huron. The change did not go unnoticed by residents, who complained about the taste of the water, as well as its smell and appearance. The issues worsened as elevated levels of lead were found in children as a result of drinking the water. In October 2015, the city returned to Detroit's drinking water. "The damaged water infrastructure and leaching of lead into the city's water caused damage to public and private water infrastructure, and has either caused or threatened to cause elevated blood lead levels, especially in the population of children and pregnant women, and causing a potential immediate threat to public health and safety and disrupting vital community services," said Snyder in the declaration. The emergency declaration makes federal aid possible. Snyder can request a damage assessment from the Federal Emergency Management Agency (FEMA) to use as a basis for determining eligibility for federal aid.

Federal Officials Probe Lead-Tainted Water In Flint, Michigan

(Reuters)

Michigan: Federal officials are investigating the lead contamination of drinking water in Flint, Michigan, after the financially beleaguered city switched sources to save money, a spokeswoman for the U.S. Attorney in Detroit said on Tuesday. Michigan Governor Rick Snyder apologized in late December for the state's mishandling of lead contamination of Flint's water supply and accepted the resignation of the state official whose department is responsible for overseeing water quality. The U.S. Attorney's Office is working closely with the U.S. Environmental Protection Agency to address the concerns of Flint residents and investigate the contamination of Flint's water supply, said Gina Balaya, a spokeswoman for the U.S. Attorney. Snyder later on Tuesday declared a state of emergency in Genessee County, which includes Flint, authorizing additional state resources to address the health and safety issues. The city declared a local emergency in mid-December. Snyder spokesman Dave Murray said the state would cooperate with any requests from the U.S. Attorney's Office "as it looks into Flint's water challenges." The governor has appointed an independent panel to review local, state and federal actions related to the drinking water situation and is working with city and county leaders, he said.

Boil Water Advisory Issued For Belle Isle

(The Detroit News)

Michigan: There is a boil water advisory in effect on Belle Isle after low water pressure and low chlorine levels were detected Tuesday, according to the Michigan Department of Natural Resources. "Bacteria levels came out negative which means that's OK, but the chlorine levels are still low," said Ron Olson, chief of parks and recreation for the DNR. "The suspicion is because the water pressure is low, that may affect the chlorine levels." The issue was detected around 12 p.m. Tuesday after city officials tested water near the island's Coast Guard outpost, which recently had been experiencing varying levels of water pressure, Olson said. Belle Isle is hooked up to the city's water and sewerage system. Further testing showed no harmful bacteria in the water but officials determined the water "may not be potable" due to the low pressure and low chlorine, Olson said. The advisory was issued "as a precautionary measure." Several agencies including the city, the DNR and the Michigan Department of Environmental Quality are working to pinpoint the cause of the low water pressure, Olson said. Meanwhile, Olson said aquatic life at the island's aquarium are protected in their controlled tank environments.

Communications/Information Technology Sector

DHS Issues Process and Privacy Guidance on State and Local Drones

(Electronic Frontier Foundation)

National: Just before the holidays, a Department of Homeland Security (DHS) working group released guidance for state and local agencies using drone aircraft. The document, Best Practices for Protecting Privacy, Civil Rights & Civil Liberties In Unmanned Aircraft Systems Programs, addresses concerns over the implications of high-tech tools that,

without rigorous controls and oversight embedded in law and embodied in code, can easily be abused. Some aspects of the guidance construct a robust process surrounding the adoption of drones. For instance, it suggests consultation with legal counsel and issue experts, as well as a clear definition of a program's mission and scope. The guidance also recommends ongoing assessment of privacy impacts and a redress program. Other more substantive provisions address the use of drones themselves. For instance, the DHS guidance suggests limits on how drones collect data, how the data used, how long it is retained, and to whom and for what purposes it is disseminated. At root, the guidance remains advisory, binding neither state nor local agencies, nor even agencies within DHS itself. Longstanding concerns about inadequate transparency and protections by DHS component agencies will remain and continue to mount. The guidance is also limited to particular settings. The working group said its guidance was "intended for first responders (e.g., emergency management, emergency medical service, fire departments, and security professionals responding to disasters and other emergencies) and does not seek to provide guidance in regard to investigative use of [drones]," despite the group's recognition of historical patterns of recurring abuses by law enforcement agencies.

- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin *(12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing significant to report

SIGNIFICANT WEATHER (NWS, SPC): A winter storm system is expected to impact southern and central portion of the region Wednesday into Thursday. This system will be accompanied by windy conditions across the area, and it will also be accompanied by rain and snow. It appears that at least minor snow accumulation is likely across most of the region by the time the system departs. While uncertainty exists in the details, current indications suggest the highest snow totals reaching 4" or higher will be possible for portions of Illinois and Indiana. However some portions of northwest Indiana and southern Lower Michigan may receive over 8 inches of snow accumulation. Lower Michigan is currently positioned on the "cold side" of the storm, which may result in heavy and wet snow. The primary impacts will be hazardous travel conditions possibly affecting the Wednesday afternoon and Thursday morning commutes. Possible power outages as a result of downed power lines due to heavy snow.

HYDROLOGIC CONDITIONS (AHPS): Nothing significant to report.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:

- **Declaration Requests:** None.
- **PDA Summary:** None.

- ***Disaster Declarations:*** *FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.*

TRAINING EVENTS:

- **Feb 29-Mar 1:** REP Core Concepts Course (RCCC); Manitowoc, WI
- **Mar 1-2:** L-276 Benefit Cost Analysis, Indianapolis, IN
- **Mar 2-4:** REP Plan Review Course (RPPR); Manitowoc, WI
- **Mar 3-4:** L-214 Hazard Mitigation Assistance Implementation & Closeout
- **Mar 21-24:** REP Exercise Evaluator Course (REEC); Madison, WI
- **Mar 25:** REP Exercise Controller Course (RECC); Madison, WI
- **Apr 4-7:** L580 Emergency Management Framework for Tribal Governments; Leech Lake Band of Ojibwe, MN
- **Apr 18-21:** REP Exercise Evaluator Course (REEC); Springfield, IL
- **Apr 22:** REP Exercise Controller Course (RECC); Springfield, IL
- **May 3-5:** L207 Introduction to Hazard Mitigation Field Operations; Chicago, IL

EXERCISE EVENTS:

- **Mar 3:** Indiana Cyber (Power Disruption) TTX; Camp Atterbury, IN
- **Mar 16:** FEB COOP Devolution FSE; Cincinnati, OH
- **Mar 30:** RV/RII Devolution TTX (Phase II); Chicago/New York (via VTC)
- **Apr 6:** Braidwood REP; IL
- **Apr 18:** FEB COOP Reconstitution TTX; Chicago, IL
- **Apr 20:** NSSE RNC SL TTX; Cleveland, OH
- **Apr 26:** Palisades REP; MI
- **Apr 27:** America's Preparathon

Regional Weather and Impacts

Alexander County levee break will bring more challenges
(The Southern Illinoisan)
Alexander County, IL: The grim reality of unseasonable flooding that led to a levee break in Alexander County last week might be compounded when high waters finally recede. After the 1993 flood, it cost about $4 million to repair the Len Small Levee, said Alexander County Board Chairman Chalen Tatum. He also pointed out that the '93 levee break was smaller than last week's breach. It's too early to know how much the latest breaks will cost, additionally, a second, smaller breach occurred sometime after Friday's breach. Tatum believes repairs will cost more than they did 23 years ago, considering inflation factors. The good news is the U.S. Army Corps of Engineers will likely cover 80 percent of those costs if the Levee District meets a long list of conditions, a Corps spokeswoman said. The bad news — in a sparsely populated area of small towns and farmland in one of the state's poorest counties, there's still the 20 percent to come up with.

Receding waters allowing some to return home, clean up, return to normalcy
(The Southern Illinoisan)
Cairo, IL: As floodwaters began to recede in parts of Southern Illinois, some communities are turning to cleanup and even returning to the homes they might have left. As the water recedes in Alexander County, many of the side roads still remain closed, said Alexander County Sheriff Tim Brown. The major roads, like Illinois 3 and 127, were never closed and are still open to travel, he said. A Mississippi River flood warning is still in effect for Alexander County for the next few days, according to Greg Meffert, lead forecaster for the National Weather Service. The river measured 4In Jackson and Union counties, emergency management officials lifted their evacuation recommendation and voluntary evacuation order at 8 a.m. Wednesday. Road-closure signs have been removed from most of the blockaded streets, Union Sheriff Scott Harvel said Wednesday afternoon. "It's looking a lot better because the river is really starting to drop," Harvel said. Since Sunday, the river has fallen almost six feet, from its high of 48.8 feet on Sunday to 41.48 feet on Wednesday, he said. Crews were out Wednesday cleaning up, he said.

Durbin looks for answers as flood victims plead for delayed funds
(WSIL 3)
Alexander County, IL: Flooding in Alexander County brings a reminder of unfilled promises for many. County Leaders say owners of 127 properties who opted for the buyout program are still waiting for that money, so residents pleaded with U.S. Senator Dick Durbin to find out why. "The federal funds are there available for use. It's the 25 percent state matching funds that the state has locked up," said a county official. "Well, clearly the answer is the state budget," said Durbin. "We've waited a long time, the sooner the better. In the meantime, I'll contact the Rauner administration to see if they can do a release when it comes to these funds." News 3 asked if that would require a court order and Durbin said "Beyond the current court order, I can't say. I just can't say at this point. But if it discretionary on the part of the state of Illinois to have this decision to release state funds then that's the governor's decision. News 3 also spoke with the governor's office, who says there's been no appropriation for the contribution at the state level and the federal contract makes Alexander County responsible to provide and/or secure the matching funds.

Damage assessments begin as evacuations lifted
(WPSD)
Grand Tower, IL: Evacuation notices have been lifted in Union and Jackson counties in Illinois, giving the all clear for people to return home for the first time in over a week. Jackson County Emergency Manager Derek Misener says the county is just now starting to get a sense of how much damage was done. "The most devastated areas are really just now starting their damage assessments," said Misener. "One of the things with flooding is you don't really know if a road is ruined until the water goes down." Misener says it's crucial that people report any damage because the state of Illinois has to hit an $18 million damage threshold to receive any assistance from the federal government. He says while that may not seem like a lot now, during the next flood it could keep the water in the rivers and out of your town. According to Misener, levee improvements and a new flood gauge are needed before the water rises again.

Flooding Disaster Declaration Could Lead To Federal Relief, but There's No Guarantee
(Peoria Public Radio)
Iroquois County, IL: Governor Rauner toured the flooded areas of Illinois and continued on Tuesday with a visit to Watseka, about 100 miles south of Chicago near the Indiana border, in Iroquois County, one of the counties that's just received the disaster designation. Rauner says that does two things. "One, it frees up state resources so we can bring state personnel and equipment and supplies to help the first responders and volunteers everywhere," he said. It's also the initial step in requesting federal disaster relief. "We are going to try to get the federal government to reimburse losses as a result of this flood," Rauner said. But it's no guarantee; the Federal Emergency Management Agency has denied some of Illinois' requests in the past, for example, after tornadoes. Higher damage costs could increase the state's chances. Affected homeowners are asked to submit their financial information to county officials. The new additions are Cass, Cumberland, Iroquois, Lawrence, Marion, Menard, Moultrie, Pike, Richland, Sangamon and Vermilion counties. Last week, Alexander, Calhoun, Christian, Clinton, Douglas, Jackson, Jersey, Madison, Monroe, Morgan, Randolph and St. Clair counties received the designation.

Fort Wayne to receive delayed FEMA money for buying 18 homes in flood-prone area
(News Sentinel)
Fort Wayne, IN: The City of Fort Wayne was scheduled Thursday to receive a check from the U.S. Department of Homeland Security's Federal Emergency Management Agency (FEMA) for $862,946 to buy and demolish 18 homes in flood-prone areas. Receipt of the FEMA award was announced in July. Plans for its distribution had been put on hold early last year by a dispute between FEMA and a Kokomo project to build a baseball stadium that reportedly extended onto flood-prone land. City officials provided additional details about the Fort Wayne project in December during an update to City Council. The city and Maumee River Basin Commission must contribute 25 percent in matching funds — nearly $288,000 — increasing the total funds available to about $1.15 million. The homes the city hopes to purchase are located in various locations throughout the community, but the largest share are near Junk Ditch and Fairfield Ditch in southwest Fort Wayne. None of the 18 homes has been purchased yet, and buyouts would take place only if the homeowners voluntarily agree to sell to the city. After the homes are demolished, the land will be maintained as green space. The project is part of pre-disaster mitigation efforts, which provide grants so state and local governments can take long-term steps to reduce the risk of flood damage, the city's announcement said in July.

Water Sector

Water crisis in Flint, Michigan, draws federal investigation
(CNN)
Flint, MI: High levels of lead have plagued Flint's municipal water supply for at least a year, prompting extensive emergency measures to keep residents safe. Flint returning to Detroit water amid lead concerns. On Tuesday, Michigan Gov. Rick Snyder declared a state of emergency for Genesee County as a result of the water crisis. The U.S. attorney's office for the Eastern District of Michigan is also investigating, office spokeswoman Gina Balaya said Tuesday. Curt Guyette of the American Civil Liberties Union of Michigan called the probe "an important step that needs to be taken in order to get to finding the root causes of the disaster that has occurred in Flint and to hold everyone involved responsible." Flint council OKs funds for return to Detroit water after lead concerns. In November, Flint citizens filed a class-action lawsuit on behalf of victims of high levels of lead against Snyder, the state of Michigan, the city of Flint and other state and city officials. The investigation by the U.S. attorney's office comes more than a year after the city of more than 100,000 people began getting water from the Flint River instead of from Lake Huron via Detroit's water system. The move was announced as a temporary, cost-cutting measure until Flint could get Great Lakes water on its own, according

to the class-action lawsuit. But then came residents' complaints about strangely colored tap water. Studies showed that lead piping elevated lead levels 10 times higher than they had previously measured. A local hospital discovered that the percentage of Flint children with elevated lead levels nearly doubled after the switch. The health effects listed in the class-action suit include: skin lesions, hair loss, high levels of lead in the blood, vision loss, memory loss, depression and anxiety. Keith John Pemberton and his wife, Jacqueline, who are in their late 60s, allege in court documents that they suffered property damage because of the corrosive water, loss of value in their home, skin lesions and "psychological disorders such as depression, chronic anxiety and an inability to cope with normal stress." These conditions, according to the suit, were the result of bathing, washing and normal household activities. The Pembertons' allegations mirror those of Rhonda Kelso, 52, who, along with her 12-year-old daughter, said she suffered skin lesions and psychological problems. Kelso and her daughter have pre-existing disabilities, which they said the lead buildup in their blood compounded. The complaints prompted a host of actions to address what was labeled a public health emergency. The city ordered public schools to stop running water for taps and water fountains, according to WEYI-TV. Government agencies passed out more than 6,000 water filters, said Nick Lyon, director of the Michigan Department of Health and Human Services. The situation could affect the city for years. In a state of emergency declaration, Flint Mayor Karen Weaver indicated that more funding will be needed for special education services because lead "can cause effects to a child's IQ, which will result in learning disabilities." The water from the Flint water plant, according to an October public health emergency declaration from the Genesee County Board of Commissioners, meets all federal standards. But the declaration said that lead in service lines, or solder connections, can leach into individuals' homes because "of the corrosivity of the water since changing to the Flint River as the source supply." The governor's office has said Snyder "requested funding to switch the source back to the Great Lakes Water Authority," to combat the lead leaching, and "appointed an independent task force to identify possible missteps and areas for improvement." The situation got under control after city and state officials announced last fall that Flint would switch back to Detroit's water supply.

Communications/Information Technology Sector

Time Warner Cable says up to 320,000 customers' data may have been stolen
(Reuters)
National: Time Warner Cable Inc said on Wednesday up to 320,000 customers may have had their email passwords stolen. The company said email and password details were likely gathered either through malware downloaded during phishing attacks or indirectly through data breaches of other companies that stored Time Warner Cable's customer information, including email addresses. The company said it has not yet determined how the information was obtained, but there were no indications that Time Warner Cable's systems were breached. Time Warner Cable spokesman said it was recently notified by the Federal Bureau of Investigation that some customers' email addresses including account passwords "may have been compromised." The company said it is sending emails and direct mail correspondence to encourage customers to update their email passwords as a precaution.

Transportation Sector

Inbound Stevenson Expressway Shut Down Near Central Avenue after 5-Vehicle Crash
(NBC Chicago)
Chicago, IL: All lanes on the inbound Stevenson Expressway were shut down near Central Avenue during the evening rush hour Thursday due to a five-vehicle crash, state police said. At least one person was injured in the accident. All lanes had reopened around 5 p.m., but extensive delays were still reported on the roadway.

Law Enforcement & Intelligence Sector

Milwaukee Suspect among Three Arrested In ongoing Terror Sweep
(CBS 58)
Milwaukee, WI: Arrests were made Thursday in Houston, Sacramento and Milwaukee in an ongoing terrorism investigation, according to law enforcement sources. "I can confirm that there were two national security related arrests today, one in Houston and one in Sacramento," Department of Justice spokesman Marc Raimondi told CBS News' Paula Reid. "There is no current threat to public safety associated with these arrests." The Milwaukee division of the FBI confirms that three subjects were arrested in Wisconsin today. Those charges are unrelated to terrorism. The subjects are expected to be in court tomorrow and more information will be released then. The FBI wants everyone to be aware that there is no threat to the public in Wisconsin.

Regional Weather and Impacts

City to Open Warming Centers
(The Journal Gazette)
Fort Wayne, Indiana: The city announced Friday it will open its warming center starting at 8 a.m. Sunday in anticipation of cold weather combined with wind chill and precipitation.
The city-run warming center will be open at the Foellinger-Freimann Botanical Conservatory, 1100 S. Calhoun St., from 8 a.m. to 8 p.m. Sunday. The center will then open at the Community Center, 233 W. Main St., from 8 a.m. to 8 p.m. Monday, Tuesday and Wednesday. The city-run warming center is normally at the Community Center, but it has been moved to the Botanical Conservatory on Sunday because the Community Center was previously reserved for a special event. The Salvation Army, Rescue Mission, United Way, Park Center and Just Neighbors Interfaith Homeless Network work with the city to provide shelter to individuals when weather conditions become health threatening. Sunday night's low is expected to be near 10 degrees, with lows in the teens most of next week.

Frozen Floodwaters Could Threaten Illinois over Weekend
(Fox 32)
Springfield, Illinois: Freezing temperatures could affect the flood recovery process this weekend in Illinois after residents in some parts of the state dealt with more than a week of high waters. The National Weather Service forecasts temperatures in central and southeastern Illinois will drop Saturday night to as low as 11 degrees. On Sunday, temperatures are forecast at lows of 6 to 15 degrees. Frozen water expands and could add more pressure to foundations and basements where flooding occurred. Dave Thompson, marketing director at Woods Basement Systems in Collinsville, advises residents to inspect foundations and basement walls for new cracks. Sangamon County emergency officials said many ditches are still filled with water and the freezing weather could create road hazards. The weather service forecasts 2 to 4 inches of snow across all but the far northwestern and southeastern parts of Illinois on Saturday night. Meanwhile, Illinois Department of Emergency Management spokeswoman Patti Thompson said the agency has asked affected counties to provide it with initial damage assessments by Jan. 18. The agency will review the reports and could ask the Federal Emergency Management Agency to help with a more thorough assessment if it appears the state would meet federal disaster declaration thresholds, she said. After that assessment, Gov. Bruce Rauner could request a major disaster declaration for individual and public-sector assistance if it appears the state meets federal criteria. Rauner has issued state disaster declarations for 23 counties, largely in central and southern Illinois.

Wintertime Floods Among Costliest Ever
(WLTX 19)
Illinois: As floodwaters continue to rise along the lower Mississippi River, it's clear the slow-motion disaster will be among the costliest wintertime flood events in U.S. history. Officials are simply trying to tally the price tag. The National Oceanic and Atmospheric Administration (NOAA) said Thursday that damage from the floods will top $1 billion. That number is likely to climb as the unpredictable and overflowing Mississippi continues its march south. Over the weekend and into next week, floodwaters will continue to rise along the Mississippi River in Arkansas, Mississippi and Louisiana, including the cities of Greenville and Natchez, Miss., and Baton Rouge, according to AccuWeather. Minor-to-moderate flooding is possible south of Baton Rouge to New Orleans this month. That estimate comes from preliminary damage assessment information from federal and local officials and on early insurance claims in affected areas. For example, in and around the St. Louis area, floods have damaged or destroyed an estimated 7,100 structures, according to Missouri Gov. Jay Nixon, and at least a half-million tons of debris will need to be removed. Repairs to roads in St. Louis County will top $200 million. In southwestern Missouri's Greene County, flood damage cost almost $1 million, according to the

Springfield-Greene County Office of Emergency Management. Government officials are calculating damage in Illinois, where Gov. Bruce Rauner issued state disaster declarations for 23 counties, mainly in central and southern parts of the state. Most of the costliest wintertime flood disasters on record occurred in the West. The highest price tags occurred with the California floods in 1995 that cost $5 billion, and the El Niño-driven West Coast floods in 1997 that cost $4 billion, Bowen said.

Environmental/Chemical/HAZMAT Sector

Hazmat Situation Near Secretary Of State Office In Pontiac

(Oakland Press News)

Michigan: The Waterford Regional Fire Department responded to a hazmat situation near the Secretary of State office on Pontiac Road in Pontiac on Saturday morning. Fire Chief John Lyman said people in the building reported having trouble breathing. Lyman said the firefighters could not find any hazmat material in the building and the site was cleared by his crew by 12:30 p.m. About 45 people were evacuated from the building and one person was transported to a local hospital. The person was later released. Lyman confirmed that some odor in the air made several people uncomfortable and caused the evacuation of the building.

Nuclear Reactors, Materials and Waste Sector

Assembly to Vote on Ending Nuclear Power Plant Moratorium

(WSAU-Wheeler News)

Wisconsin: The Wisconsin Assembly is scheduled to vote Tuesday on a bill to end the state's 33-year-old moratorium on building nuclear power plants. The energy panel in the lower house voted 13-to-nothing a month ago in favor of ending the ban. Waupaca Republican Kevin Peterson proposed the new bill, which among other things would end the requirement that new nuclear plants have a federal waste site available. Supporters say nuclear power would create clean energy, and help the state follow a proposed federal rule to reduce carbon emissions -- but opponents say the state should look to wind-and-solar power instead. Wisconsin now has one nuclear plant in operation, Point Beach at Two Rivers.

Transportation Sector

Cairo Bridge, Cave-In-Rock Ferry Reopen

(The Southern Illinoisan)

Illinois: A spokesman for the Kentucky Transportation Cabinet said Friday morning two Ohio River crossings between Illinois and Kentucky are reopen as flood waters have receded. KYTC spokesman Keith Todd said early Friday the U.S. 51 Ohio River "Cairo" Bridge between Kentucky and Illinois was expected to open to traffic around 7 a.m. A check Friday morning found water had dropped enough for traffic to resume. The river crossing had been closed since Dec. 31 where floodwaters covered the bridge approach levee at the Kentucky end of the span. KYTC engineers inspected the levee and found no shoulder and erosion issues like those that plagued the area after the 2011 flood. The transportation cabinet urged motorists to use caution along the bridge approach levee because of floodwaters that continue to be near the edge of the roadway. U.S. 51 remains closed south of Wickliffe, Kentucky, near the Ballard-Carlisle County Line. It may be a few more days before that site can reopen. The Cave-In-Rock Ferry also reopened at 6 a.m. Friday, and resumed its regular schedule. The ferry had been closed since Dec. 31, when floodwaters covered Kentucky 91 at the 10.5 mile point near the Kentucky landing. The ferry connects Illinois 1 with Kentucky 91 across the Ohio River between Hardin County, Illinois, and Crittenden County, Kentucky.

Water Sector

FEMA Sends Officials to Help With Flint Water Crisis

(Detroit Free Press)

Michigan: The federal government's disaster relief agency has sent three officials to assist Michigan with the Flint drinking water crisis at the state's request, but Gov. Rick Snyder has not yet requested federal financial aid in connection with the ongoing public health emergency, a Michigan State Police spokeswoman said Saturday. Rafael Lemaitre, director of public affairs for the Federal Emergency Management Agency in Washington, D.C., said on Twitter on Friday that FEMA has deployed two liaison officers to the Michigan Emergency Operations Center to provide technical assistance. A third FEMA liaison officer arrived Saturday, a state police official said. Capt. Chris Kelenske, deputy director of emergency management and homeland security for the state police, asked FEMA on Wednesday to send the officials "to provide support if we have any questions" about the emergency response process, MSP spokeswoman Nicole Lisabeth told the Free Press on Saturday. But no federal financial aid has been requested by the state because local officials are still conducting assessments and "no requests have been specifically made from local officials that needs have not been met,"

Lisabeth said. Snyder, who declared a state of emergency in Flint and Genesee County on Tuesday, is facing criticism both for not declaring an emergency sooner and for not requesting federal financial help through FEMA. Snyder spokesman Dave Murray said Tuesday that under the law, Snyder could not declare a state of emergency until Genesee County did so. That happened Monday, one day before Snyder acted. Flint's drinking water became contaminated with lead in 2014 after its supply source was switched from Lake Huron water provided by what was then the Detroit Water and Sewerage Department to the more polluted and corrosive Flint River, while the city was under the control of a state-appointed emergency manager.

Protesters Call for Michigan Governor's Firing Over Water Crisis
(Fox 11)
Flint, Michigan: A group of protesters have called for the firing of Michigan Gov. Rick Snyder over a deepening crisis over contaminated water. Dozens of people gathered in front of the water department Friday armed with signs calling for Snyder to step down. The governor issued a state of emergency earlier this week as the crisis over lead contamination has continued. For months, residents had complained of discolored water in their supply and tests showed the corrosive impact the water had on pipes. After a Flint doctor discovered higher lead levels in patients than normal, an investigation ensued to determine the cause. As the governor and mayor of Flint try to figure out how to deal with the crisis, protesters continued to call for Snyder's dismissal over the handling of the water crisis.

Administration Plans Shake-Up In Propaganda War Against ISIS
(Washington Post)
National: The U.S. is overhauling its efforts to combat the online propaganda of the Islamic State (ISIL) and other terrorist groups, the White House announced on Friday. Officials will create a counterterrorism task force, which will be based at the Department of Homeland Security but aims to enlist dozens of federal and local agencies. Other moves include revamping a State Department program that was created to serve as an information war room to challenge ISIL online and erode its appeal. U.S. officials said the unit at the State Department will turn its focus toward helping allies craft more localized anti-terrorism messages and will stop producing any videos or other material in English. The centerpiece of the administration's revised plan is the new task force at the Department of Homeland Security that officials said would coordinate the government's domestic counter-radicalization efforts and serve as a conduit for ideas, grants and other resources to community groups across the country. U.S. officials said that the new unit will be made up of representatives from at least 11 departments or agencies and that its mission will involve using data to find better ways to combat radicalization, as well as funding and supporting intervention efforts.

Public Health and Healthcare Sector

Community Response Helps Contain Mumps Outbreak
(Pantagraph)
Illinois: The countywide mumps outbreak — which prompted increased vigilance by hundreds of McLean County residents throughout the fall — could have been worse if people hadn't responded appropriately. "We identified it (mumps), we contained it, we educated the community and the community responded," said Melissa Graven, McLean County Health Department communicable disease supervisor. "It was a (public health) victory on all fronts." The outbreak ended Dec. 13, Graven reported last week. Dec. 13 was 50 days after the last confirmed mumps case was identified, she said. "The outbreak closed after 50 days because that's two incubation cycles," she explained. People can get mumps within 25 days of being exposed to the contagious viral infection. "If there are any mumps cases after 50 days, they are not a part of the original outbreak," she said. It was a quiet end to an outbreak that began in September and quickly affected students at Heartland Community College, Illinois State University and University, Normal West, Bloomington and Normal Community high schools. In the end, 38 people had confirmed cases of the contagious viral illness and 33 had probable cases, Graven said. A probable case means that the person had mumps symptoms but mumps was not confirmed by a lab test. Mumps was a concern because McLean County hadn't had an outbreak since 2006.

Emergency Management/Preparedness Sector

Governor Hopes National Guard May Not Be Needed
(Illinois News Network)
Illinois: About 20 Illinois National Guard soldiers are in place in parts of southern Illinois responding to areas hit hard by floods, but the governor hopes they won't be needed. Governor Bruce Rauner ordered the soldiers to the Marion

Readiness Center New Year's Day to help local officials' secure flooded areas, conduct health and welfare checks, and mitigate flood damage. On a tour of several areas hit by floods Sunday the governor said people have been asked to evacuate, especially where the Mississippi River continues to cause significant problems — but some people don't want to leave their homes. "We have had the National Guard on standby. I hope we don't need them, at this point it doesn't look like we will, in case we have to extract people and do some rescues. Right now it doesn't look like we have to do that but again we're asking people to honor requests for evacuation, that's critically important." The governor's office says the soldiers will have a Blackhawk helicopter with hoisting capabilities that could be used for evacuation efforts, if needed. The governor gave kudos to the state's prison system for assisting in other efforts. Meanwhile the governor toured flooded areas in Alton, Pontoon Beach, and Evansville New Year's Day and areas of central Illinois, including hard hit Christian County, Sunday. A dozen counties in southern Illinois have been added to the state's disaster declaration.

Communications/Information Technology Sector

Minnesota Courts Website Target of DDOS Attacks

(WCCO)

Minnesota: A week after the Minnesota courts website was completely shut down for 10 days in December, we're finally finding out why. The Minnesota Judicial Branch says its website was the target of two distributed-denial-of-service (DDOS) attacks. In a DDOS attack, a website or server is overwhelmed with network traffic until it can no longer function for legitimate users. The MJB says the attacks in December left their site unusable to members of the public for several hours, and was eventually completely shut down from Dec. 21 to 31 in order to install additional safeguards. Officials say no personal data was breached as a result of the attack — DDOS attacks are typically used to sabotage a website or server, rather than steal information. Authorities say initial forensics show the attacks were primarily launched from servers in Asia and Canada, and international authorities are investigating.

How Drones Are Adapting To New U.S. Rules

(Daily Herald)

National: One of the most important players in the booming drone industry isn't a hardware manufacturer; it's the Federal Aviation Administration. So attendees at the Consumer Electronics Show on Wednesday flocked to hear a policy update from the FAA, which has begun to regulate drone use more aggressively. In the two weeks or so since the agency started requiring hobbyists to register drones larger than 0.55 pounds, 181,061 drones have been registered as of Wednesday morning, said FAA Administrator Michael Huerta. The FAA is working to support third-party apps that would allow people to scan a code located on a drone to register it immediately, said Huerta, who's attending CES for the first time. The FAA previously said as many as a million consumer drones would be sold during the holiday season. Starting on Dec. 21, hobbyists who bought drones had to register on the FAA's website. Those who already owned the devices have until Feb. 19 to register. The FAA expects to finalize rules for commercial drones this spring, Huerta said. For the second consecutive year, a special corner of the exhibit hall was set aside for the flying robots, with 27 companies showing off unmanned aerial systems designed for police officers, real estate agents, and disaster relief professionals. To alleviate fears about people spying on areas they shouldn't be or putting planes at risk, the FAA maintains a list of do-not-fly zones for drones. The FAA said on Wednesday it released an app for Apple devices, along with a beta version for Android, called B4UFLY,

REGIONAL WEATHER & IMPACTS

Frigid forecast for Tuesday night, Wednesday morning
(WTHR)
Indianapolis, IN: Central Indiana picked up another one to three inches of snow and gusty winds are blowing and drifting that snow. Travel will be tough through Tuesday evening. Winds will diminish overnight, with clearing skies. This is a recipe for a frigid start to Wednesday. Wednesday morning temperatures will be in the single digits, with wind chills near -10 degrees. Take precautions from the cold and remember your family, friends and pets. There will be some morning sunshine on Wednesday, with afternoon clouds in the forecast. A weak weather system will move across the northern half of the state and a few snow showers are possible north Wednesday afternoon and evening. Highs on Wednesday will be near 20 degrees. The temperature forecast is tricky over the next several days. Our latest analysis hints at milder air moving our way. We will forecast temperatures to go above freezing on Thursday and Friday. Temperatures will be the key to the precipitation forecast too, as another storm system arrives on Friday. Here is our thinking now. There will be some rain and maybe a wintry mix developing on Friday. This will change to rain before changing to snow later Friday into Saturday. This is a complex storm system and we will keep you updated. It will be cold enough for some snow showers on Saturday and Sunday.

Whiteout conditions cause crashes, close freeway near Holland
(MLive)
Holland, MI: The I-196 freeway in the Holland area is closed in both directions because of multiple crashes in what police described as whiteout conditions. Michigan Department of Transportation officials at about 3 p.m. closed the westbound lanes between Adams Street and M-40. Holland police said they expected the westbound lanes to be closed until at least 4:45 p.m. At about 2:30 p.m., the eastbound lanes at Byron Road were closed due to at least one crash. The extent of any injuries is not known. Heavy lake-effect snow is hitting the lakeshore area.

15 vehicles involved in pile-up crash on I-70 in eastern Indiana
(WTHR)
Richmond, IN: A chain-reaction crash on I-70 near Richmond shut down the interstate Tuesday morning and into the afternoon. It happened around 10:20 a.m. when traffic in the westbound lanes came to a crashing halt after blowing snow created white-out conditions. Marty Watral, a truck driver, said, "I couldn't see anything. We were slowed down to 35 miles an hour and you just couldn't see anything." Within seconds, there was a massive pile-up involving ten semi-trailers and five vehicles. Sgt. John Bowling with the Indiana State Police explained what triggered the crash, which occurred around 11:00 am. "What we know is that a semi was driving too fast for conditions. As he came across the overpass, he lost control and jackknifed across the highway," said Sgt. Bowling. Bowling said it set off the chain reaction, collision leaving three people hurt. While all were transported to a Richmond hospital, he said the worst injury was a broken leg. Sgt. Bowling said the call initially came in as 30 vehicles involved, but that was not accurate. While scores of vehicles were parked in the westbound lanes, approaching traffic was diverted to adjacent roads. I-70 eastbound also slowed to crawl as drivers paused to see the pile-up. Those stuck in it could do nothing but wait for the wreckage to be cleared, something that was expected to take several hours.

LAW ENFORCEMENT & CYBERSECURITY

Capital University says it's safe to return to student union after bomb threat
(The Columbus Dispatch)
Columbus, OH: Capital University says there is no danger at the Harry C. Moores Student Union, which was the subject of a bomb threat this afternoon. "All clear per Capital PD," read a tweet from the university at 3:44. The threat was called in to university police about 2:15 p.m., said Nichole Johnson, university spokeswoman. No other buildings were evacuated. Classes are in session at Capital but classrooms are on the north side of the Bexley campus, far enough away from the student union to be considered safe, she said. Several law-enforcement agencies responded and the student union was being searched, Johnson said.

EMERGENCY MANAGEMENT

Students return to southern Illinois school closed for week due to flooding
(Associated Press)
Wolf Lake, IL: Students are back in class at a southern Illinois high school after it was closed for a week due to flooding, taking time to discuss the effect of flooding on their families. Although waters have started to subside, Illinois in recent weeks saw flooding along rivers including the Mississippi, Sangamon and Illinois. Illinois Gov. Bruce Rauner issued state disaster declarations for 23 counties, largely in central and southern Illinois. Damage assessments are ongoing to see if any areas are eligible for federal assistance. Students returned to Shawnee High School Monday for the first time since flooding closed the Wolf Lake School, The (Carbondale) Southern Illinoisan reported. The school district runs along the Mississippi River, and most students live on flood plain. Eight of 10 students in teacher Jamie Nash-Mayberry's social studies class said they evacuated their homes, and about half said they helped pass sandbags to shore up levees. She asked her students to write down and document their experiences for historical record. Junior Abbey Livesay of Wolf Lake wrote about how she packed up her home that she has lived in since birth, and then drove to Grand Tower to help friends do the same. Junior Wyatt Hassebrock described how he split time between packing up his home and pulling 12-hour shifts at a farm, where thousands of bushels were being taken to higher ground. "It's a lot of stress to wonder, in three days, how do you haul 200,000 bushels?" Hassebrock said. "Well, when everybody pulls together, it can happen. And it did." Nash-Mayberry is behind the school's Levee Project that teaches students about the importance of levees. They write to local, state and federal officials, research fixes and raise money for local levee districts. Students told her that those lessons resonated as waters rose and said they felt anxious about their homes and school. With waters receding, students' fears have waned for now.

Door-to-door effort underway in Flint water crisis
(Associated Press)
Flint, MI: Volunteers and police carrying bottled water, filters and lead test kits knocked on doors in Flint on Tuesday, seeking to help residents in the Michigan city that's confronting a water crisis. State troopers and sheriff's deputies escorted eight teams as they trudged through cold temperatures and 3 inches of snow, with more falling. Flyers were left at homes where no one answered, giving the location of where to pick up the items later. "We plan to go every day this week and we'll continue until everyone has safe drinking water," state police Lt. Dave Kaiser said. They hope to get to 500 to 600 houses a day, Genesee County sheriff's Capt. Casey Tafoya said. Flint has about 99,000 residents in an estimated 30,000 households. The water resource teams are among a number of relief efforts started in the wake of Republican Gov. Rick Snyder declaring an emergency last week. For months, water drawn from the Flint River leached lead from old plumbing into homes after the city switched its drinking water in 2014 from Detroit's system to save money. Testing in October detected increased lead levels in residential water supplies and in children's blood. Exposure to lead can cause behavior problems and learning disabilities in children. Flint has since returned to Detroit's system for its water. The state auditor general and a task force created by Snyder have faulted the Department of Environmental Quality for not requiring Flint to treat the river water for corrosion and belittling the public's fears. The agency's director stepped down last month.

Snyder activates National Guard to distribute bottled water and filters in Flint
(WXYZ)
Flint, MI: Michigan Gov. Rick Snyder late Tuesday activated the National Guard to help distribute bottled water and filters in Flint as it deals with a drinking water crisis. Snyder's executive order issued late Tuesday is intended to bolster outreach to Flint residents, where volunteers and police have been going door to door with bottled water, filters and lead

test kits. Snyder said Monday the water situation is a "crisis" and last week declared an emergency. For months, water drawn from the Flint River leached lead from old plumbing into homes after the city switched its drinking water in 2014 from Detroit's system to save money. Testing in October detected increased lead levels in residential water supplies and in children's blood. Exposure to lead can cause behavior problems and learning disabilities in children. Flint, which has about 99,000 residents in an estimated 30,000 households, has since returned to Detroit's system for its water. The state auditor general and a task force created by Snyder have faulted the Department of Environmental Quality for not requiring Flint to treat the river water for corrosion and belittling the public's fears. The agency's director stepped down last month.

REGIONAL WEATHER & IMPACTS

Minnesotans are getting a dose of old-fashioned cold weather
(Associated Press)
Minneapolis, MN: Minnesotans are getting a dose of old-fashioned cold weather. Thanks to El Nino, the winter was off to a relatively mild start. But the National Weather Service says Minnesota is in for dangerously frigid weather this weekend. Statewide, wind chills will drop to 35 to 45 degrees below zero Saturday night. Highs Saturday were in the single digits above zero in southern Minnesota and ranged from zero to 10 below in the north. A huge blob of arctic cold is crossing the Northern Plains and the Great Lakes as it moves eastward. The cold weather is not expected to lift until Tuesday night. But much milder weather is expected later in the week.

Saturday night, Sunday to see frigid temps
(Journal Sentinel)
Milwaukee, WI: Bitter cold, the coldest so far this winter, will power its way across southern Wisconsin, combining with a brisk winds to produce dangerous wind chills, the National Weather Service warned Saturday. Lows Saturday night will dip below the zero mark, with highs Sunday struggling and failing in some parts of inland southern Wisconsin to make it into the single digits. The record low maximum temperature for Madison — minus-2 degrees set in 1870 — could be broken, the weather service said. Frigid temperatures along with westerly winds will produce wind chills of 20 to 25 below zero late Saturday and Sunday, and 25 to 30 below Sunday night and early Monday.

Light snow Sunday, dangerously cold Monday
(WTHR)
Indianapolis, IN: Temperatures have been holding near steady today, in the low 30s. A few flurries are still possible Saturday evening. Temperatures will start to fall quickly Saturday night as Arctic air starts to spill into Central Indiana. Temperatures will fall into the mid- to upper teens by Sunday morning. An Arctic front will arrive on Sunday morning, bringing a few scattered snow showers. Snow will start in northwest Indiana around 5am. As the front slides, snow chances will move from northwest to southeast. A few tenths of an inch of snow is possible by late afternoon. Temperatures will fall throughout the day, eventually falling into the low teens by late afternoon. The skies will clear out Sunday night, and an even stronger blast of cold air will arrive. It will be breezy too. The air temperature will fall to near zero with wind chill values running 10 to 20 below zero. Temperatures only rebound to 10 above Monday afternoon. Monday and Tuesday will bring dry and bitter cold conditions. There is a chance of accumulating snow on Wednesday. Temperatures moderate to near normal by the end of the week.

Wind Chill Advisory to go into Effect Sunday, Temperatures Below Zero
(NBC Chicago)
Chicago, IL: Cold air is coming and dangerous wind chills are in the forecast, with a Wind Chill Advisory in effect for Winnebago, Boone, McHenry, Lake, Ogle, Lee, DeKalb, and Kane counties beginning at midnight Saturday night until 11 a.m. Sunday morning, according to the National Weather Service. Temperatures area-wide will drop to single digits by 8 p.m. Saturday, likely hitting 6 degrees at O'Hare and 9 degrees at Midway, with the coldest areas in the western and northern suburbs (4 degrees throughout DuPage and 0 degrees in Rockford). Overnight hours will see even more of a chill, with temperatures area wide below zero by 7 a.m. Sunday (-9 degrees at O'Hare and -6 at Midway, -12 in DuPage

and -16 in Rockford). Slight flurries are possible as well. Sunday brings partly cloudy skies and a breeze, but highs will remain in the single digits and wind chill values below zero. Sunday evening is expected to bring the coldest air yet,with temperatures reaching -2 degrees, but with wind chill, the air could feel like it's 25 degrees below zero on Martin Luther King, Jr. Day. The NWS warns that temperatures this cold can cause frostbite in as little as 30 minutes, and if you must go outdoors, take proper precautions, wearing layers as well as a hat and gloves.

Part of Michigan will again be buried under a foot of snow
(MLive)
Michigan: Another long duration lake effect snow event is going to bury parts of Michigan. Over the next 48 hours, quite a large chunk of Michigan snow belts will have over a foot of snow. This lake effect situation looks very similar to last Monday, Tuesday and Wednesday. Lake effect snow will be increasing in areal coverage Sunday. The snow will also become heavier through the day Sunday. Then the lake effect will be like the energizer bunny. It will just keep going and going. The lake effect snow may not taper off until during the day Tuesday. The map above shows the combined snow forecast from the National Weather Service offices in Michigan. The map shows expected snow through Monday night. Three large areas of foot plus snows should occur in our state. The Keweenaw Peninsula and far western U.P. will be one area hit with 12 or more inches of snow. Also the northern half of the eastern U.P. should get at least a foot of new snow. The red shaded area east of Marquette looks to have 18 to 24 inches of snow. Another large area of 12 inch or more of snow will likely fall in northwest Lower Michigan. The Traverse City area, Kalkaska, Mancelona, Gaylord, Charlevoix and Petoskey will have areas that get a foot of snow by Monday night. Not everywhere in the snow belts will get over a foot of snow, but most areas will get at least 8 inches of new snow. The snow is all lake effect. Without extremely strong winds, the snow amounts will taper off rapidly outside the snow belts.

PUBLIC HEALTH & SAFETY

9 more Indiana turkey farms infected with bird flu
(WTHR)
Huntingburg, IN: Birds from nine more commercial turkey farms in Indiana have tested positive for bird flu. The nine are located near a farm that authorities previously announced had been infected. The Indiana State Board of Animal Health says testing is underway to determine the strain of the highly-contagious virus. Authorities confirmed Friday that a commercial flock in Dubois County Indiana was infected with the H7N8 strain, which is different than the H5N2 virus that led to the deaths of about 48 million turkeys and chickens last summer. Denise Derrer, spokeswoman for the Indiana board, said officials are still trying to determine how many birds are affected on the nine farms covered by the announcement Saturday. All 60,000 turkeys on the first farm have been euthanized.

Additional Reporting: Bird Flu Forces Indiana Farm to Euthanize 60,000 Turkeys

EMERGENCY MANAGEMENT

Obama signs emergency order over Flint water
(WTHR)
Detroit, MI: President Barack Obama signed an emergency declaration Saturday that clears the way for federal aid for Flint, Michigan, which is undergoing a drinking water crisis. The White House also said the Federal Emergency Management Agency will coordinate all disaster relief efforts to "alleviate the hardship and suffering" on residents. FEMA has been authorized to provide water, filters, cartridges and other items for 90 days. Flint can get up to $5 million in direct funding, though the state must match 25 percent and more money can come through an act of Congress. Republican Gov. Rick Snyder requested emergency and disaster declarations late Thursday, saying needs "far exceed the state's capability," and added that emergency measures could cost $41 million. Snyder said Saturday that Obama denied the disaster declaration request based on the legal requirement that such relief is intended for natural events, fires, floods or explosions. Despite the legal limitation, the governor is considering an appeal to exhaust "every opportunity to provide resources" for residents, Snyder spokesman Dave Murray said. The tap water in Flint, population 99,000, became contaminated after the city switched from the Detroit water system to the Flint River while a pipeline to Lake Huron is under construction. The corrosive water lacked adequate treatment and caused lead to leach from old pipes in homes and schools. Flint returned to the Detroit system in October after elevated lead levels were discovered in children, and could tap into the new pipeline by summer. But officials remain concerned that old pipes could continue to leach lead, to which exposure can cause behavior problems and learning disabilities in children as well as kidney ailments in adults. The

National Guard has been distributing free water, filters and other supplies, and FEMA workers already were providing logistical and technical support.

National Guard to double numbers at water resource sites in Flint
(MLive)
Flint, MI: The National Guard is doubling its efforts on the ground in Flint at five water resource sites around the city to distribute water, filters and other items to residents. Army National Guard Major General Gregory Vadnais said during a press briefing Saturday, Jan. 16 at Flint Fire Station No. 5 on Western Avenue the boots on the ground would double to 70 soldiers. Residents move in and out of the fire station during the afternoon, picking up bottles and cans of water from the fire station. "We will be here as long as the city of Flint needs us," said Vadnais, later noting he expected a long-term operation and rotating soldiers in the city. National Guard members were activated earlier this week to help at the resource sites that opened following a state of emergency declaration Jan. 5 by Gov. Rick Snyder. President Barack Obama sign an emergency declaration Jan. 16 that opens the door for federal aid and assistance to come into the Flint area.

Red Cross, State Expanding Response Teams In Flint
(WSYM)
Flint, MI: As flint's water crisis grows the American Red Cross is expanding its effort to make sure families have access to clean water. Starting Saturday, 20 more response teams will be going door-to-door, giving families water testing kits, filters with replacements, and bottled water. The volunteer teams will include nearly 250 state employees and their families, who will be working in the city through Monday. Since Tuesday Resource Teams have helped more than 7,500 homes in Flint. The state has supplied almost 20,000 cases of water in the city and says it has more than double that amount still available. Water resource centers are set up at fire stations across the city and are staying open for any residents who are running low on supplies. The Governor has declared a state disaster and is hoping to get federal aid. He says it will cost "tens of millions of dollars" to provide safe drinking water, as well as filters and testing kits.

EMERGENCY MANAGEMENT

Effort to collect bottled water for Flint gets help from Detroit businesses
(MLive)
Flint, MI: Schools and religious groups in Metro Detroit have been collecting bottled water for shipment to Flint residents, who are facing a crisis of contaminated tap water, and a pair of influential figures joined the effort on Martin Luther King Day. Wayne County Register of Deeds Bernard Youngblood on Monday announced a call a collection drive at his office. "Over 80,000 people visit the registers office each year, and over of 500 individuals on peak days," Youngblood said. "If each person would bring in one bottle of water, collectively that adds up to a significant help." And by Monday afternoon, he got a call from Maria Gatzaros owner of Detroit-area restaurants Fishbones and the London Chop House, offering broader reach for the collection effort. Youngblood said bottled water donations will be accepted at Fishbones locations in Southfield, St. Clair Shores and in Detroit's Greektown. Another company owned by Gatzaros, LED lighting manufacturer America's Green Line, will be transporting the donated water to Flint, Youngblood said.

National Guard boosts presence in Flint to aid water crisis
(Associated Press)
Flint, MI: The National Guard is boosting its presence in Flint as part of an effort to assist in dealing with the city's drinking water crisis. The state says about 70 guard members will be stationed today in Flint, more than double the earlier number in place. Officials say teams visited nearly 5,000 Flint homes Sunday, providing free bottled water, filters, replacement cartridges and water testing kits. To improve water testing, the state says residents may drop off samples using official kits at five sites. The water became contaminated after Flint switched from the Detroit water system to the Flint River as a cost-cutting move. The corrosive water lacked adequate treatment and caused lead to leach from old pipes. On Saturday, President Obama signed an emergency declaration.

State Responds To Avian Flu In Dubois County
(WBIW)
Dubois Co, IN: United States Department of Agriculture's (USDA) Animal and Plant Health Inspection Service (APHIS) has confirmed the pathogenicity of eight of the nine H7N8 avian influenza detections announced on January 16. Eight flocks have been confirmed as low pathogenic avian influenza, with additional testing ongoing for the ninth. There were no new positive tests overnight, but aggressive testing continues inside the 10-km control area. In the last 24 hours, commercial farms have yielded an additional 100 negative tests for avian influenza. State and federal teams have visited 503 residences in the control area to identify any small flocks for testing. Tests are pending on 17 small flocks. Confirmed cases of Avian Flu have been found in Dubois County. State, local and federal agencies are working together on containment and depopulation operations. An estimated 119,500 birds have been humanely euthanized on four premises, with another six premises containing approximately 121,400 birds currently underway. The control area is primarily in Dubois County, and has expanded to include parts of Crawford, Daviess, Martin and Orange counties. All infected sites are in Dubois County. A Unified Incident Command Post (UCP) has been established in Jasper, Indiana. The post is staffed by a state Incident Management Team, along with federal and local partners. State Agencies supporting activities in the UCP: The State Board of Animal Health, Indiana State Department of Agriculture, Indiana Department of Homeland Security, Indiana Department of Natural Resources, Indiana State Department of Health, Indiana Department of Environmental Management, Indiana Department of Correction, Indiana State Police and mental health services teams

from the Family and Social Services Administration. The United States Department of Agriculture has approximately 50 representatives, along with private contractors, in Dubois County assisting with state and local efforts. A National Incident Management Team will be arriving in Indiana this weekend to help coordinate efforts.

U.S. deploys newly minted bird flu plan to protect humans, poultry
(*Reuters*)
Chicago, IL: U.S. farm and health officials are racing to assess the threat that a type of bird flu never before seen in the country poses to humans and poultry, employing emergency plans drawn up in the wake of a devastating outbreak in birds last year. The federal government sprang into action on Friday after confirmation overnight that the virus had hit an Indiana turkey farm, alerting other states to the danger and putting workers who might have been exposed to the virus under surveillance. Last year's outbreak led to the deaths of more than 48 million chickens and turkeys, either killed by the virus or culled to contain it. Even if the response is fast, the government's ability to contain the disease is far from certain. Officials have never dealt with this strain before, and wild birds are thought to spread the disease to farms through feces dropped from the air, making infections difficult to prevent. U.S. officials have taken to heart lessons from last year's outbreak, when USDA workers could not always kill infected flocks fast enough to contain the virus. Workers are now trying to cull sick flocks within 24 hours of diagnoses, following a goal the agency set in the autumn. Most turkeys at the infected farm were killed within a day, but it was 29 hours before all were dead, said Denise Derrer, spokeswoman for the Indiana State Board of Animal Health. No human infections associated with the new strain have ever been reported, according to the USDA.

REGIONAL WEATHER & IMPACTS

Frigid temperatures, winter weather spread across the country
(WTHR)
Chicago, IL: El Nino may have slowed the start of winter, but this week it is in full-force from the Midwest through the East Coast. Snow, ice and extreme cold have arrived for many, and on the way for many more. Plows struggled to keep the pace as snow and ice turned the morning drive into a demolition derby in Syracuse, New York, with more than three dozen accidents. It was a tough go in New England as well. Near white-out conditions led to accidents and some anxious moments behind the wheel in Connecticut. "It makes it dangerous, the roads slippery, just a hot mess, you're eyes get all watery," said Eryn Ifill of New Haven. Even walking was tough in places like Chicago, where sub-zero temperatures forced commuters to bundle up. Forecasters say conditions will get even worse by the end of the week.

Weather conditions were perfect for a deadly pileup
(MLive)
Hartford, MI: A deadly pileup occurred Sunday afternoon, January 17, 2016. The weather conditions were perfect for creating dangerous driving conditions. Lake effect snow was widespread in the western half of Lower Michigan Sunday, January 17, 2016. The drivers in the pileup area on I-94 around Hartford likely encountered rapidly deteriorating weather conditions. In fact, traffic coming from the west probably hadn't encountered much snow at all as they drove around the south end of Lake Michigan. As they drove into the stretch from St. Joseph, MI to Kalamazoo, MI, they started driving into lake effect snow bands. At some point in that stretch, possibly near the pileup at Hartford, the lake effect snow rapidly became heavy. Look at the high resolution satellite. It shows only scattered clouds at the south end of Lake Michigan. Just northeast, in Michigan, you can see the brighter, bumpier heavy lake effect bands. At the time of the crash there were spurts of moderate to heavy snow in that area, along with west winds gusting to 23 mph. Combine these two weather conditions with the nature of the snow, powdery and dry, and you have perfect conditions for whiteouts, or brief whiteouts created by vehicles. The west wind was a dangerous wind. This wind didn't produce lake effect in Indiana, like a northwest wind would. If drivers had encountered lake effect in northern Indiana, they likely would have been slowed down as they hit the dangerous stretch of I-94 in Van Buren County. Sunday's crashes occurred about 50 miles west of the site of a 193-car pileup in eastern Kalamazoo County during a winter storm Jan. 9, 2015. This stretch of I-94 has also been found to be the most dangerous stretch of I-94 in Michigan.

Additional Reporting: *Pileup shuts down part of I-75*

Snow, subzero wind chills continue to hit Muskegon; advisory remains
(MLive)
Muskegon, MI: The combination of lake-effect snow and subzero wind-chill temperatures is making for another blustery day in the Muskegon area. The area remains under a winter weather advisory through 7 a.m. Tuesday and a hazardous

weather outlook featuring slippery road conditions and reduced visibility. Based on information from the National Weather Service, about 7 inches of snowfall has been recorded since Saturday morning. For the month of January, that increases the Muskegon County snowfall total to nearly 28 inches, well above the normal total for January on this date of 16.2 inches. Nearly 30 inches fell in Muskegon County by this date in January 2015. Lake-effect snow showers are expected to create hazardous travel conditions for much of West Michigan for the rest of the day and tonight, according to the National Weather Service. An additional 2 to 5 inches of snow is in the forecast for today and Tuesday morning. For today and tonight, wind-chill values are expected to range from zero to 10-below. According to the weather advisory, snowflakes will continue to be relatively small, making blowing and drifting snow possible with 25 mph wind gusts.

Forecast: Wind chill advisory expires, moderately warmer weather on the way
(Chicago Tribune)
Chicago, IL: A wind chill advisory expired at noon Monday following dangerously cold weather in the Chicago area and northwest Indiana, but a break is coming. National Weather Service meterologist David Beachler said moderately warmer weather is on the way. "Tuesday, temperatures will be in the high teens and in the mid- to upper 20s on Wednesday," Beachler said. There is also the possibility of a dusting to an inch of snow Wednesday morning. The National Weather Service issued a wind chill advisory for Chicago stating that 20- to 25-below-zero wind chills were expected from 9 p.m. Sunday to noon Monday. Some suburbs near the city were expecting 30-below-zero wind chills. The coldest conditions were expected around daybreak Monday. Officials warn that exposing unprotected skin to those types of wind chills can cause frostbite in as little as 30 minutes.

The temperature has crawled above zero degrees at Minneapolis-St
(Associated Press)
Minneapolis, MN: The temperature has crawled above zero degrees at Minneapolis-St. Paul International Airport. The National Weather Service says the airport hit the zero mark around 2 p.m. on Monday, ending around 46 consecutive hours of subzero temperatures since 4 p.m. Saturday. It was still 1 above at 4 p.m. But the wind chills remain bitterly cold with minus-17 at the airport and in the teens below across much of Minnesota. Subzero wind chills are expected to linger into the night. Some schools that weren't closed for Martin Luther King Day canceled or delayed the start of classes because of the bitter cold. Forecasters expect temperatures to return to the 20s on Wednesday and say they could hit 30 on Saturday.

LAW ENFORCEMENT & CYBERSECURITY

Super Bowl Security: Federal Officials Mull Whether Attack on Fiber Optic Systems Connected to 'Plot' Against Super Bowl
(NBC News)
National: As Super Bowl 50 approaches, government security officials are examining whether recent attacks on fiber optic systems in California could be connected to a "more complex plot" against the game. A series of unsolved incidents -- in which fiber optic cables in the Bay Area were deliberately severed -- is one of several risks detailed in an internal memo shared by the FBI and U.S. Department of Homeland Security intelligence analysts in the lead-up to Super Bowl 50 on Feb. 7. The memo, obtained by the News4 I-Team, says "the FBI and DHS have no information to indicate any specific, credible threats to or associated with Super Bowl 50 or related events." But it also details the attacks against the fiber optic systems, the threat of drones against the game and potential game-day attacks in crowded spaces just outside Levi's Stadium in Santa Clara, the host site of Super Bowl 50. The memo acknowledges lone wolf attackers "are of particular concern" to the game due to their ability to remain undetected before attacking. The severed fiber optic cables "raise] the concern individuals may be using these incidents to test and prod network durability in conjunction with a more complex plot," the memo said. Separate FBI records reviewed by the I-Team show at least 10 fiber optics cables were deliberately severed between July 2014 and June 2015, and Michele Ernst, a spokeswoman for the FBI's San Francisco field office, said there have been 15 attacks against fiber optic lines in the region since 2014. Most of the incidents occurred in San Jose, Fremont and Walnut Creek, California. Though San Jose is within five miles of Levi's Stadium, the other incidents occurred more than 20 to 40 miles away. A U.S. Department of Homeland Security spokesman characterized the memo and its findings as an "assessment" of threats and risk. He would not comment on the specific implications of the fiber optic attacks. However, homeland security analysts caution against overreacting to such assessments.

PUIBLIC HEALTH & SAFETY

Frigid air slows efforts to euthanize turkeys in Indiana
(Associated Press)
Indianapolis, IN: Frigid temperatures are hampering efforts to euthanize turkeys at several southwestern Indiana farms where a strain of bird flu was found last week, freezing the hoses used to spread a foam that suffocates the affected flocks, a spokesman for a state agency said today. The H7N8 virus was discovered on 10 turkey farms in Dubois County, which is Indiana's top poultry-producing county, last week. Temperatures that dipped into the teens and single digits over the weekend stymied efforts to fill the affected poultry barns with the foam to a level just above the turkeys' heads to suffocate them, said Denise Derrer of the Indiana State Board of Animal Health. "The water's been freezing up. It's slowing things down, but we're doing the best we can," she said. Derrer said state workers, staff from the U.S. Department of Agriculture and others have been using carbon dioxide gas instead of the foam. Other turkeys are being killed manually with a device that delivers a fatal head injury, but that method is slow and inefficient, she said. As of today, nearly 120,000 turkeys had been killed on four of the farms, while efforts to euthanize about 121,000 turkeys continued on six other farms. The H7N8 strain is different than the H5N2 virus that led to the deaths of 48 million birds last summer, mostly in the upper Midwest. The first farm where H7N8 was found had a highly contagious form of the virus, Derrer said, but tests by USDA staff have shown eight of the other nine turkey farms have a "low pathogenic" form, meaning the birds are more likely to get sick but not die. The results also suggest that the outbreaks were caught earlier in the disease cycle before the virus had a chance to mutate and become more virulent. Test results on viral samples taken from the ninth farm are still pending. All of the affected farms were within six miles of the first one; officials are still monitoring other farms and backyard flocks within that distance, Derrer said.

Regional Weather and Impacts

Frigid Temperatures Expected Until Midweek, Then a Thaw
(Chicago tribune)

Chicago: While the Chicago area has been experiencing a relatively mild winter season so far, all good things must end. By midweek, temperatures will hit the single digits, with subzero wind chill numbers, according to the National Weather Service. The highest temperatures were reported about midnight Saturday, when the mercury rose to about 23 degrees at O'Hare International Airport, according to Mike Bardou, a meteorologist with the weather service. "This is typical of what we should expect this year," Bardou said. "This winter we haven't been terribly cold." About 1 p.m. Sunday, temperatures hit almost 15 degrees in the Chicago area, but those temperatures are expected to drop to about 5 or 6 degrees overnight. Come daybreak Monday, those numbers are expected to continue dropping to about 4 degrees. But a brief temperature rebound is expected about noon Monday, when the temperatures could hit a balmy 20 to 24 degrees. A cold front coming in from Canada is expected to push down those numbers beginning overnight Monday, and by Wednesday morning temperatures between 2 and 5 degrees are expected, according to the forecast. Winds will push the mercury down to 10 to 14 degrees below zero. ***By the end of the week, temperatures could again rebound and reach the mid-30s. The weather service earlier canceled a weather advisory for the Chicago area on Saturday that called for 3 to 6 inches of snow overnight. Instead, only 1.7 inches was reported at O'Hare.*** The cold front may bring a light cover of snow into the area Monday night, leaving 1 to 2 inches in the area. "It hasn't been too bad, that's for sure," Bardou said.

Power Outages Down To 9K In Ohio Following Winter Storm
(WJW)

Ohio: About 3,000 Northeast Ohio residents are without power on Sunday, according to the FirstEnergy website. As of 7:24 p.m. local time, there were just about 3,200 without power in the FirstEnergy areas. According to a FirstEnergy spokesperson, there is no word yet on when power will be restored. The outages are weather related, and the majority of their outages are in Cuyahoga County. AEP's outage map reports around 6,000 customers are without power in central Ohio. A representative from AEP says the outages were caused by gusty winds. Crews are working to restore power, but some areas may not be restored until Monday morning due to constant winds and weather. The majority of the outages are in Franklin County.

- **Watch Officer Notes:** As of 0445CST, there are 392 customers without power statewide. (DOE Eagle-I)

About 10K Remain Without Power In Michigan After Winter Storm
(WDIV)

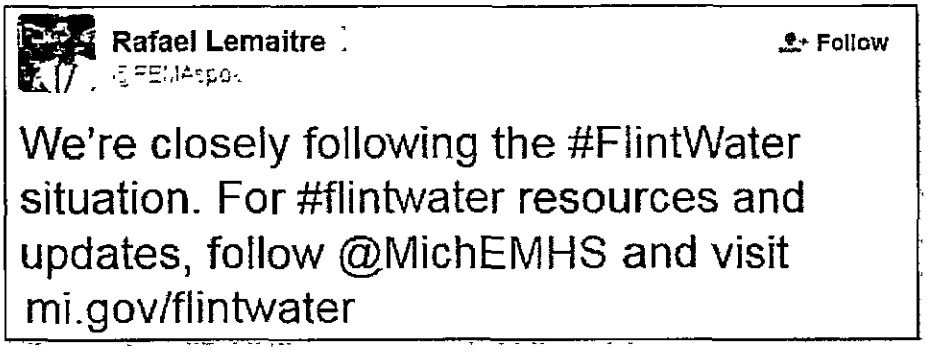
Michigan: Heavy, wet snow and winds caused more than 58,000 power outages Sunday in Detroit. DTE Energy crews said they were able to restore service to about 48,000 customers. At 9 p.m. local time, roughly 10,000 customers still remained without service. Most of the remaining outages are in Oakland and Washtenaw counties. DTE said crews will be working through the night to restore power as quickly as possible, adding that they expect most customers to have service by Monday morning.

- **Watch Officer Notes:** As of 0445CST, there are 6,759 customers without power statewide. (DOE Eagle-I)

Water Sector

Flint Water Crisis In The National Spotlight
(TMJ)
Michigan: The chief of the Racine Police Department is helping spearhead an initiative to bring clean water to a Michigan City dealing with a water crisis. The Flint water crisis began in April 2014 after the city switched sources for its water supply to save money. The new water was saltier and corroded old pipes, allowing lead to leach into the system and poison children. Flint has now switched back to its old water source, but the lead levels are still high, leaving anyone who drinks from a tap, especially youngsters, at risk.

White House 'concerned' about Flint water crisis
(Detroit News)
Michigan: The White House is monitoring Flint's water contamination crisis "very closely" but Michigan officials have not yet asked the federal government for emergency assistance, President Barack Obama's chief of staff said Sunday. Appearing on NBC's "Meet The Press," White House Chief of Staff Denis McDonough told host Chuck Todd that Flint's water woes are on the administration's radar. "Obviously very concerned about it, but I don't have any news to make with you on that today, Chuck," McDonough said. "We're watching it very closely, but nobody has asked us anything yet." Michigan Gov. Rick Snyder on Tuesday declared a state of emergency for Genesee County and his chief medical executive said Thursday Flint's water is not safe to drink without a filter to remove toxic lead particles. Snyder has not sought federal disaster assistance for toxic lead leaching into Flint's drinking water supply after the city drew its water from the corrosive Flint River from April 2014 until October, when the city switched back to Detroit's water supply from Lake Huron. The Snyder administration has been dogged for weeks about its slow response to the crisis. State officials and volunteers spent the weekend activating "water resource sites" at five Flint firehouses to provide residents with free bottled water, faucet filters, replacement cartridges and water testing kits. Todd asked McDonough whether the Obama administration is prepared to deploy disaster relief teams to Flint from the Federal Emergency Management Agency. "Well, again, we're going to watch this very closely," McDonough said. "I'm going to be very careful what I say about this." But ***FEMA has deployed three workers to provide technical assistance at the State Emergency Operations Center in Lansing***, said Nicole Lisabeth, spokeswoman for the Michigan State Police. The FEMA employees were deployed at the request Capt. Chris Kelenske, deputy director of emergency management at the Michigan State Police, Lisabeth said. "We're closely monitoring the #FlintWater situation," FEMA spokesman Rafael Lemaitre wrote Friday on Twitter *(below)*. Snyder's emergency declaration sets the stage for seeking federal assistance and can be renewed beyond its Feb. 1 expiration if the state cannot stop the lead contamination.



4 Days After Declaring Emergency, Michigan Gov. Gives Water to Flint
(NBC News)
Michigan: Four days after declaring a state of emergency over a water crisis in Flint, Michigan, Governor Rick Snyder is providing the city with bottled water and other supplies, Snyder's office announced Saturday. The news came as churches, local organizations and out-of-state donors worked to provide drinking water, and as criticism mounted from residents who wondered how the governor could seemingly declare a state of emergency without backing it up. The crisis in Flint began nearly two years ago, when the city abandoned its old water source — Lake Huron — and opted for a cheaper one, Flint River. But the new supply corroded water pipes, and lead leached into the system. Flint switched back, but lead levels in its water supplies have remained high, leaving vulnerable groups, such as children, at risk. In a statement, Snyder's office said it had partnered with local officials to begin providing bottled water, filters and testing kits at five fire stations around the city. The stations will be open seven days a week. The statement urged residents to only use filtered water for drinking supplies and food preparation.

State Police to deliver water door-to-door in Flint
(TheWeek)
Michigan: Residents of Flint, Michigan, will now be able to get drinking water from state troopers during home visits or from fire stations around the city. To save money, the city, while under a state-appointed emergency manager, switched its water source in 2014 from Lake Huron to the Flint River. Residents soon complained about the water's taste and appearance, and children were found to have high levels of lead in their systems. The city is once again using Lake Huron as a water source, but the water pipes have been corroded and lead leached into the system, NBC News reports. Residents are being warned not to use tap water to drink or in food preparation. Local churches and organizations, as well as donors from out of state, have been providing drinking water to residents. On Tuesday, Gov. Rick Snyder (R) declared a state of emergency, and on Saturday, his office announced that it is partnering with Flint officials to distribute bottled water, filters, and testing kits at five fire stations in the city. State troopers will also go from house to house to drop off bottled water and filters, the Detroit Free Press reports, and if no one is home, a flyer with information on resources will be left.

Law Enforcement and Intelligence
ISIL Reportedly Publishes Manual To Instruct Potential Western Lone Wolves
(Twitter)
Global: Would-be jihadists wanting to carry out a Paris-style attack in the West have been handed a step-by-step guide by the Islamic State (ISIL) terror group, the Daily Express reported Sunday. The 58-page booklet, called Safety and Security Guidelines for Lone Wolf Mujahideen, offers insight into the levels of preparation expected of those wishing to carry out attacks in Europe. The booklet urges home-grown terrorists to carry out attacks as they are less likely to be noticed. "This is why we (prefer) people already from the West instead of sending someone from here" "In the West, you already know the environment, how people talk and behave" The main thrust of the instruction booklet is the necessity to blend in with the Western way of life and to avoid "looking like a Muslim" so as to stay below the radar of the security services. It has been translated into English for those in the West who don't speak Arabic. Readers are urged to wear a Christian cross, cut off beards and shun prayer meetings and mosques to avoid detection. There is even advice about what jewelry to wear and on which hand to wear a watch. The guide also advises how to stake out government buildings before launching an attack to ensure the highest number of casualties and the best way to stalk "an army general or public figure" for an assassination. It also explains how nightclubs are the perfect place to discuss terror plans without being recorded or snooped on.

Regional Weather and Impacts

Tuesday's most dangerous areas of Michigan weather outlined
(MLive.com)

Michigan: Tuesday's weather will likely produce some dangerous conditions for travel. The most dangerous areas will occur where the heaviest snow is combined with the strongest winds. The three maps above show you where the heaviest snow and strongest winds will occur. The heaviest snow will occur in the snow belts. Most of the orange shaded area will have over six inches of new snow Monday night through Wednesday morning. The bulk of this lake effect snow will fall Tuesday. Some of the heaviest spots of snow will shovel over a foot of new snow by Wednesday morning. Outside of the orange area, the rest of Michigan will get two to four inches of snow. The next graphic shows the strongest wind gusts for Tuesday. The strongest gusts are shaded in yellow, and will exceed 30 mph. Western Lower and especially southwest Lower and also far southern Lower will have the strongest winds. The northeast corner of Lower Michigan and the Saginaw Bay area will have the lightest winds, staying between 15 and 25 mph. The combination graphic shows you where the heaviest snow overlays the strongest winds. That area, shaded in red, will have dangerous driving conditions Tuesday. The most dangerous weather area in Lower Michigan runs from Leelanau County south through Muskegon, Big Rapids, Grand Rapids, Kalamazoo and far southwest Lower Michigan. Travel in the most dangerous area Tuesday only if it's necessary. The yellow area will have what I would call some serious blowing snow. Travel will be treacherous in the yellow region also.

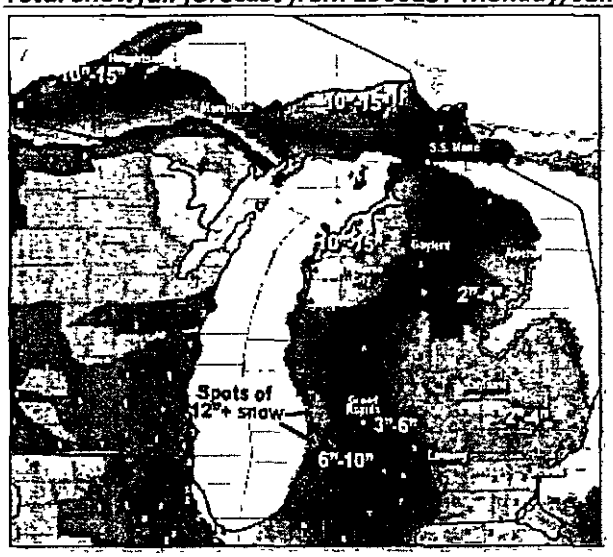
Snow and blowing snow for West Michigan
Fox17

Michigan: A potent low pressure system dropping in from the north/west coupled with moisture from Lake Michigan is expected to deliver several inches of snow. The snow will increase tonight and continue through most of Tuesday. There are actually three components to this next system. One, the low pressure area delivering snow through Tuesday morning. Two, the lake-effect that kicks in behind this system. Three, gusty westerly winds blowing and drifting the light-

textured powdery snow around. Winds speeds will increase overnight tonight and through the day on Tuesday. By late morning and early afternoon, winds will be west to northwest at 20-30 mph with gusts to 35 mph. White-out conditions are likely from time to time under these intense lake-effect snow bands, plus blowing and drifting snow. Snowfall rates may approach or exceed one inch per hour from time to time and any north/south road or highway will be impacted the most.

New storm brings dangerous Tuesday travel to Michigan
(MLive.com)
Michigan: High-impact, wind-driven snow is going to affect all of Michigan on Monday night and Tuesday. Then very heavy lake effect will develop Tuesday and dump lots of snow in the snow belts of Michigan. A storm system now in Canada is going to move southeast and rapidly strengthen right over Michigan tonight. The storm center will then move to just northeast of Michigan on Tuesday. This puts Michigan on the cold, windy side of the storm Tuesday. The colder air will give this snow a powdery nature. With wind gusts over 30 mph Tuesday, dangerous blowing snow will be a big issue. The snow will start late this afternoon in far southwest Lower Michigan, and overspread all of Michigan overnight. The widespread snow will continue into Tuesday afternoon. As the widespread snow winds down Tuesday afternoon, very heavy lake effect will develop in the snow belts. The general, widespread snow tonight and Tuesday will not be super heavy by Michigan's winter standards. All of us can expect 2 to 4 inches of snow from tonight and Tuesday's storm. The issue with this snow will be the lightweight nature. Once the wind picks up Tuesday, the powdery snow will blow around a lot. Near-whiteout conditions can be expected.

Total snowfall forecast from 1900EST Monday, Jan. 11, 2016 through 0700EST Wednesday, Jan. 13, 2016.



Twin Cities Wind Chills To Plummet
(TwinCities.com)
Minnesota: Bitterly cold temperatures are settling into Minnesota, prompting forecasters and others to warn about frostbite. Wind chills in the Twin Cities are expected to tumble to the minus 25 to minus 34 range by Tuesday morning. The National Weather Service issued a wind chill advisory for Monday night into Tuesday. The weather service says frostbite can affect exposed skin in as little as 30 minutes. Monday's high temperatures aren't expected to make it out of the single digits. Schools in St. Paul close when the forecast for 6 a.m. calls for a wind chill of 35 below OR temperature of 25 below. The decisions are made by 6:30 p.m. the night before. In Minneapolis, schools close if the wind chill will be 35 below at 6:30 a.m.

The Ohio Department of Transportation prepares for snow
(ABC)
Ohio: The Ohio Department of Transportation has hit the road as the flakes start to fall. It may not be the biggest snowfall of the year, but it is enough to cause problems on the road. Crews will be out plowing and treating state and federal routes with brine and salt. Drivers ask that if you see them out and about, to give them enough room and try not

to pass as they try to do their job. But no matter what falls, drivers are ready. "Every storm is different and what it brings," Ron Issacson, Highway Technician 2 with the Ohio Department of Transportation said. "This particular truck; it's got a 12 foot blade and an 8 foot wing and I'm hauling approximately 8 tons of salt."

Road crews getting ready for first snowy commute of the season
(ABC)
Dublin, OH: Snow plow drivers haven't had much work so far this winter but that should change this week. After seeing their first action of the season over the weekend, crews were resting up Monday night before the latest snow storms hit Central Ohio. "Guys are a little tired this morning," said Rob James, the director of Streets and Utilities Operation in Dublin. "We're just trying to talk things up and get them ready for another (snow) event (Monday)." The dusting from the weekend is gone off the roads. "We're just keeping an eye on the weather and seeing what's developing," James said. Crews haven't been busy this winter. The salt barn in Dublin is completely full. It's a much different scenario than the last few winters. "It saved us a lot of money in not having to put salt out, the overtime," he said. "You never know what's going to hit. We don't know what the rest of the season is going to be like. It could make up for it. We don't know." The snow plows were empty Monday night but they will be out for hours going into Tuesday. "It looks like it's going to snow all night," James said. "We got guys ready to go." James said one thing people can do to help is move their cars off the street. Plowing around cars slows them down. The faster they can clear the streets, the more streets they can clear.

Water Sector
Gov. Snyder signs executive order to create new Flint water committee
(MLive)
Michigan: Gov. Rick Snyder has signed an executive order creating a committee to "work on long-term solutions to the Flint water situation and ongoing public health concerns affecting residents." The executive order signed today, Jan. 11, creates the Flint Water Interagency Coordinating Committee, the governor's office announced in a news release. The statement from the governor's office says the new committee will include experts from government and the community and will "set a course of action to remedy the water situation and resulting health issues, and carry on long after the emergency declaration expires."

Governor says not ready to ask for federal aid for Flint water crisis
(MLive)
Michigan: The state is talking to the federal government about Flint's lead in water crisis but isn't ready to request a national disaster declaration, Gov. Rick Snyder said here today. "We have not made a specific request for assistance yet, but we're in a dialogue with the federal emergency management people, talking to them about how we can best work together," Snyder said in a City Hall news conference. "This is a normal part of the process after we do a state declaration. It does take some time for us to put a request together for specific assistance, and we're undergoing that process. "It will take some time but we will get to that point," Snyder said. Roughly two dozen community members gathered outside the area where Snyder delivered his speech. Protesters repeated chants calling for the governor's ouster until police officials, who were standing between protesters and the chambers, asked them to remain quiet. City resident Colette Metcalf said protesters were upset that Snyder officials refused to allow any community members into the news conference. Metcalf said the Snyder administration is failing to respond timely to the city water issue. "He still refuses to call in the federal aid and it's wrong," Metcalf said.

Snyder Seeks Federal Emergency Status Over Flint Water
(Detroit Free Press)
Michigan: Gov. Rick Snyder asked President Barack Obama to declare the area around Flint a federal emergency to combat the escalating crisis over contamination of the city's drinking water. In a late night news release, Snyder said he request the federal emergency and major disaster designation for Genesee County, home to Flint, in order to help "protect the health, safety and welfare of Flint residents." If federal aid is granted by the Obama administration, Snyder said possible assistance might include temporary housing and home repairs as well as low-cost loans to cover uninsured property losses. It may also cover fixing damage to public facilities and infrastructures, such as city schools and the water system, the governor said in a news release sent out around 11:30 p.m. "We are utilizing all state resources to ensure Flint residents have access to clean and safe drinking water and today I am asking President Obama to provide additional resources as our recovery efforts continue," Snyder said in the Thursday night statement. Snyder's request is expected to be reviewed by the Federal Emergency Management Agency. The president will have the ultimate say in determining whether to provide federal aid.

Lawrence Wants Congress To Look Into Flint Water Crisis
(Detroit Free Press)
Michigan: U.S. Rep. Brenda Lawrence, D-Southfield, wants leaders of the Oversight and Government Reform Committee to hold a hearing on lead contamination in the water in Flint, saying it's Congress' responsibility to address "a man-made disaster created by the poor policy decisions of elected and career government officials." Meanwhile, U.S. Rep. Dan Kildee, D-Flint Township, also sent a letter dated Thursday to President Barack Obama asking for his administration to dispatch experts to Flint to help address a crisis that now not only involves dangerously high lead levels in the city's water supply but reports of a large number of cases of Legionnaires' disease.

Environmental/Chemical/HAZMAT Sector

Ecorse Residents Allowed To Return After Gas Leak Explosion Prompted Evacuation
(WWJ)
Ecorse, Michigan: Hundreds of Ecorse residents have been allowed to return to their homes after an explosion inside a public park restroom Thursday morning. The incident happened around 7 a.m. local time at Dingell Park on West Jefferson Avenue, along the Detroit River near Southfield Road. Officials say an apparent gas leak inside the park's public restrooms, which were locked and closed for the winter season, resulted in an explosion. Two businesses and approximately 200 residents in nearby homes were evacuated as a precaution, authorities said. DTE Energy crews capped the leak in the park but officials said they were very concerned because gas appears to be seeping into the sewer system. Authorities said if homeowners smell gas, they should pour water down the drain.

Law Enforcement and Intelligence

Authorities Investigating Series Of Telephonic Bomb Threats Reported At Schools, Hospitals In Multiple States
(CP)
United States: At least 31 bomb threats were telephoned in to schools and hospitals across Delaware, Maryland, Virginia and Pennsylvania over this week, Coastal Point reported Thursday. Most, if not all, of the bomb threats were automated

phone calls to the main office of each location. Nothing suspicious appears to have been found. Many facilities returned to regular business within a few hours, but a few schools ultimately sent students home for the entire day. The blitz began Monday and continued through Wednesday, when Stephen Decatur High School in Berlin, MD, reported an evacuation. According to the Delaware State Police, "A robotic-style or computer-generated voice phone call was received in each of the school's offices." It was described as a male computer voice, according to the Greenwood Police Department. "It kept looping and repeating. At this time, I can't disclose what it said," a Borough of Oxford, PA, officer said. "We're working with the FBI, Maryland intelligence and Delaware intelligence." "We don't have any credible information that would have deemed it a credible threat," said an officer with the Prince William County, VA, Police Department. The 20 individual agencies across Virginia, Pennsylvania, Maryland and Delaware are working together, but, for the most part, individual police agencies are investigating within their own town or county.

Vehicle That Prompted Bomb Squad Response Was Portable Meth Lab
(WLFI)
Monticello, Indiana: The Carroll County Sheriff's Office responded to the 11000 block of W. 725 North in Monticello just before 6:30 p.m. local time Thursday evening due to a reported threat of a person who allegedly had explosives in their vehicle. A bomb squad was called to the scene and the area was closed off. A man and a woman stopped by police claimed to have a bomb in their car, a Carroll County police official said. Deputies arrived a short time later and took the two into custody, then summoned a police dog from Tippecanoe County. The dog found what is suspected to be a portable methamphetamine lab in the car, which can be explosive and dangerous, the official said.

Public Health and Safety
Flu numbers down other viruses up
(WMTV)
Madison, WI: A Madison clinic is seeing near record breaking numbers. Earlier this month, the UW West Towne Clinic saw 190 patients in just one day, nearing the record of 194. Granted the clinic treats anything from stomach aches to a broken bone, but numbers show people are not coming in because of the flu. "The bottom line is people are still getting sick the way that they usually are but it's not influenza that's causing it," UW Dr, ,Nasia Safdar, said. According to UW Health, Dane County is seeing a surge in something else. "There's a lot of other respiratory viruses that are going around," Dr. Safdar said. A respiratory tract infection was the cause of 10% of all primary care visits in all of Dane County last week. "It's usually a cough, sore throat, runny nose, headache, sometimes low grade fever." But why the low flu activity? Experts believe it could possibly be the flu shot is a good match this year. "I think it is a better match than some other years, but we still expect it to peak this time of year and then come down so its been a really attenuated season," Dr. Safdar said. Giving all the more reason to take preventative measures. "Influenza is unpredictable and that's why you still have to get the vaccine, because we just don't know what that year is going to be like," Safdar added.

Officials Confirm New Ebola Death In Sierra Leone
(BBC)
Sierra Leone: Health officials in Sierra Leone have confirmed a death from Ebola Thursday, hours after the World Health Organization had declared the West Africa outbreak over. Two tests conducted on a person who died in northern Sierra Leone earlier this week proved positive for the virus, an Ebola test center spokesman said. The spokesman said the patient had died in the Tonkolili district after travelling there from Kambia, close to the border with Guinea. Health officials are now urgently seeking those who had come into contact with the victim. Sierra Leone had been declared free of the virus on Nov. 7, and the region as a whole was cleared when Liberia was pronounced Ebola-free on Thursday.

Communications/Information Technology Sector
JetBlue Network Services Restored After Outage
(CNBC)
United States: JetBlue customers across the United States had travel plans disrupted Thursday by issues with the airline's network. The Long Island City-based airline posted a message on social media, saying it was experiencing "intermittent network issues due to a data center power outage." Some consumers on social media shared scenes of long lines at JetBlue desks and said they had difficulty checking in for flights or printing boarding passes. Just after 2:30 p.m. EST, JetBlue said online check-in and flight booking services had been restored. Users previously had trouble

accessing both its website and mobile app. The issues affected major hubs including the Los Angeles International Airport, John F. Kennedy International Airport in New York and Logan International Airport in Boston.

Hyatt Announces 250 Hotels Affected During Dec. Malware Incident
(AP)
Global: Hyatt said Thursday that it found malicious software in about 250 of its hotels that may have exposed customers' credit- and debit-card numbers and other information to hackers. It's the first time the hotel operator has listed the hotels affected since it announced it found malware at its hotels in December. Hyatt said the malware was present between July and December within payment-processing systems at its restaurants, spas, front desks and other areas in its hotels. The hotel chain does not know at this time how many customers were affected, a Hyatt spokeswoman said. Cardholder names, card numbers and expiration dates may have been exposed, the company said. Hyatt said the malware was found at many of its brands, including the Park Hyatt, Hyatt Regency and Andaz. About 100 of the hotels affected were in the U.S. The rest were abroad in cities including London, Paris and Shanghai. The Chicago-based company has about 630 properties in total.

Unaccompanied Minors
Over 6,700 Unaccompanied Children Detained At U.S.-Mexican Border In Dec.
(Boston Globe)
United States: The number of unaccompanied minors detained at the U.S. border with Mexico continues to rise, with more than 6,700 taken into custody in December alone, according to the latest figures released this week. The number is a jump from roughly 5,600 detained in November and 4,973 in October, according to U.S. Customs and Border Protection (CBP). Compared to same three-month period in 2014, the number of apprehensions in 2015 represents a 117% jump. Also on the rise are the number of families apprehended at the southwest border. In December, border authorities detained nearly 9,000 family units, up from 5,600 in November and 5,000 in October. A CBP spokesman said federal immigration authorities have been closely monitoring the increase in unaccompanied children and families along southwest border in the last few months. Meanwhile, representatives from the U.S. Department of Health and Human Services (HHS) visited Hanscom Air Force Base in Massachusetts on Monday to see if the facility would be suitable to house unaccompanied children on a temporary basis, the Boston Globe reported Thursday. Federal officials are also reportedly assessing Gunter Annex at Maxwell Air Force Base in Alabama, Tyndall Air Force Base in Florida, Grand Forks Air Force Base in North Dakota, Naval Support Activity Philadelphia in Pennsylvania and Travis Air Force Base in California. Visits were made last week and this week, and no timeline has been set on when decisions will be made, an HHS spokeswoman said.

Anger and Scrutiny Grow Over Poisoned Water in Michigan City
(New York Times)
Michigan: Michigan's attorney general opened an investigation Friday into lead contamination in Flint's drinking water, and the governor asked President Obama to declare a disaster as National Guard troops fanned out across this anxious city to help distribute bottled water, water filters and testing kits. The actions drew new scrutiny to an environmental crisis that poisoned the water supply for a year and a half before it was addressed. The contamination has left a city of 100,000 people unable to use tap water for drinking, cooking or bathing, and has caused mounting political woes for the governor, Rick Snyder. In the last three weeks, a panel appointed by Mr. Snyder reported that state officials had for months wrongly brushed aside complaints about the contamination. The governor apologized for the state's performance, Michigan's top environmental regulator resigned, and federal agencies announced that they were investigating.

Tainted water: Michigan responds slowly to Flint's health crisis
(Post Gazette)
Michigan: The health danger facing Flint, Mich., is not what anyone would expect in 21st-century America. The economically depressed city of 100,000 has a water supply tainted with lead and high levels of iron. After the state denied the problem for months, Gov. Rick Snyder declared an emergency Jan. 5. On Wednesday, the National Guard began distributing bottled water and water filters; the next day the governor asked President Barack Obama to issue a major disaster declaration. This is a nightmarish event that Mr. Snyder and his administration could have headed off long ago. Instead, foul water has left children at risk of brain damage and adults exposed to kidney ailments.

Gov. Snyder: Release communications and documents on Flint water crisis
(MLive)
Michigan: It's been 17 days since Gov. Rick Snyder apologized for the state's role in the Flint water crisis. It's been 10 days since he declared an emergency in Flint over lead in the water, and three days since he called in the Michigan National Guard. Thursday, Snyder asked President Obama to declare a federal emergency. Today, he called for returning some powers back to the elected mayor of Flint, Karen Weaver. He's clearly initiating a series of crisis remedies — except for one: Making clear the greater connection of state decisions, actions and inactions, to the Flint water switch. It hasn't happened. The people of Michigan deserve a full accounting of what the governor and his key leaders knew about Flint's lead problem, and get insight into decisions made behind closed doors. We've requested the documents through the Freedom of Information Act, but Michigan is one of only two states in the nation that shields the governor's office from that law. A new, grave development only heightens the necessity for transparency. Snyder and other state health officials this week announced that a spike in Legionnaires' Disease, including 10 fatalities, may be connected to the Flint water switch.

Flint seeks new director for embattled water system
(MLive)
Michigan: Flint is looking to hire the next person to manage the city's municipal water system, which has been the focus of international media coverage as it remains in the midst of a public health emergency. Flint Mayor Karen Weaver

announced Friday, Jan. 15, that she is looking to fill the city's vacant public works director position, which has been empty since former director Howard Croft resigned in November. "The Director of Public Works is a key position in my administration," Weaver said in a statement announcing her intention to fill the position. "It is critical that the person selected put policies and practices in place that will move the City of Flint forward."

Dayton Releases $220M Wish List For Water Quality
(Albert Lea Tribune)
Minnesota: Gov. Mark Dayton unveiled Thursday his wish list of $220 million in upgrades to ailing sewage networks, wastewater plants and drinking water treatment facilities across the state, his latest bid to boost Minnesota's water quality. The proposal includes almost $3 million for projects involving the Stables area north of Albert Lea, including the watermain and connection to Albert Lea. The proposal would have lawmakers borrow money for dozens of infrastructure improvements in places from Afton to Winsted. It's just a portion of a larger public construction package that Dayton is proposing; it's expected to be released in full Friday. Though Dayton and other state officials said the extra cash would triple or quadruple the number of infrastructure projects the state is able to sponsor, they said it would only chip away at an estimated $11 billion in upgrades needed over the next two decades. Dayton said he envisions it as just the first step in a continuous series of investments over the next 20 years. "It's a multifaceted problem. It's not one that we'll be able to resolve overnight," Dayton said.

Avian Influenza
Avian Influenza Discovered In Commercial Turkey Flock
(AP)
Dubois County, Indiana: The U.S. Department of Agriculture (USDA) confirmed Friday the presence of highly pathogenic H7N8 avian influenza (HPAI) in a commercial turkey flock in Indiana, the country's first case since the end of last year's outbreak that led to the destruction of 50 million animals. The strain is different from the one that caused a widespread outbreak last year, and is also unrelated to another case in a backyard flock in northeast Indiana last May. This marks the first HPAI case since June. Before this latest sighting, HPAI had affected 211 commercial and 21 backyard poultry premises since December 2014. The USDA said state officials had quarantined the facility in Dubois County. The farm has about 60,000 turkeys and the flock is being euthanized to prevent the disease from spreading. Federal and state authorities are monitoring and testing the nearby area, and a quarantine is in place for commercial poultry farms and backyard flocks in a six-mile radius. Food safety is not considered to be at risk, according to the Indiana State Board of Animal Health, saying "the Centers for Disease Control considers the risk of illness to humans to be very low." In last year's bird flu outbreak -- the worst in decades -- infected flocks prompted the depopulation of 7.5 million turkeys and 42.1 million chickens. The cost to federal taxpayers has already hit more than $950 million. To help contain bird flu, the USDA has been planning for a worst-case scenario in which 500 or more commercial flocks across a wide swath of the U.S. could be affected. Its plan includes promoting improved biosecurity practices on farms, improving surveillance of wild birds (which have spread the virus in the past) and promoting rapid detection of the illness in domestic poultry before depopulating affected flocks within 24 hours.

- ***Additional Coverage:*** USDA reports first bird flu case since June, different strain than last year; Bird Flu Returns to U.S. Poultry Industry With Indiana Case; Indiana sees first commercial case of avian flu
- ***Watch Officer Notes:*** The Indiana Department of Homeland Security (IDHS) will be activating their Emergency Operations Center (EOC) to Level 3 (Partial Activation) this morning from 0700-1900 CST. There are no unmet needs. There have been no requests for FEMA assistance.

Minnesotans Prep For Bitterly Cold Weekend
(WCCO)
Minnesota: This weekend's artic blast has forced some outdoor activities to be re-scheduled. The Minnesota Department of Natural Resources has several events planned for the weekend. State park employees say they are prepared to show people a good time in the extreme cold, and offered a few tips on how to stay warm while doing it. Park Rangers are stocking up on fire wood for the cold weekend ahead. At Fort Snelling, the park is expected to be packed with those who love nature, even though the forecast calls for arctic-like temperatures. "Even in very cold temperatures, there are still people who come out here," DNR Naturlist Kao Thao said at Fort Snelling State Park.

"Hearty people who come out for snow shoeing, wild life hiking, or just a quiet nice walk on a park trail." Thao says the beauty of the outdoors is amplified when the temperature dips below zero. The sights and the sounds of the wild will be featured Sunday during a wildlife walk at Fort Snelling State Park — a day expected to top out at -4 degrees.

CDC Issues Travel Warning For Pregnant Women Over Zika Virus Concerns

(CNN)

Global: The U.S. Centers for Disease Control and Prevention (CDC) on Friday night advised pregnant women to postpone travel to Mexico, Puerto Rico and parts of Central America and South America due to the presence of the Zika virus. The CDC action was prompted by tests that found Zika, a mosquito-borne illness, in fetal and newborn tissue of Brazilian babies affected with microcephaly. The agency said additional studies are needed. The advisory lists Brazil, Colombia, El Salvador, French Guiana, Guatemala, Haiti, Honduras, Martinique, Mexico, Panama, Paraguay, Suriname, Venezuela and Puerto Rico. "Out of an abundance of caution, pregnant women (are) advised to consider postponing travel to areas where Zika virus transmission is ongoing," the CDC said. The CDC suggested pregnant women who must travel talk to health care providers beforehand and follow steps to prevent mosquito bites. Women trying to become pregnant should also consult, it said.

ISIL Reportedly Developing Encrypted Messaging App For Android

(TechSpot)

Global: The Islamic State (ISIL) terror group has decided to create its own encrypted Android messaging app for organizing terrorist attacks after being blocked out of many messaging apps. According to information from the Ghost Security Group (GhostSec), the messaging app is not available through normal channels. Instead, the app, apparently known as Alrawi, is only available through hidden parts of the internet as a downloadable APK that ISIL would then sideload onto their handsets. The Alrawi app allows ISIL to communicate through encrypted channels, albeit in a more rudimentary way than public encrypted messaging apps like Telegram. The primary function of the app is to distribute propaganda to the followers of ISIL, such as news and videos. As someone affiliated with ISIL developed the app, group members feel safe using it as they know it doesn't contain a government backdoor. However, judging by reports from GhostSec and others, the encryption systems aren't as secure as bigger and more well-known apps, meaning it could be vulnerable to hacking. The move by ISIL to create their own messaging app comes after the group was banned from using apps like Telegram and WhatsApp. Terrorists and the public in general are also facing government interference with encryption, as many politicians believe that backdoors are the best way to combat and catch terrorist communication channels.

Gov. Rick Snyder of Michigan Apologizes in Flint Water Crisis
(New York Times)
Michigan: *Gov. Rick Snyder of Michigan issued a sweeping apology on Tuesday to the residents of Flint for a* contaminated water supply. He pledged to promptly release his emails about the issue, and laid out more specifics than had previously been known about the state's handling of the matter. "I'm sorry, and I will fix it," Mr. Snyder, a Republican, said in a State of the State address in which he took the unusual step of focusing on a painful issue that has consumed the state in recent weeks and has drawn condemnation from national politicians. "No citizen of this great state should endure this kind of catastrophe. Government failed you — federal, state and local leaders — by breaking the trust you place in us." Mr. Snyder, who has long boasted of advocating pragmatic solutions over casting blame, was uncharacteristically blunt, contrite and emphatic. "I'm sorry most of all that I let you down," he said. "You deserve better. You deserve accountability. You deserve to know that the buck stops here with me. Most of all, you deserve to know the truth, and I have a responsibility to tell the truth."

Flint Water Crisis: Michigan Governor Asks For $28 Million
(CNN)
Michigan: Gov. Rick Snyder vowed to do everything in his power to solve the Flint water crisis, asking legislators for $28 million to fund a series of immediate actions. (Read Snyder's plan) He also apologized for the crisis during his annual State of the State speech Tuesday night. The Republican governor has become a lightning rod for criticism because the crisis unfolded under the state's watch. "To begin, I'd like to address the people of Flint. Your families face a crisis, a crisis you did not create and could not have prevented," Snyder said. "I am sorry and I will fix it."
The additional money would go to help fund the following, the governor said:

- *Bottled water, filters, replacement filters;*
- *Assistance to Flint to help with utility-related issues;*
- *Testing and replacing fixtures in schools and other high-risk locations;*
- *Treatment of children with high lead levels;*
- *Services for the treatment of potential behavioral health issues;*
- *Support for children and adolescent health centers;*
- *An infrastructure integrity study for pipes and connections.*

Snyder spoke about the long-term consequences of the crisis, saying the $28 million request won't be the last budget request for Flint. He also released a detailed timeline of steps officials have taken already and announced he will be releasing his 2014 and 2015 emails related to the crisis. (See the timeline)

Avian Influenza

Avian Flu Ignites Concerns For Dubois County Businesses
(IPM)
Indiana: Nearly a quarter of a million turkeys are dead after an outbreak of avian flu appeared in Dubois County, and officials are trying to determine how the flu is spreading and how much it could impact the community. "What ends up happening is you have these huge collections kind of spreading like a spiderweb through the population of poultry farms," says Indiana University School of Public Health Professor Robert Reiner. "The only thing you can really do about

it is by drawing a large circle around all of those farms, including a bunch of farms that probably don't have any infectious or infected birds, and just wiping out the birds, pretty much wholesale." Reiner says that avian flu can have a huge economic impact. Although health officials are saying food is safe to eat, Dubois County business owner Jennifer Schuetter is concerned her restaurant will be affected. A third of her menu is made up of locally bought turkey. "I've only thought about it from my business and other peoples' business," Schuetter says. "There are other places that serve turkey and meat. It's not just me. It could affect a lot of people." The State Department of Health is working closely to monitor the outbreak.

Public Health

Whooping Cough Case Confirmed at Warren Township High School
(WLS)

Gurnee, IL: Lake County health officials said a case of whooping cough has been confirmed at Warren Township High School in Gurnee. Whooping cough is caused by bacteria infecting the mouth, nose and throat. The illness is spread through the air by coughing. Whooping cough may start with cold-like symptoms, followed by a cough. In a letter to parents, the school district asked then to watch their children for symptoms for the next three weeks.

Anonymous School Bomb Threats Traced To Bakersfield, CA; More States Report Threats
(TPR)

United States: Bomb and mass shooting threats were made against more than two dozen schools in New Jersey on Tuesday, along with schools in at least six other states, forcing evacuations and lockdowns that affected thousands of students. Threats were also made to schools in communities including Iowa City, Iowa, Portsmouth, New Hampshire, Mesa, Arizona and North Miami, Florida, according to statements from local law enforcement agencies. They were the latest in a string of anonymous threats of violence, all apparent hoaxes, made against U.S. schools in recent weeks. Made in a robotic voice, the threats appeared to come from computer-generated phone numbers that could be traced back to a location in Bakersfield, California, a Bergen County official said. The threats may have been automated because they were so similar, police said. Some of the New Jersey schools were threatened with bombs and others with mass shootings, police said. In Massachusetts, schools in at least 15 communities received threats, state police said. They offered no details but said no hazardous materials or other credible threats were found after searches of the schools. Nine Boston-area schools were the targets of similar threats on Friday.Delaware State Police said they were also investigating threats, made by phone in a robotic or computer generated-style voice, to at least three schools.

FBI, JTTF Investigating Kent State Univ. Professor For Alleged Ties To ISIL
(10TV)

Kent, Ohio: A Northeast Ohio college professor is under investigation for allegedly having ties to the Islamic State (ISIL) terror group. A Kent State University history professor is accused of recruiting students to join the terror group. The FBI and the Department of Homeland Security are investigating the professor, and a joint terrorism task force (JTTF) has been investigating him for the last year and a half, said an FBI special agent. The agent said they interviewed several faculty members and more than 20 of the professor's students Tuesday about his alleged involvement. Kent State University issued a statement saying it is cooperating with the FBI and that there is no threat to the campus or students

Environmental/Chemical/HAZMAT Sector

Crews Complete Cleanup Of Styrene Spill In Ohio River
(WEHT)

Pittsburgh, Ohio: Cleanup is complete after a hazardous chemical leaked into the Ohio River over the weekend. Fire officials near Pittsburgh say about 60 gallons of Styrene spilled from a semi truck – with roughly 20 gallons actually hitting the water. Styrene is mainly used in the production of plastics. However, with the help of several fire crews, the chemical was contained. Crews say Styrene does not mix with water making it easier to cleanup.

Twitter Restored After Global Outage; Issue Was Reportedly Related To Internal Code Change
(AP)

Global: Some Twitter users had to do without the service early Tuesday after sporadic outages knocked the social media site offline in the U.S. and Europe. By mid-morning on the East Coast, desktop and mobile versions of Twitter appeared to be working. According to Twitter's Service Issue listing, "the intermittent issue affecting some users between 00:40 and 06:50 PST has now been resolved." Twitter support continued, "the issue was related to an internal code change. We reverted the change, which fixed the issue." During the outage, users reported that the service, which has over 320 million active users, was not accessible on desktop computers. Twitter's blog posts, corporate info and most other pages on the Twitter.com website were also inaccessible, displaying the blue error screen. Twitter's mobile app was partially functioning for some users but its timeline updated new tweets sporadically. Its search function appeared disabled as some hashtags or keyword searches returned no results.

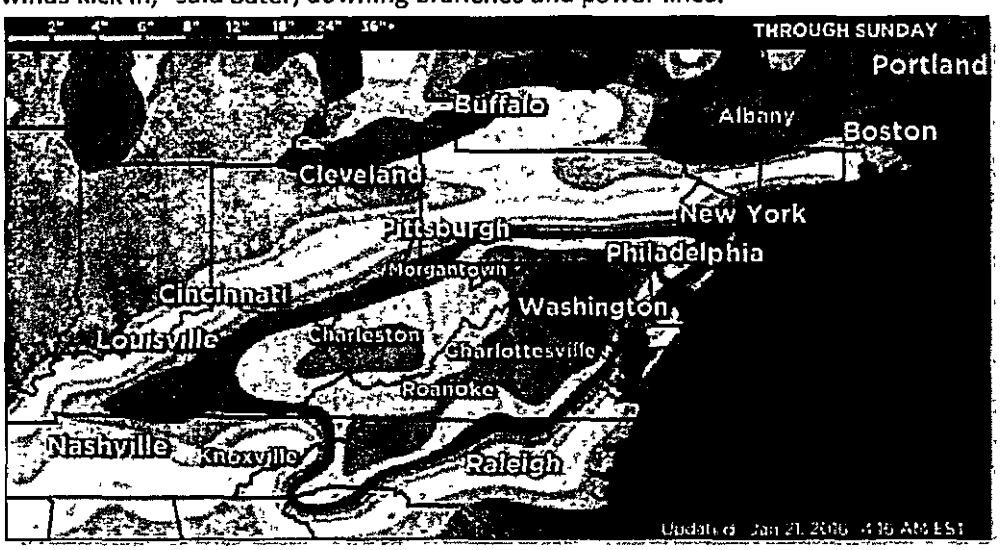
Winter Storm: This Weekend's Snow In D.C. Could Be One 'For The Record Books'
(CNN)
A nasty snowstorm is expected to bury the Washington, D.C., area beginning Friday, and possibly surpass totals for a benchmark 1922 storm. The National Weather Service on Wednesday said it expected between 12" and 24" of snow to fall in the District of Columbia, Baltimore and surrounding counties by late Saturday. Those totals could be adjusted up or down depending on the exact track of the storm, which is targeting the mid-Atlantic region. CNN meteorologist Tom Sater says a computer model shows the capital will be the bull's-eye for up to 30" of snow by Sunday. That would exceed the calamitous "Knickerbocker Storm" of 1922, which dumped 28 inches and killed nearly 100 people when the roof of a theater by that name collapsed under the weight of the snow. "This is going to be one for the record books," Sater said. Tens of millions of East Coast residents could be affected by the storm system, which will be ushered by ice. "Then the winds kick in," said Sater, downing branches and power lines.



Water

Snyder Emails Detail State's Missteps In Flint Crisis
(The Detroit News)
Michigan: Gov. Rick Snyder was advised in late September that the state bore responsibility for Flint's water problems because former state Treasurer Andy Dillon made "the ultimate decision" to let the city leave the Detroit system, according to emails released Wednesday. The city later turned to corrosive Flint River water that caused aging pipes to release lead into the drinking water. The emails, detailed in 274 pages released by Snyder on Wednesday, offered a rare peek into the internal deliberations of the governor's office, which is typically shielded from requests under the Freedom of Information Act. They shed new light on Dillon's role in approving a request in April 2013 by Flint officials to join other Genesee County communities as customers of the Karegnondi Water Authority after a half-century of buying drinking water from the Detroit Water and Sewerage Department. In late September, then-Chief of Staff Dennis Muchmore offered a contrarian view at times about whether the state was on the hook for costs associated with switching Flint back to Detroit's water.

As Water Problems Grew, Officials Belittled Complaints From Flint
(NY Times)
Michigan: A top aide to Michigan's governor referred to people raising questions about the quality of Flint's water as an "anti-everything group." Other critics were accused of turning complaints about water into a "political football." And worrisome findings about lead by a concerned pediatrician were dismissed as "data," in quotes. That view of how the administration of Gov. Rick Snyder initially dealt with the water crisis in the poverty-stricken, black-majority city of Flint emerged from 274 pages of emails, made public by the governor on Wednesday. The correspondence records mounting complaints by the public and elected officials, as well as growing irritation by state officials over the reluctance to accept their assurances.

Email Release Do Little To Ease Pressure On Michigan Gov. Snyder
(CNN)
Michigan: Saying the people of Flint deserve the truth about the city's water, Michigan Gov. Rick Snyder has released more than 250 pages of his emails that relate to the crisis. But the document dump Wednesday did little to ease the predicament he finds himself in. With each passing day, the chorus for him to step down has grown louder because the water debacle unfolded under his watch. "So far, all roads lead to Lansing when it comes to accountability," Democratic U.S. Rep. Dan Kildee, who represents the Flint area, said Wednesday. The emails help show, at least in part, how officials responded to the growing concerns about toxic lead contamination in Flint's tap water. But some of them don't paint a pretty picture. His former chief of staff realized back in September 2015 the situation was becoming a political issue, but then shifted the responsibility away from the state to the city. "Of course, some of the Flint people respond by looking for someone to blame instead of working to reduce anxiety. We can't tolerate increased lead levels in any event, but it's really the city's water system that needs to deal with it," Dennis Muchmore, Snyder's then-chief of staff, wrote in one email. He did say the state was "throwing as much assistance as possible at the lead problem."

Avian Influenza
All 400K Birds At Indiana Farms With Bird Flu Killed
(WPTV)
Indiana: Animal health officials responding to a bird flu outbreak in southwest Indiana say crews have finished killing more than 400,000 birds ordered euthanized at all 10 affected commercial poultry farms. The state issued a statement Wednesday evening saying all of the birds have been killed. An Indiana State Board of Animal Health spokeswoman says the H7N8 virus has not been found in any other flocks since Saturday. The H7N8 strain is different than the H5N2 virus that led to the deaths of 48 million birds last summer. Crews began euthanizing more than 245,000 turkeys in Indiana's Dubois County last week to prevent the virus' spread. Another 156,000 chickens at one of 10 farms also were killed because they were at high risk of contracting the virus.

I-94 Reopened Near Detroit Metro Airport After Semi Crash, Fuel Spill
(CBS)
Romulus, Michigan: I-94 near Detroit Metro Metro Airport has been fully reopened Wednesday after westbound traffic was affected by a semi truck which crashed and leaked fuel Wednesday morning. The accident happened just after 12 a.m. Wednesday local time on westbound I-94 on the exit ramp for Middle Belt and Merriman roads in Romulus, according to a Michigan Department of Transportation spokesperson. A Romulus Fire Department spokesperson said the tanker was hauling fuel, which spilled from the truck after the crash. Between 1,000 and 1,500 gallons of fuel leaked out, and the road closure in the area is to "eliminate as best as possible any ignition sources that may come in contact with those [fuel] vapors," the Romulus Fire spokesperson said. The Michigan Department of Transportation tweeted the incident had been cleared just before 1300EST.

Public Health
CDC Issues New Guidelines As More Pregnant Women In U.S. Found With Zika Virus Acquired Abroad
(ABC)

United States: The Centers for Disease Control and Prevention (CDC) said Wednesday that there are at least "a dozen or so" confirmed cases of Zika virus in residents who recently traveled to countries where the mosquito-borne virus is spreading, prompting the agency to release new guidelines for pregnant women. The agency said it was not able to provide an immediate breakdown by state because states must authorize the release of that information. Several state health departments have reported confirmed cases in recent days. These include: Florida, Hawaii, Illinois, New Jersey and Texas. The number of cases is from 2015 to date, according to a CDC spokesman. The new interim guidelines issued by the CDC on Tuesday advise doctors to ask all pregnant women if they have recently traveled to a country where a Zika virus outbreak is ongoing. The CDC has also advised any pregnant women who have traveled to countries with the Zika virus to get tested for the virus if they have two or more symptoms of the virus. The illness often results in fever, joint pain and rash, health officials said. There is no cure or vaccine for the virus besides supportive care. The guideline announcement came as two pregnant women in Illinois were reported on Tuesday to have contracted the disease, according to the Illinois Department of Public Health. Both of those women were believed to have been infected while out of the country. Three other people in Florida were also diagnosed with the illness, officials said Wednesday. All of the infected people in Florida contracted the virus while out of the country -- in either Colombia or Venezuela. Health officials said there is no risk to the public because all the cases so far have been in returning travelers who were likely infected by mosquitos abroad rather than by mosquitos in the U.S. mainland.

Regional Weather and Impacts

Wind Damage Reported Throughout Area
(WHIO)
Ohio: Wind damage is being reported throughout the area as gusts reach 30 to 40 mph. In Dayton, the Carillon Tree of Light was damaged sometime before 6:30 a.m. There were high wind gusts at the time lights were damaged. In Wayne County, Ind., a semi overturned on westbound Interstate 70, closing the interstate. We are working to confirm that wind played a factor in the crash. No injuries have been reported. A tree has also been reported down across the roadway at Phillips and Wayne avenues in Dayton, and around 8 a.m., wires were reportedly down at Daleview and Wampler in Harrison Twp.

2015 Will Likely End as the Least Deadly Tornado Year on Record in the U.S.
(The Washington Post)
National: Though 2015 featured some memorable thunderstorms — the EF-4 tornado west of Chicago in April, and the nighttime tornado outbreak in the Texas Panhandle — it seems all but certain to go down as the least deadly year for tornadoes on record. Amazingly, there have only been 10 tornado fatalities this year. Using statistics that go back to 1875, Weather Underground's Bob Henson shows how low this year's tornado deaths have actually been. "If this number holds through the end of the year, it will beat the 12 deaths reported in 1910 to become the lowest annual total on record," Henson says. Two sources of statistics were combined to create the long period of record. The National Weather Service's Storm Prediction Center keeps a file on tornado deaths since 1950. Thomas Grazulis, an author and tornado historian, has combed through archives and old newspapers to create a tornado fatalities database back to 1875. On average, Livingston said, the United States sees 36 EF-3 or stronger tornadoes. This year there have been just 16. The violent tornadoes, EF-4 or stronger, usually add up to about seven per year. But this year we've seen just one, which touched down just west of Chicago in April — any farther east could have been a much bigger disaster. In March, the team was forecasting slightly elevated chances that this year's tornado season would be quieter than average. Though the forecast was a good one for the most part, Allen still wants to improve the model by studying the effects a weak El Nino — like what we saw this spring — might have on tornado season in the United States. "There is also a need to better understand the sub-seasonal (week to week and month to month variability)," Allen says. For example, "it didn't tell us how active western Texas would be in 2015." But the year is not over, and five of the last 10 Decembers brought at least one tornado fatality, Henson says. Nine people died in tornadoes in December 2010.

Transportation Sector

Michigan DOT seeking 'Road Watchers'
(WZZM 13 ABC)
Michigan: The Michigan Department of Transportation is seeking "Road Watchers" to report on winter highway conditions in the northern Lower Peninsula. For a third year, MDOT is recruiting people in the northernmost 21 counties in the state's Lower Peninsula to participate in periodic surveys on conditions during the morning commuting period on some key routes. Roadways include Michigan highway 72 in Kalkaska and Grand Traverse counties and portions of U.S. 131 in Antrim, Charlevoix, Emmet, Kalkaska, Grand Traverse and Wexford counties. They also include U.S. highway 23 in Alcona and Alpena counties. MDOT compiles the survey results to track winter highway conditions with the goal of improving winter maintenance and response time.

Water Sector

Indianapolis DPW Announces Final North Side Floodwall Plan
(RTV Channel 6)
Indianapolis, Indiana: The Indianapolis Department of Public Works announced the plan Monday for the final phase of a long-awaited north side floodwall project. The first part of the Indianapolis North Flood Damage Reduction Project was built between September 2002 and July 2004 in the Warfleigh neighborhood. The project involves the construction of a floodwall and earthen levee along the east bank of the White River and the canal. The final portion of the floodwall has been pending a decision for years as residents along Westfield Boulevard and DPW employees went back and forth over the details. On Monday, DPW announced it had selected the "Westfield Alignment" for the final portion of the project. That design will travel along Westfield Boulevard beginning at Capitol Avenue and terminating between the far-western side of Butler University's campus and the canal. DPW said the project will remove more than 2,000 structures from the 100-year floodplain.

Law Enforcement and Intelligence

In American Mosques, Growing Safety Concerns
(Reuters)
National: From the suburbs of Los Angeles, CA, to the outskirts of Washington, DC, mosques around the United States are warily stepping up security in the face of growing fears about reprisals on American Muslims. At least two mosques, one in Phoenix, AZ, and the other in suburban Virginia, are working with the Department of Homeland Security to check up on the security their facilities provide for worshippers. Others report taking a range of steps, including hiring armed guards, because of fears that an American mosque could be a target for an attack. Over the weekend, police arrested a 23-year-old man suspected of setting a fire at a Southern California mosque in what authorities are describing as a hate attack, following the massacre of 14 people in San Bernardino, CA, on Dec. 2 by a Muslim couple. Authorities have not said if the suspect was motivated by the shooting. The FBI is also investigating an incident in Philadelphia, PA, in which someone drove past a mosque and threw a severed pig's head at it from a passing truck as a possible hate crime. Given the rising tensions, some mosques say they have struggled to hire and keep security guards. In Dulles, VA, a suburb of Washington with a large Muslim community center, security guards abruptly quit after the San Bernardino attacks, said an official with the All Dulles Area Muslim Society.

Second Suspect Pleads Guilty In Terror Plot
(Chicago Sun-Times)
Chicago, Illinois: Hasan Edmonds, 23, pleaded guilty Monday to conspiring and attempting to provide material support to Islamic State terrorists. He faces as many as 30 years in prison at his sentencing hearing, which is set for March 18. He calmly told U.S. District Judge John Lee he was "guilty" of the two counts in a superseding information when he appeared in court in orange jail garb. The feds say Hasan Edmonds is not cooperating with them, despite his plea. His cousin, Jonas, pleaded guilty last week to conspiring to provide material support to terrorists, and to lying to the FBI about it. He faces as many as 23 years at his sentencing, set for Jan. 27. His lawyer also stressed that Jonas is not cooperating with authorities. Hasan Edmonds planned to fly March 25 to Egypt to join the Islamic State, but he was arrested at Midway Airport after his cousin dropped him off. Jonas then collected his cousin's uniforms, which he intended to use as a disguise when he attacked the Guard base in Joliet where Hasan Edmonds, a member of the 634th Brigade Support Battalion, had trained. He was arrested about the same time as his cousin. Authorities found an Illinois National Guard drill schedule and army clothes when they searched Jonas Edmonds' townhouse, records show. When they stopped Hasan Edmonds, they said he was carrying a black backpack containing all-weather and camouflage notepads, a camera, a Quran and two books: "Fortress of the Muslim" and "The Covenant of the Flame." The feds kept close tabs on the cousins after becoming suspicious of Hasan Edmonds late in 2014. Records show a second undercover fed joined them for the visit to the Guard base, which took place one day before their arrest.

Indiana State Police Offering Active Shooter Training
(wane.com)
Indianapolis, Indiana: Indiana State Police is offering a program to teach schools and businesses across the state how to better prepare for and respond to an active shooter incident. The Terre Haute Tribune-Star reports that the agency's "Unarmed Response to Active Shooter Events" program uses presentation materials and learning aids developed for corporate environments, schools, school buses and individuals. Indiana State Police Sgt. Joe Watts tells the newspaper that the agency has mainly conducted the training at schools. But he says some area businesses, including physician offices and clinics, have also requested and received the training. The agency's Putnamville District has brought its active shooter instruction to about 25 schools and educational facilities, three medical clinics and three corporate offices.

Wauwatosa East Evacuation Reportedly Prompted By Bomb Threat
(Milwaukee Journal Sentinel)
Milwaukee, Wisconsin: Two television stations are reported that the evacuation at Wauwatosa East High School Monday afternoon was prompted by a bomb threat. Students and staff were evacuated from the building at 7500 Milwaukee Ave. about 2:50 p.m. Monday. Police and firefighters were on the scene, according to witnesses. High school officials sent an email to families announcing the evacuation and cancellation of all after school activities, citing "a concern within the building." No explosive devices were detected by first responders.

Public Health and Healthcare Sector

Mumps Numbers Back Up In Champaign County
(The News Gazette)
Illinois: This contagious illness outbreak that began making itself known in the area back in June has continued to gain on Champaign County, with another leap in cases coming this month.
But with most University of Illinois students on their way out of the community for winter break, local health officials are hoping for a mumps slowdown, at least here. There have been 24 people in Champaign County sickened by mumps so far in December, after only seven new cases in November, Pryde said. That boosts the Champaign County mumps total this year to 197 cases as of Monday, Pryde said. That's about double the number of mumps cases since the end of August. The outbreak has continued to be centered mostly on the UI campus. In an effort to turn it around, the health district and the UI McKinley Health Center administered thousands of extra, third measles/mumps/rubella vaccinations to students and staff members to boost immunity. As of Monday, more than half of the state's 386 mumps cases are in Champaign County. The statewide total was last updated Dec. 9, and Pryde said that number will likely be higher when it is updated by the state Department of Public Health on Wednesday.

Critical Infrastructure Sector

Little Cal Commission Ends Year on Positive Note
(NWI.com)
Indiana: Positive financial and flood protection news closed out the calendar year for the Little Calumet River Basin Development Commission. At Wednesday's meeting at Munster Town Hall, the commission heard there is now a positive cost share balance between it and the U.S. Army Corps of Engineers. Col. Christopher T. Drew, of the corps' Chicago district, said all the research and additional documents provided by Executive Director Dan Repay and staff confirmed it. The issue was a sticking point because documents from the original Little Cal Commission, disbanded by Gov. Mitch Daniels after the flood of 2008, were stored in various places and formats. As part of the flood control and maintenance, Repay reported that videotaping the entire 6,500 feet of 96-inch pipe that runs from Arbogast Street in Griffith north has been completed. This "deep tunnel" diverts water from the Cady Marsh Ditch to the Little Calumet River. The videotaping won't need to be done again for five years, he said. Another project completed was terminating a sewer on Forrest Avenue in Hammond that was discharging into the Illinois side of the Little Calumet River, Repay said. More than 1,400 people have been removed from the flood plain and no longer have to pay for mandatory flood insurance, he said.

Architecture Students Propose Solutions For Peoria's Sewer Overflow Issue
(Peoria Public Radio)
Illinois: The City of Peoria is getting some academic help in tackling its combined-sewer-overflow problem. The City is in talks with the EPA about ways to fix the overflow issue that periodically ends up polluting the Illinois River. To help meet that goal, architecture students from the University of Illinois at Urbana-Champaign shared green infrastructure designs. Professor Danika Cooper says proposals include South Side bicycle networks and parkland that captures rainwater while giving residents' new greenspace: "Solutions that not only deal with flooding and overflow issues, but also kind of address some of the economic and social structure of this neighborhood." Anthony Corso is with Peoria's Innovation Team looking at the issue. He says student's solutions could be included into final proposals that fix the CSO problem: "We're looking at how do we solve this problem, this very expensive problem that we're all going to have to pay for, but we make sure that the whole community gets benefit out of it." City officials say next steps include holding more community public input meetings and getting feedback on proposed ways to fix the CSO issue.

Emergency Management/Preparedness Sector

FEMA Sends 28,000 Liters of Bottled Water to Flint amid Lead Troubles

(MLive)
Flint, Michigan: The federal government is helping to replenish the bottled water supply in Flint. Two trucks delivered about 28,000 liters of water from the Federal Emergency Management Agency to the Food Bank of Eastern Michigan today, Dec. 14. The water will then be donated to "partner agencies" in the city of Flint who will distribute the water to residents. Cassie Ringsdorf, a FEMA spokeswoman, said the agency maintains commodity stockpiles at warehouses around the country and makes them available. "These commodities are available for use, within hours, should an incident occur that requires support from FEMA," Ringsdorf said in an email to The Flint Journal-MLive. A news release from the Food Bank credited Michigan State Police Lt. Billie Jo Roach with having identified the availability of the water from FEMA. Flint remains in a public health emergency and officials have said residents should not drink unfiltered tap water because of rising lead levels while the city used the Flint River as its water source from April 2014 until October 2015. The Journal could not immediately reach a representative of the MSP Emergency Management and Homeland Security Division for further comment. FEMA said the Food Bank claimed two truckloads of water and agreed to pay all transportation costs associated with the donation.

Communications/Information Technology Sector

Drone Registration Rules Are Announced by F.A.A.
(New York Times)
National: The Federal Aviation Administration on Monday announced new rules that will require nearly all owners of remote-controlled recreational drones to register the machines in a national database, an attempt by the agency to address safety fears. Federal officials have rushed to issue new rules on drones before the holidays, when an estimated 700,000 new drones are expected to be bought. Drone owners will be required to submit their names, home addresses and email addresses to the F.A.A., disclosures meant to encourage users to be more responsible, officials said. "Unmanned aircraft enthusiast are aviators, and with that title comes a great deal of responsibility," Anthony Foxx, the secretary of the Transportation Department, said in a conference call. "Registration gives us an opportunity to work with these users to operate their unmanned aircraft safely." The federal rules are the first of their kind for users of recreational drones, also known as unmanned aircraft systems. The prices for the machines have fallen sharply in recent years, making them popular tools for aerial photography and videography, among other uses. Drone manufacturers and hobby groups have warned that the $5 for registration in the United States will harm their businesses and discourage new users. But the F.A.A. said it was necessary to charge a fee to cover the costs of running the database. Critics of the registration said the minimum weight of half a pound — the equivalent of two sticks of butter — would include too many small toy drones that are most popular with children and are generally harmless. Failure to comply with the rules could result in criminal penalties of up to three years' imprisonment, or $27,000 in fines. The F.A.A. said it would work with local law enforcement to enforce its rules. The agency already has guidelines that restrict drones to be flown above 400 feet, at night and within five miles of an airport.

Very Respectfully,

Cornelius C. Miller

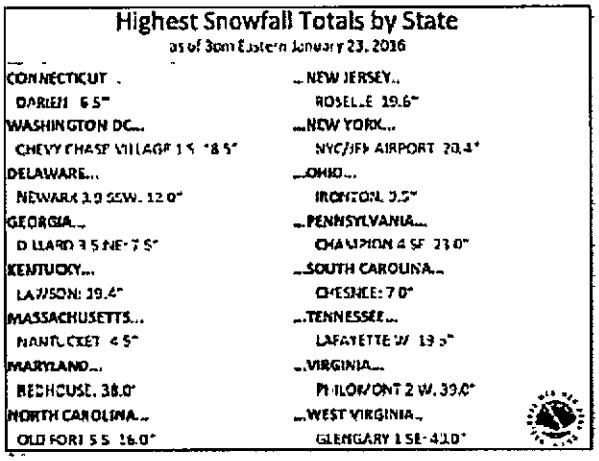
Massive Snowstorm Pounds East Coast

(NBC Chicago)

National: A blizzard with hurricane-force winds brought much of the East Coast to a standstill Saturday, stranding tens of thousands of travelers, flooding some coastal areas and shutting down the nation's capital and its largest city. The storm was expected to dump as much as 3 feet of snow in some places as authorities warned drivers to stay off the roads. The storm, which knocked out power to tens of thousands and caused more than 10,000 flight cancellations.



At Least 18 Snowstorm-Related Deaths Reported

(AP)

Mid-Atlantic United States: East Coast officials have blamed Winter Storm Jonas for the deaths of at least 18 people since Friday, according to the Associated Press. After days of weather warnings, most of the 80 million people in the storm's path heeded requests to stay home and off the roads, which were largely deserted. Yet at least 18 deaths were blamed on the weather, resulting from car crashes, shoveling snow and hypothermia. And more snow is to come, with dangerous conditions expected to persist until early Sunday, forecasters warned. The Mayor of New York City said at least three people died in the city from shoveling sidewalks. At least three people died in Virginia as a result of the massive blizzard. Two people were killed by hypothermia; the third died from a car crash, according to CNN. So far, six people have died in North Carolina -- all a result of car wrecks on slippery roads. In Prince George's County, Maryland, a Fort Washington man died after he was found in cardiac arrest from shoveling snow, local police said.

Ice, Flooding Remain Major Concerns As Storm Eases

(CNN)

Mid-Atlantic United States: The massive winter storm that struck the East Coast is heading out to the Atlantic, but the trouble is not over yet. Crews are scrambling to clear the roads before the work-week starts. While the sun and rising temperatures expected in some areas Sunday may help cleanup efforts, meteorologists are worried about ice, which could make roads more hazardous. Washington, D.C., and New York are expected to see sunshine Sunday -- and temperatures just above freezing. Those conditions will help plows clear snow. However, with below-freezing temperatures expected to return Sunday evening, the melted snow may ice over and turn into black ice. And in the New

Jersey coast, flooding is a major concern as residents keep a wary eye on rising waters. The storm has brought more than three feet of snow to some areas and grounded thousands of flights and shut down travel in New York City. But snowfall in most of the major cities affected will likely finish early Sunday morning, except for some isolated flurries, a CNN meteorologist said.

Public Health

Case of Whooping Cough Reported at Suburban High School

(NBC Chicago)

Illinois: A case of whooping cough, also known as pertussis, has been reported at a northwest suburban high school. The Cook County Department of Public Health confirmed Saturday that a 17-year old student from Glenbrook North High School was infected with the illness. A spokesperson from District 225 in Northbrook told the Chicago Tribune that the student last went to school on Jan. 14. Since then, there have not been many chances for the illness to spread, according to the report. Students had Friday Jan. 15 off for a reserved snow day, and Monday Jan. 18 off for Martin Luther King, Jr. Day, according to the school's website. The next three days were reserved for final exams, and students also had Jan. 22 off for an institute day.

Water

Ohio EPA, Sebring Officials Dispute Notice Of High Lead Water Levels

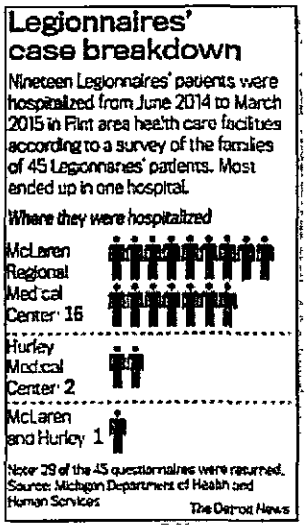
(WKYC)

Ohio: Stacks of bottled water, shipped in by the Ohio Emergency Management Agency, sit piled up at the Sebring Community Center, as high as many of the people there are tall. Everyone in Sebring, a small town about 70 miles southeast of Cleveland, is being warned not to drink the tap water, after some samples from homes turned up unsafe levels of lead. Now the big question is: How long did the Ohio EPA and Sebring city leaders know before residents did? City Manager, Richard Giroux says, "The first the notifications were discussed with the EPA and my staff was (Thursday) morning." But not so, says Heidi Griesmer, deputy director of communications for the Ohio Environmental Protection Agency. The Ohio EPA listed a Dec 3, 2015 lead advisory warning for Sebring on their online advisory list and sent a letter to Giroux dated Dec 3. On Friday, Griesmer told WKYC Channel 3 News that "While the Village of Sebring has a clean drinking water source, it is apparent from their recent tests that lead is seeping into the drinking water of certain homes. The village needed to take some steps to address this issue and alert its customers, and when this didn't occur, we issued them a notice of violation." Residents just learned that seven of 40 homes tested turned up lead levels higher than EPA standards. Restaurants stopped serving water. Schools were closed Friday as a precaution.

Hospital Ties Legionnaires' To Flint Water

(Detroit News)

Michigan: Flint's contaminated water likely contributed to the Legionnaires' disease outbreak in Genesee County, where the bacteria was found in a hospital's water supply, an expert for McLaren Regional Medical Center said. Water testing during the outbreak found Legionella bacteria at the Flint hospital, where an expert on the disease concluded the organism likely came from the city's tainted water. Further, a state analysis showed that a high number of those diagnosed with Legionnaires' in Flint had been patients at McLaren Flint in the 14 days prior to showing symptoms. Gov. Rick Snyder on Jan. 13 reported a spike in cases of the deadly disease in Genesee County, but he and state health officials said it was unclear if it was tied to Flint's water crisis. The state reported 87 cases, including nine deaths, in the months after Flint started drawing corrosive water from the Flint River instead of the Detroit Water and Sewerage Department.



1 Dead, 11 Hospitalized After Listeria Outbreak Linked To Packaged Salad
(21alive)
National: A multi-state listeria outbreak has killed one person and hospitalized 11 others, according to the U.S. Centers for Disease Control and Prevention. People have been sickened by the listeria bacteria in Michigan, Massachusetts, Indiana, New Jersey, Pennsylvania and New York, the CDC said today, noting that the largest reported outbreak so far has been in New York, where four people fell ill. Listeria can be a notoriously difficult food-borne illness to track because the incubation period is between 3 days and 70 days. The bacteria can also survive colder temperatures in a fridge. A multi-state listeria outbreak has killed one person and hospitalized 11 others, according to the U.S. Centers for Disease Control and Prevention. People have been sickened by the listeria bacteria in Michigan, Massachusetts, Indiana, New Jersey, Pennsylvania and New York, the CDC said today, noting that the largest reported outbreak so far has been in New York, where four people fell ill. Agriculture and Food
Dole salad products pulled from local shelves amid listeria outbreak, voluntary recall issued
(Centre Daily)
National: Dole Fresh Vegetables is recalling various bagged salad products sold under several brands in Centre County stores, according to a press release issued Saturday. Various bagged salad items are being recalled from Giant Food Stores, Wal-Mart, Sam's Club and other local grocery retailers. Items can be identified with a product code beginning with the letter "A" in the upper right-hand corner of the package, just below the best-by date. The Centers for Disease Control and Prevention on Friday said 12 people in six states have been hospitalized in the outbreak since July after eating salads sold under the names Dole, Fresh Selections, Simple Truth, Marketside, The Little Salad Bar and President's Choice. Packaged salads produced at a Dole facility in Ohio are linked to one death in Michigan, the CDC said Friday. Dole has since stopped production in the facility, the CDC said, after learning Thursday the plant was the source of the outbreak.

D.C. Requests FEMA Assistance; Federal Offices In NCR To Remain Closed Tuesday
(ABC)

National Capital Region: The District of Columbia will be seeking funding from the Federal Emergency Management Agency (FEMA) to help pay for cleanup after the area was hit with 18 inches of snow this weekend. At a press conference Monday, city officials asked for federal assistance in clearing its 4,400 miles of road. A senior D.C. official said the city will be "dealing with snow all of this week," and crews are working to clear major roadways. Officials say they are getting some help from outside the city, such as a snow melter from Indiana and other equipment from Connecticut. The Office of Personnel Management (OPM) announced that federal government offices in the National Capital Region (NCR) will remain closed Tuesday.

Water

Ohio EPA Temporarily Closes Sebring Schools, Conducts Tests After Unsafe Levels Of Lead Found In Water Supply
(CNN)

Sebring, Ohio: Schools in Sebring are closed Monday as the Ohio Environmental Protection Agency (EPA) conducts additional water tests. The Ohio EPA has warned some residents not to drink tap water after samples from homes and schools showed unsafe lead levels in Sebring. Tests showed lead levels at 21 parts per billion in some homes, according to a spokeswoman for the Ohio EPA. Federal authorities require the levels not to exceed 15 parts per billion. The Ohio EPA said it's taking steps to revoke the license of the Sebring water treatment operator in the wake of the water crisis. "We have asked for assistance from the federal EPA's criminal investigation division," the spokeswoman said. It's unclear when the town's lead problem started, but a water advisory alert for pregnant women and children was posted December 3 on the Ohio EPA website. Sebring has made tremendous progress since then, according to the spokeswoman. New water sampling results show that only three of 28 homes affected remain above the federally-mandated level for lead, the Ohio EPA said. In addition, 15 water samples taken at three local schools show that all but one have lead levels that meet federal standards. The Ohio EPA said it will not lift its drinking water advisory for pregnant women and children until two rounds of successful sampling in consecutive six-month periods. The Ohio EPA said it suspects lead may be seeping into water from distribution lines and old homes with lead pipes, according to WFMJ. "While the water system has a clean water source and supply, it is still unacceptable that a few individual homes are experiencing corrosion that is causing high levels of lead," said a senior Ohio EPA official. The state agency said it has ordered Sebring to continue water testing and provide health screenings and bottled water or filtration systems to homes with unsafe lead levels.

Flint water crisis leaves city finances in 'very precarious situation'
(MLive)

Michigan: Flint officials say the city is in a "very precarious situation" as a growing number of people are refusing to pay for water service. City Administrator Natasha Henderson told city council members Monday, Jan. 25, that the city's water utility could be out of money by the end of the year as Flint's public health emergency drives down collections on water bills. "This is an imminent concern," Henderson said. She added that conservative estimates say the water fund will be out of cash by December. "That has a tremendous impact on the city's ability to be fiscally sustainable," Henderson said. However, the city's financial state seems to draw little sympathy from residents who already pay water

rates that are dramatically higher than the city's neighbors and continued to be charged service fees for a product they are being told shouldn't be consumed without filtration. More than 60 people protested in front of city hall on Monday before the meeting. Many of the protestors were disgusted with the fact they are still being billed for water service.

Michigan AG Appointed Prosecutor to Lead Flint Water Probe
(ABC)
Michigan: Michigan's Republican attorney general named a former prosecutor to spearhead an investigation into the process that left Flint's drinking water tainted with lead, though Democrats questioned whether the special counsel would be impartial. Attorney General Bill Schuette said Monday that Todd Flood, a former assistant prosecutor for Wayne County, which includes Detroit, will lead the probe and be joined by Andy Arena, a retired head of Detroit's FBI office. Schuette said the two would play key roles in the investigation and prevent conflicts of interest since the attorney general's office also defends the state. Both will report to Schuette, who promised they would provide an "experienced and independent review of all the facts and circumstances." He dismissed any concerns about Flood, who is now in private practice and has donated to candidates from both parties, including the maximum allowable amount to Schuette. "I don't care who he (Flood) has given money to, Republican (or) Democrat. It doesn't matter," Schuette said. "This is about conducting a thorough, exhaustive, complete investigation. That's what we're doing." It is unclear at this point if the probe could result in criminal or civil charges. The investigation could focus on whether environmental laws were broken or if there was official misconduct in the process that left Flint's drinking water contaminated.

Emergency Water In Flint Is Not Reaching Undocumented Immigrants
(Gawker)
Michigan: Up until just about today, the outpouring of reporting from Flint, Mich. had forgotten the stories of the people it's easiest to forget: undocumented immigrants. But this afternoon, several articles were published within hours of each other focusing on the specific plight faced by the undocumented in Flint. Though the water crisis there has reached a point in the national consciousness where Diddy and Mark Wahlberg have announced that they're sending 1 million bottles of water (produced by a company they invest in) to the city, it remains a challenge for Flint's undocumented residents to access information and supplies necessary to protect themselves and their families. Those bottles of water, which are being given out across Flint as the city assess the exact extent to which its water system is damaged, are not reaching every hand. As you can read in Vox, some state-run water bottle dispensaries have been requiring people to show ID before they can walk away with any water. The logic behind this, I guess, is so that people from neighboring towns can't come to Flint and take water bottles not meant for them, but those people have access to clean water, so what would they care? In any event, this system leaves out a whole a strata of people: poor folks, the homeless, and, primarily, undocumented immigrants.

Public Health
Illinois Monitoring 4 Counties To Guard Against Bird Flu
(WIFR 23)
Illinois: State agriculture officials say they're keeping close watch over four counties in southeastern Illinois to guard against the possible spread of bird flu from Indiana. More than 414,000 turkeys and chickens have been killed at 10 southwest Indiana farms affected by the bird flu outbreak. Testing will continue for weeks to determine if the outbreak of the H7N8 strain is contained. That strain is different from one that led to the deaths of more than 48 million birds last summer. Illinois Department of Agriculture spokeswoman Rebecca Clark says there have been no reports of bird flu in Illinois, which has strict biosecurity policies in place, including a ban on out-of-state birds from fairs.

Zika virus to spread to all but 2 countries in the Americas, WHO predicts
(CNN)
Globe: The World Health Organization anticipates that the Zika virus will spread to all but two countries in South, Central and North America. The mosquito-borne disease has raged in South America and other regions for several months. Twenty-one countries and territories of the Americas have reported cases of the virus since Brazil reported the first cases of local transmission in May 2015, WHO's regional office for the Americas said in a statement. "Aedes mosquitoes -- the main vector for Zika transmission -- are present in all the region's countries except Canada and continental Chile," the statement said. The virus has been linked to an uptick in babies born with a neurological condition called

microcephaly, which can cause abnormally small heads and serious, sometimes deadly, developmental delays. The WHO attributed the virus' rapid spread to the fact that people in the Americas lack immunity because they haven't been exposed to it before. There is no prevention or treatment for the disease. Travelers to hazardous areas are urged to prevent mosquito bites by using repellent and covering exposed skin.

Possible Bomb at Intersection in Muncie, Indiana

(Guardian Liberty Voice)

Indiana: In Muncie, on Jan. 25th, a report was made concerning a suspicious package left near the intersection of White River Boulevard, White River Road, and South Hawthorne Road. The emergency response team, including the Delaware County Bomb Squad, closed off the three roads. People may have to follow a detour if they need to get through that area. The package was 200 yards east of Hawthorne and either on or near a bench that overlooks the north riverbank, west of the Suzanne Gresham Center. According to Sheriff Ray Dudley, the call was made by someone walking by who saw that the package contained a white device and wires. The caller also stated the package was ticking or beeping. According to officials, the package was making fast and high-pitched beeping sounds. The mysterious beeping package was successfully blown up and did not cause a chain-reaction.

International

EU Police Warn ISIL Planning 'Large-Scale' Attacks On Europe

(Yahoo! News)

Europe: The Islamic State (ISIL) group has honed the ability to launch global attacks and is set to focus more on Europe following the Paris massacre, a senior official with the European Union (EU) police agency Europol said Monday. He said ISIL "had developed a new combat style capability to carry out a campaign of large-scale terrorist attacks on a global stage -- with a particular focus in Europe." ISIL "has a willingness and a capability to carry out further attacks in Europe, and of course all national authorities are working to prevent that from happening," he added. The official was unveiling the findings of a new Europol report on changes in how the jihadist group operates. ISIL "is preparing more terrorist attacks, including more 'Mumbai-style' attacks, to be executed in member states of the EU, and in France in particular," the Europol report said. "The attacks will be primarily directed at soft targets, because of the impact it generates. Both the November Paris attacks and the October 2015 bombing of a Russian airliner suggest a shift in [ISIL] strategy towards going global." ISIL has developed an "external action command" which was trained for "special forces-style attacks" internationally, the report said. The report played down fears that jihadists were smuggling themselves into Europe as part of the huge wave of refugees and migrants that the continent is dealing with, many of whom are fleeing the war in Syria. "There is no concrete evidence that terrorist travelers systematically use the flow of refugees to enter Europe unnoticed," it said. It warned however that many new arrivals were vulnerable to radicalization or recruitment, with evidence that extremist recruiters were specifically targeting refugee centers.

Winter Storm Coming Next Week

(Fox11)

Great Lakes: A major storm is currently in the Pacific Ocean, and it is expected to sweep from the Central Plains into the Great Lakes ***Tuesday and Wednesday next week,*** February 2nd and 3rd. This storm will bring heavy snow and very strong winds to our region, but we just aren't sure where the biggest impact will be yet. Right now the storm is too far out to be able to attach snowfall forecast numbers or narrow down the snow bands. It will be at least Sunday before we are able to get more specific with this storm system. This far away, there are many small factors that could greatly impact the forecast. The biggest of those factors is the exact path of the storm. If the storm goes further south than expected, we get less moisture and less snow. If the storm moves further north, we may have more moisture but it could change the precipitation from snow over to rain. Even if the path of the storm is very close to the "ideal" path, we may have a layer of dry air wrap around the storm and prevent snowflakes from developing. Also with an intense storm the rain / snow line may push far enough northward to change the precipitation toward rain. ***There are too many variables, and it is too early to give any accurate forecast for this storm.***

Mich. Gov. Snyder Convenes Interagency Committee On Flint Water

(AP)

Michigan: Governor Rick Snyder has convened the first meeting of a panel that will work on finding solutions for Flint residents whose drinking water is contaminated with lead, something he calls a "terrible tragedy." The Flint Water Interagency Coordinating Committee is a 17-member panel that will make recommendations regarding the health of people exposed to lead, study Flint's water infrastructure, and establish ways to improve communication between local and state government. Snyder told committee members it presents an opportunity to "leverage the resources" each brings. The committee includes Flint Mayor Karen Weaver, Virginia Tech professor Marc Edwards, who has extensively studied the issue in Flint and elsewhere, and Dr. Mona Hanna-Attisha, who is credited with bringing the problem to the public's attention after state agencies initially dismissed her concerns.

Michigan Governor Extends State Of Emergency For Flint Water Crisis

(Reuters)

Michigan: The Michigan Governor on Thursday extended a state of emergency in Flint until Apr.14, as the Michigan legislature gave final approval of $28 million to address the drinking water crisis. The Governor's move approved by the state legislature means the state emergency declaration will continue as long as the federal emergency declaration issued earlier this month. The state declaration was originally set to end Feb. 1. The $28 million approved by the state will be used to provide bottled water and other supplies, put nurses in local schools and more.

Kids' Lead Levels High In Many Michigan Cities

(Detroit News)

Michigan: Across Michigan, in cities large and small, lead poisoning continues to plague children, limiting them in school and on the playground. While much of the state's focus on lead has rightly been on poisoned water in Flint, the metal continues to turn up annually in the bodies of thousands of children across the state, at percentages well above the

numbers that raised red flags in Flint. Elevated blood-lead levels are seen in a higher percentage of children in parts of Grand Rapids, Jackson, Detroit, Saginaw, Muskegon, Holland and several other cities, proof that the scourge of lead has not been eradicated despite decades of public health campaigns and hundreds of millions of dollars spent to find and eliminate it.

Train Cars Being Removed From Mississippi River After Derailment; New Track Laid

(KFGO)

Brownsville, Minnesota: Canadian Pacific (CP) Railroad crews have started removing the six tanker cars that derailed into the Mississippi River in southeastern Minnesota. A CP spokesman said a new track has been laid south of Brownsville where 15 cars derailed Tuesday night. The six cars that landed in the river carried soybean oil. The CP spokesman says three cars will be emptied Thursday and the other three on Friday before the cars are removed from the water. One of the cars did leak some soybean oil, but the spokesman said they repositioned the car so that the valves were pointed upward and it's no longer leaking. Workers replaced the valves with metal plates. The remaining derailed cars are being removed, including three containing sodium chlorate, which is being pumped into new tank cars.

Zika Virus 'Spreading Explosively' in Americas, W.H.O. Says

(NY Times)

The World Health Organization rang a global alarm over the Zika virus on Thursday, saying that the disease was "spreading explosively" in the Americas and that as many as four million people could be infected by the end of the year. The global health agency will convene a special meeting on Monday to decide whether to declare a public health emergency. It is moving swiftly to combat this outbreak after widespread criticism that it had allowed the last major global health crisis, Ebola, to fester without a coordinated, effective strategy. Since last spring, more than 20 countries have reported locally acquired cases of Zika, which is transmitted by mosquitoes and may cause birth defects. "The level of alarm is extremely high," said Dr. Margaret Chan, the director general of the W.H.O., in a speech in Geneva.

EPA Finds State And City Response To Flint Water Crisis 'Inadequate'
(The Inquisitr)
Michigan: The U.S. Environmental Protection Agency (EPA) announced Friday that the state of Michigan and city of Flint have not done enough to address growing concerns over extremely poor water quality and high lead levels, reported the Detroit Free Press. Specifically, the EPA cited Flint's lack of qualified personnel at the city's public water plant. "Following up on the EPA's emergency order of Jan. 21, water enforcement division Director Mark Pollins wrote state and city officials on Friday, saying that... there continued to be 'significant issues that need immediate attention.'" This includes ensuring that there are adequate staff levels at the Flint water treatment plant, as well as developing a comprehensive plan to ensure corrosion treatments are adequate and will prevent more lead from leaching into resident's water via old water lines. Pollins also revealed that Flint will remain unable to switch to a new water source until plans are in place to control the corrosion and the system has obtained the necessary staffing and expertise to properly operate the plant, CNN reported.

Washington spotlight focuses again on Flint water crisis
(Michigan Radio)
Flint's drinking water crisis is getting more attention from Washington. Two senior members of Congress are due in Flint Monday. House Minority Whip Steny Hoyer and Maryland Representative Elijah Cummings are the latest members of Congress to visit Flint in recent weeks. They will be joined by Michigan representatives Dan Kildee, D-Flint; Debbie Dingell, D-Dearborn; and Brenda Lawrence, D-Southfield. They will meet with Flint business leaders and get a briefing from federal officials on what's being done to address Flint's lead-tainted drinking water. Congress has stalled a proposal to spend hundreds of millions of dollars to repair Flint's broken water system and treat residents poisoned by lead that leached from pipes into their drinking water.

Weather and Impacts

Ice Jam Causes Flooding In Grant County, WI
(Social Media)
Grant County, Wisconsin: An ice jam on the Grant River Saturday morning caused minor flooding of farmland in south central Grant County, the Dubuque Telegraph Herald reported Sunday. Meanwhile, the National Weather Service has warned that saturated soil likely will lead to flooding in some areas. The Grant County Sheriff's Office said a large ice jam along County Road N. and Dugway Road north of Burton pushed chunks of ice up along the river bank, flooding low-lying agricultural land. A Grant County 911 dispatcher said the Sheriff's Office and the National Weather Service in La Crosse were monitoring the situation Saturday. No bridge damage or roadway flooding was reported. The river level rose from 9.6 feet Friday night to 19 feet by 3:30 a.m. local time Saturday; the flood stage is 18 feet. A hazardous weather outlook has been issued for Dubuque, Clayton, Delaware, Jones and Jackson counties in Iowa; Jo Daviess County in Illinois; and Crawford, Grant, Iowa and Lafayette counties in Wisconsin. The service warns of an elevated risk for ice jams and river flooding and early this week for Iowa tributaries, including the Maquoketa and Wapsipinicon rivers, and portions of the Mississippi River from the Quad Cities south.

Environmental/Chemical/HAZMAT

Nearby Residents Evacuated As Bomb Squad, ATF Work To Remove Explosive Materials, Chemicals From Home
(WISN 12 News)
Waldo, Wisconsin: Police responding to reports of an explosion Saturday discovered materials for explosives, fireworks and unknown chemicals in the home of a Waldo man on parole. Officers arrived around 4:45 p.m. local time Saturday to the home near 2nd and Harmon streets. They noticed that porch windows of his home were broken and seemed to have been blown out. The suspect was taken into custody for violating his parole. The suspect is on parole for a 2008 conviction of improvised explosives, and in that case, he was found to have owned a large amount of explosive chemicals. A Milwaukee County Sheriff's Office bomb squad was called to the scene Sunday morning along with several other agencies to help with the investigation. The bomb squad began a search of the home and called for neighboring homes to be evacuated as responders worked to move large amounts of firework-making materials and chemicals. The Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) is assisting the bomb squad and the Sheboygan County Sheriff's Office in the investigation.

Suspect Reportedly Uber Driver, Took Fares Between Incidents
(AP)
Kalamazoo, Michigan: A man suspected of shooting eight people in the Kalamazoo area, killing six, was an Uber driver who was apparently taking fares in between opening fire at various locations, police said Sunday. Authorities are investigating reports that the suspect dropped off a group of people at a Fairfield Inn in Texas Township, then went next door to the Cracker Barrel and opened fire on two vehicles, killing four people. A woman at the hotel said she heard about 10 shots, then ran outside and saw the suspect driving away from the Cracker Barrel at a normal rate of speed. A Kalamazoo County prosecutor confirmed that authorities are looking to a Facebook post by some apparent Uber passengers who were in the suspect's vehicle when he was allegedly involved in a sideswipe hit-and-run crash, ran at least one stop sign and was driving erratically just before the shootings. Authorities said the suspect was in contact with more than one person during the ongoing rampage but would not elaborate about what kind of communication that involved. But authorities still cannot say what may have prompted the suspect, who has no criminal record, to randomly prey on victims who had no connection to him.

FEMA Region V Overnight Situational Awareness Report (OSAR)
DATE: 01/08/2016

REGION V RESPONSE STATUS:
- **RRCC:** *Watch / Steady State*
- **IMAT:** Red
  - **Collateral IMAT:** Alpha
- **LNO:** Cornelius Miller

REGION V SEOC STATUS:
- **Illinois:** Partial Activation: 0700-1900 *(Flooding)*
- **Indiana:** Normal Operations
- **Michigan:** Full Activation *(Flint - Drinking Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS)**:** No active alerts.
- Bulletin *(12/16/2015 – 06/16/2016)*

NOTEWORTHY EVENTS: Nothing to report.

SIGNIFICANT WEATHER (NWS, SPC)**:**
- **Overnight:** A light wintry mix continued mainly through portions of Michigan, Minnesota and Wisconsin. No significant impacts were noted; however, travel conditions may be hazardous in some areas and motorists should use caution.

- **Friday:** Mixed winter weather is forecast to continue across the Region. Snowfall between 2-4 inches is expected across southern Minnesota, northern/northwest Wisconsin and western Upper Michigan. Freezing rain up to a quarter of an inch is possible in central Lower Michigan and northern Indiana and Ohio; remainder of the Region could get up to a tenth of rainfall.

- **Saturday:** Snowfall (about 2 inches) is possible during the night time across Illinois, northwest Indiana and Lower Michigan; initially beginning as rainfall then mixing with light snow and eventually changing to snowfall overnight. Precipitation up to an inch is expected in Illinois and Indiana mostly, with other portions of the region receiving scattered lower levels of rainfall.

HYDROLOGIC CONDITIONS (AHPS)**:** Flood Warnings remain in effect along many rivers in Illinois and Indiana. Currently, eight (8) river gauges are at Major Flood Stage along the Illinois and Ohio Rivers. All river gauges across the flood area are receding with no additional flooding expected at this time.

FIRE CONDITIONS (SPC)**:** Nothing to report.

REGION V DISASTER SUMMARY:

- **PDA Requests:** None
- **Declaration Requests:** None
- **Disaster Declarations:** None

- **Indiana:** Partial Activation *(LPAI Outbreak)*
- **Michigan:** Full Activation *(Water Emergency)*
- **Minnesota:** Normal Operations
- **Ohio:** Normal Operations
- **Wisconsin:** Normal Operations

NATIONAL TERRORISM ADVISORY SYSTEM (DHS): Bulletin (12/16/2015 – 06/16/2016)

NOTEWORTHY EVENTS: Nothing significant to report.

SIGNIFICANT WEATHER (NWS, SPC): Winter Weather Advisories will be in effect across western Lower Michigan and eastern Upper Michigan from 1900 CST this evening until 0600 CST Thursday; up to 4 inches of blowing snow may result in hazardous driving conditions. No other significant weather is forecast through Friday.

HYDROLOGIC CONDITIONS (AHPS): Flood Warnings and Advisories remain in effect in Illinois. No significant impacts have been reported and none are forecast.

FIRE CONDITIONS (SPC): Nothing significant to report.

REGION V DISASTER SUMMARY:
- **Declaration Requests:** None
- **PDA Requests:** None
- **Disaster Declarations:** FEMA-3375-EM provides emergency assistance for water, water filters, water filter cartridges, water test kits and other necessary related items for a period of no more than 90 days for Genesee County.

Battle over dumping sediment in Lake Erie doesn't appear settled even after Congress weighs in
(Associated Press)

Toledo, Ohio: A long-running battle over dumping sediment dredged from Cleveland's harbor into Lake Erie still doesn't seem settled even after Congress weighed in on the debate. Ohio's environmental regulators and the federal agency that maintains the lake's shipping channels have been locked in an argument for years over what to do with the tons of mud, soil and sand. And both sides don't appear to be budging. Congress in late December approved a bill that included a stipulation preventing the U.S. Army Corps of Engineers from dumping hazardous dredged material in the lake without meeting requirements set by the state. The director of the Ohio Environmental Protection Agency, Craig Butler, said Congress has now joined the Legislature and regulators in telling the federal agency that it can't dispose of the sediment in the lake if it's not safe. "I don't understand how the Corps cannot clearly get that message," he said. Army Corps spokesman Bruce Sanders said Tuesday that the agency has no plans to put dredged sediment in the lake without a water-quality certification. But the head of the agency's district based in Buffalo, New York, still believes some of the sediment from the Cuyahoga River is safe to put in the lake based on its scientific research, an assertion disputed by the Ohio EPA. "Our proposal is safe for drinking water, protective of the environment, and in the best interest of the American taxpayer," Lt. Col. Karl Jansen, commander of the Buffalo district, wrote in a letter last November. Ohio officials are reviewing the request from the Army Corps for a water-quality certification that would allow the agency to dump sediment in the lake.

Water Sector

Spike in Legionnaires' disease cases may be related to Flint water crisis
(WXYZ Detroit)

Flint, Michigan: During a press conference to provide updates on the Flint water crisis, health officials said they have been monitoring a spike in cases of Legionnaires' disease cases near Flint. Health officials were joined by Michigan Governor Rick Snyder as they announced that there have been 10 deaths related to 87 documented cases of Legionnaires' disease in Genesee County over about the last year and a half.
Officials say it is not yet clear whether the Legionnaires' disease cases are related to the water crisis that also left high lead levels in Flint water. Health department representatives said they believe water in Genesee County is still safe to bathe in.

Chemicals continue to decline in east-metro drinking water
(Star Tribune)

Minnesota: Levels of perfluorochemicals (PFCs) in the blood of longtime east-metro residents continue to decline, 10 years after steps were taken to reduce those chemicals in drinking water to levels that posed no health risk, the Minnesota Department of Health said this week. Findings from the East Metro PFC3 Biomonitoring Project confirm that efforts to reduce PFCs in drinking water are working, state health officials concluded in their report. Another key finding was that PFC levels in people who since 2006 had moved to Oakdale, one of the cities of concern, are similar to levels seen elsewhere in the U.S. "Levels in longtime residents went down by 35 percent to 60 percent from what they were in 2008," said Jessica Nelson, the project's lead investigator. "While still above average U.S. levels, they are getting closer. It's certainly good news that levels in long-term residents continue to drop as we'd expect them to and that newer residents don't appear to have unusual exposures to PFCs."

Law Enforcement and Intelligence

Schools locked down after man spotted nearby with weapon
(MLive)
Hamtramck, Michigan: Hamtramck Public Schools officials say five schools and a charter school were placed on lockdown about 11:45 a.m. Wednesday. By 12:45 p.m. Wednesday, all of the schools, except Horizon High School, had been reopened as usual, according to a representative in Superintendent Tom Tom Niczay's office. It's unclear if the charter school had reopened. The representative said Hamtramck police called administrators after receiving a report of a man spotted near Hamtramck High School with "a weapon." Police representatives at 12:45 p.m. said they were making no public comment and would not reveal what type of weapon the man was reported to have been carrying.

Critical Infrastructure Sector

Three water main breaks hit West Toledo area
(The Blade)
Toledo, Ohio: Three water mains broke early Wednesday in West Toledo, apparently when the ground shifted as it froze, authorities said. Toledo police received the report of a water main break on Adelaide Drive near West Alexis Road at 1:10 a.m. The other two incidents, one in the 5100 block of Sheila Drive and the other in the 5300 block of Amsden Avenue, also occurred early in the morning, said Christy Soncrant, the administrator of the city's division of water distribution. The break on Adelaide disrupted water service to 25 customers, said Janet Schroeder, a city spokesman. The outage had been repaired by about 8:45 a.m. The Sheila incident affected 34 customers, who all had their service restored, Ms. Soncrant said. The Amsden break did not affect any customers, she said. All three water mains are made of cast iron and are 6 inches in diameter and were installed in 1949, 1956, and 1929 respectively.

Public Health and Safety

Flu season significantly milder this year
(The Blade)
Lucas County, Ohio: Local health officials are cautiously optimistic that this flu season could be one marked by far fewer severe illnesses. There have been only 10 hospitalizations in Lucas County attributed to the flu virus. At this time last year, 206 people had been treated in area hospitals for influenza-related illnesses. There have been no reported deaths from the virus in Lucas County this flu season. There were five flu-related deaths reported in each of the previous two flu seasons. The unusually mild winter weather in northwest Ohio in December allowed people to spend more time outdoors, and that appears to be a key factor why fewer have been stricken.

Communications/Information Technology Sector

Android banking Trojan "SlemBunk" targets users worldwide
(Security Week)
International: SlemBunk was first analyzed by FireEye in mid-December. The security firm noted at the time that it had identified 170 SlemBunk samples designed to target the users of 33 applications offered by financial institutions and service providers in North America, Europe and the Asia-Pacific region. The apps hiding the Trojan are distributed via malicious and adult websites, the threat being disguised as legitimate applications such as Adobe Flash Player. Once it infects an Android device, the malware monitors running processes and when a process associated with a targeted application is detected, it displays a customized phishing page designed to trick the victim into handing over sensitive information.

Intelligence Chief James Clapper's Online Personal Accounts Hacked
(NBC News)
National: Just months after reports that someone hacked CIA Director John Brennan's personal email, a U.S. intelligence official is confirming that online personal accounts linked to Director of National Intelligence James Clapper also have been hacked. DNI spokesman Brian Hale said Tuesday that Clapper's office is aware of the hacking and has reported the incident to appropriate authorities. He declined to provide other details. An individual who spoke only on condition of anonymity said that the Office of the Director of National Intelligence was aware of the hacking incident before it was first reported Tuesday by Motherboard, an online magazine and video channel on science and technology. Brennan said in October that he was outraged that someone hacked his personal email account and publicized sensitive data, including his contact list and his wife's Social Security number. The hacker has said he is a high school student protesting U.S. policy. He said he fooled Verizon into providing him access to Brennan's account. Brennan denied any impropriety on his part and said the hacking incident underscores that everyone is vulnerable to the compromise of personal information on the Internet.

Regional Weather and Impacts

Approaching winter storm brings widespread air and rail travel impacts
(NBC News)
National: "Historic" is an overused word, but it applies to the blizzard that's coming for the national capital region, large parts of which could get more than 30 inches of snow over the weekend. American Airlines canceled all of its Friday flights out of the Washington, Baltimore and Charlotte, North Carolina, airports, among almost 2,000 arrivals and departures that had already pre-emptively been scrubbed at airports up and down the Eastern seaboard. Two days in advance, more than 1,250 arrivals and departures had already been taken off the board for Saturday. Amtrak canceled several national services for Friday, Saturday and Sunday, including Crescent service from New York to New Orleans, Cardinal Service from New York to Chicago and Silver Meteor service from New York to Miami.

Water Sector

More money for water improvement added to federal budget
(The Blade)
National: The federal government is investing more money this year to help local governments improve their water systems, and about $80 million will go to Michigan next week, President Barack Obama told the nation's mayors today. The city of Flint, Michigan, has generated national attention because of high levels of lead in the water supply. The city's water source had been changed from Detroit's water system to the Flint River in a cost-cutting move and the water was not properly treated to keep lead from leaching into the supply. Obama said the additional money for cities came as a result of the bipartisan budget agreement that Congress passed in December. The White House said the administration moved to make sure the money is available to Michigan much more quickly than normal, though it is unclear how much, if any, of the money would go to Flint. States use the federal funding to make low-cost loans to local governments for drinking water and wastewater construction projects and have significant freedom in how they prioritize the projects.

EPA official "stunned" by failure to treat Flint water for lead leaching
(MLive)
Flint, Michigan: A U.S. Environmental Protection Agency official who sounded a dire warning about toxic lead in Flint's drinking water seven months ago says he couldn't believe the water wasn't being treated to make it less corrosive to lead service lines and indoor plumbing. "I was stunned when I found out they did not have corrosion control in place," Miguel A. Del Toral, regulations manager in the EPA's ground water and drinking water branch, said in an interview with The Flint Journal-MLive today, Jan. 21. "In my head, I didn't believe that. I thought: That can't be true...that's so basic. That's not possible." Del Toral wrote an interim report on high levels of lead in Flint water on June 24, 2015, months after other EPA officials had warned the state Department of Environmental Quality that the chemistry of Flint River water was appeared to be causing transmission pipes to leach contaminants such as lead into the water supply. The interim report also pointed to problems with Flint's water sampling methods, including pre-flushing before collecting samples in homes, a practice that he said underestimated lead levels and allowed city and state officials to tell residents their water met state and federal guidelines.

EPA orders state action on Flint water
(Detroit News)
Flint, Michigan: The nation's top environmental official ordered Michigan on Thursday to take "immediate action to address serious and ongoing concerns" with Flint's drinking water system.

The U.S. Environmental Protection Agency invoked its authority to compel action when "an immediate and substantial endangerment exists" and "local authorities are inadequate to protect public health." "EPA has determined that the City of Flint's and the State of Michigan's responses to the drinking water crisis in Flint have been inadequate to protect the public health and that these failures continue," the order reads. EPA Administrator Gina McCarthy addressed an accompanying letter to Gov. Rick Snyder, laying out specific steps that need to be taken to get the city's long-running lead contamination problems under control. She expressed concern over "continuing delays and lack of transparency," and directed the state to notify the EPA within a day of the state's intent to comply. "As you and I discussed, some progress has been made in addressing these recommendations, but there continues to be inadequate transparency and accountability with regard to provision of test results and actions taken, and those are critical for the people of Flint," McCarthy wrote. "In addition, there is an increasing concern about the capacity to carry out the recommended actions and to safely manage Flint's drinking water system."

EPA regional head resigns amidst criticism of Flint water crisis response
(MLive)
Chicago, Illinois: Susan Hedman, regional administrator for the EPA's Chicago-based region 5, resigned Thursday amidst mounting outrage over the Flint water crisis. Hedman's resignation is effective Feb. 1. "EPA Administrator Gina McCarthy has accepted given Susan's strong interest in ensuring that EPA region 5's focus remains solely on the restoration of Flint's drinking water," an EPA spokeswoman stated. While the Michigan Department of Environmental Quality has taken the brunt of criticism for its handling of the situation, Hedman was been attacked for downplaying concerns on her staff about the safety of Flint water. In particular, Miguel Del Toral, a water specialist at the EPA's Region 5 headquarters in Chicago, wrote a memo in June laying out the problems with Flint water. However, the final version of the memo left out Del Toral's criticisms that Flint was failing to follow federal regulations on corrosion control chemicals and testing for lead. On Tuesday, the EPA said it was reviewing its response to the situation in Flint. "Our first priority is to make sure the water in Flint is safe, but we also must look at what the agency could have done differently," the agency said in a statement

Environmental and HAZMAT Sector

Ammonia leak at soft drink bottling company quickly contained
(Cleveland.com)
Cleveland, Ohio: An accidental ammonia leak at the Coca-Cola bottling plant in Twinsburg Township Thursday was quickly contained by the Twinsburg Fire Department. The accident occurred about 3:15 p.m. at the plant on the 1800 block of Highland Road, according to a fire department news release. Plant officials told first responders that an electrical contractor who was installing new equipment accidentally nicked a small pipe, releasing a "leak of 40 lbs. of product from the 40,000 lb. tank," the release states. The plant was immediately evacuated, and emergency crews from Twinsburg as well as the Summit County Hazardous Material Team and Sheriff's Office came to the scene. Highland Road was temporarily shut down as a precaution, the release says. Within five minutes, a contractor for the ammonia system and Twinsburg fire officials shut down the leak using control valves, the release states. One worker was checked at the scene by paramedics for possible ammonia inhalation, but he refused transportation to a hospital, the release states. There were no other injuries reported and no hazard to surrounding businesses and buildings.

Law Enforcement and Intelligence

Suspicious package cleared at shopping mall
(14 News)
Evansville, Indiana: After investigating a suspicious package at Washington Square Mall Thursday, the EPD Hazardous Devices Unit determined it was not dangerous. The box contained poker chips. Police say a telemarketing company at the mall received the package. We're told the employees at the company called 911 because they weren't expecting the package and it looked odd. People are being kept away from south end of the mall while police investigate, but the mall is not shut down.

Communications/Cyber Sector

Flint hospital confirms cyber-attack as Anonymous threatens attacks over water crisis
(MLive)
Flint, Michigan: Hurley Medical Center has confirmed it was the victim of a "cyber-attack" a day after hacktivists threatened action over Flint's water crisis. The hospital confirmed the attack Thursday, Jan. 21, but few details were released. "Hurley Medical Center has IT systems in place, which aid in detecting a virus or cyber-attack," hospital

spokeswoman Ilene Cantor said. "As such, all policies and protocols were followed in relation to the most-recent cyber-attack on our system. Patient care was not compromised and we are closely monitoring all systems to ensure IT security is consistently maintained." The attack comes a day after hacktivist group Anonymous released a video threatening action against those responsible for the Flint water crisis. There has been no confirmation if the two events are connected.

Regional Weather and Impacts

Airlines cancel thousands of flights as winter storm advances on the East Coast
(AP)

U.S. East Coast: Airlines canceled around 7,600 flights to, from or within the U.S. for Friday and Saturday, as a blizzard began covering much of the Eastern U.S. The bulk of Friday's 3,500 cancelations are in Charlotte and Raleigh, North Carolina, according to flight tracking service FlightAware. Another 4,100 flights were canceled for Saturday. Those cancelations center on Philadelphia, Washington, and New York, with airlines essentially shutting down all flights into those cities. By Sunday afternoon, however, the airlines hope to be back to a full schedule to handle the typical influx of business travelers heading out to start a week on the road. Overall, the airlines have canceled about 13 percent of their scheduled flights in the U.S. for Friday and Saturday.

Water Sector

Drinking water advisory issued for the village of Sebring
(CBS News)

Sebring, Ohio: An Ohio school district canceled classes Friday after officials issued an advisory that said children and pregnant women shouldn't drink tap water from a village system because of elevated levels of lead and copper found during tests at a handful of homes connected to the system. Sebring city manager Richard Giroux issued the advisory Thursday night after seven of 20 homes where tap water is routinely tested showed levels of lead and copper that exceeded U.S. Environmental Protection Agency standards. Tests showed lead levels at 21 parts per billion at the seven homes. The EPA standard is 15 parts per billion. Lead can cause serious health problems for infants and young children. Giroux said the elevated levels were detected in older homes with pipes that possibly leached lead and copper because water from the plant might have been slightly acidic. Tests have shown that water leaving the plant and in the system's distribution pipes is safe, Giroux said. More tests were being done on Friday. Chemicals will be added at the plant to reduce the water's acidity if necessary, Giroux said. The village has spent $5 million improvements in recent months to make the water plant "state of the art," Giroux said.

Kalamazoo tap water checked regularly
(MLive)

Kalamazoo, Michigan: "The City of Kalamazoo Public Water Supply System is in compliance with the 1992 Safe Drinking Water Act Lead and Copper Rule and all revisions of the rule and has had a proactive annual lead service replacement capital improvement program for over 20 years," the City of Kalamazoo Public Services Department stated in a press release issued late Thursday. Unsafe levels of toxic lead in Flint's drinking water has called into focus the need to check and monitor drinking water in urban environments. The statement provided by Public Services Managing Director Sue Foune comes as people here and in many other parts of the country are opening their wallets to make donations of safe bottled water to Michigan's seventh largest city. According to the statement by Kalamazoo Public Services, "The city's state-certified laboratory analyzes for the absence of micro-organisms and levels of limited-treatment chemicals (hexametaphosphate, fluoride and residual chlorine) in the city's water supply at several locations on a routine basis."

Legionnaires' expert blames spike in cases on Flint water
(Detroit Free Press)

Michigan: A national expert in Legionnaires' disease who met with health and hospital officials in Michigan blames the spike in cases in Genesee County on Flint's water. Janet Stout, associate professor at the University Of Pittsburgh

Swanson School Of Engineering with 30 years of experience studying the disease, concluded the problems with Flint's water are related to the increase in Legionnaires' cases — although she can't prove it. "It is like an emperor's new clothes situation," Stout said. "Somebody has to say it." She said it's a "reasonable conclusion" given the link between poor water quality and Legionnaires' disease in scientific studies done elsewhere. New data released this week by the Michigan Department of Health and Human Services on Legionnaires' outbreaks shows 70% of people who contracted the disease were exposed to Flint water two weeks before their symptoms began.

Public Health Sector

CDC activates its Emergency Operations Center for Zika Virus coordination

(AAP News)

National: The Centers for Disease Control and Prevention (CDC) activated its emergency operations center (EOC) on Friday to better coordinate response to the Zika virus. It also expanded its related travel warning to eight more regions as officials continue to explore possible links between Zika in pregnant women and microcephaly in their babies. The CDC now is advising pregnant women to consider delaying travel to Barbados, Bolivia, Ecuador, Guadeloupe, Saint Martin, Guyana, Cape Verde and Samoa. Those regions have been added to the Level 2 travel alert that already includes Brazil, Colombia, El Salvador, French Guiana, Guatemala, Haiti, Honduras, Martinique, Mexico, Panama, Paraguay, Suriname, Venezuela and the Commonwealth of Puerto Rico. Zika virus primarily is spread by Aedes mosquitoes and typically produces mild illness. However, health authorities including the CDC and Pan American Health Organization are investigating a possible association between Zika virus in pregnant women in Brazil and the birth defect microcephaly in their babies. Since October 2015, Brazil has recorded more than 3,500 cases of microcephaly.

Suspicious package on Cleveland train found to be safe

(ABC 5)

Cleveland, Ohio: Cleveland police report the package found on an RTA train has been rendered safe. No bomb found. All roads and routes are back open. Authorities were investigating a suspicious package after a bomb-sniffing dog got a positive hit on a train near the Buckeye Woodhill rapid station. The package was found shortly after 5 p.m. Light rail service was temporarily shut down pending an investigation.

Emergency Management Sector

Volunteers collecting bottled water for Flint, Michigan

(The Republic)

Indiana/Michigan: Indiana residents are collecting bottles of water for Flint, Michigan, where high levels of lead have been found in the city's water. In South Bend, volunteers are organizing a bottled water drive for Saturday. Organizer Donald Smith says his 3-year-old son was diagnosed with lead poisoning because of lead-based paint. Volunteers say they'll be getting donations from Indianapolis, Elkhart and Fort Wayne. They plan to drive them Sunday to Michigan. Another Fort Wayne group plans a "Fill it Up 4 Flint, Michigan" event. And city leaders have partnered with a grocery store and collected at least 27,000 bottles of water. They plan a Flint delivery on Feb. 1. Help also is coming from another Michigan neighbor: Canada. Fans of the Ontario Hockey League's Windsor Spitfires and Sarnia Sting have donated thousands of bottles and the teams are delivering 35 pallets of water on Saturday.

Lead levels in Flint water appear to be dropping
(WUSA 9)
Flint, Michigan: Preliminary results from tests on the drinking water in Flint, Mich., since the city switched back to Detroit's water system and added phosphates show that lead levels appear to be falling. Experts caution that wider sampling is needed before precautions such as drinking bottled water and using filters are lifted. So far, the Michigan Department of Environmental Quality has processed 853 samples of water drawn from Flint homes between Sept. 29 and Jan. 15. Test results obtained by the Detroit Free Press show that about 8% off the samples exceeded 15 parts per billion for lead, the level at which federal rules require water system operators to add more corrosion controls. The state has distributed more than 23,000 test kits, though it's unclear how many will be returned for analysis. Professor Marc Edwards of Virginia Tech, who has been leading an independent study of Flint's water for months, said the early numbers appear lower than the readings his researchers were logging in August, before the switch back to Detroit's water system.

Kent County to start testing water for lead
(MLive)
Kent County, Michigan: The county's health department plans to get new equipment installed next week in order to start testing water for lead, copper and arsenic by the middle of February. The new testing is not in response to the spike in lead levels in the water in Flint, a lab manager said, although it could ease a backlog of water testing coming into the Michigan Department of Environmental Quality. "Right now there's a huge backup of testing at the DEQ," said Allyson Chirio, lab manager at the Kent County Health Department. "People want to know what's in their water now. So many people are now asking the question 'What's in my water?' and there's just not trust. "I've also gotten several calls that they don't want to send it to the state lab." Kent County currently tests water samples for things like e–coli, fluoride, chloride, iron and sodium. But testing for lead gets handled by the state.

Ohio EPA knew of lead contamination in Sebring for months
(The Columbus Dispatch)
Sebring, Ohio: State environmental officials knew as early as October that residents in Sebring in Mahoning County were drinking water contaminated with lead, but did not warn the public, records show. Instead, the Ohio Environmental Protection Agency sent multiple warnings to the Sebring Water Treatment Plant, demanding that operators there notify the public that tests showed elevated lead levels. The EPA even set a deadline of Nov. 29 to notify customers of this health threat. No warnings were made, according to the EPA. Tests conducted from June through September found high levels of lead in water at some older homes in the communities served by the Sebring plant. Lead can harm the nervous and reproductive systems and kidneys and is particularly harmful to young children and fetuses. High lead levels in children can cause behavioral issues, mental retardation and learning disabilities. And it can be fatal at high levels. But it wasn't until Jan. 21 that the EPA issued a notice of violation to the plant, prompting public notification. Finally, 8,100 people who get their drinking water from the Sebring public water system learned they were at risk.

Transportation Sector

Six cars derail near Reno, Minnesota
(WXOW 19)
Reno, Minnesota: Emergency crews are at the scene of a train derailment near Reno, Minnesota. The derailment happened around 11:00 p.m. There were no injuries. Brownsville Fire Chief Gary Meiners states there are six cars off the

tracks with another seven or eight cars unstable behind the derailment. He said that one tanker car is in water. It was carrying sodium chlorate. Houston County Sheriff Mark Inglett said that it doesn't appear that the tank is leaking. He called the situation stable. Sodium chlorate is used primarily in the paper making process. It is also used in herbicides. A hazmat team from Winona is on the scene of the derailment site to assess the situation. A crew from the U.S. Coast Guard Pollution Response Unit is also at the site. The railroad tracks parallel Minnesota State Highway 26 along the Mississippi River. Highway 26 is open once again to traffic. Sheriff Inglett said that drivers can expect one lane closed to traffic as crews begin the cleanup process. Reno, Minnesota is approximately seven miles south of Brownsville and about eight miles north of the Iowa border.
**Watch Officer's Comment: No significant impacts were reported.*

Public Health Sector
Officials investigate prison illness outbreak
(WTHR 13)
Putnamville, Indiana: State officials say testing shows that an illness that killed one inmate and sickened three dozen others at a western Indiana prison is an influenza virus. State epidemiologist Pam Pontones said during Tuesday's news conference that inmates at the Putnamville Correctional Facility who got sick were infected with the H1N1 virus first confirmed in Indiana in 2009. That virus is a swine flu strain. Pontones says "very specific steps" including thoroughly cleaning the prison are now being taken to prevent the virus from spreading further among inmates. Prison Superintendent Brian Smith says 35 inmates and at least five prison staff members developed symptoms. He says 13 inmates remain at a Terre Haute hospital and two are in its intensive care unit. Another 15 inmates remain in the prison's infirmary.

Nuclear and Radiological Sector
Several nuclear plant experience unplanned outages
(PennEnergy)
Ohio/National: Several nuclear power plant units experienced unplanned outages during the winter weekend, according to data filed with the Nuclear Regulatory Commission on Jan. 25. NRC records indicate that four commercial reactors went offline during the winter weekend when much of the eastern half of the nation was experiencing the so-called "Winter Storm Jonas." At least one of the nuclear operators has acknowledged that their outage was weather-related. Overall, 92 of the nation's 100 commercial power reactors were listed as generating power early Jan. 25 by the NRC. Some were already offline for scheduled maintenance. The FirstEnergy Perry plant in Ohio experienced a reactor shutdown "due to unidentified leakage in the drywell," according to the NRC report. Perry plant personnel are performing maintenance on a weld on a plant piping system after shutting down early Sunday, Jan. 24, said a company spokesperson. "There are no adverse impacts to workers at the plant or to the public as a result of this work," she said.

Law Enforcement and Intelligence
FBI arrests Milwaukee man suspected of planning Masonic temple attack
(NBC 5 Chicago)
Milwaukee, Minnesota: A Milwaukee man faces federal charges after he allegedly purchased two machine guns from undercover agents as part of a plan to attack a Masonic temple. Court documents show federal prosecutors charged a 23-year-old suspect on Tuesday with unlawfully possessing a machine gun and unlawfully receiving and possessing firearms not registered to him. The suspect discussed his plans extensively with two FBI informants. The affidavit said the FBI started recording his conversations with the informants in October. The suspect and the two informants traveled to a gun range on Jan. 19 and practiced with a pistol. Afterward they took a tour of a Masonic temple in Milwaukee. The affidavit does not name the temple. Later on Jan. 19 and into the early morning of Jan. 20, The suspect discussed his plans to attack the temple with the informants, telling them they needed two more machine guns, the group apparently already had one, and silencers. They planned to station one person at the temple's entrance while the other two went through the building, killing everyone they saw. They then planned to walk away from the scene as if nothing had happened.

Emergency Management Sector
Cleveland enlisting suburban police for Republican National Convention security
(Cleveland.com)
Cleveland, Ohio: Cleveland police are looking for thousands of suburban police officers to help out during the Republican National Convention in July. The Cleveland Police Department, which has about 1,200 officers, is expected to provide 5,000 officers for security of 50,000 visitors, including delegates, their families and other visitors. According to a memorandum of understanding Cleveland is sending to community police forces, "law enforcement officers from all

levels of government throughout the state of Ohio will be needed to provide law enforcement services for the event." Even though the Secret Service is responsible for taking the lead in the design and implementation of the official security plan for the week, Cleveland Police Chief Calvin Williams will be the commanding officer for all local law enforcement, regardless of their home agency. A grant from the United States Bureau of Justice Assistance would pay for the officers to work, at a total cost of about $50 million. Cleveland would train all participating officers.

Michigan Governor excluded from congressional hearing on Flint water
(MLive)
Flint, Michigan: U.S. Rep. Brenda Lawrence (D-Southfield) said Wednesday that a congressional hearing she requested on the Flint water crisis has been scheduled for Feb. 3, but that it won't include testimony from Gov. Rick Snyder. Lawrence said Snyder was at the top of a list of witnesses she wanted to question in the hearing of the House Committee on Oversight and Government Reform. But when she received notice Wednesday of the hearing being scheduled, it was clear that Snyder would not be called to testify, Lawrence said. "I am deeply disappointed at the Majority's lack of commitment to a thorough and meaningful hearing," said Lawrence, ranking member of the Subcommittee on the Interior, in a statement.

Officials state bathing in Flint water OK
(The Detroit News)
Flint, Michigan: State health officials Wednesday repeated a recommendation that Flint parents can bathe children in the city's water, despite an increase in rashes reported in the past couple of weeks. An advisory from the Michigan Department of Health and Human Services said there is "no scientific link" between Flint water and skin rashes that began appearing after the city switched from the Detroit system's Lake Huron water to Flint River water in April 2014. Michigan Chief Medical Executive Dr. Eden Wells said there has been an increase in rashes reported to the city's Safe Drinking Water Hotline, totaling just under a dozen during the the past week and a half. Hurley Medical Center pediatrician Dr. Mona Hanna-Attisha told The News she too has observed an increase in skin rash cases. A research initiative will be announced in the next few days to explore what's behind the rashes, Wells said.

Portage assures public water is safe
(MLive)
Portage, Michigan: Portage is offering free lead and copper testing for water customers and residents along with taking several other steps to assure the public that its water supply is safe. Portage Garden Lane water treatment plantThe Portage Garden Lane Water Treatment Plant was built in 2010 to meet federal mandates on water quality. Portage City Manager Larry Shaffer said Tuesday that the Flint water crisis has produced several calls from residents and others asking about the safety of Portage's water supply. Shaffer said that not only is the water safe, but the city will be stepping up its public information about the water system, increasing its testing and inviting the public this spring to visit its treatment plant.

Critical Infrastructure Sector

Ashville residents told to conserve water as leak is repaired
(The Columbus Dispatch)
Ashville, Ohio: Ashville residents are being urged to reduce their water use as the Pickaway County village tries to fix a leak. Jim Walsh with the village's water department issued an advisory on the village website early Wednesday after the second leak in less than a week was discovered in the water system. While crews work to repair the leak, water levels have dropped in the village's water towers to handle only one day of typical water use. It will take 48 hours for the tanks to recover to their normal levels, Walsh wrote. The village has banned car washing, and residents are being told to wash only full loads of clothes and dishes, and to take shorter showers. Residents are also asked to turn the water off when

shaving or brushing teeth. Residents may also see rust in the water while the repairs are being made, Walsh wrote. The village hopes to lift the water advisory on Friday.

Energy Sector

More than 40K Lake County customers without power for several hours

(Cleveland.com)

Lake County, Ohio: More than 40,000 FirstEnergy customers in Lake County were without power for several hours Wednesday night. The outages were consistent and widespread across the county, according to the FirstEnergy outage tracker. Power was restored before midnight. The outage was caused by an equipment failure that took two high-voltage lines out of service, FirstEnergy spokesman Chris Eck said. This failure de-powered substations across the county.

Transportation Sector

Crews work to clean up after Minnesota train derailment

(ABC 5 News)

Reno, Minnesota: Cleanup continues Wednesday after a Canadian Pacific Railway train derailed in southeastern Minnesota. The derailment happened about 10 p.m. Tuesday about three miles from Brownsville in Houston County. A Canadian Pacific spokesman said the train was going south and was carrying 15 cars. Six cars ended up partially or entirely in the Mississippi River. None of the cars carried anything dangerous, said Jeremy Berry, a spokesman for Canadian Pacific. It appears that none of those cars leaked, he said.

Public Health Sector

Michigan confirms case of Zika virus in traveler returning from Honduras; no risk of spread

(The Republic)

Minnesota: State health officials say they've confirmed a case of a rare mosquito-borne virus, but say it's not a risk to spread in Minnesota. Minnesota's Department of Health and the Centers for Disease Control and Prevention announced the Zika virus case Wednesday. It was found in a woman in her 60s living in Anoka County who returned from a trip to Honduras. The rare tropical disease is spreading in Latin America and the Caribbean. It usually causes a mild illness but is suspected in an unusual birth defect and other health issues. The CDC is warning pregnant women against traveling to several countries in Central and South America. State health commissioner Ed Ehlinger says the virus isn't a threat in Minnesota. The state says most infected patients experience no symptoms.

Federal officials inspect Alexander County Illinois damage
(ABC 3)

Alexander County, Illinois: Illinois emergency officials confirm initial flood damage claims statewide add up to about $19 million, more than what Illinois needs to qualify for federal aid. Federal Emergency Management Agency inspectors continue their survey of flood damaged areas, and will make the final determination of what counts as damage. Their final assessment would have to come in at $18 million for Illinois to make the cut for federal aid. FEMA workers will assess damage at individual homes in Alexander County Friday morning. State leaders say they hope for a final and official damage cost by mid next week.

Michigan Governor to testify on front of Congress on Flint water crisis
(ABC 7)

Flint, Michigan: Gov. Rick Snyder has been invited to testify in front of the Steering and Policy Committee on Wednesday, Feb. 10 in Washington D.C. The invitation came from Rep. Rosa DeLauro, Rep. Donna Edwards and Rep. Dan Kildee. The hearing being held on Feb. 10 is titled, "The Flint Water Crisis: Lessons for Protecting America's Children." "To date, Congress has not heard testimony from you on the Flint water crisis," the letter read. "Seeing how it was your administration's decisions that led to this public health crisis, including Michigan's Emergency Manager Law, we believe it is important to hear testimony from you on this matter."

Bloomington water promising action over high contaminate levels
(WTHR 13)

Bloomington, Indiana: Bloomington Water officials say chemicals used for treatment could actually push the water to the brink of dangerous contamination levels. The city is now promising aggressive action to keep its drinking water safe, but one concerned mother believes it's too late for her daughter. Lake Monroe is a convenient natural water supply for the city of Bloomington. But 13 Investigates has learned the very chemicals used to make it tap ready are actually creating another dangerous threat. "Certain types of cancers are more likely to happen if you drink water with too much DBP in it over a lifetime," explained John Langley, Bloomington's interim utilities director. DBP stands for "Disinfection By-Products." In Bloomington, chlorine used to clean the water supply is reacting with organic material, causing contamination. According to Langley, it's been on the rise for years. In fact, last November, tests revealed levels at 76 - that's just shy of the maximum 80 allowed by the EPA.

Excessive lead levels detected in 9 samples tested in Sebring, Ohio
(Cleveland com)

Sebring, Ohio: Nine homes tested in the Mahoning County village of Sebring showed lead levels in tap water in excess of federal allowable limits, the Ohio Environmental Protection Agency announced late Thursday. Of the 259 homes tested, 250 of the water samples were within the legal limits for lead set by federal standards, the EPA said in a news release. EPA employees have been working with the village to fine tune its water system chemistry to minimize lead from leaching into the water from residential piping, the agency said in a news release. EPA Director Craig Butler and his staff met with Sebring officials earlier this week to discuss short- and long-term goals for the water system. The Sebring water treatment plant and its water source currently have no detectable lead, the news release said.

Despite smoke, Highland Park residents near warehouse fire return home

(Fox 2)

Highland Park, Michigan: A Highland Park warehouse that turned into a fiery inferno on Wednesday could be a problem for firefighters for at least a week. As residents return to their home, the fire continues to burn. The square block has been burning since Wednesday morning, forcing most residents to be evacuated. Since then, firefighters have been battling the fire and have cut it in half. But that's done little to stem the smoke from the recycling facility that's creating a toxic cloud that smoked people out of their home. Desperate for home comforts, the families returned home. A shelter will be back open if the smoke gets to be too much.

Public Health Sector

Officials were warned of link between Flint water and rise of Legionnaires disease in early 2015

(WXYZ Detroit)

Michigan: High-ranking officials in Michigan Gov. Rick Snyder's administration were aware of a surge in Legionnaires' disease potentially linked to Flint's water long before the governor reported the increase to the public last month, internal emails show. When he disclosed the spike in Legionnaires' cases on Jan. 13, Snyder said he had learned about it just a couple of days earlier. But emails obtained by the liberal group Progress Michigan through public-records requests and shared with The Associated Press show Snyder's own office was aware of the outbreak since last March. At the time, others in the administration were scrambling to respond to suggestions that bacteria in the city's new water source, the Flint River, could be the culprit.

Columbus schools evacuated, threat was a hoax

(10TV.com)

Columbus, Ohio: Three Columbus high schools were evacuated after reports of a bomb threat, per Columbus police. The schools are Linden-McKinley STEM Academy as well as Mifflin and Northland High Schools. Officials each of the schools and found nothing. They are now referring the threats as a hoax.

Bomb threat in Wisconsin tied to Netflix series "Making a Murderer"

(WTHR.com)

Manitowoc, Wisconsin: Police in Eastern Wisconsin say a bomb threat called in to a local Sheriff's office appears to be tied to the controversial Netflix series "Making a Murderer." According to authorities, the person who called in the threat to the Mantiowoc Sheriff's Office Wednesday evening made an apparent reference to "getting justice" for Steven Avery. Avery is the Wisconsin man whose prosecution in a 2005 killing was the centerpiece of the Netflix series "Making a Murderer." The series questions Avery's treatment and suggests the possibility that Manitowoc County Sheriff's deputies planted evidence. The caller described bombs inside the Manitowoc County Sheriff's office building and a vehicle outside with explosives. Authorities didn't find any suspicious devices.

Regional Weather and Impacts

Tornado Deaths Are At an All Time Low This Year
(Tucson News Now)
National: This year's tornadoes have been mild compared to previous years in the country. So mild that 2015 will likely go down as the least deadliest year caused by tornadoes. Only 10 people have died this year in the country from tornadic activity. It will be the lowest ever if we finish this year without a tornado outbreak, which will likely not happen. "If this number holds through the end of the year, it will beat the 12 deaths reported in 1910 to become the lowest annual total on record," said Bob Henson, from the Weather Underground. On average the country sees 36 EF-3 or stronger tornadoes a year, this year there has been just 16. EF-4 or stronger ends up being about seven, this year there has been one. That one was outside of Chicago in April, I ended up being there for that storm and it was extremely violent and scary to watch the damage coming out of it. Two deaths were reported from this storm as well. El Nino is being blamed for the unusual year as the warmer water temperatures keep the severe season milder. La Nina usually causes more severe weather.

Nuclear Reactors, Materials and Waste Sector

Reactor at Prairie Island Nuclear Plant Shuts Down After Turbine Issue
(CBS Minnesota)
Minnesota: The Nuclear Regulatory Commission says one of the two reactors at Xcel Energy's Prairie Island nuclear plant shut down automatically after a problem developed in the unit's turbine. NRC spokeswoman Viktoria Mitlyng says officials and NRC inspectors at the plant are looking into why the turbine went offline Thursday. When that happened, she says, fire alarms went off in the control room. Because it took more than 15 minutes for plant operators to confirm that there was no fire, she says, they had to report it to the NRC as an "unusual event," which they did around 1:15 p.m. Mitlyng says they're investigating why the fire alarms went off. But she says the plant is safe. An Xcel Energy spokeswoman says the company is preparing a statement.
Watch Officer Comment: *Prairie Island Unit 2 experienced a Turbine Trip and Reactor Trip from pull power. The reactor is presently in a safe shutdown condition and there were no releases or injuries and no grid disruptions due to the shutdown. All systems responded normally to the shutdown and the NRC remains in normal mode.*

Investigation Underway After Prairie Island Reactor Shuts Down
(Star Tribune)
Minnesota: The federal Nuclear Regulatory Commission is investigating why one of the two reactors at the Prairie Island nuclear plant near Red Wing, Minn., shut down automatically Thursday after a turbine problem triggered fire alarms. While no fire was reported, protocol requires the plant to declare an "unusual event" if it takes more than 15 minutes for operators to confirm no such event occurred. Officials were notified of the problem just after 1:15 p.m. An "unusual event" is the lowest emergency classification for nuclear plants, said NRC spokeswoman Viktoria Mitlyng. No employees were evacuated from the Xcel Energy-owned facility. "There was no danger to the workers or the public," she said. As of 5 p.m. Thursday, Unit 2 remained offline, while Unit 1 was running at full power, she said. Investigators remained on the site to determine why the fire alarms sounded. Unit 2 also shut down in June for repairs after a turbine trip caused by low oil pressure. The two reactors at Prairie Island generate 1,076 megawatts of electricity, which is enough to power nearly 1 million homes

Water Sector

Read Letters from Governor, Task Force On Flint Water Crisis

(Mlive)

Flint, Michigan: Gov. Rick Snyder and members of the Flint Water Advisory Task Force are exchanging ideas about how to handle the Flint lead in water crisis in letters released today, Dec. 17, including the potential appointment of a point person to coordinate ongoing work. In a Dec. 7 letter to Snyder, who appointed the five-member task force in October, the group acknowledges steps that have been taken to carry out the governor's plan to address damage caused by elevated lead levels in the city's drinking water. But the group also makes initial recommendations for how to improve the effort, and the governor responds to those suggestions in the letter. Snyder appointed the task force in October. The group members are Ken Sikkema of Public Sector Consultants, Chris Kolb of the Michigan Environmental Council, Dr. Matthew Davis of the University of Michigan Health System, Eric Rothstein of the Galardi Rothstein Group and Dr. Lawrence Reynolds of Mott Children's Hospital.

Man shot, killed inside Dearborn Heights Police Department

(ClickonDetroit)

Dearborn Heights, Michigan: A man was shot and killed Thursday inside the Dearborn Heights Police Department after he threatened a security guard with a knife. The man was going through a security point when an altercation broke out between himself and a security guard. At some point the man lunged at the guard and was shot. At about 8:45 a.m., the man sidestepped the security system in the building and charged toward a security guard with a kitchen knife. The guard was "forced to use force," police said. At that time people were entering through the main entrance of the building to go to either the 20th District Courthouse or the Police Department. The shooting sparked a lockdown of the entire building, the police quickly secured the area. The 20th District Courthouse was closed for the rest of the day. Some people at the courthouse were held for many hours for questioning. It was all part of a normal investigation, police said. No arrests were made. The man was acting alone.

Plainfield School Threats Involved Pipe Bombs, Guns; Suspect Still Sought

(RTV Channel 6)

Plainfield, Indiana: A search is ongoing for the person or group who made threats to a Plainfield student and others at the school. The threat was made on social media, using profanity and targeting a female student and her friends. The person making the threats on social media said they had three pipe bombs, two handguns and a semi-automatic rifle. The Plainfield Police Department released a statement saying it received word of the threats just before midnight on Wednesday. The department has been working to find the person responsible. In a post around 11 a.m., the suspect appeared to taunt authorities, tagging Plainfield's and Danville's police Facebook pages, as well as the FBI's page. All Plainfield Community School Corporation schools were closed Thursday after a threat was made to the high school. In a statement posted on its website, the corporation said they're working with police and it's an ongoing investigation. Separate threats were also made against students at Danville High School, leading to two arrests. Danville also closed school Thursday. Franklin Community Schools will be closed Friday. The closure comes after the school system received a "threat of a serious nature."

Public Health and Healthcare Sector

Ship Stranded Outside Minnesota Harbor Allowed To Dock

(Seattle Times)

Minnesota: A German-operated cargo ship that was force to stay outside a Lake Superior port in Minnesota for more than a month over alleged environmental violations was allowed to dock Wednesday, and port authorities said they were hopeful that the oceangoing ship would be allowed to leave in time to avoid getting stuck for the winter. The M/V Cornelia sailed underneath the landmark Aerial Lift Bridge into the Duluth harbor around 4 p.m. Wednesday to take on fuel at a public marine terminal, Duluth Seaway Port Authority spokeswoman Adele Yorde said. The ship was then expected to shift to a berth for the night to load supplies and pump out several weeks' worth of wastewater, she said. The Coast Guard has said that it detained the ship over the discharge of oily water somewhere other than Duluth, but hasn't said where the alleged violations happened. It wanted to have a security agreement in place before releasing the vessel. The crew of 19 Czechs, Ukrainians, Filipinos and Croatians went into town when the ship first docked, Yorde said, but they had not set foot on dry land since taking on a load of grain bound for Tunisia in early November. Instead, they remained anchored less than a mile outside the harbor with little to do but wait. Oceangoing ships typically try to leave Duluth no later than Dec. 18 because of the time it takes to cross the Great Lakes before the St. Lawrence Seaway closes for the winter.

Critical Infrastructure Sector

Dam Issues Surface

(Waupaca County News)

Michigan: The Pigeon River dam in Clintonville is in need of repairs, but the price tag of the repairs is unknown. Clintonville City Administrator Chuck Kell informed the city council at its meeting on Tuesday, Dec. 8, that the Public Works Department informed him that the Pigeon River dam was inspected in 2012 and there were repair recommendations made at that time to address issues with the dam. Kell said not all of the recommendations have been addressed by the city. Kell added that the Pigeon Lake District is aware of this and has been asking the city when it is going to address those issues. "The recommendation was to be addressed by 2014 and this hasn't been looked at yet." Kell recommended that the city hire an engineer this year to inspect the piers and draft a plan for how they would be rehabbed. Mayor Judy Magee added that it is important for the city to take action before the dam is beyond repair and can't be replaced. The council unanimously approved authorizing Kell to seek cost estimates to rehab the dam. Once cost estimates are obtained, the issue will be brought back to the council.

Communications/Information Technology Sector

National Guard Plans to Activate Cyber Squads across 23 States

(Oracle Daily Voice)

National: By the end of fiscal 2019, the National Guard will have 13 more cyber units spread across 23 states, according to a plan announced by the Army last week. In partnership with the Air Force, the Air Guard will also activate four new cyber operations squadrons in Idaho, Michigan, Texas and Virginia in addition to a cyber-Information Surveillance Reconnaissance squadron in California and a cyber-intelligence, surveillance and reconnaissance (ISR) group in MA, the release said. Rickert said a cyber-support team will be aimed at providing technical support during exercises. This new unit in Wisconsin will consist of approximately 40 soldiers split into five teams. Other teams will actively hunt down cyber threats to military networks and conduct inspections and reviews after cyber events to provide feedback and lessons learned, Rickert said. They will leverage skill sets found through the private sector employment of Guard service members. "Synchronizing those efforts regionally will play a key role in increasing our overall cyber security". "Our National Guard already has existing relationships with local governments and private industries, and this team will be a critical asset in sharing resources and defending our cyber infrastructure". In addition to serving as the state's first military responders, the team will be available as a primary Federal Reserve asset, Dunbar said.

Drug Traffickers Are Spoofing Border Drones

(Defense One)

National: As the U.S. Customs and Border Protection agency, or CBP, has upped its drone patrols along America's Mexican border, narcotics traffickers have responded with expensive technology of their own. "The bad guys on the border have lots of money and what they are putting money into is into spoofing and jamming GPS systems. We're funding some advances so we can counter this," said Timothy Bennett, a science-and-technology program manager at the Department of Homeland Security, which oversees CBP." Bennett said CBP has a rapid and growing need, especially for "small" unmanned aerial vehicles, or UAVs. But unlike larger drones designed to military specifications, many small UAVs are far more vulnerable to hacking and location spoofing. Consider how easily Chinese cybersecurity researchers Lin Huang and Qing Yang with Qihoo 360 were able to disrupt the geofence on a DJI Phantom drone by spoofing GPS, which is illegal in the United States. DHS was unable to say just how often smugglers tried to jam or spoof border-watching UAVs. But Bennett said the attacks are hindering law enforcement abilities to map drug routes. "You're out there looking, trying to find out this path [they're] going through with drugs, and we can't get good coordinate systems on it because we're getting spoofed. That screws up the whole thing. We got to fix that problem," he said. Spoofing is far from the only problem facing Department of Homeland Security and the way it gets drones to the border. In addition to giving grants to law enforcement agencies to purchase UAVs, DHS also has many of its own. Last year, the department's own inspector general declared that DHS drone purchasing program, which had spent $360 million since 2005 — $62 million in 2013 alone.

REGIONAL WEATHER & IMPACTS

Warming trend continues as winter arrives tomorrow
(WRTV)
Indianapolis, IN: Rain and wind are set to impact your Monday morning drive. Cloudy skies this evening give way to a steady rain developing after midnight. Clouds, and a south wind near 15 mph, keep overnight temperatures on the mild side. Lows in the mid-40s are well above the average high for this time of year. Light to moderate rain continues for your Monday morning commute. Allow yourself some extra travel time and take along the rain jacket. The umbrella may be tough to handle, with south winds gusting near 30 mph. Rain decreases in coverage for the afternoon, but a few showers are still possible. Our mild stretch continues with highs in the lower 50s. Winter arrives just before midnight Monday night, but our extended forecast won't reflect the change in seasons. Highs in the 50s (and even 60s Wednesday) stick with us through Christmas.

Warmer temperatures, rain expected ahead of Christmas Day
(MLive)
Ann Arbor, MI: Ann Arborites hoping for a white Christmas are seemingly out of luck this week. The chilly temperatures from the weekend will soon be gone and only rain is expected this week in Ann Arbor, said National Weather Service meteorologist Sara Schultz. Although it was about 27 degrees Fahrenheit about 11 a.m. Sunday, temperatures are expected to rise to about 40 degrees later in the day. Strong winds, with gusts up to 30 mph, and rain overnight and into Monday will make things feel a bit colder, Schultz said. However, temperature will continue to rise into the 50s by mid-week. More rain is expected on Wednesday and early Thursday, with highs of 57 and 53, respectively, according to the National Weather Service. Then, a high of 45 degrees is expected on Christmas Day.

Torregrossa forecast: Will rest of winter be so snowless?
(MLive)
Michigan: Most of Michigan is way behind on snowfall totals right now. Will the rest of this winter lack snow? Depending on your location, you have experienced anywhere from only 20 percent of your normal snowfall to date up to almost 20 percent more snow than normal. Marquette normally has about 56 inches of snow by now, but is 40 inches below normal. Sault Sainte Marie is about 27 inches behind normal. The western Lower Peninsula snowbelts are 15 inches to 20 inches below normal. Alpena, and northeast Lower Michigan, continues its snow drought with only two inches of snow so far this year. Although only one snowstorm has hit southern Lower Michigan, it was a biggie where it hit hard. Because of that storm, Detroit and Flint are slightly ahead of normal for seasonal snowfall. The lack of snow is obviously caused by the extremely warm temperatures in November and December. This is the result mostly of El Niño. The El Niño is very strong. It will likely be ranked as the strongest or second strongest since 1950, when better record-keeping began. As we continue into January, February and March, Michigan will likely continue warmer than normal. The second trend is the weather should dry out some as we head into mid-winter. So the less-than-normal snowfall should continue for the second half of the winter. But snowfall will occur. Even though we will average warmer than normal, it will still be cold enough for snow.

EMERGENCY MANAGEMENT

Security heightened at churches, mosques
(Associated Press)
National: In Alabama, a Presbyterian church wanted to be able to hire its own police for protection. Mosque leaders around the country are meeting with law enforcement officials as an anti-Muslim furor fuels arson attacks and vandalism. And the Federal Emergency Management Agency has been holding specialized training for congregations for "all hazards, including active shooter incidents." Religious congregations across the United States are concentrating on safety like never before following a season of violence, from the slaughter unleashed in June by a white shooter at a historically black church in Charleston, S.C., to the killings this month in San Bernardino, Calif. The Council on American-Islamic Relations said 2015 is shaping up as the worst year ever for U.S. mosques, amid the backlash to the Islamic-extremist attacks in Paris and San Bernardino, and the intensifying anti-Muslim rhetoric from Donald Trump and others seeking the GOP presidential nomination. Preliminary 2015 data collected by the civil rights organization found 71 reported cases of vandalism, harassment and threats, with 29 of those incidents occurring since the Nov. 13 assaults in France. The Anti-Defamation League, which works to secure Jewish sites, has been organizing safety training around the country with other faith groups, including an Austin, Texas, event with local police and the African Methodist Episcopal Churches of Greater Austin that drew participants from 35 churches and three mosques. The Charleston church attacked in June, Emanuel African Methodist Episcopal Church, is part of the national African Methodist Episcopal denomination. Christian churches have been refining their security plans ahead of receiving some of their largest crowds of the year for Christmas. On a FEMA webinar last Wednesday on protecting houses of worship, the chief security executive at The Potter's House, the Rev. T.D. Jakes' megachurch in Dallas, gave tips about behavior that should raise concern, such as a congregant arriving in a long coat in hot weather. If needed, church greeters could give a hug and feel for weapons, said the executive, Sean Smith.

PUBLIC HEALTH & SAFETY

Flu season off to slower start this year: might be milder
(Associated Press)
National: This year's flu season seems like old times. There's not much flu going around so far - unlike the last three seasons when doctors' offices were filled with patients before Christmas and illnesses peaked by late December. "It really is off to sort of a slow start" compared to that recent history, said Lynnette Brammer of the Centers for Disease Control and Prevention. The CDC released its weekly flu count Friday. Only South Carolina is showing significant flu-related traffic at doctor's offices and clinics. Traditionally, most flu seasons don't really get going until around Christmas - possibly triggered by holiday gatherings that bring together people and viruses. Infected kids then go back to school, mingle with classmates, and flu season takes off. Using mathematical modeling, scientists at Los Alamos National Laboratory this week predicted there's a 57 percent chance this flu season will peak in February, and a 67 percent chance it will be mild. Experts are still puzzling about why flu became epidemic so early the last few years. Factors might include the weather and what kind of flu bug was spreading the most, said Dr. John Treanor, a flu vaccine researcher at the University of Rochester School of Medicine. The CDC's Brammer said so far this year there's a mix of flu viruses making people sick. In bad seasons, one nasty strain dominates. And last year, the flu vaccine didn't work very well for the bug that caused most of the illnesses. This year's version was changed. The delayed season means there's more time for people to get vaccinated, Brammer said.

ENERGY & CRITICAL INFRASTRUCTURE

Balmy weather, falling natural gas prices mean lower heating bills for Wisconsin customers
(Associated Press)
Milwaukee, WI: Balmy weather this winter could mean a big break in heating costs for Wisconsin utility customers. The mild start to the heating season is combining with the lowest natural gas prices in 16 years to give consumers relief, the Milwaukee Journal Sentinel reported. Two years ago, bitter cold kept furnaces going nonstop. But heating costs this winter could be up to 50 percent below two winters ago. Milwaukee-based We Energies says it's possible its 1.1 million customers will pay less for heating this winter than in any of the past 15 winters. "It's definitely trending in that direction," We Energies spokesman Brian Manthey said. We Energies already was forecasting that heating costs would fall this year to about $489 for a typical customer. But that estimate assumed Wisconsin would see normal weather and that natural gas prices would stay where they were in October. We Energies' winter heating outlook could be updated as soon as next

month. Based on temperatures through Friday, this month ranks as the third-warmest December on record in Milwaukee and Madison, according to forecasters at the National Weather Service in Sullivan. Across Wisconsin, temperatures have been at least 12 to 14 degrees higher on average than December 2014. Meanwhile, natural gas prices have dropped to their lowest levels since 1999. November also was mild, which helped drive down heating costs as much as 40 percent from November 2014 for customers of Madison-based Alliant Energy, spokeswoman Annemarie Newman said. The difference in heating bills is striking compared with two winters ago when a huge mass of arctic air plunged southward into the U.S., said Kerry Spees, spokesman for Wisconsin Public Service Corp., an electric and natural gas utility serving northeastern and north-central Wisconsin. "Our customers can expect bills to be 25 percent to 30 percent less than last year, but that's about half of what they were paying in the Polar Vortex year, the year before," Spees said. "That's a significant difference for customers." For a typical We Energies customer, savings of more than $300 are possible compared with the winter of two years ago.

Additional Reporting: *Balmy weather, falling natural gas prices mean lower heating bills*

TRANSPORTATION

Track defects, human error primary causes of crude-oil train derailments
(The Columbus Dispatch)
National: Track defects caused fiery crude-oil derailments that forced 1,100 people from their homes in this Appalachian village this year and killed 47 people in a Canadian town in 2013. In fact, a Dispatch analysis of federal records shows that track defects and human error are to blame for most railway incidents. Yet U.S. regulators have focused on tanker cars instead of the rails that carry the cars and millions of gallons of Bakken crude, a type of highly volatile oil from North Dakota and Montana that crisscrosses the country on the way to refineries. Bakken trains pass through the heart of hundreds of cities and towns and past millions of their residents — including those in luxury high-rise buildings in Downtown Columbus. After dozens of crashes and spills in the past five years, U.S. rail authorities have zeroed in on tanker cars, propelling regulations that will cost an estimated $1.7 billion in upgrades designed to make those cars safer. Even rail companies say that's a good thing because stronger cars are less likely to rupture after a derailment. But a Dispatch analysis of rail incidents shows that cars cause relatively few derailments and other rail incidents. Two-thirds of rail problems occur because of human error and track defects. Reports that railroads have fought to keep secret show that 45 million to 137 million gallons of Bakken crude roll through Ohio each week, including as much as 25 million gallons through Franklin County. Trains carrying Bakken crude have derailed in cities across North America, dangling over a bridge in downtown Philadelphia, contaminating water in Lynchburg, Va., and, in one case, killing 47 people and incinerating the downtown in Lac-Megantic, a small town in Quebec. After several derailments, The Dispatch began analyzing federal records and reviewing hundreds of reports about crude-train incidents.

Michelle and BJ,

As a follow up from Saturday. I am going to send you another email after this one.

Michelle,

Can you please see if you can get the faucet head back from EPA. 's faucet head). I will return it to him later this week when I return. Also, can you ask EPA if they can sample his water,,, I do not think a water sample has been taken from his residence.

BJ,

Can you please reach out to the Flint Water Treatment Plant,,, can you speak with Chris (Beetenberg) and see if it was his crew that was at s last week. And what was the results of the visit. Second request,,, Dale Collins UA 370 advised he was going to install a new faucet at can you see if that has been scheduled?

I will send you an email from Scott Sheaffer DEQ,,, when I go to residence this week, I will bring the DEQ water test kit, and explain to him he should draw a sample after the water is stagnant for 6 hours. I will make arrangements to retrieve the sample from him.

I apologize for all the TO Dos,,,,, give me a yell if you have questions.....

Subject: RE: Follow up from TTH

Laura,

I spoke with about an hour ago. He advised last Wednesday Flint Water Treatment personnel arrived at his residence and took two samples of water. The following day (Thursday) city crews were digging into the ground two residents from his. He was not sure what the results were from the samples, or the digging.. He advised the person he spoke to at his residence was Chris with a possible last name of (Beetenburg). Chris stated he was with the Flint Water Treatment Plant.

I advised we would make contact with Flint Water Treatment Plant Monday for a follow up. was thankful for the our response. / did advise he has also spoken with the Mayor office.

Team: Thanks for joining the TTH with the Lt. Gov. Here are the follow up items from constituents we spoke with. Please email us when they are completed.

Thanks,
Tori

1. - Had health related questions that needed follow up from DHHS

2 - Indicated Lt. Roach had visited regarding the water quality/need for filter. Can someone from MSP or DEQ follow up with him?

Michelle and BJ,

As a follow up from Saturday. I am going to send you another email after this one.

Michelle,

Can you please see if you can get the faucet head back from EPA. (. faucet head). I will return it to him later this week when I return. Also, can you ask EPA if they can sample his water,,, I do not think a water sample has been taken from his residence.

BJ,

Can you please reach out to the Flint Water Treatment Plant,,, can you speak with Chris (Beetenberg) and see if it was his crew that was at ast week. And what was the results of the visit. Second request,,, Dale Collins UA 370 advised he was going to install a new faucet at Duty's,, can you see if that has been scheduled?

I will send you an email from Scott Sheaffer DEQ,,, when I go to residence this week, I will bring the DEQ water test kit, and explain to him he should draw a sample after the water is stagnant for 6 hours. I will make arrangements to retrieve the sample from him.

Chris
This logistics piece looks great.

The leadership to implement at the operational level will be critical for success. As you and I know, there will be glitches and things will need to be addressed.

As the plan indicates, MSP is responsible for the execution. I like that. I think the MSP Command structure in the 3rd District has to have a plan for execution and the appropriate people to carry it out. I am not sure they have the appropriate command structure in place to do that. We have to think more globally from the MSP perspective. This is not just a Flint Post, EMHSD, and Public Affairs Section responsibility.

Suggestions:
-Thorough briefing, debriefings.
-Identify / Assign personnel for each water resource team, identify role within each team. This includes MSP Troopers. Water Resource Teams should be responsible to the trooper (s) assigned. The leadership, command and control I saw from Tpr. Jones is exactly what every team needs to experience out there.
- Monitor the process. If some are moving slow, how do we address that?
- Ability to make decisions / adjustments on the fly. What is moving quickly, what part of the process takes longer and requires reassignment of personnel on the water resource team. Example - Yesterday the distribution of water is what slowed things down. Knowing the numbers, we could better determine how many are assigned to handout filters, replacements and pamphlets. How many are needed in the truck to restock resource team supplies, how many are needed to distribute water. How many are needed to record. (We had 2 I-pads, and 2 using paper to write things down. Glad we had scribes, because the I pads were not working at some point, then later in the day the I pads were dead. These are the small things that need to be discussed in a debrief.
- Develop a follow up process for citizens. Addressing the needs of citizens related to the water crisis that extend beyond handing them a filter. There were a number of elderly residents. We did the best we could. It is my hope that follow up happened. I.e.; elderly female, cannot get out, requesting water.

Think about right to work. We briefed and debriefed every Platoon at the start and end of each shift.

I think EMHSD and the SEOC is doing a fantastic job. I am not criticizing Kish and Dehner, but based on what I saw, they were short staffed with MSP Command and could use some help.

We have a lot of people that want to help. The key to success is:
1. clear communication of the mission
2. Clear understanding of Command and Control
3. Maximizing the personnel at every level and accountability at every level.

As you know, I like to let those who do great work just go to work and stay out of their way. For the most part that is happening. I just offer up some suggestions based upon observations of where the gaps exist from the MSP and where we can make this a more efficient operation.

Based on how things go from here, let me know if you need me to work with Lt. Col. Sands to request additional resources.

If we want to let this play out through the weekend, I suggest that we set up a debrief on Tuesday to see where we are at overall, and what type of assignments we need to make.

Subject: FW: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Importance: High

Perhaps we could use donations to pay for the rent. Given the donated and FEMA ordered water headed our way, we could be in trouble in the near future. Based on discussion with Wendy, we need to act soon or have a new problem on our hands.

Subject: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT
Importance: High

Capt.,

In reference to the former Kroger store, the owner has agreed to pay all back water bills and he came down on his price to:

$15,415.57 + dumpster + $6166 utilities: **$21,581.57/mo**

It is my hopes that we can secure this facility, at least until the Target store hopefully comes available in April. I'm not sure if any of the donation money collected could go towards the lease or at least the utilities, but this is a great location and great potential POD site. We are in dire need of space and this is the only one panning out at this time. I've spoken to Ginna Holmes who indicated she could locate volunteers to operate the site. At this time, it would only contain water and would serve as a backup to all the random donated water that is coming in semi-loads daily. I have many photos and videos of the facility provided by Lt. Russo if you are interested in seeing them.

Please let me know as soon as possible if we can move forward with the lease. Thanks.

Wendy

Subject: FW: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Jeanette,
I think we should add an additional $1.50-$3.00 psf for heat & electric.
The water bill is $400.00 per month (0.06 cents psf) which hasn't been paid, and this is for an empty building, not sure if it is estimated on past use or not.
I think the square foot rate may be$7.00-$7.50 psf without the dumpster charges (CAM) and the water bill but should only be a few cents psf depending on the usage.
Please let me know if you want me to proceed.
Maureen

Hi Maureen:
It was a pleasure to speak with you. I am recapping our conversation regarding the leased space.

Total Leased Area: 74,000 square feet
Address: 2629 West Pierson Road, Flint, MI 48504

Base Rent: $1.50/sq. ft. Annual: $111,000 Monthly: $9,250.
CAM: $2.10/ sq. ft. Annual: $155,400 Monthly: $12,950.
Taxes (if applicable): $154,000 annually X 36.6% = $56,364 (based on FY 2015) Monthly: $4,697=$.76 psf
Insurance: $68,000 annually X 36.6% = $24,888 (based on FY 2015) Monthly: $2,074 =$.34

We can arrange for and order a dumpster for your store which will be billed back at 100% on a monthly basis. You will need to contact Consumers Energy to arrange for the store's electrical and natural gas service transferred to your name. $2.-3. psf
You may use the lighted sign on W. Pierson Rd. and pay for the electricity to illuminate the sign which is metered separately.
Please let me know if you have any further questions. Welcome!

Subject: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Importance: High

Capt.,

In reference to the former Kroger store, the owner has agreed to pay all back water bills and he came down on his price to:

$15,415.57 + dumpster + $6166 utilities: **$21,581.57/mo**

It is my hopes that we can secure this facility, at least until the Target store hopefully comes available in April. I'm not sure if any of the donation money collected could go towards the lease or at least the utilities, but this is a great location and great potential POD site. We are in dire need of space and this is the only one panning out at this time. I've spoken to Ginna Holmes who indicated she could locate volunteers to operate the site. At this time, it would only contain water and would serve as a backup to all the random donated water that is coming in semi-loads daily. I have many photos and videos of the facility provided by Lt. Russo if you are interested in seeing them.

Please let me know as soon as possible if we can move forward with the lease. Thanks.

Wendy

Importance: High

Wendy –
Price you were provided was not completed. Total cost per month is $28,971 plus water, heat, electric!

Subject: FW: FORMER KROGER STORE, HALLWOOD PLAZA, 2629 W. PIERSON RD., FLINT

Jeanette,
I think we should add an additional $1.50-$3.00 psf for heat & electric.
The water bill is $400.00 per month (0.06 cents psf) which hasn't been paid, and this is for an empty building, not sure if it is estimated on past use or not.

I think the square foot rate may be$7.00-$7.50 psf without the dumpster charges (CAM) and the water bill but should only be a few cents psf depending on the usage.
Please let me know if you want me to proceed.
Maureen

Garza, Oralya (MSP)

From: Holland, Meegan (GOV)
Sent: Sunday, January 10, 2016 5:13 PM
To: Kelenske, Chris (MSP)
Subject: Four churches

Flint Fire Station #6 was having issues with traffic backups as part of the water distribution, so I'm hoping one of these churches may be near there to alleviate their capacity issues (very tiny parking lot).

Mayor Karen Weaver said these churches would be good for water distribution because they have bigger parking lots and space to store water pallets:

Grace Emanuel,
New Jerusalem,
Christ Fellowship,
Vernon Chapel

Harvey Hollins said AARP should be contacted to find out which senior centers may be best as water resource sites. Since he worked for AARP, I can follow up with him and ask if he wants to contact them first, but your call.

LIMITED DISTRIBUTION

Update 2/20/16 – 47th Day (46th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs).
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
- Continue to work on details for the long term distribution plan.
- Continue lead pipe identification and sampling teams.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - EMHSD was granted an extension from FEMA for the Category B under the Emergency Declaration appeal. The extension deadline is March 4, 2016.

Attached:

1. Sit Rep #46.
2. Maps: Residential Water Sampling Results for lead and copper.
3. Governor's Report

Key items for tomorrow to note are:

- Team Priority Scheduled: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 6 American Red Cross Teams scheduled for Sunday, February 21, 2016.

Items to Note

- MDEQ had 21 Sentinel Sampling Teams and 1 High Lead Team in the field today.
- 7 American Red Cross Teams scheduled for today. The teams continued to visit the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- MDTMB is working with FEMA and Recovery Branch to research direct delivery for replacement cartridges to 30,000+ residences in the city. Additionally, MDTMB is researching a tracking mechanism system to be used in PODs for filter/replacement cartridge distribution.
- Dr. Nicole Lurie will be returning to Flint on Sunday for a briefing with the UCG, and she will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
    - GIS worked on creating new dashboards for Governor's meeting on Monday.
    - SEOC Logistics worked on armed vs unarmed security for warehouses proposal.

Unified Coordination Group (UCG):

- MDHHS requested a special project to use WIC cash value benefits to purchase fruit and vegetables at the farmers market.
- UCG Daily Sit Rep available in MI CIMS.
- MDEQ located 24 lead service lines; looking at the adjacent properties to the original 10 lead service line locations did produce a number of additional lead service lines.
- Participated in Tele Town Hall with the Lt. Governor at 11:00 am.
- Genesee County EOC worked with Good 360 yesterday and steered them away from sending products that will not be useful, such as shower filters.

Local EOC:

- Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that requested delivery via 2-1-1 hotline.
- MSU recycling event originally scheduled for 02/20/2016 was postponed.

Team Information 2/20/16:

Below is the breakdown of information on field teams for 2/20/16. The team data totals are a combination of the 3 different home sampling teams. Governor's report contains cumulative data.

Homes:

Teams	Number of Teams
Sentinel Sampling Teams	21
High Lead Task Force	1
Initial Sampling Teams	0
Team Data Totals	
Homes visited today	416
Inspected	148
Residents agreed to participate in sentinel monitoring program	128
Lead lines identified	2
Also deployed on February 20, 2016 for Sentinel B work:	
Community Members	20
Plumbers	22

Volunteers:

Agency	Number of Teams	Number of Homes Reached
American Red Cross	5	518

Southern Baptist	5	28

Chris

Update 2/19/16 – 46th Day (45th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
  - File and receive appeal extension from FEMA.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program, Hazard Mitigation Grant Program, and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
- **EMHSD was granted an extension today from FEMA for the above programs under the Emergency Declaration appeal. The extension deadline is March 4, 2016.**

Attached:

4. Sit Rep #45.
5. Maps: Residential Water Sampling Results for lead and copper.
6. Governor's Report for 2/18/16.

Key items for tomorrow to note are:

- 7 American Red Cross (ARC) Teams scheduled for Saturday, February 20, 2016.
- ARC Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Tele Town Hall with LG.

Items to Note

- A meeting with MDHHS-HS, EMHSD and FEMA took place to discuss a long-term recovery plan. DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines. A tracking system is being worked on for the point of distribution locations that will offer real-time reporting.
- MDHHS-CH requested that MDEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer.
- MDEQ deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
- Letter to city of Flint outlining the needs to satisfy EPA item 62 is drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature.

Unified Coordination Group (UCG):

- The CDC/ATSDR Field Team has reported hearing health complaints at many home visits. The UCG Science Group has been called together to discuss next steps to document and address these health concerns.
- CDC/ATSDR Field team and Regional staff participated in a meeting with EPA and MDHHS to discuss some preliminary EPA sampling data.

- UCG Daily Sit Rep available in MI CIMS.
- EPA issued news release highlighting the effectiveness of lead-removal filters.

Local EOC:

- Transition to the new National Guard units completed today.
- Water crisis march, involving Rev. Jesse Jackson, Rainbow PUSH Coalition, Michigan Legislative Black Caucus, and Concerned Pastors for Social Action was attended by approximately 350 protestors. No incidents related to the march reported.
- Coordinating with Flint Community Schools and Head Start program for identification of populations without supplies.
- Discussed potential future donations with Good360 nonprofit.
- City of Flint Water Distribution Supervisor visited EOC to discuss identification of lead lines with MDEQ staff.
- 16 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

Chris

NOTE: Added Ari Adler and Kevin Weise to the distribution.

Update 2/18/16 – 45th Day (44th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - **Flint data for the appeal was received today.** Data will be analyzed and incorporated into the appeal letter.
    - Appeal EXTENSION letter drafted and will be sent to FEMA Friday morning. MI is asking for a 30 day extension due to not having the data from Flint but we will not wait the 30 days (if granted)to submit the letter for appeal. FEMA Region V is aware of our forthcoming request.

Attached:

7. Sit Rep #44.
8. Maps: Residential Water Sampling Results for lead and copper.
9. Governor's Report 2/17/16.

Key items for tomorrow to note are:

- Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.
- 17 Sentinel teams will continue tomorrow, Saturday and Sunday in order to reach the targets of 402 sites and 60 lead lines.
    - Summary of combined sentinel groups to date:
        - 356 residents enrolled
        - 16 lead service lines identified

Items to Note

- US Department of Health and Human Services visited Fire Station #5 POD today. Per Lt. Roach the visit went very well.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams visited the final three mobile home parks that were identified as missed and an additional 34 homes.
- United States Secretary of Health and Human Services Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).
- MDHHS-CH Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
- TIA is planning on submitting a Dept of Labor grant by the end of next week for 15 million dollars over 2 years. Once submitted this may get turned around within 48 hours.
- Monday, EMHSD and TIA personnel will meet with Seeds of Traverse City and Michigan Works to further progress on a jobs program.
- Long term distribution plan meeting between EMHSD, DMVA, and DOC occurred to put more detail to the next phase of commodity distribution.

Unified Coordination Group (UCG):

- EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
- CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
- UCG Daily Sit Rep available in MI CIMS.

Local EOC:

- National Guard completing transition to new unit on 02/18/2016.
- US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
- IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
- IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
- Coordinating local volunteer needs for CDC outreach teams.
- 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Chris

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
    - **Extension letter for the appeal drafted. Due to not having the Flint data yet a 21 day extension from FEMA is going to be requested. Handled by EMHSD and will be sent Friday 2/19 or sooner.**
- Obtain further information on sentinel team data.
- Obtain information on shower filters.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.
2. Governor's Report 2/16/16

Key items for tomorrow to note are:

- Team Priority Scheduled for Tomorrow: Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
    - DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS is generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Chris

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
    - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.

- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM

- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. However, they now know they will need to do some more searching to find even the minimum number of sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- 140 water samples picked up at sentinel monitoring points by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
- Developed SitRep #34.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.

- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.
- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".

- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.

- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. *Nothing more can be done on this.*
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of *burn rates increasing.*
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.
- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.
- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.

- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
- Ten Sentinel Site Monitoring Teams out in the field, visited 30 homes (provided information at 50 additional homes).
- Expecting increased demand for bottled water and filter cartridges due to Boiled Water Advisory in response to water transmission line break. Aligning additional supplies for appropriate resupply at Fire Station PODs.
- Managing donations and volunteers with Michigan Community Service Commission, ARC and United Way of Genesee County.

Chris

Update 2/9/16 – 36th Day (35th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Governor's Data Report from 2/8/16.**
2. Sit Rep #35.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will need to monitor supplies closely in anticipation of burn rates increasing.
- The Small Business Administration will be opening an office in Flint tomorrow at the Oak Business Center (2712 Saginaw Street) .
- 10 American Red Cross Teams scheduled for Wednesday, February 10, 2016.

Items to Note

- A boil water advisory has been issue in the City of Flint by the local utility due to a broken water main.
- The MOA for the Adventist Community Services to operate the second warehouse was signed by their organization today.
- The long term recovery group made significant progress today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- Recovery completed the comprehensive list of apartment units that exist within the City of Flint and franchise customers.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.

Unified Coordination Group (UCG):

- Approved IAP #8.
- EPA: Most residents not using their water for anything other than bathing. Also, not running the water. This is an issue for chlorine and phosphate. Concerns for summer, chlorine can cause increased bacteria.
- MDEQ: Visited every home adjacent to high lead lines. Visited all homes higher than 15 ppb.
- HMTF: Working with GCHD to have a clear idea of what has been completed and what additional needs to exist.
- HMTF: Working on redirecting 211 calls from the state to the county so they can sustain long term.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief in Lansing for long-term distribution planning discussions with representatives from City of Flint and SEOC.
- Determined team-make up and staffing for Sentinel Site Monitoring Teams in coordination with SEOC, UCG and MDEQ ECC.
- Finalizing plans for deployment of Sentinel Site Monitoring Teams starting 02/10/2016.
- Updating IAP to include current work assignments.
- Elevated Copper Initial Assessment Task Force visited 11 addresses with elevated copper and lead water levels on 02/09/2016.

Chris

Update 2/8/16 – 35th Day (34th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.

    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Open secondary state warehouse.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Governor's Report for 2/8/2016.
2. Sit Rep #34.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Active Water Subscribers without filters marked vacant
- 10 American Red Cross Teams scheduled for Tuesday, February 9
- Congressional and Legislative Call, 2:30 PM

Items to Note

- JIC Drafted a news release about the team visiting homes with high copper levels. Anticipate releasing tomorrow.
- SEOC Logistics had a conference call with Seventh Day Adventists on agreement and staffing for new warehouse.
- SEOC Planning developed a new Incident Action Plan for Operation Period from 2/9-2/16/2016.
- Requested monetary donation information from United Way and Community Foundation of Greater Flint.
- GIS develop an online application for Governor Snyder to view maps.

Unified Coordination Group (UCG):

- No updates.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.
- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/7/16 – 34th Day (33rd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data – Note two new reports: GovReport
2. Sit Rep #33.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Monday, February 8, 2016.
- The new warehouse will be operational on Monday, February 8, 2016 and managed by MDOC.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- State VAL is working on the Category B and Individuals and Households appeal.
- There continues to be a concern that EPA refuses to work with the state teams in addressing the high lead level homes.
- Genesee County EM expressed concerns about lead poisoning in service/companion animals. MDARD has initiated contact with their partners to address this concern.
- 28 addresses have copper testing that exceeds the "action level" (1,300 ppb). DHHS is currently working on messaging regarding this issue, and DEQ is discussing filtering options.

Unified Coordination Group (UCG):

- Task Forces Health & Medical: working on creating a flow chart for visual of testing results.
- EPA conducted 11 filter grabs yesterday, and will be doing 2 today. This includes up to 33 samples per grab. A grab would be considered a location/residence. They are also following up on the AmeriCorps volunteers (2) that have rashes.

Local EOC

- Establishing objectives and IAP for next operational period, 02/08/2016 – 02/12/2016.
- Awaiting additional information regarding companion animals with potential lead and chlorine poisoning from MDARD.
- Establishing plans for Elevated Copper Initial Assessment Task Force starting 02/08/2016 and follow-up outreach to homes with water lead levels over 150 ppb starting 02/10/2016.

- Aligning resources and supplies for Elevated Copper Initial Assessment Task Force and follow-up outreach to homes with water lead levels over 150 ppb.
- Analyzing locations of faith-based organizations and churches for integration into long-term recovery plans.

Chris

Update 2/6/16 – 33rd Day (32nd Full Day) After Governor's Declaration of an Emergency

The link below is a new video published today by 211. This is part of the Rapid Response Teams currently staffed by Team Rubicon.

https://www.youtube.com/watch?v=P5Orqzc5efg

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Soft opening of secondary state warehouse; clean and prep for SBA staff.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #32.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Sunday, February 7, 2016.
- MDOC will continue setting up the new warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- JIC posted the AIA Flint Safe Water Storage Guideline flyers on MI CIMS under internal documents.
- SEOC Logistics is working to secure space in new warehouse for SBA office, additional information needed from SBA.
- GIS geocoded and cleansed addresses for food establishments in the Flint Metro Area.
- GIS digitized water service lines coded by pressure from paper map onto digital map.
- State VAL is working on the Category B and Individuals and Households appeal.
- MOU with Seventh Day Adventist for donations management currently under review.

- MDARD is planning for additional follow up with food related businesses as water test results come in; new maps with updated information will help with future prioritization.
- MDARD will attend a USDA-Natural Resources Conservation Service press conference to be held on Monday; NRCS will be announcing funds to support community gardens and local foods.
- A team from the CDC arrived yesterday to work with MDHHS Bureau of Epidemiology. Their work began today by beginning to analyze data for the development of long term surveillance strategies that will look to link blood lead level results to specific populations, to include vulnerable and at-risk populations.
- LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools.
- Freeman Elementary was tested today (2/6/15) by DEQ/LARA staff members.

Unified Coordination Group (UCG):

- Attended 3 matrix review meetings, taskforce leads gave status updates on the original requests/asks sent from the State to Federal government.
- UCG POC will update the objectives with current status once completed by the information cell.
- EPA has 4 teams going out today, 17 filter grabs, a sequential sampling, and walk in requests.
- Additional phosphorus results remain consistent with previous reports. Appears the coating is working in the pipes.
- Multiple Hispanic events are taking place in the community and will be attended by federal staff.
- CDC recommendation should go out today for blood level testing for children under the age of 6.

Local EOC

- Finalized DEQ outreach at homes with water lead levels above 150 ppb.
- Developing plan for outreach at homes with water lead levels of 100 to 149 ppb.
- Will start outreach at homes with water lead levels of 100 to 149 ppb with one group on Monday.
- Potentially following up on initial outreach at homes with water lead levels of 100 to 149 ppb 10 strike teams for evaluation of pluming system, water sampling, etc. starting Wednesday.
- Evaluating need to address health needs of companion animals in households exceeding water lead levels above 100 ppb.
- Awaiting clarification regarding effectiveness of filter systems for removal of copper.

Below is a summary of Federal Teams in the field during next operational period until 2/10 per the UCG.

Public Health Support Team (PHST) (US HHS) stationed at GCHD

9 personnel

- Develop engagement strategy for GCHD to facilitate outreach efforts to the community members and community partners.
- Development database for incoming calls to standardize the responses to caller queries; develop resource list for GCHD.
- Two personnel will facilitate case management follow up on results from GCHD concerning water samples with high home water lead levels.
- Provide technical assistance and community health outreach support to GCHD and to the EPA field team during water sampling and rash investigations.
- Create email groups for email messaging blasts to community partners.

Behavior Health Team (US HHS) stationed at GCHD

4 personnel

- Develop Behavior Health Surveillance Plan and Gap Assessment.
- Provide Behavioral Health Support for community-based health and human service providers.

EPA Sampling Teams out in the field

3 teams with 3 personnel,

- Identify sampling locations based on State DEQ requests and/or inquiries from residents, schedule visits with residents.
- Develop facts sheets based on high lead homes and other facts sheets, as needed.
- Provide risk communications and test results to residents.
- Conduct sequential, filter pilot, and distribution system sampling.

High Lead Home Strike Team out in the field

5 personnel

One MDEQ rep (Taylor) with EPA high lead team.

- Conduct water sampling at residences with rash complaints
- High lead homes with no contact information

MDEQ (Provided by Mark Ducharme) out in the field

- One Initial Outreach Visit team consisting of 1 DEQ rep (Oeming) and 1 MDHHS rep (Groetsch), supported by 2 team Rubicon, 1 city of Flint PD escort, and 1 Penske truck loaded with commodities.

Genesee County Health Department team out in the field

1 team with 2 personnel One LHD person (EH), One EPA person (for sampling)

- Responding to high lead homes – Made contact with all homes 150 ppb last Wednesday and will continue as long as they have resources.

Subject: SEOC Update 2/5/16 - Flint Water - Limited Distribution

Update 2/5/16 – 32nd Day (31st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Prepare of opening of secondary state warehouse

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.

- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data (NG field is showing 0 which is not correct). NG personnel are still at the PODs.
2. Sit Rep #31.
3. Maps: Residential Water Sampling Results – Lead and Copper

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Saturday, February 6, 2016.
- MDOC will begin setting up Kroger warehouse.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Priority for the weekend is homes that did not have contacts during previous sweeps.
- SBA declaration approved. SEOC Logistics will be working to identify office space in Flint for SBA staff.
- Recovery Branch estimate based on information collected last weekend is as follows:
    - 80 Complexes
    - 4170 Units
    - 2892 Assisted Living/Senior Housing (Dept of Aging)
- Information in DHHS Sit Rep is from GCCARD only, this information is not included in the daily totals.
- JIC issued a news release around 10 a.m. about the state of Michigan encouraging food establishments to take advantage free water safety inspections. The news release was picked up by the Associated Press and other news media outlets.
- JIC held a media event to encourage people to check out Flint area restaurants with Lt. Gov. Brian Calley and Michigan Department of Agriculture and Rural Development Director Jamie Clover Adams. Nine local and statewide news media members attended the event.
- Finance Section developed guidance for Flint Water Inter-Agency Coordinating Committee related to reimbursements for non-state employees.
- State Voluntary Agency Liaison (VAL) prepared list of NGOs involved in Flint for DHHS SERG grant application.
- State VAL worked on potential jobs funding with TIA via Dept of Labor.
- Question was asked from the Governor's office yesterday if commodities purchased could be returned. Per FEMA, any item such as filter, pitcher, cartridge etc. cannot be returned. Once procured via State RRF the state owns it - no returns. Water can be returned with 12 months remaining shelf life and in complete factory issued pallet w shrink wrap and the state will fund/ transport of returning water to the designated Distribution Center. FEMA will inspect all returning water prior to movement and water is limited to available storage space in the FEMA Distribution Centers which will range between 0-5 million liters. Quantity to be returned will be approved prior to movement based upon available space and known inbound inventory.
- DEQ finalized sentinel sampling plan to commence activities beginning February 10th, 2016.
    - DEQ received 12 iPads for deployment with teams for status tracking.

Unified Coordination Group (UCG):

- Met with the nutrition task force today on request from the state.
- Cleared up misinformation on areas that have not been covered.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Developed floor plan proposal for new warehouse with warehouse workers.
- Recycling and water distribution event with MSU athletics.
- Establishing plan to provide public transit vouchers for travel to blood lead level test clinics.

- Work with Michigan Community Service Commission to align supplies and resources for PUR filter distribution effort next week.
- DEQ/Team Rubicon team visited 30 homes with water lead levels of 150 ppb.
- Developing plans for follow-up with residents at homes with water lead levels of 150 ppb.

Subject: SEOC Update 2/4/16 - Flint Water - Limited Distribution

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/4/16 – 31st Day (30th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made. Special attention to apartments/multifamily residences.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Submit SBA application.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Daily Summary of Data.
2. Sit Rep #30.

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Friday, February 5, 2016.
- FWICC and Mission Flint meetings in Flint.

Items to Note

- 10 ARC Flint Water Response Teams to the field today. Continued priority is the apartment list from 2/2/16.

- Recovery Branch worked with county and postal partners to collect information about home vacancies and resident's with forwarded mail addresses in order to ensure we are contacting all occupied residences in the City of Flint.
- Recovery Branch supported the efforts of MSDHA to provide resources to tenants in their facilities.
- JIC issued a media advisory about federal lead for Flint water crisis Dr. Nicole Lurie to visit EPA's command post.
- MDHHS provided a representative to accompany the MDEQ team to the high lead homes in Flint. The MDHHS representative will encourage individuals to have blood lead testing and answer health questions as necessary.
- GIS is working to develop a field application for MDEQ and MDHHS for field collection of water test data and health data respectively.
- SEOC and MTED are working with Department of Labor to identify grants that may be available to assist with jobs programs (wages, training, overhead, and potentially equipment and leasing resources). DOC looking at prisoner re-entry programs for those returning to Flint area.

Unified Coordination Group (UCG):

- Working on improving communication flow between UCG and state partners.
- Attended long term recovery meeting held by state VAL.
  - Discussed MARC model and potential transition plan.

Local EOC

- Coordinating rapid response deliveries to homebound residents and special locations.
- Attended meeting with federal, state and local health and environmental agencies to establish process for notification of households with water test results that exceed 150 ppb.
- Attended two long term recovery planning meetings with SEOC staff, VOADs and local agencies (Flint Water Recovery Leadership group).
- Ensuring Community Access Center for the Deaf and Hard of Hearing receives appropriate supplies.
  - Briefed staff on site on filter installation and water sampling process.
- Clarified distribution process at city sites with Flint City Administrator's Office. Coordinating with Fire Department Quartermaster for supplying city sites.
- Addressing various public concerns, including identification of canvassing teams.
- Instituted credentialing verification process for 2-1-1 calls.

Chris

INTERNAL USE ONLY – LIMIT DISTRIBUTION TO GOVERNOR'S OFFICE

Update 2/3/16 – 30th Day (29th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Refocus state agencies on objectives, tasks in the Incident Action Plan and how we get to the end state/shift to longer term recovery.
- *Ensure adequate quantities of supplies to support operations.*
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint and Genesee County for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.

- Includes filter replacement strategies.
- Submit SBA application – outstanding item is the certification of availability of financial assistance. Priority item for the a.m. so this can get submitted. Press release has been completed.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received this date. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. **Daily Summary of Data, full version and abridged (New reporting format – we will ensure we give liters of water and cases in the future)**
2. Residential Water Sampling Results Maps – Lead and Copper
3. SitRep 29

Key items for tomorrow to note are:

- 10 American Red Cross Teams scheduled for Thursday, February 4, 2016.
- Will continue to target residences from the Apartment List from 2/2/16

Items to Note

- Paired down the list of parcels not visited from 2400 to 958. Will continue on 2/4/16 to identify any parcels not visited. Some parcels contain multifamily residences and those types of residences are being reviewed and targeted to ensure coverage.
- MDOC is going to look into their job programs for any prisoners begin release back into the Flint area. This will be in conjunction with any other job programs identified. We are working with MTED on solutions.
- DEQ and DHHS will be going to residences with >150 ppb starting tomorrow. They will be checking residences next to the one with the high lead level to see if this is a single residence issue or a bigger issue affecting the block or line in an area. This will not initially include EPA as they did not seem interested in combining teams but we are working on more collaboration without slowing us down.
- DEQ will have a representative in the UCG starting 2/4/15.
- Discussed with UPS on ways they can assist with Rapid Response Team and filter replacements in the future.
- Additional warehouse will be put in service potentially Saturday. Seventh Day Adventist are potentially going to operate it or help with operations to phase out state agency personnel and make it more community run. The warehouse does include some office space if needed.
- 10 ARC Flint Water Response Teams to the field today.
- Team Priority Visited Today: Apartment List from 2/2/16
- SEOC Logistics worked with MDOC on their assistance with warehouse management and staffing for new warehouse. Reached out to Food Bank on their recommendation and coordination for hours/days of operation of new warehouse.
- SEOC Operations attended a donations management meeting to discuss the need for a consolidated list of donated goods.
- JIC strategized with the U.S. Department of Health and Human Services and Environmental Protection Agency on how to better coordinate public information.

Unified Coordination Group (UCG):

- UCG IAP approved today for the operational period 0800 2/2/16 to 0800 2/4/16.
- The Federal Health Coordinating Officer had a meeting today with Economic Development and Housing and Urban Development.
- EMHSD liaison provided information on Michigan EM structure to Command.
- State JIC manager now in the communication loop for the UCG.
- UCG discussed MARCs and potential implementation.

- Capt. Kelenske met with Don Boyce from US DHHS to discuss concerns with Federal HHS and EPA and how we can move forward with better collaboration and coordination. Boyce also met with Governor's Office staff on same. The meeting went well and a solid relationship is in place with Boyce. He is a direct report to Dr. Lurie and will provide her some context on the issues and how we can move forward. He will be a good POC to assist us with any shifts in direction needed at the federal level.

Local EOC

- Coordinated rapid response deliveries to homebound residents and special locations.
- Working on refining rapid response delivery process.
    - Preparing transition from Team Rubicon personnel to NCCC teams, and eventually Southern Baptist Disaster Relief.
    - Coordinating with ARC for logistics support to NCCC teams (AmeriCorp).
- Working with ARC to ensure resource needs of franchise customers at Sunridge Apartments complex in Flint Township are met.
- Coordinating with MDEQ to streamline test kit assembly process.
- Attended distribution plan meeting with faith-based organizations, state, and local agencies.
- Referring VOADs to appropriate volunteer management agencies.
- Addressing various public concerns, including availability of supplies at child care facilities.

Damage Assessment and Emergency Status Report

Incident: 2015-10-01-City of Flint-Water Contamination / Shortage

Operational Period

Operational Period Begin:	02/16/2016 08 00 00
Operational Period End:	02/23/2016 08 00 00
Situation Report No.	46
SEOC Status:	Full
SEOC Hours of Operation Begin	02/20/2016 08 00 00
SEOC Hours of Operation End	02/20/2016 20 00 00

Executive Summary

SEOC Update
Accomplished today (February 20, 2016)

The SEOC continues to provide
- Situational awareness
- Common operating picture/objectives
- Coordination with city/county
- Potential coordination with federal agencies
- Incident prioritization.
- Coordination of life/health safety measures.
- Resources
- Public information control

Logistics
- Fielded resource requests
- Fielded Rapid Response requests
- Fielded Governor's office request.
- Facilitated distribution team calls.
- Worked on armed vs unarmed security for warehouses proposal

JIC
- On call this weekend
- Lt. Governor Brian Calley hosted a Tele Town Hall meeting today at 1100 with local officials

Recovery Branch
- Attended UCG Brief, SEOC State Agency Briefing meetings, Distribution Process meetings
- Completed copying of S drive for FOIA project – flash drive given to FOI Unit.
- Requested more detailed list of iPads available to Southern Baptists
- Team Priority Visited Today: Continued visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges. Over 300 plus were visited today and the total is 1,000 or less as of 1900 hours today
- Team Priority Scheduled Tomorrow: Continue visiting the 1,300+ Access and Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges
- 5 American Red Cross Teams scheduled for Sunday, February 21, 2016

o Total homes visited
- 27,703 (round 3 total)
- 546 (today)

o Water
- 203,652 liters or 16,971 cases (round 3 total).
- 7,476 liters or 623 cases (today)

o Faucet filters
- 7,932 (round 3 total)
- 97 (today)

o Replacement cartridges
- 8,249 (round 3 total)
- 317 (today)

o Water test kits
- 3,242 (round 3 total).
- 141 (today)

Planning Section
- Developed and approved Sit Rep #46
- Updated burn rates and projection costs, per request
- Updated Flint Water Timeline
- Participated in daily UCG, state agency, and distribution process meetings
- Developed daily Governor's Report.
- Started printing FOIA documents for PSC computer

Operations Section
- Participated in 0830 UCG briefing in SEOC
- Facilitated 0930 state agency briefing
- Participated in 1030 distribution process meeting
- Facilitated 0400 state agency briefing
- Warehouse Numbers as of 1800

❑ Water (liters)
• 638,072 liters or 53,172 cases.
❑ Filters (faucet)
• 69,282
❑ Replacement cartridges
• 426,442
❑ Test kits (prepped)
• 33,301.
• PODs (number as of 1700 2/20)
❑ Water
• 92,484 liters or 7,707 cases
❑ Filters (faucet)
• 113.
❑ Replacement cartridges
• 415.
❑ Test kits
• 152.

Finance Section
• Review Category B cost information received from the city of Flint.
• Conference call with MDHHS Purchasing section
• Compile weekly status update report for SBO.

GIS branch updates
• Worked on creating new dashboards for Governor's meeting on Monday
• Updated Access and Functional Needs
• Daily Parcel Pairing.
• PODS map for Jay
• Updated zip codes for MDCH
• Water Sampling Test Results

DTMB
• Issued (10) iPads for DEQ EOC with wall and car chargers
• Delivered print orders to the Genesee County Emergency Operations Center
• DEQ requested temporary office and parking space for executive working in Flint at the State Office Building

DHHS-CH
• Dr. Nicole Lurie will be returning to Flint on Sunday for a briefing with the UCG, and she will provide six congressional delegates visiting Flint on Monday with information on the current situation in Flint.
• The CHECC and MDHHS PIOs are working to ensure that request for assistance of an elderly homebound individual whose residence tested high in lead is able to obtain a blood lead test.
• Case managers working in Flint are concerned about individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. The phone does not allow them to dial 2-1-1, so a separate number has been provided to them to call

DEQ
• Continue to monitor progress of Sentinel Sampling and support as necessary
• Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team)

State VAL
• No update

Unified Coordination Group (UCG)
• MDHHS requested a special project to use WIC cash value benefits to purchase fruit and vegetables at the farmers market.
• UCG Daily Sit Rep available in MI CIMS
• MDEQ located 24 lead service lines, looking at the adjacent properties to the original 10 lead service line locations did produce a number of additional lead service lines
• Tele Town Hall with the Lt. Governor at 11 00 am
• Genesee County EOC worked with Good 360 yesterday and steered them away from sending products that will not be useful, such as shower filters

Local EOC
• Southern Baptist Disaster Relief out in the field with five teams, providing supplies to residents with access and functional needs that requested delivery via 2-1-1 hotline
• 21 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
• Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels
• MSU recycling event originally scheduled for 02/20/2016 was postponed.

Injuries
• None reported today.

Incident Response/Recovery Priorities/Objectives

(Objectives are in order of priority with original objective number attached)

1 Ensure all households within impacted community have required resources and are included in DEQ water sampling plan
12 Approve and begin implementation of a comprehensive long term recovery and transition plan
11 Ensure accurate tracking and accounting of all donations and expenditures
2 Ensure accurate tracking and accounting of all commodities
3 Continue to improve and maintain public information processes and strategies with all partner agencies
8 Maintain coordination between partner agencies and organizations to include FEMA IMAT, FWICC, and the US Department of Health and Human Services Unified Coordination Group (UGC)
9 Continue to enhance situational awareness and common operating picture of all activities
7 Gather, analyze, and disseminate GIS data to develop products for future planning

Damage Assessment Summary

Agency Summaries

Joint Information Center / Public Information Officer

The Joint Information Center (JIC) was expected to be operational in Flint from 8 a.m. to 8 p.m. on Feb. 19

State agencies at the JIC included the Michigan State Police, Michigan National Guard, and Departments of Environmental Quality, Health and Human Services, State, and Treasury. The Genesee County Sheriff's Office was also present.

Tasks accomplished.
• Media hotline staff answered fewer than 10 emails and phone calls that ranged from contractors looking to help with replacing lead service lines to media inquiries about lead-level testing in schools and pipes sitting outside of the Flint Water Treatment Plant Questions were routed from WDIV-TV 4 in Detroit and WJBK-TV 2 in Detroit.
• Created a media monitoring report and looked for misinformation. Found an article where Genesee County Sheriff Robert Pickell states that he doesn't trust the lead water testing being conducted in the city of Flint The Flint JIC brought this to the Genesee County JIC liaison's attention.
• Issued a news release about the postponement of the recycling event on Saturday, Feb. 20, with MSU student athletes
• Created a news release to remind Flint residents to replace their filter cartridges. The intention is to issue the news release today.
• Updated community outreach spreadsheet to include parent-teacher organizations and other local events.
• Continued routing public information materials for approval, including updated information on recycling, testing your water, and keeping kids safe. Received and posted additional translated materials to www.michigan.gov/flintwater.
• Issued and scheduled social media posts for distribution.
• Continued printing emails from JICNews and JICManager email accounts for submitting to FOI staff.
• Updated the Daily JIC Activities log to catalog actions completed for the day and planned products and events for the week.
• Follow-up with United Way 2-1-1 about outstanding rumors and questions
• Updated talking points for Captain Kelenske for the Feb 20 TeleTown Hall with Lt. Gov. Brian Calley.

Agriculture and Rural Development (MDARD)

Summary of activities from MDARD at the SEOC on 2/20/16 (this information came in after the 4pm report on Friday):
Current and Planned Objectives for MDARD's Animal Industry Division, relating to pets & Flint for February 21 -27, 2016
*Pay for laboratory cost of blood or tissue lead and copper level testing of pets in high risk homes where lead water sampling is >150ppb and/or copper is >1300ppb MSU study will cover copper testing if pet owner agrees to study otherwise MDARD will pay for testing of copper
*Continue liaison efforts with response organizations assisting with potential lead toxicity in pets in Flint.
*Determine appropriate response to levels of copper in pets in collaboration with MSU CVM
*Respond to calls from veterinarians and the public seeking assistance or guidance related to pets

MDARD will also coordinate with LARA to respond to some specific questions that have come in from a restaurant.

American Red Cross (ARC)

The American Red Cross deployed 5 Water Response Teams on Saturday, 2/20/16 We plan to deploy 5 teams tomorrow as well

The Volunteer Reception Center (VRC) was operating today from 9am to 5pm, and the plan is for those hours to continue daily, through Sunday The VRC processed 126 event-based volunteers today 146 event-based volunteers were active on projects today

Volunteers assembled more than 2,700 bottle recycling kits today

Civil Rights (MDCR)

Continue to monitor media and state agency activities for issues impacting underrepresented, at-risk, and populations with barriers to services and information

Community Health (MDCH)

The CHECC remains activated at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD. The CHECC continues to provide representation to the UCG to facilitate communication with federal partners.

Received confirmation that the ASPR, Dr Nicole Lurie will be returning to Flint tomorrow, 2/21/16 for a briefing with the UCG Six congressional delegates are also planning to visit Flint on Monday, for which Dr Lurie will be providing them with information on the current situation in Flint.

The CHECC and MDHHS PIOs are working to ensure that special requests for assistance of an elderly homebound individual whose residence has tested high in lead is able to obtain a blood lead test The CHECC is coordinating with the GCHD to fulfill this task.

Case managers working in Flint have expressed concern in reference to individuals who rely on the Federal Life Line program that provides them with a phone to call for emergency services. Unfortunately, the phone will not allow them to dial 2-1-1 and reach the 2-1-1 operators. Instead, there is a separate number that they will need to call Have been in contact with 2-1-1, MDHHS PIOs, and FEMA regarding options for messaging in order to ensure communication is provided to these individuals in Flint with Life Line phones. This work will be ongoing, as the Life Line program consumer assistance center is closed on the weekends Hoping to explore the option of a "robo-call" (reverse 9-1-1 mechanism) for notifying consumers.

Corrections (MDOC)

Warehouse 2 was fully operational today The 7th Day Adventists were on site to job shadow. MDOT is dedicating 2 employees to the effort DTMB continues to dedicate 2 trucks with drivers.

Safety concerns continue to be addressed at Warehouse 1.

MDOC continues to keep trucks dedicated to delivering to individual POD's and covering Rapid Responses for PODs that get to a critical level. PODs remained well supplied throughout day and will continue to be well supplied moving forward

MDOC continue to staff the SEOC from 0800-2000, 7 days/week Mike Farmer and Bridget Spencer are managing the Recovery Branch of the SEOC.

162 DEQ test kits were delivered from Flint to Lansing today.

Education (MDE)

1 MDE staff and Genesee ISD business and program staff met on Flint Emergency Fund reporting requirements Regular meetings are scheduled between MDE staff and that of GISD and Flint Community Schools.

2 LARA indicates that replacement of fixtures at MSD is scheduled for next weekend (27-28 February)

Environmental Quality (MDEQ)

The Department of Environmental Quality (DEQ) completed the following activities today.

- Continue to monitor progress of Sentinel Sampling and support as necessary.
- Deployed 22 field teams (21 Sentinel Teams and 1 High Lead Team).

Sentinel B accomplishments as of 1500 hrs
• 416 Homes visited
• 148 Inspected
• 128 Residents agreed to participate in sentinel monitoring program
• 2 Lead lines

Licensing and Regulatory Affairs (LARA)

Participated in briefings and updated the LARA Executive Team

LARA continues to monitor DEQ's test results for Health Care, Child Care, Adult Foster Care, HHS and MDE facilities and Schools

Faucet Project information is being prepared for the affected facilities LARA continuing efforts to plan and schedule faucet replacements for Flint facilities LARA is working with MDOC to track and store incoming material at the warehouse Coordinating with Amway the use of their donated water filters as part of the Faucet Replacement Program Amway also requires LARA inspectors and plumbers to be trained before they are allowed to install these filters LARA will coordinate this training with Amway and the Local 370 plumbers

Translation services for various documents continue to be provided as needed - these include Spanish, Arabic, Mandarin, Hmong and American Sign Language Provided all translated documents in Spanish to our Hispanic Liaison in hard copy. Ongoing discussion regarding coverage of state regulated facilities and elimination of duplication of effort with state agencies Arrangements in progress for assistance to various ethnic communities to provide services

Military and Veterans Affairs (DMVA)

Commanders Situation Report (SITREP)

1 DTG. 2012452016

2 UNIT Points of Distribution (PODs), NG TF FLINT

3 POC. Capt Bechtel, Jennifer E (mail ng mi flint eoc@gmail com

4 PRESENT LOCATION: Genesee County Local EOC, 1101 Beach St., Flint, MI, 48502

5 SITUATION OVERVIEW NG Task Force Flint has (Soldiers deployed to the Flint Water Crisis in support of Distribution Operations at the Points of Distributions (PODs) Daily operations consist of receiving, tracking, and issuing out water, filters, replacement filters, and water test kits

6 OWN SITUATION DISPOSITION /STATUS Currently NG Task Force Flint has Soldiers on ground supporting the mission

7 OPERATIONS. Operations for the next 24 hours are to sustain water/filter distributions throughout the 5 designated fire stations and track all distribution incoming and outgoing through the PODs

a Signs to assist citizens have been printed off, laminated, and delivered to PODs

b Not anticipating VIP at POD 5 on Monday, February 22nd

c A GSA card expired the 16th, leaving a POD unable to purchase fuel Used temp card

d MDOT portable light stand out at POD 5 SEOC submitted fix request to MDOT

e One Mile March did not have any major effect on PODs

8. PERSONNEL Soldiers are currently assigned to the POD operations ' Soldiers are assigned in five teams at Fire Stations 1, 3, 5, 6 and 8

9. INTELLIGENCE / FORCE PROTECTION Citizen stopped by Station 3 yesterday after march to inform them that the new motto is "No pipes, no peace."

10 LOGISTICS: In support of TF Flint

a. The VRC is now assembling the recycling kits and a plan is being coordinated to facilitate delivery to warehouse. Warehouse drivers will distribute bags evenly to the PODS on Monday.

11 COMMUNICATIONS:
a POD 8 operational with ANG provided laptops

b Working to change wireless settings in replacement laptops delivered to PODs 125 IN laptops have been left behind for

immediate use in daily reporting. Resolution in process.

P. RRF cell phones alternate for WRTs
A Personal cell phone
C 800 MHz radios issued to PODs and WRTs
E. Runner

12 NARRATIVE: N/A

13. COMMANDER'S EVALUATION.
• RIP/TOA activities complete and all PODs are running entirely under new NCOICs
• OUT (last 24 hours)
Bottled water-6,946 Water (Gallons)-630 Lead Testing Kits-192
Pitcher (23 cup)-0 Brita Faucet Filter-65 Brita Replacement Cartridge-216
Pur Filter-82 Pur Replacement Filter-281

National Weather Service (NWS)

NWS Detroit providing morning SEOC brief and Activity Log posts. Jim Maczko from NWS Grand Rapids will be the contact point for any changes in NWS Support and will also continue to update the Sit Rep Executive Summary as needed

Participation in afternoon SEOC briefings is planned only if significant changes in the forecast occur

Natural Resources (MDNR)

MDNR LED continues to support its QOL partners with staffing at the SEOC

Department POC's include:
Chief Gary Hagler, F/Lt. Jennifer Wolf, F/Lt Steven B Burton

Services to the Aging (OSA)

Valley Area Agency on Aging (VAAA) continues to receive phone calls from concerned seniors in Flint and continues to make referrals to the Genesee Co EOC for water and filter follow-up

VAAA's local Nursing Home Ombudsman continues to monitor Flint area Nursing Homes to ensure residents have access to safe water.

Contact info for VAAA Executive Director is:
Kathryn C. Boles
President, CEO
Valley Area Agency on Aging
225 E Fifth Street, Suite 200
Flint, MI 48502
(810) 239-7671
(810) 239-8869 fax

State Police (MSP)

The MSP position within the SEOC will be staffed at MSP Operations at HQ. All e-mails to MSP-EOC-MDSP@michigan gov are being forwarded to the Operations Lt The phone number for the on duty Operations Lieutenant is 517-241-8000.

Technology, Management and Budget (MDTMB)

Continue to provide DTMB management SEOC updates.

Issued (10) iPads for DEQ EOC with wall and car chargers
Delivered print orders to the Genesee County Emergency Operations Center
DEQ requested temporary office and parking space for executive working in Flint at the State Office Building

Transportation (MDOT)

Providing 2 staff to warehouse #2 (Pierson Rd).

Providing 2 portable light tower generators to Fire Station #5 on Western Rd

Providing (3' x 5') standard signs Fire Stations/PODs (2 each site)
Providing 100 grabber traffic cones (narrow reflective cones) at Fire Station #3 Martin Luther King Rd. & Fire Station #6 Pierson Rd (50 each site)

Continuing to maintain situational awareness and responding to issues regarding equipment and road conditions

SEOC Report for Saturday February 20, 2016

Full Days Since Emergency Declaration: 46

Items to Note

- MDEQ has 21 Sentinel Sampling Teams and 1 High Lead Team in the field today.
- 7 American Red Cross Teams scheduled for Saturday, February 20, 2016. The teams will continue to visit the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- MDTMB is working with FEMA and Recovery Branch to research direct delivery for replacement cartridges to 30,000+ residences in the city. Additionally, MDTMB is researching a tracking mechanism system to be used in PODs for *filter/replacement cartridge distribution.*

Subject: FW: 211 Questions

Just got the latest update. Was also advised that on 2/18 the following was provided to us:

"We are investigating two reports of callers experiencing a delay with the introductory message when they first dial 2-1-1 in case there is an issue our vendor needs to address.
Average answer time has been around 3 min, but during high volume periods waits can be longer. The system is set *up to offer a call back option when wait times exceed 5 min.*

If you hear reports of problems please get the number used to call and the date and approximate time so we can track down the specific incident and investigate of there's a problem we can fix.
Tom"

This is the daily 2-1-1 summary on the Flint Water Response for Friday, February 19, 2016

GENERAL INFORMATION

- *Red or yellow filter lights means it's time to change.* The state of Michigan is encouraging Flint residents to check their water filters and pay close attention to the light on the filter so they know when it needs to be changed. A red light means the filter should be changed immediately. A green light means the filter is working. A yellow light means the filter is working, but will need to be changed soon. When the yellow light is on, people should pick up a new filter at a water resource site. Used filters can be dropped off at water resource sites in designated boxes. Replacement filters and cartridges can be picked up at the same locations.
- The Environmental Protection Agency (EPA) released study showing that NSF-certified lead-removal filters are working as expected in Flint homes with high lead levels. It is essential to use of filtered water for drinking, food preparation, brushing teeth and pets. Unfiltered water may be used for bathing and cleaning. Pregnant woman and

children under six years of age should continue to drink only bottled water. See the EPA report on filter effectiveness athttp://epa.maps.arcgis.com/apps/webappviewer/index.html?id=25917b97ac5340859fab9df9a48e0c15

- Food Bank of Eastern Michigan and Red Cross are coordinating a weekly meeting for "Flint Water Crisis Partners Working Together" that provides a forum for 50+ community partners to meet, share ideas, problem solve and coordinate their activities. There are a number of workgroups focusing on different needs including Physical Health, Mental Health, Recovery Resources, Education and Communication. Watch this space for updates on community and workgroup meeting times and locations.
- The NAACP has released a Flint Community 20-Point Priorities List for short- and long-term action on the water crisis. Information on the list can be found athttp://www.naacp.org/press/entry/naacp-releases-20-point-list-of-priorities-to-address-the-needs-of-flint-re.

Work on the list is being tracked using a matrix that identifies which organizations are taking specific actions related to each priority item. View the action matrix at:http://naacpflint.org/wp-content/uploads/2016/02/FLINT-WATER-CRISIS-MATRIX-REVISED.pdf

CALL VOLUME

2-1-1 provided 142 referrals for Flint residents on February 18. Top requests were for drinking water, water testing, and water filters.

SPECIAL NEEDS/REQUESTS

- No special needs or requests to report today.

RUMOR/SCAM CONTROL

- There are no new rumors or potential scams to report today.

The Attorney General's Office investigates potential scams. These can be reported to the Charitable Trust Section at ct_email@michigan.gov<mailto:ct_email@michigan.gov>. The AG has tips on how to avoid falling victim to con artists at http://www.michigan.gov/ag/0,4534,7-164-17337_20942-375279--,00.html

UNRESOLVED

Today marks a milestone – for the first time since 2-1-1 began producing these daily summaries on January 9th, all unresolved issues have been addressed. 2-1-1 would like to extend as special thank you to Sheryl Thompson and Angela Minicuci at MDHHS for their dedicated efforts to work with us to find information and resources to address these issues.

þ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

RESOLUTION: "When in doubt, throw it out."

Michigan Department of Agriculture and Rural Development, which has the primary responsibility of safeguarding the public's food supply states:

Foods must be prepared and processed using potable water. Since there is no way of assuring the safety of the water used in processing home canned goods during the 2015 home canning season, the safety of home canned goods cannot be determined without testing.

Unfortunately, testing home canned products is not feasible because the cost of testing each sample of suspected food is much greater than the actual value of the food. To assure food safety and reduce the risk of exposure to possible lead in home canned foods, MDARD recommends that home canners discard any food in question. In this case, as is the case with any potential or suspected adulterated food, the best guidance is to follow the adage of, "When in doubt, throw it out."

Tom Page | Executive Director
Michigan 2-1-1 |330 Marshall Street, Suite 211, Lansing, MI 48912
Phone: 517-664-9811 | Email: tpage@uwmich.org<mailto:tpage@uwmich.org>

The 2/18 2-1-1 summary is follows.

I'm replying from my phone, so have limited materials at hand to forward. We are investigating two reports of callers experiencing a delay with the introductory message when they first dial 2-1-1 in case there is an issue our vendor needs to address.
Average answer time has been around 3 min, but during high volume periods waits can be longer. The system is set up to offer a call back option when wait times exceed 5 min.

If you hear reports of problems please get the number used to call and the date and approximate time so we can track down the specific incident and investigate of there's a problem we can fix.
Tom

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, February 18, 2016

GENERAL INFORMATION

- State of Michigan has developed Flint Water materials in Spanish, Mandarin Chinese, Arabic and Hmong. Translated documents are available in the "Alternative Language Resources: Español - 中文 - العربي" area ofwww.michigan.gov/flintwater. Federal partners have resources available in Spanish, traditional Chinese, simple Chinese, Vietnamese, and Korean atwww.epa.gov/flint.

The State is working on making critical information available in American Sign Language, including this ASL video on adult lead exposure risk:www.youtube.com/watch?v=eSnHQ_oqt_w&feature=youtu.be

CALL VOLUME

2-1-1 provided 159 referrals for Flint residents on February 17. Top requests were for drinking water, water testing, and lead screening. A summary of daily Flint water referrals can be viewed online at http://mi211.211counts.org/ by clicking on the drop-box labeled "LAST YEAR" to select one of the alternate default options, or to choose a specific range. Then, under the "Top Request Categories" box, click on "Disaster. This will update the display in the upper right section of the screen to display a breakdown of Flint-related referrals.

SPECIAL NEEDS/REQUESTS

- No special needs or requests to report today.

RUMOR/SCAM CONTROL

- The Attorney General's Office is prepared to investigate potential scams. These can be reported to the Charitable Trust Section atct_email@michigan.gov. The office also issued a press release with tips on how to avoid falling victim to con artists:

CONSUMER ALERT: http://www.michigan.gov/ag/0,4534,7-164-17337_20942-375279--,00.html

UNRESOLVED

þ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

RESOLUTION: A city-wide canvass was done twice, after which time the additional National Guard soldiers and airmen were demobilized, and door-to-door efforts became targeted only to homes without filters or to homebound individuals. Currently, door to door efforts only involve a very small number homes that do not have a water filter so that list is not being released publically to avoid scams from targeting these homes.

þ From 1/26/26: There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. Are shower filter donations a request that can be coordinated through Good360 or another supplier?

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

RESOLUTION: Based on clear statements from MDHHS and the CDC that Flint water is safe for bathing, demand for shower filters will no longer be reported in this section as an unresolved issue. 2-1-1 will continue tracking requests for shower filters from residents as an unmet need as one data point to track demand for these filters.

þ From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

RESOLUTION: Dr. Eden Wells with MDHHS hosts a weekly webinar with providers. She will be making a focus of one of her upcoming webinars to healthcare providers a discussion on oral health and fluoridation concerns.

¨ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

þ From 2/15/16: Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?

https://www.facebook.com/IamShiftingParadigms/posts/821354508011097https://pages.giveforward.com/emergency/page-42jxcw4/http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

þ From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint, according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?

RESOLUTION: Regarding the two above items -- the Attorney General's Office provided guidance to 2-1-1 addressing the items from both 2/15 and 2/16. The office clarified the AG does not vet the legitimacy of organizations, but they do

investigate complaints to ensure any organizations soliciting funds are in compliance with the charitable solicitation laws which require registration with basic information about the charity and regular reporting, as well as reviewing misstatements and misrepresentations. The Charitable Registry can be searched at www.ag.state.mi.us/CharitableTrust/

Some legitimate charities, including the American Red Cross and Salvation Army, do not appear in the Attorney General's database because they are exempt. Call the Attorney General's Charitable Trust Section at 800-769-4515 if you have questions.

Tom,

We are trying to get a little clarification on some questions or concerns that have been shared with us.
A concern that has been brought to our attention is of wait times when individuals call 211. Do you know of any situations where individuals have called 211 and had to wait for extended periods of time?
Do you have any numbers on call volume? The last report we had, stated that the volume numbers were down from previous reports.
Also, the last report that I can find is from Wednesday 02/17/2016. Do you have any recent reports that you can share?

Thank you.

Subject: Re: 211 Questions

The 2/18 2-1-1 summary is follows.

I'm replying from my phone, so have limited materials at hand to forward. We are investigating two reports of callers experiencing a delay with the introductory message when they first dial 2-1-1 in case there is an issue our vendor needs to address.
Average answer time has been around 3 min, but during high volume periods waits can be longer. The system is set up to offer a call back option when wait times exceed 5 min.

If you hear reports of problems please get the number used to call and the date and approximate time so we can track down the specific incident and investigate of there's a problem we can fix.
Tom

This is the daily 2-1-1 summary on the Flint Water Response for Thursday, February 18, 2016

GENERAL INFORMATION

- State of Michigan has developed Flint Water materials in Spanish, Mandarin Chinese, Arabic and Hmong. Translated documents are available in the "Alternative Language Resources: Español - 中文 - العربية" area ofwww.michigan.gov/flintwater. Federal partners have resources available in Spanish, traditional Chinese, simple Chinese, Vietnamese, and Korean atwww.epa.gov/flint.

The State is working on making critical information available in American Sign Language, including this ASL video on adult lead exposure risk:www.youtube.com/watch?v=eSnHQ_oqt_w&feature=youtu.be

CALL VOLUME

2-1-1 provided 159 referrals for Flint residents on February 17. Top requests were for drinking water, water testing, and lead screening. A summary of daily Flint water referrals can be viewed online at http://mi211.211counts.org/ by clicking on the drop-box labeled "LAST YEAR" to select one of the alternate default options, or to choose a specific range. Then, under the "Top Request Categories" box, click on "Disaster. This will update the display in the upper right section of the screen to display a breakdown of Flint-related referrals.

SPECIAL NEEDS/REQUESTS

- No special needs or requests to report today.

RUMOR/SCAM CONTROL

- The Attorney General's Office is prepared to investigate potential scams. These can be reported to the Charitable Trust Section atct_email@michigan.gov. The office also issued a press release with tips on how to avoid falling victim to con artists:

CONSUMER ALERT: http://www.michigan.gov/ag/0,4534,7-164-17337_20942-375279--,00.html

UNRESOLVED

þ From 1/18/16: One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

RESOLUTION: A city-wide canvass was done twice, after which time the additional National Guard soldiers and airmen were demobilized, and door-to-door efforts became targeted only to homes without filters or to homebound individuals. Currently, door to door efforts only involve a very small number homes that do not have a water filter so that list is not being released publically to avoid scams from targeting these homes.

þ From 1/26/26: There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. Are shower filter donations a request that can be coordinated through Good360 or another supplier?

1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

2/10/16 UPDATE: Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

RESOLUTION: Based on clear statements from MDHHS and the CDC that Flint water is safe for bathing, demand for shower filters will no longer be reported in this section as an unresolved issue. 2-1-1 will continue tracking requests for shower filters from residents as an unmet need as one data point to track demand for these filters.

þ From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water on the long term dental health of Flint children. Michigan Association of United Ways reported hearing this issue at a meeting with pediatricians and dentists. One suggestion to address this was providing the school-based fluoride treatments.

RESOLUTION: Dr. Eden Wells with MDHHS hosts a weekly webinar with providers. She will be making a focus of one of her upcoming webinars to healthcare providers a discussion on oral health and fluoridation concerns.

¨ From 2/12/16: 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?

þ From 2/15/16: Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?

https://www.facebook.com/IamShiftingParadigms/posts/821354508011097https://pages.giveforward.com/emergency/page-42jxcw4/http://www.plumfund.com/charity-fundraising/help-flint-mi-residents-relocate

þ From 2/16/16: The Attorney General's Office is contacting organizations that are soliciting support for Flint, according to one community partner, to verify their legitimacy and prevent scams or misuse of funds. Is there a contact at the AG's office who can provide a list of vetted organizations to answer questions about the legitimacy of suspect organizations?

RESOLUTION: Regarding the two above items -- the Attorney General's Office provided guidance to 2-1-1 addressing the items from both 2/15 and 2/16. The office clarified the AG does not vet the legitimacy of organizations, but they do investigate complaints to ensure any organizations soliciting funds are in compliance with the charitable solicitation laws which require registration with basic information about the charity and regular reporting, as well as reviewing misstatements and misrepresentations. The Charitable Registry can be searched at www.ag.state.mi.us/CharitableTrust/

Some legitimate charities, including the American Red Cross and Salvation Army, do not appear in the Attorney General's database because they are exempt. Call the Attorney General's Charitable Trust Section at 800-769-4515 if you have questions.

This is the daily 2-1-1 summary on the Flint Water Response for Wednesday, February 17, 2016

GENERAL INFORMATION

- **Invitation to visit the Central Michigan 2-1-1 Center:** Jennie Pollak, Manager of Central Michigan 2-1-1 at LifeWays Community Mental Health in Jackson, is extending an invitation for Flint Water Response partners to visit the center and have a first-hand experience observing 2-1-1 in action. If you are interested, please email Tom Page at tpage@uwmich.org.

CALL VOLUME

Call volume from Flint residents appears to be stabilizing for the moment between 150-160 calls per day and around 200 distinct referrals (many callers have multiple needs and receive more than one referral).

CORRECTION

- Yesterday's item on shower filter distribution reported 200 filters were handed out in 15 minutes. News reports indicate there were 75 shower filters distributed in seven minutes. The report says cars were backed up for half a mile with residents seeking a shower filter.
  View the news report at http://www.abc12.com/home/headlines/Chaotic-water-filter-give-away-369026911.html

SPECIAL NEEDS/REQUESTS

☐ **Requests for shower filters dominated calls to 2-1-1 today** following yesterday's report of shower filter distribution at Berston Field House by native Flint basketball star Deanna Nolan. Callers asked when and where will shower filters be distributed again. 2-1-1 is informing callers that, as of today, there are no official plans to distribute shower filters.
NOTE: The demand for shower filters was first reported by 2-1-1 on 1/26/16. The national organization Good360 has identified a corporate donor that is willing to provide shower filters below cost if there is interest in addressing this demand and distribution plan for making these filters available

RUMOR/SCAM CONTROL

☐ **On 2/16/16 Michigan 2-1-1 received a report that DHHS is looking at rehousing options** for residents in housing that 'environmental investigators' have deemed hazardous for human habitation.
2/17/16 UPDATE: 2-1-1 is following up with an identified lead from MDHHS for specific circumstances indicating how they would like 2-1-1 to respond on a case by case basis.

UNRESOLVED

☐ **From 1/18/16:** One of the top questions is when will canvassers be in specific neighborhoods. Callers would like to know so they can arrange their schedules. Is this information available for 2-1-1 to share?

☐ **From 1/26/26:** There is high demand for shower filters due to reports of rashes and potential lead risk to children from using water to bathe. 2-1-1 is telling callers that shower filters are available for purchase through home improvement stores, based on a google search. **Are shower filter donations a request that can be coordinated through Good360 or another supplier?**
1/28/16 UPDATE: The Michigan 2-1-1 office passed on the demand for shower filters to Good360, which is looking into options to meet this need.

☐ **2/10/16 UPDATE:** Per DHHS, currently there are no direct efforts by the state to begin coordinating shower filters as the current guidance continues to indicate that it is safe to bathe and shower in unfiltered water.

☐ **From 2/11/16: Dentists concerned about impact of drinking unfluoridated bottled water** on the long term dental health of Flint children. ☐ **From 2/12/16:** 2-1-1 has received several calls from residents seeking information about the safety of produce they canned at home using unfiltered city water prior to the emergency declaration. Losing this food could affect household food security. **CAN SEOC or MDHHS provide guidance about whether this food is safe to consume?**

☐ **From 2/15/16: Good360, a 501(c)(3) nonprofit that coordinates bulk donations from corporate partners, has identified a potential source of high-capacity water filters** for restaurants, churches, shelters and other businesses that are not currently eligible for free water filters. These are filtering systems, not faucet filters. ***Good360 is working to verify these filters meet NSF standards for lead and copper, but is asking for feedback if there is a need by local businesses and agencies for this kind of filtering option.***

☐ **From 2/15/16:** Callers continue to ask about relocation assistance. 2-1-1 is informing residents that there is no government relocation assistance available at this time. We have identified several private initiatives to assist with relocation, but have been unable to verify the legitimacy of any of these efforts. **Can the Attorney General's office or another agency help investigate if any of these efforts are legal and legitimate?**

Subject: RE: Re: FWICC

211 is a foundational information line across the nation and works very well when managed properly. This along with 411 and 911 have become very integrated for those who need info or assistance. We notifiy 211 when we are having the tele town halls or other times when we anticipate spikes in activity so they can bring in more personnel. The first week there were longer wait times but that was addressed at that time. I have asked on current wait times as call volume has decreased. If we have specific examples or cases it would help. Thus far, the generic statements have been embellished at times so I want to make sure we are not trying to fix a problem that may not necessarily be there. Will advise when I get the latest update and call volume information. Tom Page has been a good partner so if we need to make adjustments I know he would be receptive.

Subject: RE: Re: FWICC

Gents: I was just just talking about this 211 with my wife. I had never heard of it before and thought it was put on for the Flint water crisis. She enlightened me that it has been around for quite some time. By way of background, she is a regional property manager for a fairly large company here. Her thousand units are primarily MSHDA tax subsidized properties. She stated that this system has never worked right according to her interactions with tenants over the years who have called for help with rent or other services. (long hold times, no help given, never getting to the right person, etc.)

Bottom line at the bottom: Maybe we need to take a look at the fundamentals of the the 211 program and revamp the whole thing. My wife stated that one of the alternate COAs that have been recommended in the past was to look into hiring the 211 program out to a telemarketing firm. Let the experts handle this so there are actually some answers being given rather than the bureaucratic pass the buck program that it looks like we are saddled with.

Hello Dr. Sullivan
I left Flint for a week. Your news about the plumbers is great !
If we keep Jim Henry connected to you and Shawn ,that would be most effective.I am cc the Feds to see if they can connect with Jim and are permitted to make an assessment. I don't know who talks to whom between the city, state, County, and Feds so I included some others so they can act positively ,if they are so inclined. I hope reliable channels of communication are being established by now.This would be a good agenda item for the FWICC.The air must be cleared so work can move forward.
Our mayor could also connect you with General McDaniel(ret) ,who is directing the LSL replacement plans if the TAC is to be resurrected.
You may know that Nick Lyons ,DHHS director, is out and Tim Becker ,deputy director, is in charge.He has been solid in the past .
Maybe the MSP EOC can come up with a better plan for 211 calls also .
I can only hope that everything the government justice folks will handle the KWA issues as they become evident.
There can be a Truth and Reconciliation process as was used in post -apartheid South Africa ,only if those who had the power decide to be truthful. There would have to be a skillful outside facilitator. .
Hello-
Seems like I've seen you across the table but haven't caught up. And then out regular Friday morning update was cancelled last minute.
I'm concerned about EPA office of research and development pulling out of Flint (lead and copper experts). I know I mentioned reawakening the tech advisory board and then got too busy to actually get it going. Maybe this is a way to keep Mike Schock and Darren Lytle engaged?
Shawn has been very successful in building a research team to look at Legionella. Earlier this week we met with Jim Henry. I think he's a good guy - incredibly frustrated, and tired of having his hands tied. Whenever there's a 211 call regarding concerns about health, calls are forwarded to his office. But there are no trained staff people answering calls. Just secretaries. If you haven't spoken to Jim recently, you'd find it enlightening. I'm trying to think of ways to get him help-even if it's volunteers.
Jeff Wright and John O'Brien are putting extra energy into public perception about KWA. The recent KWA board meeting was focused entirely on "clearing up misconceptions"
I brought local plumbers together with the mayor. They'd like to get some of the lead replacement contracts and will expand their apprenticeship program to reach out to unemployed in Flint. They have lots of untapped knowledge about where lead pipes are, and where sections of lead service line have been replaced. In some parts of the city, the mains are 20 ft down (as opposed to five feet down in Lansing) which complicates service lain replacement, especially if fragile mains are broken.
Is there significance to today's cancellation of FWICC?

I hope you are well. I'd like to look more closely at reconciliation programming.

Subject: Follow up from TTH

Team: Thanks for joining the TTH with the Lt. Gov. Here are the follow up items from constituents we spoke with. Please email us when they are completed.

Thanks,
Tori

1. Had health related questions that needed follow up from DHHS

2. Indicated Lt. Roach had visited regarding the water quality/need for filter. Can someone from MSP or DEQ follow up with him?

Subject: RE: Re: FWICC

Main issues seem to be amount of hold time and whether caller actually gets answer/resolution. Are those issues being tracked or just volume of calls each day?

Hello Dr. Sullivan
I left Flint for a week. Your news about the plumbers is great !
If we keep Jim Henry connected to you and Shawn ,that would be most effective.I am cc the Feds to see if they can connect with Jim and are permitted to make an assessment. I don't know who talks to whom between the city, state, County, and Feds so I included some others so they can act positively ,if they are so inclined. I hope reliable channels of communication are being established by now.This would be a good agenda item for the FWICC.The air must be cleared so work can move forward.

Our mayor could also connect you with General McDaniel(ret) ,who is directing the LSL replacement plans if the TAC is to be resurrected.
You may know that Nick Lyons ,DHHS director, is out and Tim Becker ,deputy director, is in charge.He has been solid in the past .
Maybe the MSP EOC can come up with a better plan for 211 calls also .
I can only hope that everything the government justice folks will handle the KWA issues as they become evident.
There can be a Truth and Reconciliation process as was used in post -apartheid South Africa ,only if those who had the power decide to be truthful. There would have to be a skillful outside facilitator. .

Hello-

Seems like I've seen you across the table but haven't caught up. And then out regular Friday morning update was cancelled last minute.

I'm concerned about EPA office of research and development pulling out of Flint (lead and copper experts). I know I mentioned reawakening the tech advisory board and then got too busy to actually get it going. Maybe this is a way to keep Mike Schock and Darren Lytle engaged?

Shawn has been very successful in building a research team to look at Legionella. Earlier this week we met with Jim Henry. I think he's a good guy - incredibly frustrated, and tired of having his hands tied. Whenever there's a 211 call regarding concerns about health, calls are forwarded to his office. But there are no trained staff people answering calls. Just secretaries. If you haven't spoken to Jim recently, you'd find it enlightening. I'm trying to think of ways to get him help-even if it's volunteers.

Jeff Wright and John O'Brien are putting extra energy into public perception about KWA. The recent KWA board meeting was focused entirely on "clearing up misconceptions"

I brought local plumbers together with the mayor. They'd like to get some of the lead replacement contracts and will expand their apprenticeship program to reach out to unemployed in Flint. They have lots of untapped knowledge about where lead pipes are, and where sections of lead service line have been replaced. In some parts of the city, the mains are 20 ft down (as opposed to five feet down in Lansing) which complicates service lain replacement, especially if fragile mains are broken.

Is there significance to today's cancellation of FWICC?

I hope you are well. I'd like to look more closely at reconciliation programming.

We appreciate all the help and support the community is providing and to please continue helping your neighbors and others as we continue to recover. This includes helping to properly install filters for those who need assistance and ensuring they have the filters, replacement cartridges and bottled water if needed. Additionally, help anyone with getting the water sampling completed as was mentioned earlier so we can continue to make progress in identifying areas of concern.

Lastly, the state, local and federal agencies to include the Environmental Protection Agency recommends the Flint residents use the NSF certified filters we have been providing as these filters are effective in removing lead from the water.

Subject: Sara, please send this along to the directors & others you think are appropriate

Directors and Sara, I am providing an update on our work and role in the Flint Water Crisis. Many people in the IL movement have graciously called to offer their assistance. I asked that you hold until we engaged deeply to better understand the impact to the 26,000 Flint citizens with disabilities (US Census); the people we serve. We responded vigorously. The water issue is overwhelming for many organizations, including ours. Following is an update on our work and suggestions on how our friends in the IL and disability movement can help:

Friends of The Disability Network and people concerned for Flint citizens,

The water crisis is a significant and ongoing trial for all Flint citizens and particularly traumatic for many Flint water users who have disabilities. Our goal has been to deeply engage and respond vigorously; we have.

Our focus continues to be on:

1. **Immediate Accessible Emergency Response Actions** – accessible communications, water distribution, transportation, filters and testing.

2. **Preparation and Planning for Long Term Solutions** – engagement and leadership on accessible communications, water resources, education, unique mental & physical health needs, accessible infrastructure and economic development.

3. **Changing the Fear/Stigma of Disability** - from pity and victim to engagement and access for all.

4. **Promoting a Hopeful Future for Flint Citizens with Disabilities** - I believe that in a few years, Flint will have the purest water in the nation, become a national research center on water issues and support services for lead poisoning and ultimately become a more thriving, healthy, welcoming and accessible community for people with disabilities and their families.

Local Perspective: Many local organizations (us, other support organizations, businesses, public agencies) are involved in an "all hands on deck solution". We are personally affected & engaging beyond our capacity. We are living this crisis. We did not have people sitting on the bench waiting for this disaster to happen.

Of course we responded with emergency vigor, leadership and resources. That said, we had to put a hold on some of our daily work and critical systems change, in order to put resources into this immediate community emergency. Resources are desperately needed to respond to the water crisis and the incredible organizational drain on existing services and capacity.

How you can help: If you haven't done so already and want to assist the people of Flint, please consider:

1. Going to www.helpforflint.com to find information on how to donate to Flintkids.org, donate to the United Way Water Fund or volunteer with the American Red cross.

2. Making a specific "Water Crisis Response" donation to The Disability Network. Call Luke Zelley at 810-742-1800 or consider using (www.disnetwork.org – donate link). Donations will be identified and used specifically to provide services and supports for the immediate and long term disability response to the water crisis in Flint.

3. Encouraging the recovery and future of Flint by visiting Flint, buying Flint products, holding your next meeting in Flint or expanding your business to Flint to provide your direct services to the 26,000 (and growing number) of Flint citizens with disabilities (US Census) who need your help to NOT be victims and have a thriving future.

Thank you for your concern and consideration. All Flint citizens need support and prayers during this water emergency, including the unique needs of those with disabilities.

Attached is a summary of our response to date.

Mike Zelley, President
The Disability Network
810-742-1800

Directors and Sara, Thank you for any help you can provide or coordinate. I know that like us, you are all short on resources, so even words of encouragement to the community are helpful. We welcome your suggestions also. We've had some success with local businesses hiring people with disabilities. That said, the growing needs for fresh food, jobs, medical attention, mental health services, hope and leadership are stark. Please pass along this information to people who may want to support the Flint recovery. Thank you all for your support and all you do in your own community.

Mike Zelley, the Board and staff at The Disability Network.

> Hi Chris,
> I was cc on the emails yesterday regarding the survey results from the Head start Families. We sent out 1,100 simple surveys to the families of our 4 year old children on Thursday, on Monday we received 655 back. However since Monday, we have had 3 parent educational meetings on the water situation (assisting parents in understanding, proper nutrition, educational info, etc.) and we have received many, many more. Our initial number show there are 142 homes with no filters, we have address name, contact information etc.
> Right now we are doing the following for the initial 142 families and all subsequent survey responses indicating NO filter :
> 1. Our Health Technicians are making a Personal calls to parents or personal contacts when picking up child to ask which method would work best for them to receive a filter, cartridge, water etc.
>
> A. Have product delivered by MSP
> B. Pick up the Filter at the school
> C. School staff will deliver and install the filter using Family Engagement Coordinators
> D. Or Send the filter or cartridge home with the child in backpack.
>
> Yesterday we sent the same survey home with all of our Great Start Readiness (GSRP) preschool Students, (about 2,000) and will follow the same process with the responses.
> We feel very confident we can meet the needs of most families if we can access the filters/cartridges. I will also send you a list of families that will welcome the (MSP) to deliver

the needed product.

If you have any time to let me know how to access products, and set the ISD up as a Bulk recipient, we will assure that we only use what is needed and distribute directly to the families in need.
Please do not hesitate if you feel our systems and resources can be beneficial.

Subject: RE: FLINT ISD taskers and email intro

If possible, I would like the list of addresses as we still have five teams in the field going to homes missed. Since the survey we may have gotten to some of those areas. We just found some mobile home parks that were missed and have since visited them which could have been some of the 142.

Let me know if we can get the addresses. I will give Dr. Hagel a call on the bulk recipient idea.

Chris

Subject: FLINT ISD taskers and email intro

Email intro:

Chris and Mel: Dr. Lisa Hagel is the Superintendent of the Genessee County ISD. As discussed yesterday, she had a survey sent home with the kids that indicated 142 homes without water filters. She also has a phone "alert system" to all the kids parents and runs a backpack program. Her phone number is

Dr. Hagel: Capt Chris Kelenske runs the State Emergency Operations Center and Melanie Brown runs the State Joint Information Center.

Taskers and good ideas:

1.) We need to set up the ISD as a bulk recipient of commodities. They don't have enough water or filters. Also, they can send commodities home with the kids. Dr. Hagel to explain what she envisions for distribution as she already has a system in place but is under-resourced.

2.) Dr. Hagel has the names and addresses of the 142 families that say they have no filter. We need to circle around to those locations to validate. She has some concerns about folks answering doors so that may be a challenge that needs to be addressed.

3.) Mel: Is there some way to leverage Dr. Hagel's communication systems and relationships with these families to better our dissemination of messaging and strategic communications? At the very least, this is a good news story.

4.) Mel: Dr. Hagel conducts a "lead impact meeting" every Monday at the ISD. This looks like an opportunity to send one of your folks to give/receive important information on what the parties are doing/information. Dr. Hagel to explain. When you set this up, let me know the details. Either Rich or myself will attend one.

Let me know what I can do to help and thanks in advance,

Kevin

- Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 7 American Red Cross Teams scheduled for Saturday, February 20, 2016.

Items to Note

- A meeting with MDHHS-HS, EMHSD and FEMA took place to discuss a long-term recovery plan. DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines. A tracking system for the point of distribution locations that will offer real-time reporting.
- MDHHS-CH requested that MDEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer.
- MDEQ deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).
- Letter to city of Flint outlining the needs to satisfy EPA item 62 is drafted and ready for Chief Deputy Director of MDEQ Jim Sygo's signature.

Unified Coordination Group (UCG):

- The CDC/ATSDR Field Team has reported hearing health complaints at many home visits. The UCG Science Group has been called together to discuss next steps to document and address these health concerns.
- CDC/ATSDR Field team and Regional staff participated in a meeting with EPA and MDHHS to discuss some preliminary EPA sampling data.
- UCG Daily Sit Rep available in MI CIMS.
- EPA issued news release highlighting the effectiveness of lead-removal filters.

Local EOC:

- Transition to the new National Guard units completed today.
- Water crisis march, involving Rev. Jesse Jackson, Rainbow PUSH Coalition, Michigan Legislative Black Caucus, and Concerned Pastors for Social Action was attended by approximately 350 protestors. No incidents related to the march reported.
- Coordinating with Flint Community Schools and Head Start program for identification of populations without supplies.
- Discussed potential future donations with Good360 nonprofit.
- City of Flint Water Distribution Supervisor visited EOC to discuss identification of lead lines with MDEQ staff.
- 16 Sentinel Site Monitoring Teams out in the field for sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

LIMITED DISTRIBUTION

Update 2/19/16 – 46th Day (45th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - File and receive appeal extension from FEMA.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program, Hazard Mitigation Grant Program, and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
- **EMHSD was granted an extension today from FEMA for the above programs under the Emergency Declaration appeal. The extension deadline is March 4, 2016.**

Attached:

1. Sit Rep #45.
2. Maps: Residential Water Sampling Results for lead and copper.
3. Governor's Report for 2/18/16.

Key items for tomorrow to note are:

- 7 American Red Cross (ARC) Teams scheduled for Saturday, February 20, 2016.
- ARC Team Priority Scheduled Tomorrow: Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- Tele Town Hall with LG.

Items to Note

- A meeting with MDHHS-HS, EMHSD and FEMA took place to discuss a long-term recovery plan. DTMB is working on direct delivery for replacement cartridges to residences on the affected water lines. A tracking system is being worked on for the point of distribution locations that will offer real-time reporting.
- MDHHS-CH requested that MDEQ explore the idea of testing the efficacy of shower water filters as well as the probability of being able to provide a statement/disclaimer.
- MDEQ deployed 17 field teams (16 Sentinel Teams and 1 Home Revisit Team).

- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in field for distribution of supplies to residents with access and functional needs.

Chris

NOTE: Added Ari Adler and Kevin Weise to the distribution.

Update 2/18/16 – 45th Day (44th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Provide more granular details for the long term distribution plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.
    - **Flint data for the appeal was received today.** Data will be analyzed and incorporated into the appeal letter.
    - Appeal EXTENSION letter drafted and will be sent to FEMA Friday morning. MI is asking for a 30 day extension due to not having the data from Flint but we will not wait the 30 days (if granted)to submit the letter for appeal. FEMA Region V is aware of our forthcoming request.

Attached:

4. Sit Rep #44.
5. Maps: Residential Water Sampling Results for lead and copper.
6. Governor's Report 2/17/16.

Key items for tomorrow to note are:

- Begin visiting the 1,300 Access & Functional Needs addresses to distribute 3-5 cases of water and replacement cartridges.
- 5 American Red Cross Teams scheduled for Friday, February 19, 2016.
- 17 Sentinel teams will continue tomorrow, Saturday and Sunday in order to reach the targets of 402 sites and 60 lead lines.
    - Summary of combined sentinel groups to date:
        - 356 residents enrolled
        - 16 lead service lines identified

Items to Note

- US Department of Health and Human Services visited Fire Station #5 POD today. Per Lt. Roach the visit went very well.
- MDEQ has initiated the lead of 15 sentinel monitoring field support teams today which are targeting the identification of lead service lines.
- American Red Cross Teams visited the final three mobile home parks that were identified as missed and an additional 34 homes.
- United States Secretary of Health and Human Services Secretary Sylvia M. Burwell announced that $500,000 in funding will be provided to Hamilton Community Health Network, Inc. (HCHN) and Genesee Health System (GHS).
- MDHHS-CH Forwarded a request for a licensed medical professional, who has knowledge of lead, legionella, rashes, and other water health related concerns to be stationed at GCHD-EH division to assist with communicating MDEQ water results and health risks.
- TIA is planning on submitting a Dept of Labor grant by the end of next week for 15 million dollars over 2 years. Once submitted this may get turned around within 48 hours.
- Monday, EMHSD and TIA personnel will meet with Seeds of Traverse City and Michigan Works to further progress on a jobs program.
- Long term distribution plan meeting between EMHSD, DMVA, and DOC occurred to put more detail to the next phase of commodity distribution.

Unified Coordination Group (UCG):

- EPA canvassing team distributed EPA factsheets at 50 different locations throughout Flint and made contacts with parties interested in having EPA provide updates at their organizational meetings.
- CDC Epi Team continued to utilize a geocode database to assist the state with analysis of BLLs in children.
- UCG Daily Sit Rep available in MI CIMS.

Local EOC:

- National Guard completing transition to new unit on 02/18/2016.
- US Secretary of Health and Human Services Burwell visited Fire Station 5 POD and met with local stakeholders. LOFR attended site visit to brief on emergency response activities and answer questions.
- IC briefed University of Michigan All Hazards Team on emergency response activities, covering items such as volunteer management, communications strategies, etc.
- IC responded to FOIA request by MSU Law Clinic regarding distribution and usage of water by inmates in jail.
- Coordinating local volunteer needs for CDC outreach teams.
- 16 teams with MDEQ personnel out in the field support sentinel monitoring program and identification of lead service lines.
- Elevated Lead and Copper Initial Assessment Task Force out in the field, making contact at households reporting elevated lead and copper levels.
- Southern Baptist Disaster Relief out in the field with five teams for distribution of supplies to affected populations with access and functional needs.

Chris

Update 2/17/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration (Due Sunday, February 21).
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
    - **Extension letter for the appeal drafted. Due to not having the Flint data yet a 21 day extension from FEMA is going to be requested. Handled by EMHSD and will be sent Friday 2/19 or sooner.**
- Obtain further information on sentinel team data.
- Obtain information on shower filters.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information and drafting the appeal (scheduled to be completed this week).

Attached:

1. Sit Rep #43.
2. Governor's Report 2/16/16

Key items for tomorrow to note are:

- Team Priority Scheduled for Tomorrow: Visiting the last three mobile home parks (out of 8 total) and visiting remaining 34 addresses of those who receive city water.
- Five (5) American Red Cross Teams scheduled for Thursday, February 18, 2016.

Items to Note

- A press conference was held with Governor Snyder at 1 p.m. today where he announced a contract to begin replacing lead service lines.
- MDEQ secured vehicles for Sentinel water sampling collection crews.

- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field (continuing).
    - DNR GIS developed a collector App to be utilized by the High Lead/Copper Teams for real time data collection in the SEOC.
- CDC will begin visiting the homes of families with children who have received high blood level test results, to begin case management. Have requested additional members who have knowledge of the community and additional local resources. Have submitted a resource request and may fill it in coordination with the recovery branch.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS is generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.

Unified Coordination Group (UCG):

- Surgeon General visited the UCG and provided a briefing.
- The UCG release IAP#10, operational period from 0800 2/18/2016 through 0800 2/25/2016
- CDC will provide a weekly report on the rash investigations.
- There was a "Flint Michigan Water Crisis-Destination Recovery" Community partner meeting (75 partners with six sub-committees – 1) Recovery Resources, 2) Education, 3) Communication, 4) Physical Health, 5) Emotional & Behavioral Health, and 6) Coordination.

Local EOC:

- The elevated lead and copper task force was out in the field today, contacting households with elevated lead or copper levels in water.
- Local EOC transition to local staffing continues (Sheriff Office – Logistics, discussed Region 3 IMT availability to staff.)
- Discussed distribution of recycling bags to PODs with National Guard, VRC, MDOC and warehouse management.

Chris

Update 2/16/16 – 43rd Day (42nd Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Obtain decision briefing on long term distribution plan.
- Obtain further information on sentinel team data.
- Obtain information on rash occurances.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #42.

Key items for tomorrow to note are:

- Team Priority Scheduled Tomorrow: Water distribution and supplies requested.
- 5 American Red Cross Teams scheduled for Wednesday, February 17, 2016.

Items to Note

- A Congressional/Legislative conference call was held today at 2:30 PM.
  - No concerns from the call.
- MDEQ commenced development of a plan to re-deploy the Sentinel water sampling collection crews to achieve 402 sampled sites and 60 lead service lines.
- Southern Baptist Disaster Relief took over rapid response deliveries from NCCC on 02/16/2016 with five teams in the field.
- Local EOC IC is coordinating with MSU College of Veterinary Medicine and MDARD for development of blood lead level testing program for companion animals.
- GIS is generating a list of apartment buildings receiving water from the City of Flint and how many times each building has been visited.
- GIS generating a list of total residences that potentially will be using a water filter that use water from the City of Flint.
- DTMB Real Estate researching options for a 200,000 sq. ft. warehouse for long term distribution plan, preferably on the bus line.

Unified Coordination Group (UCG):

- CDC will meet with state on rash complaints/test results.
- Attended Command/Control subgroup this afternoon. Group would like to change the name to coordination.
  - Should include state reps on each subgroup.

Local EOC:

- Sentinel monitoring teams collected 273 water samples at yesterday.
- Elevated lead and copper task force were out in the field today.
- Local EOC IC attended Community Stakeholders meeting.
- Local EOC Liaison attended Community Stakeholders and long term distribution process meeting.

Chris

Update 2/15/16 – 42nd Day (41st Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
  - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
  - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
  - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #41.
2. Weekly List of Events.
3. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.

Key items for tomorrow to note are:

- There will be a Congressional/Legislative conference call on Tuesday, February 16 at 2:30 PM
- Southern Baptists will be at the local EOC in the morning and will be taking over rapid response activities from the NCCC teams.

Items to Note

- Published IAP #10.
- Throughout the Sentinel Site Monitoring Team mission last week, 241 households have agreed to be sentinel monitoring points for long-term water testing.
- Sentinel Site Monitoring Collection Teams starting to collect samples at sentinel monitoring points on 02/15/2016. The teams will collect samples bi-weekly at each monitoring point.
- Per MDEQ, based on the population, the City of Flint needs 60 samples for their compliance monitoring for this monitoring period under the Lead and Copper Rule. These compliance sampling sites must be "Tier 1" sites, and at least half of them must be lead service lines. They wanted all of the compliance sites to be lead service lines. They were hoping that the 402 sentinel sites would produce at least 60 sites with lead service lines. *However, they now know they will need to do some more searching to find even the minimum number of* sites for compliance monitoring

Unified Coordination Group (UCG):

- Developed Situation Report
- CDC/ASTDR field team representative attended community meeting at local church where an estimated 50 community members were in attendance.

Local EOC:

- In processed Southern Baptist Disaster Relief Group. Southern Baptist Disaster Relief taking over rapid response deliveries for NCCC teams on 02/16/2016.
- *140 water samples picked up at sentinel monitoring points* by 1600 on 02/15/2016. Will be close to completing pick up at all 241 locations before end of day.
- Discussing lead and copper exposure of animals in City of Flint with MSU College for Veterinary Medicine.
- Introducing local staff to EOC positions and processes.
- Evaluating potentially culturally sensitive messages on water donated through one specific source. Holding water at warehouse until confirmation that displayed messages are not offensive.
- Sit Rep # 35 published.

Chris

Update 2/14/16 – 41th Day (40th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.

- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Maps: Residential Water Sampling Results for lead and copper. Updated to include 2/13/2016 data.
2. Governor's Report (no graphs due to edits being made in the burn rates).

Key items for tomorrow to note are:

- 5 American Red Cross Teams scheduled for Monday, February 15, 2016. Team Priority Scheduled tomorrow is to continue water distribution and rapid response.
- It was announced at the 6:30 pm distribution process meeting that the NCCC will continued their volunteer mission through 2/22/2016. ARC will return their iPads to the local EOC for the Southern Baptists teams to use for data collection. Southern Baptists will be at the local EOC to train on the iPads tomorrow, and will begin their mission on Tuesday.

Items to Note

- There is a decrease in number of total residential parcels and total residential active water subscribers. Seven parcels were originally classified as residential parcels and were found to be right-of-way or easements. The data has been updated to remove those seven properties.
- National Guard mission has been extended through 3/16/2016.
- SEOC Logistics is working with Flint Schools to identify alternative locations to store water. Additionally, Logistics is continuing to fulfill resource requests for Warehouse #2, based on the Memorandum of Agreement with the Seventh Day Adventist. Recovery Branch is working to outline the transition between National Civilian Community Corp (NCCC) and Southern Baptists for the Flint Water Response Teams.
- 5 American Red Cross Teams were deployed today. The teams visited the 83 addresses of City of Flint Residents where there was no valid record of having been contacted. Continued with Rapid Response.
    - JIC requested that information about recycling and scams be included in daily Flint Water Response email sent by the Governor's Office; both items were included in the message that went out at 11 a.m. today.

Unified Coordination Group (UCG):

- One sequential testing team is set up to do outreach at 40 residences, along with eight filter grabs.
- Health and Medical Task Force will be meeting with the US Behavioral Health for a team meeting, to integrate with the Flint Recovery Group. They will also begin setting up for the incoming team with nurse case managers who are arriving today.
- UGC Public and External Affairs: Surgeon General will be arriving tomorrow for a two day visit.
- American Red Cross had a 3:00 pm meeting to review the ARC Recovery Framework, and to identify the federal representatives who will be on the recovery groups.
- The UCG advised they will work on getting infographics to make the website less confusing.

Local EOC:

- Sentinel outreach campaign statistics:
    - 402 homes were initially contacted for the program.
    - 241 of those households have agreed to be sentinel monitoring points for long-term water testing.
    - Identified 10 lead service lines.
    - 17 households declined to participate.
  - Developed SitRep #34.
  - Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Coordinating scheduling of blood lead level testing clinics in support of goal to test all children under the age of six by April 1.

Update 2/13/16 – 40th Day (39th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal. We are still waiting for the City of Flint to provide us the appropriate information to assist with this.

Attached:

1. Sit Rep #39.
2. Governor's Report

* There were no Water Sampling Results Maps available today. Will work with GIS to provide maps for tomorrow.

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Sunday, February 14.
- ARC will visit the 83 addresses of City of Flint Residents where there is no valid record of having been contacted. Continue with Rapid Response when needed.

Items to Note

- Completed first phase restructuring of DEQ Reports to EPA tab on Michigan.gov/flintwater website.

- Sentinel Team results (2/11/16 to 2/13/16): As of 5:02 pm today, 234 of 402 homes were visited
- SEOC staff continues to work to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 41 event-based volunteers were assigned and active on projects today.
- Discussion ensued about National Guard mission which may have a current end date of February 16 (Tuesday). This mission will continue until the long term distribution plan is ready to be implemented.

Unified Coordination Group (UCG):

- There was a public meeting at noon today that EPA staff attended on "When is this over?".
- New mental health teams are in today. They had an orientation at the UCG from 0930-1030 to discuss objectives and tasks.
- MDEQ teams did 180 home inspections and discovered 5 lead lines.

Local EOC:

- Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Fulfilled special site visit requests from Governor's Office through Elevated Lead and Copper Initial Assessment Task Force.
- Sentinel Site Monitoring Teams will rally at 1000 instead of 0900 on 02/14/2016 to avoid low temperatures in earlier morning hours.
- Planning for transition from state agency support personnel to local personal in EOC.

Chris

Update 2/12/16 – 39th Day (38th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #38.
2. Maps: Residential Water Sampling Results – Lead and Copper

3. Governor's Report

Key items for tomorrow to note are:

- Although the boil water advisory has been lifted in the city of Flint, the SEOC is continuing to monitor supplies at the PODs closely in anticipation of burn rates increasing over the holiday weekend.
- 8 American Red Cross teams scheduled for Saturday, February 13 – extra vehicles on hand for surge in event based volunteers.

Items to Note

- Elevated Lead and Copper Initial Assessment Task Force is beginning identification of companion animals in visited homes for start of dog blood level testing.
- The JIC issued news release this afternoon upon lifting of boil water advisory. They also held media availability at the Genesee County Emergency Operations Center to give the news media access to a sentinel team briefing prior to disbursing throughout Flint.
- Per MDEQ, all of the results from the samples collected in response to the water main break were non-detect for coliform bacteria.
- SEOC staff is working to estimate record numbers to comply with FOIA request.
- The CHECC remains active at a Level 2, and continues to staff the hotline Monday through Friday to answer any lead health-related questions referred by 2-1-1 in support of the GCHD.
- 80 volunteers were active across the operation today (56 event based, 15 ARC, 9 NCCC).

Unified Coordination Group (UCG):

- WQTF: Has a new team listed in the ICS-204 community involvement teams.
- Transitioned to using vulnerable populations as standard language instead of special populations.

Local EOC:

- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.
- Sentinel teams inspected approximately 170 homes since 02/10/2016, Initial Assessment Task force inspected approximately 65 homes with elevated lead levels and 30 days with elevated copper levels since 02/04/2016.
- Planning for staffing and transition from state agency support personnel to local personnel at Genesee County EOC.
- Liaison Officer and Incident Commander visited UCG and made contact with the Federal Health Coordinating Officer.
- *Boil Water Advisory issued by City of Flint in response to water transmission line break was lifted at approximately 1700.*

Subject: SEOC Update 2/11/16 - Flint Water - Limited Distribution

Update 2/11/16 – 38th Day (37th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.

    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Monitor water main break and messaging.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #37.

* There are no Water Sampling Results Maps available for today. GIS is resolving a problem with the maps and they will be available tomorrow. Some anomalies in the data were discovered that are being corrected.

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 8 American Red Cross Teams scheduled for Friday, February 12, 2016.
- The second warehouse will open tomorrow on Pierson Road. This warehouse will primarily receive donations that are not on pallets.

Items to Note

- MDE is reporting that a portion of the emergency funds that were approved for the Flint Water Crisis included $340,000 for Flint Community Schools to hire/contract for nine school nurses.
- U.S. Department of Education is scheduled visit Flint on February 12, 201 at 0830 at the Genesee Intermediate School District. MDE Deputy Superintendent and the Director of Special Education will attend. Family alliance members will also attend.
- MDEQ has 10 - 3 person Sentinel Sampling Teams on the ground again today. Each team is composed of 1 local resident, 1 licensed plumber and 1 MDEQ staff person providing training on water sampling to residents throughout the City of Flint. These residents have agreed to conduct ongoing sampling with their water to be analyzed by the MDEQ laboratory. These residents will also be part of the Sentinel Sampling Program and samples will be collected every two weeks and will provide analysis for lead and copper. Over 100 homes were visited yesterday on Day 1 of the effort.
- Attended Community Stakeholder meeting. In addition MDEQ continues to lead an Initial Site Assessment Team for high copper and high lead. This team is composed of 1 licensed plumber, 1 law enforcement officer from Flint PD, 1 MDEQ staff person and 1 MDHHS representative. This team is providing initial assessment in information to residents whose homes have water sampling results above the federal action levels for lead and copper. Our goal is to provide these visits and assessment within 48 hours of receiving the results.

Unified Coordination Group (UCG):

- WQTF: 1st round of sequential results in a week-week and a half, this paired with the MDEQ sentinel site sampling will provide a good picture of how the system is improving.
- HMTF: Met with the Mass Transportation Authority (MTA), they have a lot of resources to get people to places of interest e.g. care facilities, good food sources, etc.

- PEATF: Dr. Mona, Chelsea Clinton, and Dr. Lurie are in town. A lot of community outreach going on over the weekend. Surgeon General will be in town next week.

Local EOC

- Attended Community Stakeholder meeting.
- Long-term distribution plan, based on discussions with City of Flint and SEOC representatives on 02/09 and 02/10/2016 in Lansing, will be presented to Deputy State Director of Emergency & Homeland Security on 02/12/2016.
- Developing logistics procedures to aid transition to local EOC staff.
- 10 Sentinel Site Monitoring Teams and Elevated Lead and Copper Initial Assessment Task Force out in the field.

Chris

Update 2/10/16 – 37th Day (36th Full Day) After Governor's Declaration of an Emergency

Mission focus for the day:

- Ensure adequate quantities of supplies to support operations.
- Continue door to door/Flint Water Response Teams (FWRTs), ARC only.
    - Shift Water Response Team operations to a targeted effort to provide filters into homes where data shows filters have not been provided and/or visits not made.
- Prepare appeal on denial of Category B under the Presidential Emergency Declaration.
    - Obtain additional information from the City of Flint for Declaration of Emergency appeal.
- Work on plan for Volunteer Expansion (to increase the utilization of the volunteer force to distribute commodities over the longer term), Ongoing Resourcing, and Long Term Recovery - recovery plan/transition of PODs.
    - Includes filter replacement strategies.
    - Work with UPS on future partnership and service delivery model.
- Create better situational awareness between local, state and federal agencies specifically with the UCG.
- Meet with Seventh Day Adventists on warehouse plan.

Status on Governor's request letter to the President:

- Appeal denial received on the Major Disaster Declaration. Nothing more can be done on this.
- Denial of Individual Household Program and Category B under the Emergency Declaration received January 22, 2016. We have 30 days to appeal and EMHSD staff is gathering information for the appeal.

Attached:

1. Sit Rep #36.
2. Maps: Residential Water Sampling Results – Lead and Copper
3. Governor Report

Key items for tomorrow to note are:

- Due to the boil water advisory in the city of Flint the SEOC will continue to monitor supplies closely in anticipation of burn rates increasing.
- 10 American Red Cross Teams scheduled for Thursday, February 11, 2016.

Items to Note (Items in RED are new from when the Governor's Report, "Items to Note" was produced)

- Tasked NG to develop a white paper on what a modern day Civilian Conservation Corps program would look like if implemented in Flint.
- Boil water advisory has been issued in the City of Flint by the local utility due to a broken water main.
- MDEQ implemented Sentential Sampling Program today.

- The long term recovery continued meeting today and anticipates having a completed long term recovery plan by Thursday February 11, 2016.
- 10 ARC Flint Water Response Teams to the field today. It is anticipated that by the end of tomorrow all water customers will have been contacted at least once.
- In conjunction with Michigan Department of Education, USDA visited a Flint elementary school and health department today to discuss how USDA programs can help provide relief to those affected by water contamination. From the visit, came a USDA media release that highlighted the efforts between the USDA, MI Department of Education and all Health/Human Service partners to expand nutrition programs.
- The American Red Cross is helping to coordinate volunteers, distribution efforts, supply storage and logistics planning in concert with local officials, United Way, Michigan Community Service Commission and a growing list of partners.
- SEOC staff met with UPS representatives today re: delivering cartridges to functional/mobility needs citizens. UPS is prepared to assist in this partnership and will provide service at no charge. UPS suggested treating each delivery as a separate package so each can be effectively tracked, and would be able to begin deliveries within the 2-3 week window.

Unified Coordination Group (UCG):

- EPA: Additional team to provide Residual Chlorine testing (2 teams today).
- WQTF: Discussion of state/federal messaging regarding the water main break in addition to the City's.
- EPA: 1,000 samples collected at over 150 homes. Sequential testing at several homes today.
- USDA: Announcing official response to the state's request for expanding WIC funds for blood level. Testing support and expanding program up to the age of 10.
- HUD: Made contact with 100% (2,350) private residences that receive HUD assistance, all have filters installed. Public housing starting today with housing commission to test all properties within a week. Using in-house staff.

Local EOC

- Incident Command, Liaison Officer and Logistics Section Chief discussing long-term distribution plans with representatives from City of Flint and SEOC in Lansing (on 02/09, 02/10 and 02/11/2016).
- Elevated Lead and Copper Initial Assessment Task Force out in the field, visited 6 homes (provided information at 8 additional homes).
